BLONDE PEARL WINS BEST DAM OF BRITISH-BRED LITTER

Blonde Pearl has been announced as Dam of the Year for 2013, with the presentation due to take place at the Greyhound of the Year Awards at the Deansgate Hilton, Manchester on Sunday 26th January. The September 2003 bitch's third litter, by Hondo Black and whelped in July 2011, easily surpassed the achievements of the previous two with Adageo Bob (late Blonde Bobby) the star performer courtesy of victory in the inaugural British Breeders' Stakes at Nottingham and second place in Romford's Coral Essex Vase.

The litter also includes top eight-bend prospect Fearsome Liberty and Crayford Boxing Day Marathon finalist Mullpark Millkai. However, it was the Category One achievements of Adageo Bob which swayed a judging panel comprising Breeders' Forum Honorary Secretary and Treasurer Bob Gilling, Vice-chairman James Mulvihill, Greyhound Star editor Floyd Amphlett and Jonathan Kay of the Racing Post.

Others to come under consideration were Blonde Jeannie, Final Gold and Little Reaction. Blonde Pearl's litter was bred by John Marriott, who kept Fearsome Liberty as part of the deal with owner Mark Currell. Marriott said: *"That's great news, we've been nominated in the past but to win it is a real boost. Blonde Pearl came to me after her first two litters and was meant to go somewhere else, but I agreed to keep her and have one litter and, thankfully, it turned out well. She's been homed now so there won't be any more pups but this is nice recognition."*

CONSIDERATION UNDER RULE 163 OF AN APPLICATION MADE BY FORMER PROFESSIONAL TRAINER STUART MASON

1. Background

On 12th February 2013 the Disciplinary Committee ("DC") found three breaches of Rule 174(1)(b) of the GBGB rules of racing against professional trainer Stuart Mason. His licence was withdrawn for two years and he was fined £1,500. Mr Mason appealed and the period of withdrawal was reduced to 3 months. The minimum period for which a licence can be withdrawn is 6 months. Upon being informed of this the Appeals Committee substituted a three month disqualification.

2. The circumstances giving rise to these breaches are that on 22nd November 2012 at Wimbledon Ballyard Buddy, a dog entered in the final of the Greyhound St Leger, was sampled and tested positive for amphetamine. On 26th November 2012 two more dogs in the charge of Mr Mason were sampled at Monmore. They too tested positive for amphetamine. The DC noted that as a St Leger finalist Ballyard Buddy would inevitably have been tested. For that reason they were not willing to find there had been a deliberate administration. They found breaches of rule 174(1)(b), but made no finding as to how the drug had been administered.

3. Subsequent Developments

By a letter dated 3rd October 2013 brought eleven complaints/criticisms to the attention of the Director of Regulation ("DOR"). Five of those complaints may be directly relevant to the DC's handling of the case:

1. The media reporting of the case had a "negative and biased effect" on the hearing.
2. The unsigned statement of Mr Burfitt, the owner of Ballyard Buddy, was wrongly admitted.
3. The statement regarding Mr Mason's refusal to give a urine sample was wrongly admitted and this had a prejudicial effect on his case.
4. New information came to light in the case of Jason Foster which was directly relevant to Mr Mason's case in that it would have supported his contention that the positive samples might have come from contaminated bedding.
5. His penalty was inconsistent with those imposed on other trainers.

These matters have been referred to the DC by the DOR to consider whether there is any basis for the case to be reopened under rule 163. For the avoidance of doubt Mr Mason does not seek to have his case reopened, but rule 163 provides the only mechanism under which these matters can be formally considered.

4. Rule 163

Rule 163 sets out two bases for an inquiry to be reopened:

First, because of the receipt of pertinent information not previously available or for any other reason a just decision or order may not have been made. For an inquiry to be reopened on this basis each of two things must apply. There must be both pertinent information (or "some other reason") and a just order or decision may not have been made.

Second, there are other changes of circumstances which make it just for an order or decision to be reviewed.

5. The DC's Decision

The DC found Mr Mason in breach of rule 174(1)(b) of having a greyhound in his charge which tested positive for a prohibited substance, rather than the more serious breach under rule

174(1)(a) of administering a prohibited substance to a greyhound. Rule 174(1)(b) imposes strict liability upon a trainer (or other licensed person) and a breach is made out upon proof that the greyhound was in the trainer's charge and that it tested positive for a prohibited substance. Both of those matters were proved in respect of the three greyhounds in Mr Mason's case. The DC made no finding as to how amphetamine came to be administered to those greyhounds. Against that background the DC considered in respect of each of the matters raised by Mr Mason whether the requirements of rule 163 were made out and concluded that they were not. Specifically the DC reached the following conclusions:

Negative Media Reporting

This was not pertinent information not available at the time of the inquiry (or "some other reason") such that a just order or decision may not have been made, or other changes of circumstances which make it just for an order or decision to be reviewed. The media reports formed no part of the papers available to the DC and did not affect their decision in any way.

Mr Burfitt's Statement

This was not pertinent information not available at the time of the inquiry (or "some other reason") such that a just order or decision may not have been made, or other changes of circumstances which make it just for an order or decision to be reviewed. Mr Burfitt was the owner of Ballyard Buddy and his statement sets out the dog's history and Mr Burfitt's reasons for moving the dog from Mr Mason's kennel. The fact that it was unsigned was no more than a procedural irregularity that could have been raised at the February inquiry, and in any event the statement had no bearing on the DC's decision.

Mr Mason's Refusal to Supply a Urine Sample

This was not pertinent information not available at the time of the inquiry (or "some other reason") such that a just order or decision may not have been made, or other changes of circumstances which make it just for an order or decision to be reviewed. Had the DC found Mr Mason in breach of rule 174(1)(a) this evidence might have been relevant, but it did not have any bearing on the finding of a breach of rule 174(1)(b) which imposes strict liability. In those circumstances it is not necessary for the DC to consider the admissibility of that evidence.

The Foster Inquiry

The suggestion that Mr Foster's dog All Sensation tested positive because of cross contamination from towels comes principally from Jason Foster supported by Ricky Holloway (who gave evidence at the April inquiry but whose statement does not form part of the GBGB evidence). The DC at the April inquiry concluded that not all of Mr Foster's evidence was credible, but even if there were unequivocal evidence that cross contamination was a possible cause of Mr Foster's greyhound testing positive the DC does not feel that this would be enough to justify reopening Mr Mason's inquiry, given that he was found in breach of rule 174(1)(b). Having heard all the evidence the DC made no finding as to how Mr Mason's three greyhounds came to test positive for amphetamine. Even had cross contamination been on the list of possible causes it would not have been the only possible cause, it would merely have been one of a number of possibilities. For that reason this evidence would have taken the DC no further in their deliberations.

Penalty

This is not pertinent information not available at the time of the inquiry (or "some other reason") such that a just order or decision may not have been made, or other changes of circumstances which make it just for an order or decision to be reviewed. Neither does the DC accept that Mr Mason's penalty was inconsistent with those given to other trainers. His was an exceptional case in that he had a previous, comparatively recent, breach in respect of Class A drugs and in the present case three different greyhounds were involved. The DC notes that although the Appeals Board varied the penalty they specifically ruled that Mr Mason's actions justified a period of time out of greyhound racing. The DC makes no further comment regarding the penalty imposed by the Appeals Board.

DISCIPLINARY COMMITTEE INQUIRIES

The Disciplinary Committee of the GBGB were in attendance at a meeting held on 17 December 2013:-

Mr R Woodworth CBE (in the chair)
Mr A Hunt
Mr K Salmon
Dr AJ Higgins*

(*denotes where Dr Higgins was present in an advisory capacity as Independent Doping & Medication Adviser)

1 *Perry Barr Stadium - MIDNIGHT BOSS - Professional Trainer Mr D Freeman

Professional Trainer David Freeman was found in breach of rules 152 (i) & (ii), 174 (i) (a) and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound MIDNIGHT BOSS at Perry Barr Stadium on 9 September 2013 was analysed by LGC Health Sciences as containing the presence of timolol; and that he allowed a substance to be administered that could affect the performance and/or well being of the greyhound.

Mr Freeman was in attendance. Martin Seal, racing manager of Perry Barr Stadium, Martin Fennings, General Manager of Perry Barr

Stadium, Jack Robinson, Stipendiary Steward, and Clive Carr, investigating officer, were also in attendance.

Jack Robinson, area stipendiary steward attended the trial session at Perry Barr Stadium on 9 September 2013 and took random samples. A urine sample taken from the greyhound MIDNIGHT BOSS was analysed by LGC Health Sciences as containing the presence of timolol.

The Disciplinary Committee noted the opinion of Dr Andrew Higgins (Independent Doping & Medication Adviser) that timolol was a beta-adrenoceptor antagonist (beta-blocker) which is used in humans to treat amongst other things high blood pressure and glaucoma. Beta blockers are sometimes known as 'stoppers' as they lower heart rate and can reduce performance. Their effect on racing greyhounds would be to limit their intake of oxygen especially at the beginning and end of a race which could at the very least cause significant distress.

The Disciplinary Committee noted that Mr Freeman had received MIDNIGHT BOSS into his kennels on 1 July 2013. The greyhound had been purchased at the Thurles Sales by one of his owners, known to him only as "Terry" (identified as Terry Lovett) whom he knew to be a gambler. It was suggested that

it had been purchased by Mr Lovett in order to return a favour to Mr Freeman's kennelhand Ben Roberts on the basis that when the greyhound was "fancied" he would back it himself and also have a £100 bet for Ben Roberts. MIDNIGHT BOSS had been inconsistent in its trails but had won its trial on 9 September 2013 in 29.64 (484 mtrs). On 14 September 2013 it had its first race at Perry Barr and the first intimation that there was heavy betting on the greyhound to win came when a representative of William Hill contacted the racing manager Martin Seal before the race. The greyhound won the Grade A5 race in 29.31 starting as 6/4 f and won its next race in 28.90 and followed with a sprint open win.

The advice of Dr Higgins to the Disciplinary Committee was that the timolol found in MIDNIGHT BOSS's urine at the time of its final trial on the 9 September 2013 indicated that timolol had been administered to the greyhound and this could have adversely affected its performance in the trial. The evidence from Mr Freeman concerning the administration of timolol was inconsistent. He alleged that it took the form of a proprietary medicine for glaucoma which took the form of ophthalmic drops containing both timolol and dorzolamide which had been used by his father in the period before his death in July

2013. He had kept this and other medicines of his father which he said he now realized he had been reckless to use on his greyhounds. Dr Higgins said that timolol administered to the eye is rapidly absorbed into the bloodstream and in his opinion it was possible that an ophthalmic preparation could have been the source of the timolol in this greyhound. However, the Committee heard from Mr Freeman that his father had not formally been diagnosed as suffering from glaucoma and the particular medicine seemed a most unlikely one for a patient with COPD, contrary to the instructions accompanying the medicine. Further the packaging for the eye drops had had the patient's name removed. At the Local Inquiry Mr Freeman stated that he had administered the eye drops to the greyhound "as it had a runny eye" but then in the Hearing stated that in fact one of his kennel hands (whom he was reluctant to name to the Committee) had in fact administered them. The Committee considered on the balance of probabilities that Mr Freeman had himself administered the eye drops (or some other medicine containing timolol) or had allowed or caused one of his kennel hands to administer the drug within the terms of rule 174 (i) (a) of the GBGB Rules of Racing.

While Mr Freeman stated that he had not bet the greyhound the Committee received evidence that both Terry Lovett and Royston Welshman (one of the Trainer's kennel hands) had substantial bets on MIDNIGHT BOSS and the Committee assumed that Ben Roberts also had although it had not been possible to make contact with him despite several attempts by Clive Carr.

Two references were supplied by Trainer Mr Freeman and the Committee took account of the disturbance caused to him by his father's death. However they considered this to be a serious case of a greyhound being "stopped" during a trial in order to facilitate a subsequent gamble. Accordingly the Disciplinary Committee ordered that Mr Freeman's licence be withdrawn for 1 year during which period he would not be allowed to apply for a new licence. In addition he was also fined the sum of £1,500.

2 **Pelaw Grange Stadium – OLYMPIC HONCHO – Greyhound Trainer Mr M Daniels**

Greyhound Trainer Malcolm Daniels was found in breach of rules 152 (i), 174 (i)(b), 214, 215 and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound OLYMPIC HONCHO at Pelaw Grange Stadium on 2 August 2013 was analysed by LGC Health Sciences as containing the presence of morphine.

Mr Daniels was in attendance as was Eric Vose, stipendiary steward. David Gray, racing manager of Pelaw Grange Stadium, apologised for his non-attendance.

The Disciplinary Committee noted the opinion of Dr Andrew Higgins (Independent Doping and Medication Adviser) that morphine is a Schedule 2 controlled drug as defined in the Misuse of Drugs Regulations (MDR) 2001 and a Prescription Only Medicine. The opioid is available in a variety of formulations. They also heard from Dr Higgins (confirming a report from Simon Hudson of LGC Health Sciences) that there were also small traces of codeine in the urine sample which would be consistent with an administration of codeine or with feeding brown bread containing poppy seeds.

The Committee heard evidence from Mr Daniels that he bought sacks of bread largely to feed to his pups and that while he checked them for poppy seeds he had not realised

that the seeds were contained throughout the bread and not merely on the surface. He regretted his error and said that he would now only feed a proprietary feed to his racing greyhounds. The Committee reviewed the evidence of the race in question when OLYMPIC HONCHO had given the positive sample including the statement of David Gray, the racing manager and were satisfied that the greyhound had not been the subject of a gamble. They therefore concluded on the balance of probabilities that this had been an accidental feeding of bread containing poppy seeds by Mr Daniels. Nevertheless the advice in the GBGB Calendar (leading to rule 215) was quite unequivocal and a reminder had been published in August 2012. Further he had been found in breach of the rules in April 2009 for feeding brown bread containing poppy seeds to his greyhound and the Committee emphasised that they would in these circumstances have expected him to take particular care with his feeding.

As some of the GBGB Rules of Racing impose strict liability on the trainer or registered sales agent the Disciplinary Committee ordered that Mr Daniels be severely reprimanded and fined £750.

CONGRATULATIONS TO ALL WINNERS AT GREYHOUND OF THE YEAR AWARDS

Nearly 400 of the sport's keenest supporters attended the Greyhound of the Year Awards at the Hilton Manchester Deansgate on Sunday 26th January. The national awards ceremony moved out of London for the first time in seven years and attracted a record nine sponsors; BAGS, Betfred, Coral, Ladbrokes, Pin Point Recruitment, Press Association, Racing Post Greyhound TV, SIS and William Hill.

GBGB Chairman Maurice Watkins CBE gives his opening speech to a full house in the Deansgate Suite

The annual black-tie event celebrated the class of 2013 and the efforts of those behind the scenes who make it all happen, including trainers, owners, kennel-staff and the dedicated volunteers who look after greyhounds into retirement. Jonathan Hobbs and Darrell Williams expertly hosted the evening with SIS providing the videos on the night. GBGB Chairman Maurice Watkins wrote in the programme: "I hope you agree that tonight's racing footage, kindly edited by SIS, is simply entertainment at its very best."

In his opening speech the Chairman noted that, despite the impact of the recession, there were positives for the sport which, "In addition to being popular with customers attending live racing events, and a night at the dogs remains one of the most enjoyable and inexpensive ways to spend leisure time, greyhound racing has long been an important product for the British and Irish off-course Betting industry."

Adding, "I want Greyhound Racing to thrive rather than just survive and looking to the future it is essential that Greyhound Racing and betting work closely together to advance the sport to benefit all of its participants."

That set the tone for the evening as 17 awards were presented to deserving recipients and the delighted connections of 2013's star greyhounds. Recently retired GRA Senior Racing Manager, Bob Rowe, was first on stage to collect the Chairman's Award for his huge contribution to the sport. BAGS and BGRF Chairman Tom Kelly received the Harry Lloyd Award for Services to Greyhound Racing, introduced by GWA Chairman Jonathan Hobbs who said: "Tom has done, and is doing, something few industry players in the last 30 years have been capable of. He is looking forward, not back."

Tom reiterated on stage that it is time for all industry players to pull together for the common good. He spoke of challenging years to come but of opportunities too, which he is keen to explore. The George Ford Award for Services to Retired Greyhounds went to Sarah Horner, lead volunteer at the Lancashire and Belle Vue branch of the RGT which has found over 250 homes in the last three years.

The 2013 Kennelhand of the Year Award and a cheque for £500 was collected by Shelia Tudor, Head Kennelhand to Kim Billingham and the reintroduced Graded Greyhound of the Year Award was presented to the connections of the Doreen Walsh-trained bitch, Cabela Holly from Hove. The trainers and management of Owlerton Stadium were officially presented with the BAGS/SIS Track Championship trophy.

William Hill Greyhound Derby winning owners Simon Wooder and Daren Johnson were announced as Betfred Owner(s) of the Year and subsequently picked up the William Hill Standard Distance Award for Sidaz Jack. Mark Wallis thanked his team at Imperial Kennels when picking up the Ladbrokes Trainer of the Year title, in particular his wife, Sarah who he described as his driving force.

The night's biggest gong, the GBGB Greyhound of the Year, was awarded to Farloe Tango for the Boys from Leceister Syndicate. The William Hill St Leger, Great North Run and Lawrence Jones Memorial Festival 684 winner and track record holder over 687m at Wimbledon and 673m at Coventry was a worthy winner, described by Charlie Lister OBE as the best stayer he has ever put a lead on. Congratulations to all of the winners on a very special night (listed on page 2).

Many thanks to all of the evening's sponsors:

SPONSOR THE FALL FOR HOUNDS SKYDIVE NOW

Greyhound owners, racing fans, trainers and kennel-staff will soon be taking part in a charity parachuting fundraiser in aid of the Retired Greyhound Trust, coordinated by RPGTV's Julie Collier. All participants will be jumping from a light aircraft 13,000 feet high which guarantees approximately 50 seconds of free fall! Plummeting towards the ground at over 120 mph is certainly worthy of sponsorship.

The jump takes place on 16th June near Peterborough. For further information on how to play your part from the sky or the ground, visit www.retiredgreyhounds.co.uk or visit the donation web-page directly at <https://mydonate.bt.com/fundraisers/fallforhounds>

The Disciplinary Committee wish to advise those appearing before them as "the affected person" that the Disciplinary Committee has the discretion to take account of any previous breaches of the rule(s) of racing which they consider are relevant to a case being heard before them irrespective of the date of commission of the breach.

DISCIPLINARY COMMITTEE INQUIRIES

The Disciplinary Committee of the GBGB were in attendance at a meeting held on 21 January 2014:-

Mr K Salmon (in the chair)
Mr J Akerman
Mr A Hunt
Dr AJ Higgins*

(*denotes where Dr Higgins was present in an advisory capacity as Independent Doping & Medication Adviser)

1 *Brighton Stadium – GLENVALE PADDY – Professional Trainer Ms N McEllistrim

Professional Trainer Norah McEllistrim was found in breach of rules 174 (i) (b) and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound GLENVALE PADDY at Brighton Stadium on 13 September 2013 was analysed by LGC Health Sciences as containing the presence of cyclizine.

Ms McEllistrim was in attendance. Peter Miller, racing manager of Brighton Stadium, and Lorraine Sams, area stipendiary steward, were also in attendance

The Disciplinary Committee noted the opinion of Dr Andrew Higgins (Independent Doping

and Medication Adviser) that cyclizine is a sedating antihistamine used in humans to treat, inter alia, nausea, vomiting, some balance disorders and motion sickness. It may cause drowsiness in greyhounds and could therefore affect the performance of a greyhound.

Ms McEllistrim could offer no explanation as to how this greyhound came to be positive for cyclizine. Having heard the evidence in this case the Disciplinary Committee was satisfied on the balance of probabilities that Ms McEllistrim did not deliberately administer cyclizine to the greyhound GLENVALE PADDY and made no finding in this regard. They found Ms McEllistrim to be a credible witness and noted the evidence of Peter Miller and Lorraine Sams regarding the high welfare standards at her kennel.

The rules of racing impose strict liability upon the trainer and therefore the breach is made out in this case. The Committee noted that the only previous breach recorded against Ms McEllistrim was in 2007 which concerned two morphine positives arising from feeding bread containing poppy seeds. They also noted the comments in support of Ms McEllistrim from Peter Miller. In all the circumstances the Disciplinary Committee ordered that Ms McEllistrim be cautioned and fined £200.

2 *Poole Stadium – MAGLASS BLOSSOM – Professional Trainer Mr D Dodd

Professional Trainer David Dodd was found in breach of rules 174 (i)(b) and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound MAGLASS BLOSSOM at Poole Stadium on 14 October 2013 was analysed by LGC Health Sciences as containing the presence of codeine.

Mr Dodd was in attendance as was Colin Betteridge, area stipendiary steward. Ian Sillence, racing manager of Poole Stadium, apologised for his non-attendance.

The Disciplinary Committee noted the opinion of Dr Higgins (Independent Doping and Medication Adviser) that codeine is a narcotic analgesic which is classified by the Veterinary Medicines Directorate as a Schedule 5 Controlled Drug. Its legal category is a NFA-VPS, which means that it may only be supplied by a veterinary surgeon, a pharmacist or a Suitably Qualified Person for non-food animals under conditions specified in the Veterinary Medicines Directorate. VMD had confirmed that there is one authorised veterinary medicine containing codeine authorised for use in dogs in the UK (Pardale V tablets). In the case of human medicines containing codeine being administered to

animals, as these medicines are not authorised for veterinary purposes these products may only be administered under the prescribing cascade on the instruction of a veterinary surgeon after a clinical assessment of the animal concerned.

In this case Mr Dodd received the greyhound MAGLASS BLOSSOM into his kennel from Ireland on 2 October 2013. On 4 October 2013 a POR Sample was taken which, when analysed, revealed the presence of codeine at an estimated concentration of 7.5 ng/ml. On 14 October a pre-trial sample was taken which showed an estimated concentration of codeine of 25 ng/ml. Mr Dodd told the Committee that he could not say how codeine came to be in the greyhound's system but he vehemently denied administering codeine. The two possibilities he advanced were that codeine was administered in Ireland prior to purchase, or that codeine came from contaminated paper bedding which he obtains from his local doctor's surgery. But for the higher level of codeine in the pre-trial sample compared to the POR sample the Committee would have found that on a balance of probabilities codeine was administered in Ireland. In light of that difference the Committee did not make such a finding. However, they could not find on a balance of probability that Mr Dodd deliberately administered codeine.

They found Mr Dodd to be a credible witness and accepted his evidence that he did not administer codeine. They made no finding as to how codeine came into this greyhound's system; each of the explanations advanced by Mr Dodd, in the Committee's judgement, was a possibility although they thought it likelier that codeine was administered in Ireland than ingested from contaminated bedding. However, rule 174 (i) (b) imposes strict liability on the trainer and therefore the breach is made out in this case. The Committee noted that Mr Dodd had no relevant previous breaches of the rules of racing and had made enquiries of the Irish vendor and was assured that the greyhound was not on any medication. In all the circumstances the Disciplinary Committee ordered that Mr Dodd be cautioned and fined £200.

3 *Hall Green Stadium – FAST TRACK HOME – Former Professional Trainer Mr A Bodell

Former Professional Trainer Alan Bodell was found in breach of rules 174 (i) (b) and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound FAST TRACK HOME at Hall Green Stadium on 23 September 2013 was analysed by LGC Health Sciences as containing the presence of morphine.

Mr Bodell apologised for his non-attendance as did Robert Coulthard, racing manager of Hall Green Stadium.

The Disciplinary Committee noted the opinion of Dr Andrew Higgins (Independent Doping and Medication Adviser) that morphine is a Class A drug under the Misuse of Drugs Act. HFL screening tests also indicated the possible (but unconfirmed) presence of very small amounts of codeine and oripavine, the presence of which could be consistent with the ingestion of poppy seeds.

On 23 September 2013 a pre-race urine sample was taken from the greyhound FAST TRACK HOME which tested positive for morphine. FAST TRACK HOME was one of Mr Bodell's final runners prior to his retirement on 7 October 2013. The only explanation he offered was that the dog must have ingested morphine from contaminated Red Mills feed. The Committee heard

evidence from investigating officer, Clive Carr, regarding the extremely stringent quality control applied by the manufacturers of Red Mills and were satisfied that contaminated Red Mills feed was not the source of the morphine in this case. Mr Bodell had not attended this Inquiry and the Committee rejected his explanation of contaminated Red Mills feed. He had not given the Committee the opportunity to further investigate this matter with him, which hampered the Committee's ability to determine how morphine came to be present in this greyhound's urine.

In those circumstances the Disciplinary Committee could not say on a balance of probabilities that Mr Bodell deliberately administered morphine or allowed or caused morphine to be administered, but that remains a possibility. In any event, rule 174 (i) (b) imposes strict liability on the trainer and in those circumstances the breach is made out. The Committee took into account the fact that there were no relevant breaches recorded against Mr Bodell. Having said that they noted that Mr Bodell had done little to assist this Inquiry. They rejected the only explanation that he offered and he had not attended to give evidence. In all the circumstances the Disciplinary Committee ordered that Mr Bodell be reprimanded and fined £450.

4 Professional Trainer Mrs A McCarroll & Kennelhand Mr S McCarroll

Professional Trainer Ann McCarroll was found in breach of rules 152 (i) & (ii) and 216 of the GBGB Rules of Racing in that between February 2011 and June 2013 she failed to keep accurate records within the kennel book of the movement of greyhounds in her care or control namely; DUAIRI BUACHAILL, SUNRIDGE PHANTER, BENVISTA SALLY, OLD FORT TWISTER, DEEJAY WHO, SHELBOURNE CINDY, EFFERNOGUE SEMIE, DUKE, ROMANTIC MELODY and HONEST CLARA.

Kennelhand Stuart McCarroll was found in breach of rules 18 (i), 18 (ii), 152 (i) & (ii) and 174 (xiv) (a) & (b) of the GBGB Rules of Racing in that (i) Between February 2011 and June 2013, as the registered owner of the greyhounds HONEST CLARA, ROMANTIC MELODY, DUKE, EFFERNOGUE SEMIE, DUAIRI BUACHAILL, SHELBOURNE CINDY, DEEJAY WHO, BENVISTA SALLY, OLD FORT TWISTER, SUNRIDGE PHANTER, he failed to supply information; and (ii) Between February 2011 and June 2013 he failed to make acceptable arrangements for the retirement of his retired greyhounds namely; HONEST CLARA, SHELBOURNE CINDY, DEEJAY WHO, SUNRIDGE PHANTER, DUAIRI BUACHAILL.

Mrs McCarroll and her son Stuart McCarroll were in attendance. Clive Carr, investigating officer, Dave Levy, Registrar and Richard Beenham, Welfare Executive, were also in attendance. Paul Twinn, racing manager of Newcastle Stadium, apologised for his non-attendance.

In this case the GBGB alleged that Mrs McCarroll failed to keep accurate records in her kennel book in respect of ten greyhounds. All ten greyhounds had left her kennel for various reasons and there was no record of this in her kennel book. Mrs McCarroll relied upon her son Stuart McCarroll to keep the kennel books up-to-date and he admitted that he failed to do so, although supervision and control by his mother, whose primary responsibility it was, was entirely lacking. Stuart McCarroll also admitted breaching his duties as an owner in failing to notify the

GBGB as and when ten of his greyhounds changed ownership or were euthanised, and in respect of five greyhounds failing to make acceptable arrangements for their retirement. (In the case of SUNRIDGE PHANTER, the Committee noted that acceptable arrangements were made, but not by Mr McCarroll). To their credit both Mrs McCarroll and Stuart McCarroll admitted all the alleged breaches at the earliest opportunity.

In both their cases the Committee felt these were very serious breaches. They had both acted in a manner prejudicial to the integrity, proper conduct and good reputation of greyhound racing by failing to keep proper records and supply information as required by the GBGB Rules of Racing. The Committee noted Mrs McCarroll's health problems and the evidence of investigating officer Clive Carr that there had been recent improvement at the kennels. Most of all, they noted that on 5 November 2013 the Disciplinary Committee heard a related Inquiry concerning Mrs McCarroll and imposed an indefinite withdrawal of licence suspended until 5 November 2015 and a fine of £500. In those circumstances the Disciplinary Committee ordered that Mrs McCarroll be severely reprimanded for the current breaches.

Regarding Mr McCarroll, the Committee was concerned that this was his second breach of rule 18 within three years. They reminded him of his responsibilities and noted his assurance that there will be no further breaches. In those circumstances the Disciplinary Committee ordered that Mr McCarroll's licence be withdrawn indefinitely, but that such licence withdrawal is suspended until 5 November 2015 and that he be fined £500.

UKAS RENEWS GBGB ACCREDITATION

The Greyhound Board of Great Britain (GBGB) is pleased to announce that its accreditation has been renewed by the United Kingdom Accreditation Service (UKAS) for the inspection and licensing of racecourses against the GBGB Rules of Racing following track and Head Office based audits carried out in late-2013. Confirmation was received after UKAS' assessment data had been independently verified by a third party.

Amanda Duplock, GBGB Quality Manager and Secretary to the UKAS Committee said: *"As part of a four-yearly cycle, this was the first full reassessment audit to be carried out since accreditation was secured in March 2010, following regular annual surveillance audits in the interim which were satisfactorily completed. UKAS accreditation enables the sport to continue self-regulating and helps to maintain the high standards the industry has come to expect from the governing body."*

In 2013, UKAS carried out detailed inspections which included looking at processes and procedures involved in track inspection and licensing to assess compliance with all clauses of the standard EN45011, against which GBGB is assessed.

Amanda Duplock added: *"GBGB has strived to improve the effectiveness and efficiency of the procedures involved with the inspection and licensing of tracks year-on-year. This has included work at ground level with the Board's Stipendiary Stewards and inspections themselves, and also in terms of the processes and documentation used to support the procedure at Head Office. We are pleased that progress in these areas was again noted by UKAS in their report."*

As this was a full re-assessment audit, UKAS was required to send its reports and audit findings, as well as GBGB's responses, for independent assessment to ensure transparency and impartiality. This external assessment has been passed and the UKAS cycle will now start over. Annual surveillance audits will commence later in the year to assess GBGB's compliance with the relevant standard, and a further full audit will take place in 2017.

TIM MORRIS APPOINTED AS INDEPENDENT ADVISOR

Professor Tim Morris

Professor Tim Morris has been appointed as Independent Scientific Adviser to the Doping and Medication Review Panel and Disciplinary Committee at GBGB. Tim will work within the Greyhound Regulatory Board to advise on overarching doping and medication policy and provide analysis of positive samples returned by the Board's testing laboratory, LGC Sports Sciences.

Simon Gower, GBGB Veterinary Director said: *"I am delighted that Professor Tim Morris has agreed to act for the GBGB as Independent Scientific Adviser.*

Tim is a veterinary surgeon with a wealth of relevant experience, most recently working for the British Horseracing Authority (BHA). He is also a Non-Executive Board Member at Defra Animal Health and Welfare Board for England and I am sure that he will prove to be a great asset to GBGB. Former GBGB Doping and Medication Adviser, Dr Andrew Higgins, retired from the role in December to become a permanent member of the Disciplinary Committee and I'd like to thank him for his valuable contribution to the sport."

Professor Tim Morris qualified and practiced as a veterinary surgeon, obtained a PhD from the University of London and worked in medicines research at GlaxoSmithKline for 20 years. He went on to establish the BHA's medication and anti-doping research and led the medication and doping control programme as Director of Equine Science and Welfare. As part of this work he established close working links with other sports including the GBGB. He is now a Director of Scientialis which provides specialist science-based consultancy.

Duncan Gibson, GBGB Manager of Welfare and Integrity Services added: *"Tim is a well respected veterinary scientist and animal welfare expert and we will use his experience to continue our work in providing a robust and fair regulatory service to the industry. We know that greyhound racing is an overwhelmingly clean sport and of all samples screened in 2013 by LGC Sports Sciences, only 32 screened positive for substances not attributed to feed contamination. It is the GBGB's intention to maintain and improve on already high levels of integrity and welfare within licensed greyhound racing and Tim's expertise in this area will complement this greatly."*

Professor Tim Morris said: *"I have seen how the GBGB has worked hard since its formation in 2009 to modernise its strategic work to provide high standards of welfare and integrity for greyhound racing in Great Britain. I am very pleased to join the team in an advisory capacity to provide independent advice to help continue to assure these standards."*

DISCIPLINARY COMMITTEE INQUIRIES

The Disciplinary Committee of the GBGB were in attendance at a meeting held on 18 February 2014:-

Mr J Akerman (in the Chair)
Mr R Coughlan
Mr R Woodworth CBE
Dr AJ Higgins*

(*denotes where Dr Higgins was present in an advisory capacity as Independent Doping & Medication Adviser)

1 *Peterborough Stadium – CHAPELANE MARTIN – Greyhound Trainer Mr R Jones

Greyhound Trainer Robert Jones was found in breach of rules 152(i), 174(i)(a) and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound CHAPELANE MARTIN at Peterborough Stadium on 13 November 2013 was analysed by LGC Health Sciences as containing the presence of meloxicam; and that he allowed a substance to be administered that could affect the performance and/or well being of the greyhound.

Mr Jones was in attendance. Adrian Smith, area stipendiary steward was also present. Paul Miller, racing manager of Peterborough Stadium apologised for his non-attendance.

The Disciplinary Committee noted the statement of opinion of Dr Andrew Higgins (Independent Doping and Medication Adviser), that meloxicam is a non-steroidal anti-inflammatory drug used for the alleviation of inflammation and pain in acute and chronic musculoskeletal disorders. In dogs it is a Prescription Only Medicine with marketing authorisations for both oral suspension and injectable forms.

The Committee heard evidence from Mr Jones that he has only two greyhounds, and that they are fed separately in their kennels. They are the same weight, have identical food bowls and are given the same food. The other greyhound in Mr Jones' care (High Minister) had been treated with Meloxicam following an injury to his hind leg. The injury to High Minister, and its treatment with meloxicam, had been recorded in Mr Jones' treatment book.

Mr Jones offered the explanation that the feed bowls of the two greyhounds had been inadvertently mixed up, and CHAPELANE MARTIN had ingested a meloxicam tablet placed in his feed. The Committee had to consider whether this was a plausible explanation in this case.

Mr Jones stated that he had obtained meloxicam for High Minister from a friend who had acquired tablets via the internet. The Committee noted the advice provided to all

trainers via the Calendar in October 2011, that medicines sourced via the internet without prescription are banned as they are not licensed in the UK for use in dogs and the properties of the drugs are unknown. There is a risk to the health and welfare of any greyhound receiving unlicensed medication.

Having heard the evidence the Disciplinary Committee noted the explanation provided by Mr Jones that this was an accidental administration of meloxicam, but were unable to conclude, on the balance of probabilities, that this had been the case. In any event an accidental administration as described by Mr Jones would have indicated a degree of carelessness on his part. Mr Jones was found in breach of rules 174(i)(a) and 217.

The Committee was also concerned at the unauthorised use of meloxicam by Mr Jones, sourced from the internet on his behalf, when the published GBGB guidelines make clear that these are banned drugs. Mr Jones was accordingly found in breach of Rule 152(i).

In the circumstances of the case the Disciplinary Committee ordered that Mr Jones be reprimanded and fined £500 for the rule breaches. The penalty took into account that Mr Jones had apologised and attended the Inquiry, and that he had a good disciplinary record with no positive sample recorded since 2007. The Committee noted Mr Jones' written assurance that in future he will only administer drugs that are prescribed by a veterinary surgeon.

2 *Hall Green Stadium – COMPASS SIMONE – Professional Trainer Mr S M Buckland

Professional Trainer Stuart Buckland was found in breach of rules 174(i)(b) and 214 of the GBGB Rules of Racing in that a urine sample taken from the greyhound COMPASS SIMONE at Hall Green Stadium on 23 November 2013 was analysed by LGC Health Sciences as containing the presence of flunixin.

Mr Buckland was in attendance. Jack Robinson, area stipendiary steward was also present. Timothy Hale, assistant racing manager of Hall Green Stadium apologised for his non-attendance.

In his written evidence Tim Hale, assistant racing manager at Hall Green Stadium, stated that the local officials were satisfied with the performance of the greyhound in the race.

The Disciplinary Committee noted the statement of opinion of Dr Andrew Higgins (Independent Doping and Medication Adviser), that flunixin is a non-steroidal anti-inflammatory drug that is used to reduce pain, fever and inflammation. It is a Prescription Only Medication (POM-V) and is not licensed for use in dogs. He said that in

his opinion, flunixin in a racing greyhound's urine could arise from the administration of flunixin to a dog up to several days before racing; it was possible that the presence of flunixin could arise from feeding meat from a horse or cow that had been treated with flunixin shortly before slaughter, or by accidental contamination. However, if Category 3 meat was fed, as was recommended by GBGB and the advice published in the Calendar, Dr Higgins said that in his opinion the chance of flunixin contamination from this source was unlikely.

The Committee heard that at the local inquiry held on 8 January 2014, Mr Buckland stated that, in his opinion, the positive sample was probably the result of feeding contaminated meat to the greyhound approximately five and a half hours prior to the race in question. In his written statement Mr Buckland stated that he was satisfied with the security at his kennels.

Mr Buckland also stated in his written evidence that no medication had been administered to COMPASS SIMONE prior to the race. He added that he endeavoured to provide the best quality meat available to his greyhounds and was reluctant to change his meat supplier who had proved reliable over the years. In his written evidence Jack Robinson referred to a conversation with Mr Buckland's meat supplier who confirmed that he supplies Category 3 meat to Mr Buckland.

In response to a question from the Committee, the Director of Regulation advised that a Calendar notice in November 2012 had provided trainers with guidance regarding the feeding of red meat to racing greyhounds, in the context of previous positive sample test results for flunixin.

The Disciplinary Committee, having considered the circumstances of the case and the explanation provided, concluded that it was not possible to determine the source of the flunixin, however Mr Buckland had taken reasonable steps to ensure that the meat fed to his greyhounds was free from drug residues that could produce a positive sample.

The Committee found Mr Buckland to be a credible witness and determined on the balance of probabilities that this was not a deliberate administration of flunixin. However, the GBGB rules of racing impose strict liability on the trainer and Mr Buckland was found in breach of the rules.

In the circumstances of the case the Disciplinary Committee ordered that Mr Buckland be cautioned and fined £200. In imposing the penalty the Committee took into account that Mr Buckland had attended the Inquiry and had a good disciplinary record with no rule breaches since 1998. The Committee noted that Mr Buckland had not

changed his greyhound feeding regime, which left him at risk of further rule breaches.

3 *Sheffield Stadium – TRAPPER DEMPSEY – Registered Sales Agent Mr A Farrell

Registered Sales Agent Anthony Farrell was found in breach of rules 152(i) and (ii), 174(i)(a) and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound TRAPPER DEMPSEY at Sheffield Stadium on 20 October 2013 was analysed by LGC Health Sciences as containing the presence of clenbuterol; and that he allowed a substance to be administered that could affect the performance and/or well being of the greyhound.

Mr Farrell did not attend the Inquiry. David Perry, general manager of Sheffield Stadium and John Gilburn, authorised representative apologised for their non-attendance. Jack Robinson, area stipendiary steward, was present.

The Disciplinary Committee noted the statement of opinion of Dr Andrew Higgins (Independent Doping and Medication Adviser), that clenbuterol is a beta-2 agonist with anabolic properties. It is licensed as a bronchodilator to treat respiratory disorders in horses, and is a Prescription Only Medicine (POM-V) Controlled drug Schedule 4(2) not licensed for use in dogs. It has been widely abused as a performance enhancing agent. Dr Higgins added in his written evidence, that the drug is a repartitioning agent reducing body fat and increasing muscle, and can be a 'metabolism accelerator'.

The Disciplinary Committee noted evidence from the local Inquiry that Mr Farrell had admitted to administering clenbuterol to the greyhound TRAPPER DEMPSEY three days prior to the sales trial because he thought the greyhound was coughing. The Committee reviewed the evidence, including Mr Farrell's statement of admission and the statement of the greyhound's previous owner in Ireland, Richard Dempsey, who also said that Mr Farrell had administered clenbuterol to TRAPPER DEMPSEY. Mr Dempsey stated that Mr Farrell thought the medication would have cleared the greyhound's system in time for the sale.

The Committee found it unhelpful that Mr Farrell had not attended the Inquiry as this had denied them the opportunity to test the credibility of his evidence. The Committee was advised that the Director of Regulation had attempted to determine through the IGB and ICC a contact address for Mr Farrell, but none was known. Mr Robinson had had telephone conversations with Mr Farrell and confirmed that Mr Farrell was aware that the Inquiry was taking place.

The Committee expressed its grave concern at the impact of this case on the integrity of the sport, in that a registered sales agent was found to have deliberately administered a performance enhancing drug to a greyhound prior to a sales trial. Having reviewed the evidence the Disciplinary Committee found Mr Farrell in breach of the rules and ordered that he be warned off indefinitely and fined £2,000.

ECONOMIC IMPACT OF THE BRITISH GREYHOUND RACING INDUSTRY 2014

- £1.3bn off course betting turnover, with £237m gross win for bookmakers; greyhound racing provides estimated 18% margin for bookmakers
- £119m core industry income including £26m BAGS payments and £8m voluntary contribution to the BGRF (figure includes payments from Betfair who have subsequently ceased contributing to the Fund)
- BAGS and BGRF payments represent 14% of off course bookmakers gross win
- c.5,000 annual fixtures in 2012 including c.2,300 BAGS (into betting shops) enjoyed by over 2m spectators at racecourses - Britain's fifth most popular sport
- 4000+ greyhound owners providing £26m gross expenditure
- Racegoer related income of £37m plus £14m on course betting revenue generated
- The sport directly employs over 7,000 individuals

The Greyhound Board of Great Britain (GBGB) recently published the *Economic Impact of British Greyhound Racing Industry 2014*, prepared by Deloitte. Dealing mainly with financial data up to 2012, this is the first time that a comprehensive snapshot of the industry's economic position has been undertaken. That period included as testing a time financially as the sport has ever faced, with the economy in general struggling with the deepest recession in recent years, and Greyhound Racing was not immune to its impact.

Greyhound Racing has long been an important product for the British and Irish off-course Betting industry, providing an exciting sport with high levels of integrity for customers to enjoy whilst also generating healthy and stable margins for bookmakers.

The sport is transmitted to an increasing number of countries around the globe and has proved an exceptionally popular betting medium wherever it is shown. It is paradoxical that at a time when the worldwide appeal of British Greyhound Racing has never been greater, many in the sport are struggling.

Barry Faulkner, GBGB Chief Executive, said: *"In order for the industry to thrive rather than just survive financial progress is required to maintain integrity standards, support greyhound rehoming initiatives, assist with residential kennel maintenance and enhancement, continue veterinary and welfare research, and help to finance improvements to racing and customer facilities at stadia."*

"Greyhound Racing will then be better placed to promote itself by encouraging greyhound ownership, including enhanced prize money, supporting British breeding and developing industry training programs."

Looking to the future it is essential that British Greyhound Racing and the off course Betting industry work closely to agree a fair and equitable division of profits made from betting on the sport to the benefit of all.

Barry Faulkner added: *"Deloitte has produced a comprehensive report which will prove invaluable as we seek to move the industry forward. The report highlights the importance of greyhound racing to the Betting industry and, in equal measure, how the present method of financing the industry is no longer sustainable. This is not only evident but compounded by the recent decision of Betfair, who make a substantial sum from the sport, to contribute nothing to the BGRF."*

"If the sport is to grow and thrive all stakeholders must work together. This report demonstrates that we have so much to offer due in no small part to many committed and hard working individuals. The sport needs a fair reward."

Key points:

Betting

Over £1.3bn bet on Greyhound Racing in British Licensed Betting Offices (LBOs). After horseracing, Greyhound Racing competes with football to be the second biggest sport in terms of LBO turnover

Greyhound racing provided LBOs a gross win of £237m and a margin of 18%, significantly higher and less volatile than a number of other sports

Published data for international sources not available

Employment and Tax

Over 7,000 people are directly employed in the Greyhound Racing industry. Aside from racecourses and trainers the remaining other core industry employees are those working in administration and media and those in the Betting industry with a direct link to greyhound racing

Over £55m was generated in tax by the Greyhound Racing industry in 2012, coming predominantly from gross profit tax on British betting operators

Financial

The 25 racecourses generated a total negative cash flow of £5.5m from Greyhound Racing. This improves to a £2m positive cash flow after £7.5m from other commercial activities has been taken into account.

Total expenditure from owners (excluding the initial purchase price of greyhounds) is estimated at £26m.

Trainers own approximately 37% of racing greyhounds and make an estimated net loss of £3m on training operations.

Hard copies of the report are available on request by calling the GBGB office on 020 7421 3770.

IMPORTANT ADVICE FOR TRAINERS: USE OF NON STEROIDAL ANTI-INFLAMMATORY DRUGS (NSAID)

Non steroidal anti-inflammatory drugs are a group of medicines that provide pain relief and have anti-inflammatory effects. GBGB wishes to remind trainers that greyhounds are very sensitive to these drugs and they must only be used in accordance with veterinary advice.

Only NSAID drugs that are specifically licensed for use in dogs may be used as many human NSAIDs are extremely toxic to dogs. The strength of human drugs is often higher than veterinary medicines and for this reason the doses cannot be safely calculated without veterinary guidance.

Many topical preparations are available for the human market as gel 'rubs' for muscle and joint pain. These are very potent preparations which are rapidly absorbed through a greyhound's skin. Even small amounts of human NSAID gels and tablets can result in toxic side-effects such as ulceration of the intestines, internal bleeding, poor blood clotting and even death.

It is illegal to treat dogs with human medicines unless specifically prescribed by a veterinary surgeon. Under the Rules of Racing a positive finding for such a substance will result in disciplinary action being taken.

The Rules of Racing require all medication to be recorded in the kennel treatment book in accordance with Rule 216. Failure to record such information may also result in disciplinary action. Trainers are reminded that all greyhounds must be free of **any substance** that may affect or influence their performance or prejudice their welfare at the time they are presented to race or trial, see Rules 174 (i), 214 and 217.

Following an increase in the number of online retailers selling veterinary medicines, Defra's Veterinary Medicines Directorate (VMD) has introduced an Accredited Internet Retail Scheme to facilitate self-regulation of the sector following concerns that some retailers are not compliant with VMD regulations.

Trainers will find a leaflet enclosed with this edition of the Calendar which explains how the scheme works and are advised, when buying medicines online, to **use an accredited retailer** only by looking for the VMD logo on the retailer's website and checking against the List of Accredited Internet Retailers (reproduced overleaf) at

www.vmd.defra.gov.uk/InternetRetailers/accredited-retailers.aspx

More information is available by calling the GBGB Welfare and Integrity Services Department on **020 7421 3770** or by emailing **welfare@gbgb.org.uk**

LOCAL INQUIRIES

1 Monmore Green Stadium – LISAHANE HADES

At a local inquiry held by the Area Stipendiary Steward on 7 March 2014, professional trainer, Miss KD Turner was fined £150 for a breach of Rule 49(iv) in respect of the improved performance of the greyhound LISAHANE HADES at Monmore Green Stadium on 13 February 2014; and her failure to use her best endeavours to ensure that the performance of the greyhound was to the satisfaction of the Stewards.

Opening and starting at 9/4, the greyhound had won a 630m race recording a calculated time of 39.41 seconds as compared with its best recent time of 40.28 seconds recorded in a race on 20 January 2014.

2 Nottingham Stadium – BALTILUM JANUZAI

At a local inquiry held by the Area Stipendiary Steward on 10 March 2014, the explanation from the Racecourse Executive at Nottingham Stadium was accepted in respect of the incorrect formlines for the greyhound BALTILUM JANUZAI being printed in the race card on 10 February 2014.

The Area Stipendiary Steward decided that Nottingham's Racecourse Executive could not be blamed for this error and had no case to answer.

GBGB VETERINARY SEMINAR: PREVENTING AND TREATING RESPIRATORY DISEASE IN RACING GREYHOUNDS

All trainers are encouraged to attend a seminar at Procter House on Thursday 24th April to discuss ongoing GBGB-commissioned research and findings into canine respiratory disease present in the British greyhound population.

The seminar is open to any interested party including licensed trainers, veterinary surgeons, promoters, greyhound owners and members of the press. Simon Gower, GBGB Veterinary Director said: "A number of isolated but high profile cases of the potentially fatal bacterium, strep.zoo, have been reported in the media in recent months. Therefore we are holding a seminar which will consist of two short presentations and a question and answer session to inform any interested party of the work we are carrying out to better understand the disease.

"In the overwhelming majority of cases, carriers show no symptoms and will enjoy perfectly normal racing careers and healthy retirements. There is no cause for alarm but we understand the necessity to impose kennel quarantines can lead to confusion so the seminar is about getting our veterinary advice across to keep everyone up to date."

The free seminar is not expected to last longer than two hours, including a light lunch and Simon Gower will introduce GBGB Veterinary Sub-committee member Richard Payne and Andrew Waller from the Animal Health Trust. The presentations will be followed by a Q&A session.

Richard Payne MRCVS, coordinator of GBGB's sudden death reporting program, added: "We have collected and analysed data since the disease monitoring program was established in 2007, and advances in the prevention, identification and treatment of respiratory disease have formed part of this work. I often liaise with, and visit, trainers who have experienced a sudden death at their kennels, and the knowledge gained by this work needs to be disseminated, so I would urge as many as possible to attend on the day."

The open seminar is being held at GBGB on Thursday 24th April 2014 at 11am. Those wishing to attend are asked to register with Lucy Dye by calling **020 7421 3771** or by emailing **lucy.dye@gbgb.org.uk**

GBGB VACANCY: MEDIA AND COMMUNICATIONS OFFICER

The Greyhound Board of Great Britain (GBGB) currently has a vacancy for a Media & Communications Officer based in London. Reporting to the Chief Executive, the Media & Communications Officer will handle all matters relating to the press and media and will work closely with the Chief Executive to develop and advance the GBGB's communications strategy. Duties will include:

- Managing, producing and delivering the GBGB Annual Report.
- Monitoring the media, disseminating information and providing summaries.
- Acting as the point of contact to respond to press enquiries.

Candidates must be educated to degree level (or equivalent) preferably in a relevant subject such as English, Journalism or Media Studies.

GBGB OFFICE MOVE

GBGB is moving out of its current offices at Procter House in Holborn at the end of May. The Greyhound Board's new offices are located in New Bridge Street which is between Holborn and The City. Since its formation in 2009, GBGB has been headquartered in central London. The close proximity to government, as well as the ease of access for those travelling to and from HQ has proved beneficial.

Although the original deal at Procter House represented excellent value for money, with a lease renewal looming it was clear that a significant rent increase would be forthcoming. A favourable deal to vacate the office seven months early was secured and the new lease, on smaller premises, will result in a significant cost saving over the course of the new tenure.

GBGB Chief Executive Barry Faulkner is confident of a smooth transition. He commented: *"We plan to move during May and while it's a big operation, our team at GBGB is working hard to ensure as seamless a process as possible which will bring no disruption to the industry."*

The new property in London EC4, is within a 10 minute walk of St Paul's and Farringdon and just a one minute walk to City Thameslink. Blackfriars is also a few minutes away and Bank and London Cannon Street are within a 15 minute walk. The move will be staged and everyone is looking forward to settling in to the premises which are currently being fitted out.

Full address and contact details will be included in the next Calendar.

MARK YOUR DIARIES FOR THE GREYHOUND EXTRAVAGANZA SUNDAY 25TH MAY

If you love dogs and are looking for a great family day out, you are invited to the Greyhound Extravaganza, held on Sunday, 25 May at the Animal Health Trust in Kentford, near Newmarket.

Now in its fifth year, the Greyhound Extravaganza is organised by the Retired Greyhound Trust (RGT) and is a fun day out for all the family, featuring dog show classes for greyhounds and other breeds.

Samuel Zelmer-Jackson, the Trust's Media and PR Manager, said: *"We are really pleased to be celebrating five years of the Greyhound Extravaganza. It is a fantastic day out in a beautiful setting, with trade stands, food and drink, lunchtime entertainment and dog classes, so there really is something for everyone."*

"The Extravaganza attracts crowds of dog lovers from all over the UK, and we saw record attendance last year. The event is also a great way for people who would like to learn more about greyhounds to see first-hand what lovely dogs they are and to learn about what makes them great pets. Whether you own a dog or not, the event is sure to be a great day out."

To review a list of the show classes and to register early online, visit www.retiredgreyhounds.co.uk/Greyhound-Extravaganza/. For more information please ring **0845 602 2658** or **07787 701695**.

DISCIPLINARY COMMITTEE INQUIRIES

The Disciplinary Committee of the GBGB were in attendance at a meeting held on 15 April 2014:-

Mr K Salmon (in the chair)
Mr R Coughlan
Mr A Hunt

1 **CRIMINAL CONVICTIONS – Messrs RA Hall & TJ Hall**

On 7 November 2013 Robert Anthony Hall and Thomas James Hall pleaded guilty to various drugs related conspiracy charges at Teesside Crown Court.

Robert Anthony Hall was sentenced to 13 years imprisonment. Thomas James Hall was sentenced to 6 years imprisonment.

In passing sentence, The Recorder, Mr Michael Slater said: "I am satisfied this was a well organised, extensive and expertly put together drugs operation supplying cannabis and cocaine to the North East and beyond".

The conspiracy involved drugs with a street value of £1m.

These men are both listed as registered owners and currently have one active greyhound running in their joint names along with that of another man. Historically, they have been involved in the ownership of four other greyhounds over the past 5 years.

The Disciplinary Committee agreed with The Recorder's assessment of these offences. This was a well organised and determined conspiracy to supply class A and B drugs.

Persons convicted of such offences have no place in greyhound racing and their continued involvement could only damage the reputation and possibly the integrity of the sport. In those circumstances, the Disciplinary Committee had no hesitation in warning off both men for an indefinite period.

2 **Kinsley Stadium – TOSELLI SERENADE – Professional Trainer Mr MJ Siddall & Head Kennelhand Mr TJ Siddall**

Professional Trainer Mark Siddall and head kennelhand Tommy Siddall were found in breach of rules 174 (i)(b) and 217 of the GBGB Rules of Racing in that a blood sample taken from the greyhound TOSELLI SERENADE at Kinsley Stadium on 14 December 2013 was analysed by LGC Health Sciences as containing the presence of naproxen.

Mark Siddall was in attendance. Eric Vose, area stipendiary steward, and Professor Tim Morris, independent scientific adviser, were also in attendance. Tommy Siddall apologised for his non-attendance as did

Andrew Mascarenhas, racing manager of Kinsley Stadium.

The Disciplinary Committee heard evidence from Professor Morris to the effect that naproxen is a medical drug not licensed for use in dogs and is chemically in the class of drugs described as Non Steroidal Anti-inflammatory Drugs (NSAIDS). NSAIDS relieve pain, reduce fever and reduce inflammation. In the opinion of Professor Morris, naproxen is a substance which by its nature could affect the performance or prejudice the wellbeing of a greyhound.

Mr Donnelly, on behalf of the GRB, put his case on the basis that on the evidence, the Disciplinary Committee should accept Mark Siddall's and Tommy Siddall's explanation that this positive test was caused by naproxen gel, which Tommy used to treat a serious and well documented medical condition, being transferred from Tommy to the greyhound TOSELLI SERENADE. The Committee agreed with that approach and accordingly found breaches of rules 174 (i) (b) and 217.

Mark Siddall accepted that he should have realised that such cross-contamination was possible but did not. To that extent the Committee found that the contamination was inadvertent. Accordingly, they did not find that either Mark Siddall or Tommy Siddall had the necessary knowledge properly to say that they "took" (or) "failed to take" any action under rule 152 (i). Mr Donnelly did not invite the Committee to find a breach of rule 152 (ii) and they did not do so.

Similarly, the Committee did not find that Mark or Tommy Siddall "treated, caused, or permitted" the greyhound TOSELLI SERENADE in such a manner as was likely to cause unnecessary suffering. Each of those words implies a degree of knowledge as to the effect of their actions which was lacking in this case.

These were very serious breaches in that there was clear medical evidence that naproxen had the potential to prejudice the welfare of the greyhound TOSELLI SERENADE.

However, the Committee noted that neither Mark nor Tommy Siddall had any previous breaches of the rules of racing recorded against them. They also took into account the references written on their behalf. Mark Siddall accepted that he should have realised that there was a possibility of cross-contamination. He accepted full responsibility of these breaches and urged the Committee to accept that Tommy's part in this was accidental. In those circumstances, the Disciplinary Committee ordered that Mark Siddall be severely reprimanded and fined the sum of £350.

In Tommy Siddall's case the Disciplinary Committee adopted the approach suggested by Mark Siddall. They were completely satisfied upon all the evidence they had seen that Tommy was devoted to the care and welfare of greyhounds and would do nothing deliberately to compromise their welfare. The Committee was told and accepted that he was very upset by these events. They also noted the extensive work he does towards the rehabilitation and rehoming of greyhounds. In those circumstances, the Disciplinary Committee ordered that he be reprimanded.

3 **Shawfield Stadium – WINTERVILLE – Professional Trainer Mr G Kennedy & Kennelhand Mr T Stewart**

Professional Trainer George Kennedy was found in breach of rules 174 (i)(b), 216 and 217 and kennelhand Thomas Stewart was found in breach of rules 152 (i), 174 (i)(a), 174 (xi) and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound WINTERVILLE at Shawfield Stadium on 24 January 2014 was analysed by LGC Health Sciences as containing the presence of piroxicam and that Mr Stewart allowed a substance to be administered that could affect the performance and/or well being of the greyhound.

Mr Kennedy and Mr Stewart apologised for their non-attendance as did Daniel Rankin, racing manager of Shawfield Stadium. Alex McTaggart, area stipendiary steward, and Professor Tim Morris, independent scientific adviser, were in attendance.

On 24 January 2014 a urine sample was taken from the greyhound WINTERVILLE which subsequently tested positive for piroxicam, a Non Steroidal Anti-inflammatory used in the treatment in humans of rheumatoid arthritis and similar conditions. Piroxicam used at clinical doses in dogs has shown to lead to gastrointestinal ulceration and bleeding and kidney damage. The packaging and product information relating to piroxicam make the nature of the drug clear to anyone using it.

The greyhound WINTERVILLE suffered a serious tendon injury in August 2013. It was trialled on 1 November 2013 but came off with the same sore tendon. The greyhound was then rested until 24 January 2014 when the sample was taken.

Kennelhand Thomas Stewart stated that he had been prescribed piroxicam for tennis elbow, although the only evidence the Disciplinary Committee had seen related to a prescription on 21 February 2014 over a month after the sample was taken.

Mr Stewart stated that as he was lifting WINTERVILLE onto a table at about 1.00 pm

he felt a pain in his arm, applied the piroxicam and then massaged the greyhound without washing his hands. He also admitted using the gel on previous occasions in the kennel if he felt pain. The Committee found that given the clear labelling of piroxicam and the fact that its effects were well known to Mr Stewart, it was not credible that he did not know he had to wash his hands. Mr Stewart did not attend to give evidence and the Committee did not therefore have his explanations regarding this, which might have been of considerable assistance. They found that at the very least he turned a blind eye to the need to wash his hands in the hopes that piroxicam might benefit WINTERVILLE's tendon injury, and was therefore reckless in its administration. The Disciplinary Committee therefore found him in breach of rules 152 (i), 174 (i) (a), 174 (xi) and 217.

Mr Kennedy stated that he knew nothing of these events till they had happened and there was no evidence to contradict that. The Disciplinary Committee therefore found him in breach of rules 174 (i) (b) and 217. They noted that he did not record the tendon injury or its treatment with hot and cold compresses in his treatment book. He was therefore also in breach of rule 216.

These were very serious breaches in that the welfare of WINTERVILLE was potentially compromised by the administration of piroxicam.

However, there were no previous breaches recorded against either Mr Kennedy or Mr Stewart, and the Committee noted Mr Kennedy had taken steps to regulate the presence of prescription medicines in his kennel.

In Mr Kennedy's case he was ultimately responsible for the care of this greyhound and he had a responsibility to keep his treatment book properly. The Disciplinary Committee therefore ordered that he be reprimanded and fined £250.

In Mr Stewart's case the Disciplinary Committee found that he was at the very least reckless in the administration of piroxicam. They took into account his good record and the fact that he was a pensioner of limited means. The least penalty they could impose was a severe reprimand and a fine of £500.

DISCIPLINARY COMMITTEE INQUIRIES

The Disciplinary Committee of the GBGB were in attendance at a meeting held on 13 May 2014:-

Dr AJ Higgins (in the chair)
Mr J Akerman
Mr A Hunt

1 **Pelaw Grange Stadium – CEEFITRUN – Greyhound Trainer Mr C McKitten**

Greyhound Trainer Colin McKitten was found in breach of rules 174 (i)(a), 214 and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound CEEFITRUN at Pelaw Grange Stadium on 14 December 2013 was analysed by LGC Health Sciences as containing the presence of dihydrokavain; and that he allowed a substance to be administered that could affect the performance and/or wellbeing of the greyhound.

Mr McKitten apologised for his non-attendance as did David Gray, racing manager of Pelaw Grange Stadium. Eric Vose, Area Stipendiary Steward, and Professor Tim Morris, Independent Scientific Adviser, were in attendance.

In his written evidence, Mr McKitten said that CEEFITRUN was a really nervous kenneler and he had tried a number of ways to help calm the dog without success. This statement was confirmed by the racing manager who said in his written evidence that he was aware that the greyhound was a bad kenneler.

Mr McKitten stated that in desperation he had purchased a herbal product, CALM, from an internet site. He had read the bottle that said it was formulated from 100% natural ingredients and he thought it would be safe to use. He admitted giving the greyhound 10ml of CALM daily in its evening meal between 2 November and 10 December 2013. He said that he never at any point gave the greyhound anything that would enhance its running or stop it and gave CALM solely for the welfare of the dog.

The Committee noted Mr McKitten's admission that he had administered CALM and that on the bottle it stated clearly that the product was 'for anxious or over excitable dogs'. The evidence of Professor Morris was that there was every reason to assume the product would relieve anxiety in dogs and have a tranquillising effect. He felt it was most likely that the dihydrokavain found in the urine sample came from the product CALM administered to the greyhound by Mr McKitten. This was supported by evidence from the Veterinary Director, Simon Gower, following communication with the product's manufacturer, Natural Animal Feeds, and an analysis of the product by HFL.

The Committee's reading of rule 174 (i)(a) led them to conclude that Mr McKitten administered a substance which by its nature could affect the performance of the greyhound or could prejudice its well-being. In his written evidence Mr McKitten admitted to administering CALM that evidence suggested contained a prohibited substance derived from the Kava plant to relieve the greyhound's nervous disposition. The Committee concluded that Mr McKitten had sufficient knowledge of the nature of the substance to make the link to its possible effects on the greyhound, and that he had failed to do so.

The Committee did not find it safe to find Mr McKitten in breach of rule 216 as the treatment book was not available and the photocopied entry unclear.

Regarding rules 214 and 217, the Committee noted Mr McKitten's disregard of clear directions given by GBGB in the Calendar dated 7 October 2011 and in guidance available to trainers in the document 'A Trainer's Guide to Medication Control in Greyhounds'.

The Committee regretted that Mr McKitten was not present or represented nor had he requested another date for this hearing.

The Disciplinary Committee acknowledged the Director of Regulation's recommendations concerning the breaches. In all the circumstances of the case, the Disciplinary Committee ordered that Mr McKitten be cautioned and fined £300.

2 **Pelaw Grange Stadium – DROMSCARRA LADY – Greyhound Trainer Mrs J Little**

Greyhound Trainer Janice Little was found in breach of rules 152 (i) & (ii), 174 (i)(a), 174 (xi) and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound DROMSCARRA LADY at Pelaw Grange Stadium on 10 November 2013 was analysed by LGC Health Sciences as containing the presence of boldenone, 1, 4-androstadiene-3, 17-dione (boldione) and metabolites; and that she allowed a substance to be administered that could affect the performance and/or well-being of the greyhound.

Mrs Little apologised for her non-attendance as did David Gray, racing manager of Pelaw Grange Stadium. Area Stipendiary Stewards, Eric Vose and Alex McTaggart, and Professor Tim Morris, Independent Scientific Adviser, were in attendance.

In her written evidence, Mrs Little stated that DROMSCARRA LADY had been treated for severe dehydration after a 450m trial at Sunderland Stadium on 6 July 2013, having run an extra lap after slipping her lead when the next trial was being run. This evidence

was confirmed by the statement of the track veterinary surgeon who said that treatment was provided to the greyhound and a steady uneventful recovery made prior to travel.

Mrs Little stated that DROMSCARRA LADY had required further veterinary treatment three days later as she was still very sore and stiff. She said that as she was going on holiday the greyhound was sent on 10 July 2013 to its previous owner, Mr Tom Watson, to recuperate, and returned on 22 July in poor condition. On 22 July Mrs Little said she began suppressing the bitch's season with norethisterone. The greyhound last raced on 10 November 2013, when it tested positive, and was returned to Mr Watson on 15 November 2013. Mrs Little added that prior to the race on 10 November 2013 the bitch had received no other medication apart from norethisterone.

In subsequent written evidence, Mrs Little said that prior to her holiday she arranged for the greyhound to go not to Mr Watson as previously stated but to the last trainer who had looked after her (Raymond Carmichael). In this evidence, Mrs Little said that after the race on 10 November 2013 the bitch was retired to Mr Carmichael who now had the greyhound as a pet.

In his written evidence, Mr Carmichael stated that he trained greyhounds on independent tracks for the owner of DROMSCARRA LADY, Mr Watson. He said that Mr E. Little had dropped off the bitch before he went on holiday. Mr Carmichael stated that he had been worried about the bitch's welfare and general condition and had asked an acquaintance, Mr Brian McKee, a bodybuilder, to give him something to improve her condition. He stated that Mr McKee gave him a syringe with 1ml of a steroid. He added that Mr McKee was in Australia and he had no contact number for him. He was due back in UK by the end of April.

Mr Carmichael stated that he had trained greyhounds for 40 years on NGRC and independent tracks and did not take the greyhound to a veterinarian as he believed he had as much experience dealing with and treating greyhounds. He stated that he did not tell Mr or Mrs Little on their return from holiday that he had given the dog a steroid injection.

Mr McTaggart gave evidence that Mr Carmichael was not licenced with GBGB. He said he had spoken to Mr Carmichael who said that Mr McKee was a friend of a friend and he had no contact details for him. It had not therefore been possible to confirm Mr Carmichael's evidence.

The Disciplinary Committee found that boldenone, boldione and metabolites were present in the urine of the greyhound and that

boldenone and/or boldione had been deliberately administered. They were concerned at the conflicting evidence presented by Mrs Little and the fact that they were unable to question her on the inconsistencies. They were also concerned that the evidence provided by Mr Carmichael could not be substantiated. On the balance of probabilities they concluded that Mrs Little would have been aware of the administration of an anabolic steroid to DROMSCARRA LADY and they rejected her explanation for the positive finding, and her comment that at no time was she told the greyhound was given any medication of any kind.

The Committee expressed their considerable concern that Mrs Little had not attended the inquiry to address the questions of the GBGB and the Committee as there were a number of issues in the evidence bundle that required further explanations from her.

The Committee noted Professor Morris's evidence that boldenone was a drug commonly abused by bodybuilders and that the source of the prohibited substances in the bitch's urine could have been an injection of boldenone and/or boldione (the prohormone of boldenone).

The Committee was mindful that boldenone is a Class C controlled drug where possession carries a custodial sentence and of the serious welfare implication of administering these drugs illegally to greyhounds. The integrity implications of administering an anabolic steroid to a racing greyhound are considerable and led to the Committee's decision to find Mrs Little in breach of rules 152 (i) & (ii), 174 (i)(a) and 217. In view of Professor Morris's evidence that these anabolic steroids are not trivial substances with regard to health and welfare and have many negative effects, the Disciplinary Committee also found a breach of rule 174 (xi) in that the greyhound had been treated in such a manner as causes or is likely to cause unnecessary suffering.

The Committee found there was no association with the administration of norethisterone used to suppress the greyhound's season.

The Committee noted that they had received no evidence from Mr Watson or Mr McKee despite GBGB's efforts to contact them. There was, therefore, no additional support to Mrs Little's case, which they found lacked credibility and consistency.

The Committee suggested that the Director of Regulation consider whether further action is justified against Mr Carmichael who had admitted administering a steroid to the greyhound.

The Disciplinary Committee acknowledged the Director of Regulation's recommendations concerning the breaches. In all the circumstances of the case, the Disciplinary Committee ordered that Mrs Little's licence be withdrawn for 1 year, suspended for 2 years, and that she be fined £1,000.

2014 WILLIAM HILL DERBY

Speculation about the number of entries for the 2014 Greyhound Derby had started long before the closing date of noon on 23rd April. The fantastic record first prize of £200,000 generously put forward by sponsor William Hill, had tempted many to have a go at living the dream and the bumper final entry totalled 222, including 33 Irish entries and one Hungarian.

The stories that emerged throughout the competition had more twists and turns than the plot of a best-selling thriller. Fans were able to follow the Derby in its entirety either trackside, at a packed and buzzing Wimbledon, where management reported crowds well up on recent years or on television, with every round being available for viewing.

From the first day of the month of May to 9:08pm on the last, after an enthralling four weeks of competition, six greyhounds blessed with the decisive combination of determination, speed, skill and as always, a little help from Lady Luck, went into the traps for the decider.

They were the Irish duo of fast starting Crokers Champ trained by Peter Cronin and race favourite Mind the Net from the kennel of Pat Buckley; Kincaig Rory for Tony Collett and long standing owner and supporter Len Ponder; pups Salad Dodger for trainer Bruno Berwick and Droopys Ward for Paul Young together with Farloe Trent, aiming to put trainer Liz McNair's name on the coveted Derby trophy for the first time.

On his very last day as a pup, Salad Dodger, the only British-bred in the line up, broke quicker than he had throughout the whole competition to give him the impetus required. Showing the grit and determination which had seen him qualify comfortably through each round (despite having never won a heat) Bruno Berwick's charge chased down leader Crokers Champ to hit the front when it mattered and become the 2014 Derby Champion.

The GBGB congratulates all connections and thanks sponsors William Hill and everyone who has supported this superb competition. Roll on 2015!

WESTMEAD HAWK - A GREYHOUND GREAT

Last week, the industry learnt of the passing of Westmead Hawk, one of the true superstars of the modern greyhound racing era. Owned by Bob Morton and bred and trained by Nick Savva, the powerful black was a legend both on and off the track and will long be remembered by all who were privileged enough to see him race. Those who weren't will be able to witness the exceptional qualities he is passing on to his descendants for years to come.

In a stellar racing career that started in A1 graded company at Hall Green and peaked with back to back Derby victories in 2005 and 2006, 'The Hawk' thrilled fans with his determined running style, incredible finishing kick and an ability to weave his way through whole fields with such skill that he was often referred to as 'the greyhound with Sat Nav'.

Hawk was a celebrity in every sense and, following his second Derby success in 2006, he beat Desert Orchid and Red Rum to become the first animal athlete to ever be represented at London's Madam Tussauds, where his wax work featured as part of the museum's 'Best of British' exhibition.

Following his racing career, Westmead Hawk retired to stud with the Dunphys in Ireland and quickly established himself as a top class sire. Indeed, just five years after he passed the line in front at Wimbledon in the 2006 Derby, his son Taylors Sky emulated that feat when winning the 2011 renewal followed by another son Sidaz Jack in 2013 who took the title in just the seventh race of his career.

The GBGB wishes to record its appreciation of a greyhound great who did so much for the industry, capturing the imagination of the wider public in addition to aficionados of our great sport.

'The Westmead Story - A Greyhound Dynasty', a documentary on the success of Nick Savva and Bob Morton featuring details of Westmead Hawk's career has been produced by Clive Lawrence and is available to watch on Sky Catch Up until 14th June 2014

GBGB RULES OF RACING

RULE AMENDMENTS

Rule 49 – Trainer's charge and responsibility

Reason for amendment

To allow trainers to enlist the help of another trainers' Kennelhand for kenneling as well as for parading.

Amendment

In sub Rule (i)(c), replace "deem" with "make" in the first sentence, after the word "Kennelhand(s)" add ", with runners at that meeting, to kennel and/or". Insert "enlisting" before "trainer" at the start of the second sentence. Also add the following sentence after the last sentence "The trainer or their representative enlisting help as described above must be in attendance for the race or trial concerned."

Amended Rule

where circumstances make it necessary, and with the prior permission of the Racing Manager, a Trainer may enlist the assistance of another Trainer and/or his/her Kennelhand(s), with runners at that meeting, to kennel and/or parade a Greyhound at Race and Trials Meetings only. The enlisting Trainer shall accept full responsibility for the actions of such person(s) enlisted to assist. The trainer or their representative enlisting help as described above must be in attendance for the race or trial concerned.

Rule 64 – Categories and types of Race

Reason for amendment

To clarify the need for equal numbers in a team when competing in intertrack races.

Amendment

In part (c) in the first sentence, add "or series of races" before "between". Insert the following sentence after the first sentence "The total number of greyhounds in each team shall be of equal number between competing racecourses, except where withdrawals are made from the final or only version of the

card and suitable reserves are not available."

Amended Rule

- i. The different categories of Races shall be as follows;
 - a. An Open Race shall be a Race or series of Races, the particulars of which are advertised in the GBGB Calendar under Rule 81, and for which entries are normally received for Greyhounds in the charge of any Trainer, but the conditions of an Open Race may restrict entries in this or any other respect.
 - b. A Graded Race shall be a Race for which the Greyhounds are selected by the Racing Manager from those in the charge of any Professional or Greyhound Trainer.
 - c. An Intertrack Race shall be a Race or series of races between two or more teams of Greyhounds, each team representing a GBGB Licensed Racecourse and organised by the respective Racing Managers. The total number of greyhounds in each team shall be of equal number between competing racecourses, except where withdrawals are made from the final or only version of the card and suitable reserves are not available. Each Greyhound to be included in such a team shall as a minimum qualification be eligible to contest a Graded Race, not necessarily over the same distance, at the Racecourse it represents.

Rule 80 – Draw Procedure

Reason for amendment

To allow an equal distribution of seeded runners in a draw for a race with eliminating rounds.

Amendment

Paragraphs 2 and 3 of the current rule become sub Rule (i) and the following sentence is added at the

start of paragraph 2 "For a single event"

Then add sub Rule (ii) as follows:

Amended Rule

- ii. For a race with eliminating rounds greyhounds will be drawn based on their seeding as follows:

Allocation of Rails runners

In a draw made for solely the rails runners, the first drawn rails runner will get trap one in the **first** heat, the second drawn rails runner will get trap one in the second heat and so on until the last rails runner is drawn. In the event that there are more rails runners than heats the rails runner drawn after the last heat will be allocated trap two in the first heat and so on.

Allocation of Middle runners

In a draw made for solely the middle seeded runners, the first drawn middle seed will be placed in the lowest trap number available in the **last** heat, the second drawn middle seed will be placed in the lowest trap number available in the penultimate heat and so on until the last middle seeded runner is drawn. In the event that there are more middle seeded runners than heats the middle seeded runner drawn after the first heat will be allocated the lowest trap number available in the last heat and so on.

Allocation of Wide runners

In a draw made for solely the wide seeded runners, the first drawn wide seed will get trap six in the **first** available heat, the second drawn wide seed will get trap six in the second available heat and so on until the last wide seeded runner is drawn. In the event that there are more wide seeded runners than heats the wide seeded runner drawn after the last heat will be allocated trap five in the first available heat and so on.

Vacant Traps

If there are any vacant traps in the draw they should be drawn as middle seeds.

Rule 83 – International Entry for Open Race – Definition and Conditions

Reason for amendment

To allow International Entries for category one events only, to be entered for trial stakes with prize money under £500.

This will enable International Entries for these events to race for prize money instead of making the trip over just for trials, possibly saving the connections money and allowing the betting public to see current race form over course and distance, then there is no need for the tracks to contact the Director of Regulation for dispensation.

Amendment

After the first paragraph add, International Entries for category one competition only, will be allowed to enter trial stakes for that competition with prize money less than £500.

Amended Rule

A Greyhound trained in a country other than England, Scotland or Wales shall be eligible to run in an Open Race in which the first prize is at least £500, or such other higher sum as may be determined by the Greyhound Regulatory Board and published in the GBGB Calendar from time to time, provided that it complies with the conditions shown below, and in this case, if entered, it shall be termed an International Entry for an Open Race.

International Entries for category one competition only, will be allowed to enter trial stakes for that competition with prize money less than £500.

Rule 168 – Complaints

Reason for amendment - Rule 168

Under Rule 168 reference is made to the fact that any complaint against a licensed person must be accompanied by a deposit of £25. Since the inception of the GBGB and to be compatible with our UKAS accreditation it is not appropriate to request a fee when a complaint is made. Neither is it necessary to make a complaint in writing albeit that will be the usual format.

Amended Rule - Rule 168

Any complaint against a Licence Holder may be made to the appropriate Local Stewards where

applicable or otherwise to the GBGB, the Greyhound Regulatory Board or the Director of Regulation. The complaint may be verbal, written or reported in the public domain and subject to the procedure under Rule 159.

Appendix VI – GRB Guidelines, Process and Penalties

Reason for amendment

To amend point 3.3 of the Penalty Guidelines to reflect the change to Rule 163 and Appendix III of the Rules of Racing. Both rules were amended recently and 3.2 was overlooked.

Amended GRB Guideline

Rule 163 allows any person the subject of a Disciplinary Committee Inquiry who is aggrieved by the decision of the Disciplinary Committee Inquiry shall be entitled to appeal to the Appeal Board subject to and in accordance with the provisions of Appendix III to the Rules of Racing.

Reason for amendment

This proposal reflects the fact that the role of the Independent Doping and Medication Adviser (IDMA) and the preparation of the Statement of Opinion no longer exist. The role of the IDMA has been replaced by the Independent Scientific Adviser and a Statement of Opinion is not now required. The process on confirmation of a "positive" urine sample obtained from a greyhound is laid down in the amended Standard Operating Procedure (see attachment). The wording of the penalty guidelines at 8.6 has been amended to reflect the proposed changes.

Amended Rule

8.6 Positive Sample (See Process Map)

8.6.1 Samples will be taken from greyhounds in accordance with the procedures laid out at Appendix IV of the GBGB Rules of Racing.

8.6.2 Notification of a positive sample will be referred from the laboratory dealing to the Director of Regulation and any person designated by the DoR to receive, prepare reports or

distribute such information on his behalf. They may also confidentially consult other authorities at their discretion.

8.6.3 Within 48 hours or as soon as reasonably practicable person(s) designated by the Director of Regulation will provide the DoR or his nominee with a written confirmation that a case can proceed. The GBGB veterinary director will review the case. (Refer also to the SOP).

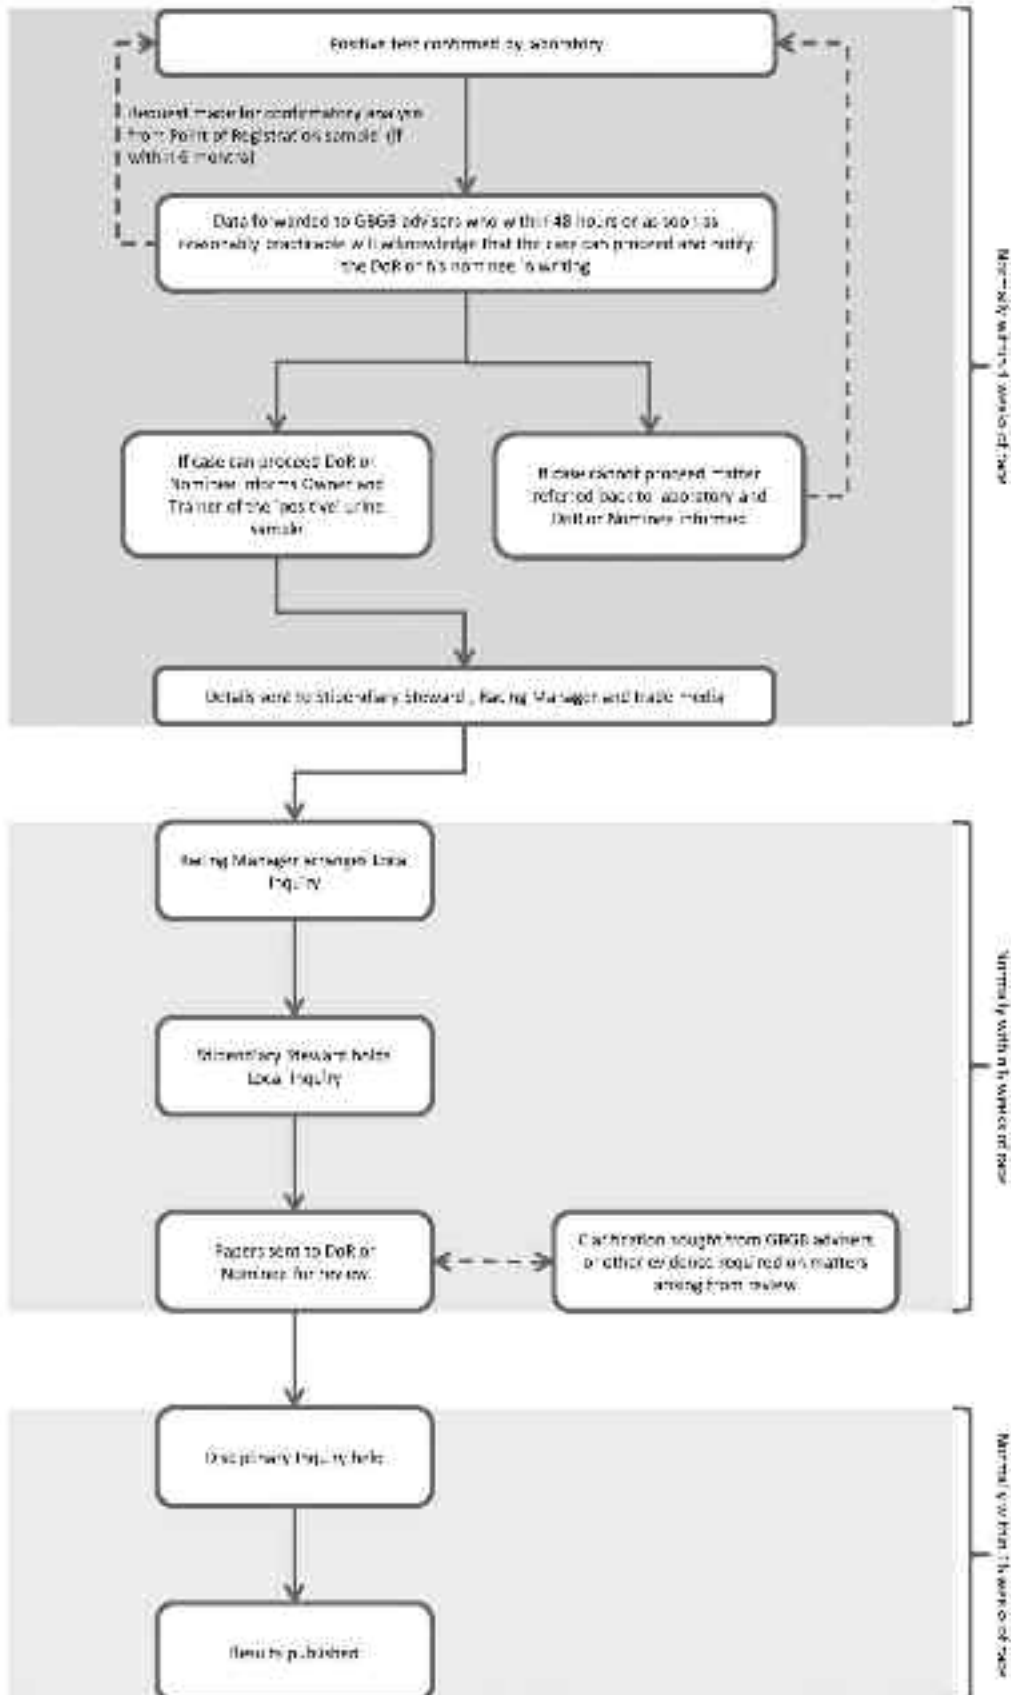

8.6.4 The DoR will in accord with internal procedures ensure that the owner and trainer are informed of the positive sample before the details are sent to the Racing Manager of the Racecourse where the sample was taken or the media informed. This should be within four weeks of the race taking place.

8.6.5 The Stipendiary Steward will be instructed to hold a Local Inquiry and will notify the Authorised Representative by letter setting out the details, as referred to under the heading **Cases to be heard by the Stipendiary Steward**. The Racing Manager is responsible for informing all parties; including the Authorised Representative of the Racecourse concerned of the date and time a Local Inquiry is to be heard (see paragraph 8.5.10).

8.6.6 Having held a local inquiry the Stipendiary Steward will forward the case papers to the DoR. The DoR or his nominee will review the case papers. Having held the review if further evidence or clarification of matters is required before further action is taken, then the DoR or his nominee will request the appropriate person e.g. Stipendiary Steward, Investigator that further inquiries be undertaken or evidence obtained.

8.6.7 Normally within 16 weeks of the race a Disciplinary Committee hearing will be held. At the conclusion the results will be published and the relevant parties informed.

Positive Sample Standard Operating Procedure

Effective Date June 2014 (Version 4)

ANNUAL VETERINARY KENNEL INSPECTIONS

All Trainers are reminded that it is a requirement to have a Veterinary Surgeon carry out an annual inspection of their residential kennels. A form, which must be completed and returned to the GBGB by the inspecting Veterinary Surgeon no later than **Tuesday 30th September 2014**, is enclosed with this Calendar.

Failure to arrange for this form to be completed and returned by the due date will result in a delay in issuing a licence renewal for 2015 as this will not be processed without a completed Veterinary Inspection form. If the form is misplaced, additional copies can be obtained by calling the GBGB office on **0207 822 0927**. All Trainers are asked to contact their Veterinary Surgeon as soon as practicable to make an appointment.

FALL FOR HOUNDS SKYDIVE RAISES OVER £83,000

The skies were full of dog lovers in Peterborough last week as more than fifty greyhound enthusiasts took to the heavens for an enormous charity skydive, raising more than £83,000 in support of the Retired Greyhound Trust.

Despite some weather-related delays, 51 brave souls took to the skies to show their passion for greyhounds by jumping from a plane at 13,000 ft and plummeting at 120 mph back down to Earth.

After this exhilarating ride, the jumpers were joined by other greyhound lovers for an after party at the Angel Inn Pub, Yarwell, with a BBQ, live music and an auction where supporters could bid for a number of great prizes, from concert tickets to luxury hotel stays.

The event was organised by Sky Reporter Julie Collier, who is herself a retired greyhound owner.

51 brave jumpers took the leap for the RGT's Fall For Hounds Sky Dive.

Julie said: *"I love greyhounds and I always do all I can to support the Retired Greyhound Trust, as I think the work they do is fantastic! This is a special event that I have been organising for more than six months, so it is really great to see it all come together, with people travelling from all over the UK to face their fears and skydive more than two miles to raise money for this great charity."*

She continued: *"Between all of the donations to the skydivers and the sale of auction items, we raised £83,027.87 for the Trust, which will ensure that even more of these great dogs find the loving homes they so desperately deserve. I'd like to thank everyone who got involved and supported this great fundraising event."*

The Disciplinary Committee wish to advise those appearing before them as "the affected person" that the Disciplinary Committee has the discretion to take account of any previous breaches of the rule(s) of racing which they consider are relevant to a case being heard before them irrespective of the date of commission of the breach.

DISCIPLINARY COMMITTEE INQUIRIES

The Disciplinary Committee of the GBGB were in attendance at a meeting held on 26 June 2014:-

Mr R Woodworth CBE (in the chair)
Mr J Akerman
Mr R Coughlan

1 Former Kennelhand Mr J Pearce – RSPCA Prosecution

Former Kennelhand Joe Pearce was found in breach of rules 2, 152(i) and (ii) and 174 (xi) of the GBGB Rules of Racing in that three greyhounds that had been retired into Mr Pearce's care had been badly neglected despite advice being given by the RSPCA some months earlier when they first raised concerns regarding the welfare of the greyhounds and the conditions in which they were living.

Mr Pearce did not attend the Inquiry and offered no explanation. Jim Snowden, Investigating Officer, apologised for his non-attendance. Lorraine Sams, area stipendiary steward, was in attendance.

The Committee received details of the circumstances which led to Mr Pearce pleading guilty to an RSPCA prosecution in relation to offences under the Animal Welfare Act 2006 which resulted in him being banned for keeping animals for 5 years. In addition a 12 month community order and costs of £250 were imposed.

The Committee noted that while there were some mitigating factors these were very serious breaches of the rules of racing. In all the circumstances the Disciplinary Committee determined that Mr Pearce should be disqualified indefinitely with a recommendation to the Director of Regulation not to consider any application from Mr Pearce for the renewal of his licence during the 5 year period of his ban.

2 Peterborough Stadium – LICK THE DISH – Professional Trainer Mr RD Ingle and Assistant Trainer Mr G Ingle

Professional Trainer Ronald Ingle and his son and assistant trainer Gary Ingle were found in breach of rules 9(i) (admitted), 152(i), 174 (i)(a) and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound LICK THE DISH at Peterborough Stadium on

7 March 2014 was analysed by LGC Health Sciences as containing the presence of cyclizine; and that they allowed a substance to be administered that could affect the performance and/or well being of the greyhound.

Ronald Ingle and Gary Ingle were in attendance along with Professor Tim Morris, independent scientific adviser, Paul Miller, racing manager of Peterborough Stadium and Adrian Smith, area stipendiary steward.

At the start of proceedings both Mr R Ingle and Mr G Ingle admitted a breach of Rule 9 in that they allowed unlicensed personnel (Mr R Ingle's granddaughters and their friends) to access the kennels unsupervised and attend to the greyhounds. This situation obtained at the time of the positive sample during a period when one of the unsupervised persons had been prescribed cyclizine tablets for a medical condition. Mr G Ingle gave the Committee an assurance that no unlicensed and unsupervised persons were now allowed in the kennels.

The Committee noted that Mr R Ingle had transported LICK THE DISH to Peterborough Stadium on 7 March but Mr G Ingle was uncertain as to whether he attended the kennels on that day, although he said this would have been likely at some point. In the circumstances the Committee considered the case on the basis that Messrs Ingle would be jointly responsible for any rule breaches.

The Committee received evidence from Professor Tim Morris in which he stated his opinion that the amount of cyclizine present in the sample taken from LICK THE DISH was significantly in excess of that which might be used clinically and that this had been given to the greyhound only a short time before the urine sample was taken.

Both Mr R and G Ingle had confirmed that the greyhound had not received any medication prior to the positive sample and were at a loss to explain its source. In his written evidence Mr G Ingle offered the suggestion that the cyclizine tablets carried by one of the unlicensed persons at the kennels may have been the source of the positive sample. In response to the evidence of Professor Morris, that the positive sample contained a high dose of cyclizine, Mr G Ingle speculated at this Inquiry that a blister pack containing a number of tablets could have been ingested. The Committee had to take a view on the likelihood that either of these eventualities

had occurred, or whether this was a deliberate administration of a high dosage of cyclizine.

Mr R and G Ingle were adamant that they would not administer any substance to a greyhound which could affect its performance or wellbeing and the Committee took note of these assertions. Nevertheless the Committee considered that on the balance of probabilities there had been a deliberate administration by person or persons unknown and the blatant lapse of security in the Ingles' kennels is likely to have created the opportunity for this to occur.

In the circumstances of the case the Disciplinary committee ordered that Messrs R and G Ingle each be reprimanded and fined £300. The Committee took cognisance of the Ingles' previous unblemished record, their admission of the breach of Rule 9 regarding security, as well as their attendance at the Inquiry. Without these mitigating factors the Committee would have imposed a more severe penalty.

3 Wimbledon Stadium – LAUGHIL GEORGE – INTERNATIONAL TRAINER MR M O'DONOVAN

International Trainer Michael O'Donovan was found in breach of rules 152(i) and (ii), 174 (i)(a) and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound LAUGHIL GEORGE at Wimbledon Stadium on 4 March 2014 was analysed by LGC Health Sciences as containing the presence of cimetidine; and that he allowed a substance to be administered that could affect the performance and/or well being of the greyhound.

Mr O'Donovan apologised and gave reasons for his non-attendance. Professor Tim Morris, independent scientific adviser and Colin Betteridge, area stipendiary steward were present. Gary Matthews, racing manager of Wimbledon Stadium apologised for his non-attendance.

Mr O'Donovan accepted that the positive sample originated from an administration of a formulation of cimetidine (Tagamet) in Ireland, to treat a diagnosed suspect case of gastric ulceration on 26 February 2014. This was only 6 days prior to the greyhound racing at Wimbledon Stadium on 4 March 2014.

The Committee took evidence from Professor Tim Morris in which he stated his opinion that

the administration of Tagamet was appropriate for a diagnosis of suspected gastric ulceration. He also stated that there is no evidence that cimetidine (Tagamet) would have any direct effect on the performance of the greyhound.

Mr O'Donovan claimed to have relied on the advice of his Irish veterinary surgeon that the drug would have cleared the greyhound's system in time for the race in the UK. However Colin Betteridge gave oral evidence that in a telephone conversation with Mr O'Donovan, the latter acknowledged that he was aware of the 7 day period stipulated in Rule 217. It appeared to the Committee that Mr O'Donovan was talking an injudicious risk in racing a greyhound during its recovery period, risking its welfare and possibly misleading the betting public in what was a high profile televised race meeting.

In the circumstances of the case the Disciplinary Committee ordered that Mr O'Donovan be reprimanded and fined £500.

JOHN CRITTALL

Former Wimbledon track vet and NGRC veterinary Steward John Crittall died unexpectedly on the July 6th aged 80. Crittall's practice Crittall and Westaway became vets to Wimbledon Stadium and its Hersham based Burhill Kennels in the early 1970's and continued in that role until 2001. Critall succeeded Oliver Graham-Jones as the Veterinary Steward of the NGRC and held that position until handing over to Hazel Bentall in 2003. Critall's son Jamie estimates that his father had seen over half a million greyhounds in his long career in the sport.

The funeral service will be held at St Martin's Church Blackheath, near Guildford, on Tuesday 5th August at 2.00 pm.

ADVICE ON PREVENTING AND TREATING OVERHEATING IN GREYHOUNDS

Greyhounds overheat because their mechanisms for losing heat are overwhelmed by the factors tending to warm them up.

- **Heat Loss** - a greyhound loses heat from the skin, by losing warm urine, faeces and saliva, but mainly by evaporating water from the airways and mouth by panting. Note that ONLY water and heat are lost during this process – not electrolytes.
- **Dehydration** - if the greyhound becomes dehydrated, its body retains fluid to keep the vital organs supplied, so less moisture is available to be evaporated and the major cooling mechanism fails.
- **Heat Stroke** - when temperature regulation spirals out of control, and the life threatening changes of heatstroke occur, classic signs are staggering, blindness, disorientation, stupor or coma. Specialised veterinary treatment is urgent if the greyhound is to be saved.

Prevention

- Every greyhound should be well hydrated before and after travelling by being given free access to water.
- Excess electrolytes over actual requirements will tend to dehydrate rather than assist the greyhound. A splash of milk works better to encourage water intake.
- Plain water is the ideal drink for hot weather as it replaces exactly that which has been lost. Once dehydration has set in, electrolytes will add to the already high salt levels in the brain which is dangerous.

Travel

- Travel in a vehicle is a particularly high risk in hot weather; a greyhound may be excited, denied water, in direct sun in the back of a vehicle, and in high humidity with poor ventilation.
- The best, most reliable method of providing ventilation is from a properly designed and fitted air conditioning system.
- Second-best is the air management system, which refreshes the air but does not cool or dehumidify so it may not be sufficient in all circumstances.
- Always park in shade, and away from the excitement of seeing other animals passing by.
- Assist heat loss from the skin by spraying greyhounds with a light mist of water, and encouraging air flow over it to aid evaporation.
- Greyhounds with dark coats absorb more heat than lighter skinned ones, so a light coloured, lightweight jacket can reduce overheating in direct sunlight.

Treatment of suspected overheating

- If you are hot, and you think your greyhound may be, don't wait for trouble but take action sooner rather than later.
- Put the greyhound in shade, increase the air flow, and dampen the coat as described.
- If you have a thermometer, take the greyhound's rectal temperature so you can tell how you are doing (the average temperature of a healthy dog is 101°F or 38°C, however, the normal temperature of a healthy dog may range from 37.2°C to 39.2°C (99°F to 102.5°F)).
- Do NOT leave it unattended.
- Encourage plenty of cold water intake, and splash water in and around the face and mouth. A house plant spray works well for this.
- Electrolytes should not be given at this stage unless a specific loss of electrolytes has been proven; giving them at this time is likely to make dehydration worse.
- Telephone the nearest veterinary surgeon and arrange to have the greyhound(s) seen as an emergency.
- Hosing of the limbs and wetting the underside of the chest and belly will assist with heat loss. **Placing the greyhound in water will cause a shock to the heart, and is therefore not an option.**
- Heat exhaustion and heat stroke are entirely preventable conditions when adequate precautions are taken.

Racing

- Always offer greyhounds access to water before and after travel and before kennelling.
- Do not wet greyhounds prior to placing in a kennel as this may produce excess humidity in the kennel and prevent heat loss (the "Sauna Effect").
- If a greyhound shows signs of heat stress or dehydration at any time it must be examined by the race-course vet.
- Welfare of the racing greyhound is paramount: treatment of heat stress and/or dehydration takes priority over participation in a race or trial.
- If a greyhound requires access to water this must be given, and the greyhound withdrawn from racing.

GBGB Veterinary Director

LOCAL INQUIRIES

1 Henlow Stadium – Mr DB WHITTON

At a local inquiry held by the Senior Stipendiary Steward on 20 July 2014, professional trainer, Mr DB Whitton was found in breach of Rules 5(iii), 49(ii) and 152(i) in respect of running four greyhounds at Henlow Stadium on 8 June 2014 and one greyhound at Monmore Stadium on 9 June 2014 from unlicensed kennels.

After taking into consideration the suspension of Mr Whitton's licence from 10 June to 18 June, and the fact Mr Whitton had to re-trial all of his greyhounds seven days after the suspension was lifted, the Senior Stipendiary Steward decided that no further action was necessary.

2 Perry Barr Stadium – HEATHERMILL ONYX

At a local inquiry held by the Area Stipendiary Steward on 8 July 2014, professional trainer, Mr P Meek's explanation was accepted and no further action taken in respect of the improved performance of the greyhound HEATHERMILL ONYX at Perry Barr Stadium on 25 April 2014.

Opening at 4/1 and starting at 6/1, the greyhound had won a 480m race recording a calculated time of 29.19 seconds as compared with its best recent time of 29.74 seconds recorded in a trial on 19 April 2014.

3 Poole Stadium – LEASE AGREEMENT

At a local inquiry held by the Area Stipendiary Steward on 13 July 2014, professional trainer, Mr PR Chatfield was cautioned for a breach of Rule 49(iv) in respect of the improved performance of the greyhound LEASE AGREEMENT at Poole Stadium on 3 June 2014; and his failure to use his best endeavours to ensure that the performance of the greyhound was to the satisfaction of the Stewards.

ADVICE TO TRAINERS: LUNGWORM IN GREYHOUNDS

Lungworm in dogs in the UK is becoming more widespread and trainers should ensure that they have a lungworm treatment plan built into their worming policy.

LUNGWORM FACTS

Also called French Heartworm, the adult worms live in the blood vessels in the lungs and can remain, if untreated, for two years. Young worms (larvae) are laid into the air sacs in the lungs and are coughed up and swallowed by the dog before being passed out in the faeces. A further spread of infection is common through the larvae being eaten by slugs or snails, which in turn, can accidentally be eaten by a dog. The larvae will then migrate from the dog's stomach and end up in the blood vessels of the lungs to complete the cycle. Infected dogs, however, are not directly contagious to other dogs.

SYMPTOMS

Lungworms block the blood supply in the lungs so the damage they cause can lead to heart failure. Symptoms can include:

- Coughing
- Difficulty in breathing
- Weight loss
- Depression

Other signs of infection include:

- Sickness and diarrhoea
- Nose bleeds

Lungworm damage can be permanent and, even when the animal has been treated and the worms are destroyed, the dog may not recover to full fitness. In severe cases, lungworm infection can be fatal.

DIAGNOSIS

The larvae can be found in the saliva and faeces and several samples should be examined as a matter of routine as larvae are not always produced all of the time.

TREATMENT

Worming of all greyhounds with a treatment containing an avermectin (Advocate Spot-On, for example) should form part of a trainer's anti-parasitic routine and, in the case of lungworm, a single worming is usually effective. In cases of widespread infection, monthly worming may be required on the advice of your veterinary surgeon.

PREVENTION & CONTROL

- Routine worming of all greyhounds with an avermectin based worming product;
- Removal of faeces from paddock and exercise areas is key;
- Regular cleaning of water bowls after each paddock changeover; and
- Wet soil and mud can help the disease to persist and care should be taken when replacing and filling water bowls.

For further advice, please contact your veterinary surgeon.

Simon Gower
GBGB Veterinary Director

A GREAT GREYHOUND GATHERING AT NOTTINGHAM

Greyhounds from around the UK will race to Nottingham Racecourse on Saturday 20th September to take part in the eighth annual Great Greyhound Gathering.

The Great Greyhound Gathering is the biggest event organised each year by the Retired Greyhound Trust, the national charity that finds loving homes for greyhounds when they retire from racing. This exciting day out is sure to delight and entertain the whole family, including family dogs.

Throughout the day there will not only be classes for greyhounds, but also classes for other breeds of companion dogs as well as entertaining novelty classes. In addition to the dog classes, there will be dozens of trade stands offering a wide range of unique gifts, doggy accessories and tasty refreshments. Young people are welcome to visit the 'Kidz Korner' where they can play games and participate in fun activities and competitions to win prizes.

Samuel Zelmer-Jackson, Media Manager for the RGT said: *"This is the eighth year of the Great Greyhound Gathering and it just keeps growing every year. It is amazing to see so many well-behaved pets at one location while their owners take part in the activities and fun. If you are a greyhound owner and want to treat your four-legged friend to a great day out, this is the perfect opportunity."*

"I would encourage anyone who has considered adopting a greyhound to come along and spend some time around this noble breed to find out why they make such fantastic pets."

Registration on the day begins at 9.30am with the dog classes beginning at 11:00am. Entry is £1 for adults and free for children under 16. Parking is free at the Racecourse. Visitors can register online early for the show classes visiting **www.retiredgreyhounds.co.uk/Great-Greyhound-Gathering**.

GEORGE CURTIS TRIBUTE BY BOB BETTS

GEORGE CURTIS, one of the sport's greatest trainers, celebrates his 91st birthday on September 22.

The trainer of world champion Ballyregan Bob is still going strong at his home in Henfield, West Sussex.

Bob's achievement in passing American hero Joe Dump's straight-win record as he registered his 32nd consecutive victory over six bends at home track Brighton and Hove in December, 1986 was shown on national TV.

Ballyregan Bob, bred in Ballagh, Ireland, was a Ballyheigue Moon – Evening Daisy brindle and he twice won the Greyhound of the Year award.

Curtis, who lost his wife Lily in February this year, said last week: *"I was only 14 and had to lie about my age to get a job with Bill Peters at Portsmouth in the late 1930s."*

"He was a lovely man and treated me just like a son. He helped me tremendously and taught me about greyhound racing."

"Bobby was a great dog and he came to me after winning his only race in Ireland, in 28.48 at Tralee."

'Gorgeous George', as he was affectionately known, is still pretty active despite a few aches and pains.

He added: *"I've had a problem with an ulcerated leg, so I've not been very busy recently."*

"I did cut the grass today, but it's hard work nowadays. I've had a great life and couldn't have done it without Lil. It's lonely here without her and I miss her badly."

Hove trainer Derek Knight and one of his former owners Bert Cusack (part-owned triple Scurry winner Yankee Express) keep in constant touch with George.

Any good wishes to George Curtis can be directed through Derek Knight at Hove.

ANNUAL VETERINARY KENNEL INSPECTIONS

All Trainers are reminded that it is a requirement to have a Veterinary Surgeon carry out an annual inspection of their residential kennels. A form was enclosed in the July 4 edition of the GBGB Calendar that must be completed and returned to the GBGB by the inspecting Veterinary Surgeon no later than **Tuesday 30th September 2014**.

Failure to arrange for this form to be completed and returned by the due date will result in a delay in issuing a licence renewal for 2015 as this will not be processed without a completed Veterinary Inspection form. If the form is misplaced, additional copies can be obtained by calling the GBGB office on **0207 822 0927**. All Trainers are asked to contact their Veterinary Surgeon as soon as practicable to make an appointment.

TRAP DRAW PROCEDURE

Following the recent change to Rule 80 the draw procedure for Open Race competitions is now very different. The draw procedure for Finals and one-off events remains unaffected.

Competition Trap Draws are now structured by drawing the three different groups of seeds (Rails, Middle and Wide) in separate draws, in the correct order. It is no longer a case of putting all the names in the hat and drawing one heat at a time.

The first draw is for the Rails runners. The first Railer drawn gets Trap One in Heat One. The second Railer Drawn gets Trap One in Heat Two and so on. When all the Trap One's have been allocated the next Railer drawn will be placed in Trap Two in Heat One. The next Railer drawn will go into Trap Two in Heat Two and so on. You continue to fill the Traps in this way until you have no more Rails runners left.

This would mean that if you have 24 Railers in a draw of 36 greyhounds you would have Traps 1 to 4 allocated for each Heat. If you have 25 Railers in a draw of 36 greyhounds you would have Traps 1 to 5 allocated in the Heat One and Traps 1 to 4 allocated for Heats Two to Six.

For the distribution of seeds to work correctly you must then draw the Middle seeded runners next.

The Middle seeded runners are drawn in reverse Heat order. The first Middle seed is placed in the last available Heat immediately outside the last Rails runner. The second Middle seeded runner is then placed in the previous Heat, outside the last Rails runner and so on. This ensures that the later Heats will have the most Middle seeded runners whereas the earlier heats will have the most Railers.

Following on from the previous examples, with 24 Railers and 4 Middle runners, Heats One and Two will have 4 Railers and zero Middle runners. Heats Three to Six will have 4 Railers and One Middle runner in each Heat. If you had 24 Railers and 7 Middle runners, Heats One to Five will have 4 Railers and One Middle in each Heat. Heat Six will have 4 Railers and 2 Middle runners.

Once all the middle seeds have been drawn, only then can you draw the Wide seeded runners.

The third draw will see the first Wide Seeded runner placed in Trap Six in the lowest Heat available. This may not be Heat One, but this is not a problem as the seeds will still be distributed equally e.g. in a draw for 18 runners with 13 Railers, 3 Middles and 2 Wides, the first Wide runner drawn will be placed in Trap 6 in Heat Two.

The second Wide runner drawn will be placed in Trap 6 in the next Heat and so on until all of the Trap 6 runners have been drawn. The next Wide runner to be drawn will be placed Trap 5 in the lowest Heat number and so on. Simply put, it is a case of filling in the blanks with the remaining Wide runners.

In summary there are some important factors to consider when Competition Draws are made:

- Seeds must be drawn in the correct order. Rails then Middles then Wides.
- Guarding is only valid for the First Round of a competition (except the Greyhound Derby). Be mindful of Guarding issues when planning the draw.
- Any vacant traps in the draw due to lack of entries must be treated as Middle seeds and must be guarded against each other.
- Any vacant traps due to disqualification or withdrawal must be drawn as the seed of the disqualified/withdrawn greyhound.
- You no longer need to determine which Heats will have the vacant traps by draw as the new draw procedure will determine this.
- Competition Trap Draws will now take longer than has previously been the case, but this is necessary to ensure an equal distribution of the seeded runners.

IMPORTANT ADVICE FOR TRAINERS
(Reissue of advice published in 2nd December 2011 Calendar)

Herbal Remedies and “Natural” Supplements

There is an increasing trend to seek out Natural products to administer to racing greyhounds for a number of reasons; some relating to health issues and others in the endeavour to affect performance. Although many human supplements and health-food products claim to be from natural sources, their use may be ill-advised for several reasons:

- Plant extracts used in these products may contain small amounts of substances which are the same as chemically produced medicines. Using them in greyhounds will result in a positive drug test. Examples might include valerian, reserpine, hyoscine.
- The doses stated are often only given for human use; greyhounds and humans have very different ways of dealing with chemicals in the body and therefore possible overdosing and side-effects can result from their use.
- Some products such as theobromine or 5-hydroxytryptophan (5-HTP) could be fatal if used in greyhounds.

Trainers are reminded that they are responsible under Rule 214 for ensuring all food, vitamins, minerals and additives fed to the Greyhounds in their charge are free from any substance that may falsely affect their performance or prejudice their welfare. Furthermore, under Rule 217 a Greyhound when taking part in a Race or Trial must at that time be free of any substance that could affect its performance or well being, the origin of which could not be traced to normal and ordinary feeding.

Of course some supplements are safe and appropriate to use in racing greyhounds but trainers are strongly advised only to use such products on the recommendation of a veterinary surgeon who will be able to advise whether the supplement is suitable and safe.

NB. Misuse of supplements may result in disciplinary action

LOCAL INQUIRIES

1 **Doncaster Stadium – WENDYS PRIDE**

At a local inquiry held by the Area Stipendiary Steward on 22 August 2014, greyhound trainer, Mr G Wilson's explanation was accepted in respect of the improved performance of the greyhound WENDYS PRIDE at Doncaster Stadium on 19 July 2014.

Opening at 6/4 and starting at 9/4, the greyhound had won a 483m race recording a calculated time of 29.90 seconds as compared with its best recent time of 30.20 seconds recorded in a race on 11 April 2014.

2 **Hall Green Stadium – POOL GUY**

At a local inquiry held by the Area Stipendiary Steward on 13 August 2014, professional trainer, Mr SJ Rayner was fined £100 for a breach of Rule 49(iv) & 216 in respect of the improved performance of the greyhound POOL GUY at Hall Green Stadium on 27 June 2014; and his failure to use his best endeavours to ensure that the performance of the greyhound was to the satisfaction of the Stewards, and failing to maintain his kennel and treatment books

In reaching the decision the Area Stipendiary Steward took into consideration the admission of breaches by the Racecourse Executive and the implementation of a new system, which will prevent this from happening again.

4 **Kinsley Stadium – BOGSIDE PILOT**

At a local inquiry held by the Area Stipendiary Steward on 24 August 2014, professional trainer, Mr R Thompson's explanation was accepted and no further action taken in respect of the improved performance of the greyhound BOGSIDE PILOT at Kinsley Stadium on 27 June 2014.

Opening and starting at 5/2, the greyhound had won a 462m race recording a calculated time of 28.27 seconds as compared with its best recent time of 28.88 seconds recorded in a trial on 14 June 2014.

5 **Pelaw Grange Stadium – THISISNOLIE**

At a local inquiry held by the Area Stipendiary Steward on 17 August 2014, greyhound trainer Mr R Rotherham was cautioned and fined £100 for a breach of Rule 216 in respect of failing to keep his kennel and treatment books up to date.

Mr Rotherham received the greyhound THISISNOLIE into his kennel on 12 April 2014 and failed to enter the details in his kennel book, the greyhound was subsequently injured in an accident at his kennels on 14 April 2014 and needed Veterinary treatment and medication which he also failed to enter in his treatment book.

The Disciplinary Committee wish to advise those appearing before them as "the affected person" that the Disciplinary Committee has the discretion to take account of any previous breaches of the rule(s) of racing which they consider are relevant to a case being heard before them irrespective of the date of commission of the breach.

DISCIPLINARY COMMITTEE INQUIRIES

The Disciplinary Committee of the GBGB were in attendance at a meeting held on 16 September 2014:-

Dr AJ Higgins (in the chair)
Mr R Coughlan
Mr A Hunt
Mr H Starte (observing)

1 REGISTERED OWNER MR DT MONKTON – ANIMAL WELFARE

Registered Owner Derek Monkton was found in breach of rules 2, 152 (i) and (ii) and 174 (xi) of the GBGB Rules of Racing and the Disciplinary Committee also found that rule 176 applied in relation to Mr Monkton's conviction on 28 March 2014 at Redditch Magistrates' Court of two offences contrary to the Animal Welfare Act 2006.

Mr Monkton did not attend the inquiry and offered no explanation. Clive Carr, investigating officer, was in attendance.

The Disciplinary Committee found that Mr Monkton failed to have full regard to greyhound welfare or to accept the provisions of the Animal Welfare Act (2006) in that he had two convictions under the Act in 2005 and 2014, the latter for breaching a lifetime ban for keeping animals. The Committee did not accept Mr Monkton's contention that he was not banned by the courts from owning animals; indeed the order of 28 March 2014 stated clearly that he breached the disqualification in that he had custody of animals namely rabbits and greyhounds. The Disqualification specified, inter alia, any owning, keeping, or participating in the keeping of animals.

In terms of rules 152 (i) and (ii) the committee found that Mr Monkton had acted in a manner prejudicial to the integrity, proper conduct or good reputation of greyhound racing. In the light of the evidence of the condition of the teeth of the greyhound GYPSY and the reported comment from the RSPCA that this caused her pain and suffering the committee also found Mr Monkton in breach of rule 174 (xi).

The Disciplinary Committee considers any breach of the Animal Welfare Act to be a most serious matter. In all the circumstances of the case, they ordered that Mr Monkton be warned off indefinitely.

With regard to the GRB's submission on rule 176, the committee agreed that any greyhound registered in the name of Mr Monkton's partner, or associate at the time of his warning off should be disqualified and the GBGB should refuse registration of any greyhound in the name of such relative or associate.

2 NEWCASTLE STADIUM – GEMSTONES ROVER

Professional Trainer George Gibbinson was found in breach of rules 174 (i)(b) and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound GEMSTONES ROVER at Newcastle Stadium on 2 April 2014 was analysed by LGC Health Sciences as containing the presence of 6 α -hydroxystanozolol, a metabolite of stanozolol.

Mr Gibbinson apologised for his non-attendance. The committee noted the current serious health condition of Mrs Gibbinson. Apologies were also received from Paul Twinn, racing manager of Newcastle Stadium. Professor Tim Morris, independent scientific adviser, Alex McTaggart, area stipendiary steward and Clive Carr, investigating officer, were in attendance.

On the balance of probabilities, supported by the scientific evidence, the Disciplinary Committee found that Mr Gibbinson did not deliberately administer stanozolol to GEMSTONES ROVER but that the urine did contain a metabolite of the drug, presumably administered at some point before he purchased the greyhound.

In cautioning Mr Gibbinson, the Disciplinary Committee urged all trainers to exercise due diligence in assessing the drug status of greyhounds they purchase from Ireland. The committee warned Mr Gibbinson that they would not expect him to appear before them again with an anabolic steroid positive.

The Disciplinary Committee of the GBGB were in attendance at a meeting held on 18 September 2014:-

Dr AJ Higgins (in the chair)
Mr R Woodworth CBE
Mr A Hunt
Mr H Starte (observing)

1 Henlow Stadium – HARRYS QUEEN

The evidence having been heard, the Committee adjourned the conclusion of the Inquiry to a later date when the decision will be announced.

2 Professional Trainer Miss Joy Andrews / Former Licensed Kennelhand Mr Michael Lanaghan

Professional Trainer Joy Andrews was found in breach of rules 9(i), 49(i)(a) & (b), 152 (i) & (ii), 174 (v) of the GBGB Rules of Racing into:

- the employment, on or before 15th April 2014, of Mr Michael Lanaghan as a kennelhand when not licensed by the Greyhound Board of Great Britain in such capacity,

- that Miss Andrews was fully cognisant of the fact that the Director of Regulation had refused Mr Lanaghan a kennelhand licence on 31 January 2014; and

- that Miss Andrews allowed greyhounds in her care to fall out of her control, or the control of a kennelhand licensed in respect of her kennels.

Former licensed kennelhand Michael Lanaghan was found in breach of rules 9 (i), 49 (i)(b), 152 (i) & (ii), 174 (v) of the GBGB Rules of Racing in that:

- That Mr Lanaghan took employment, on or before 15th April 2014, as a kennelhand with Professional Trainer Miss Joy Andrews when not licensed to do so by the Greyhound Board of Great Britain,
- that Mr Lanaghan was fully cognisant of the fact that he was refused a kennelhand licence by the Director of Regulation on 31 January 2014; and
- that Mr Lanaghan assumed responsibility of greyhounds in the care of Professional Trainer Miss Joy Andrews when not licensed to do so.

Both Miss Andrews and Mr Lanaghan were in attendance. Clive Carr, Investigating officer and Paul Illingworth, Senior Stipendiary Steward were also present.

The breaches were admitted. Mitigation was heard from both parties and a letter of support on behalf of Miss Andrews and Mr Lanaghan from Mr A Grimshaw considered. The Disciplinary Committee gave due credit to both parties for attending the hearing and admitting the breaches of the Rules of Racing. The Disciplinary Committee also took into account the previous good record of Mr Lanaghan. The Disciplinary Committee noted the previous breaches of Miss Andrews but decided that as the breaches were not recent nor of the same character as that alleged here they would on this occasion not take account of them.

The Disciplinary Committee was satisfied that both parties were aware that they had deliberately breached the rules and had clearly expressed their intention not to repeat the offences. The Committee commented that they hoped not to see either party before them again. For the breaches they ordered that Miss Andrews be severely reprimanded and fined £250. Mr Lanaghan was reprimanded and fined £150.

LOCAL INQUIRIES

1 Crayford Stadium – AIRFOCE MOJO

At a local inquiry held by the Area Stipendiary Steward on 28 August 2014, the Racecourse Executive at Crayford Stadium was cautioned

for a breach of Rule 50(i) & 152(i) in that the greyhound AIRFOCE MOJO was allowed to compete in a race at Crayford Stadium on 12 July 2014 when not qualified to do so.

2 Doncaster Stadium – TOOTTOOTTOOTSIE

At a local inquiry held by the Area Stipendiary Steward on 12 September 2014, greyhound trainer, Mr JC Irving's explanation was accepted and no further action taken in respect of the improved performance of the greyhound TOOTTOOTTOOTSIE at Doncaster Stadium on 1 August 2014.

Opening at 3/1 and starting at 7/2, the greyhound had won a 483m race recording a calculated time of 30.18 seconds as compared with its best recent time of 30.79 seconds recorded in a trial on 12 July 2014.

3 Hall Green Stadium – DROOPYS GOOCH

At a local inquiry held by the Area Stipendiary Steward on 8 September 2014, professional trainer, Mrs AM Kibble was fined £150 a breach of Rule 49(iv) & 216 in respect of the improved performance of the greyhound DROOPYS GOOCH at Hall Green Stadium on 23 July 2014; and her failure to use her best endeavours to ensure that the performance of the greyhound was to the satisfaction of the Stewards, and failing to maintain her kennel book.

Opening at 5/4 and starting at 4/5F, the greyhound had won a 480m race recording a calculated time of 28.64 seconds as compared with its best recent time of 29.39 seconds recorded in a trial on 4 July 2014.

MONITORING GREYHOUND HEALTH

The movement of greyhounds around the country is a regular occurrence, and from a disease risk point of view, preventing the spread of infection from one kennel to another needs to be considered. Since a disease is normally only present for a few days, it makes good sense to put new greyhounds into quarantine when they arrive. This allows any hidden disease to develop under controlled conditions, and should disease be apparent, only the greyhounds in quarantine will be affected.

The quarantine area is simply a small block of kennels separate from the main block.

As a general rule, a quarantine of eight days is sufficient - this is easy to manage as the day of the week a dog enters quarantine is the same day the following week when it can leave, e.g. for a Wednesday arrival, it can be released on the next Wednesday.

It is important to realize also that greyhounds cannot leave quarantine if new greyhounds have just entered - when new greyhounds enter, the quarantine "clock" is reset to eight days. In practice this means that the quarantine area must be empty and cleaned thoroughly before more greyhounds can enter.

Alongside the quarantine of new greyhounds, trainers need to be vigilant for unexplained cases of greyhounds being off-colour or lethargic, especially if they have a fever (raised temperature). The most important times to watch are within the two to three days after racing or transport.

These symptoms can be signs of serious lung disease, which although rare, does warrant awareness as if these cases are treated immediately by a veterinary surgeon they can recover completely. **Even a delay of a few hours "to wait and see" can easily be fatal.**

Any lethargic or ill greyhound with a fever (above 39.5°C / 103.1°F) must receive emergency veterinary treatment without delay. Treatment involves the use of intravenous antibiotics and fluids, and as such will require hospitalization at the veterinary practice.

Advice should be sought for urgent cases from your local vet, or for reporting and specific advice via the 24-hour GBGB Helpline on **0207 822 0913**. Information for trainers and veterinary surgeons on diseases, biosecurity and disinfection is available on **www.gbgb.org.uk**

The Disciplinary Committee wish to advise those appearing before them as "the affected person" that the Disciplinary Committee has the discretion to take account of any previous breaches of the rule(s) of racing which they consider are relevant to a case being heard before them irrespective of the date of commission of the breach.

RECONVENED HEARING OF THE INQUIRY HELD ON 18 SEPTEMBER 2014

The Disciplinary Committee of the GBGB were in attendance at a meeting held on 1 October 2014:-

Dr AJ Higgins (in the chair)
Mr R Woodworth CBE
Mr A Hunt
Mr H Starte (observing)

Decision of Disciplinary Committee.

Apologies had been received from Henlow Stadium and Mrs Hazel Kemp, who was represented by Mr R Holloway.

The Chairman said that the Disciplinary Committee had discussed the evidence and had reached a decision.

1 **Mr Kevin Boothby. Authorised representative, Henlow Stadium**

The Disciplinary Committee found Mr Boothby in breach of rules 2, 152(i) and (ii) and 174(xi) of the GBGB rules of racing.

- (a) Rule 2: in that, as authorised representative of Henlow Stadium, he failed to have full regard to the welfare of a greyhound HARRYS QUEEN on 5 September 2013;
- (b) Rule 152(i): in that, as authorised representative of Henlow Stadium, he was wholly or partly responsible for failing to take action he was expressly or impliedly required to take under the rules, and, as such,
- (c) Rules 152(ii): he acted in a manner prejudicial to the good reputation of greyhound racing.
- (d) Rule 174(xi): in that he permitted a greyhound, HARRYS QUEEN, to be treated in such a manner as caused, or was likely to cause, the greyhound unnecessary suffering.

2 **Mrs Hazel Kemp. Trainer of HARRYS QUEEN**

The DISCIPLINARY COMMITTEE found Mrs Kemp in breach of rules 2, 152(i), Appendix II (19 and 23) of the GBGB rules of racing.

- (a) Rule 2: in that she failed have full regard to the welfare of a greyhound HARRYS QUEEN on 5 September 2013;
- (b) Rule 152(i): in that she was wholly or partly responsible for failing to take action she was expressly or impliedly required to take under the rules.
- (c) Appendix II (19): in that the temperature of the vehicle she used to transport HARRYS QUEEN to Henlow stadium on 5 September 2013 was not maintained at between 10°C and 26°C at all times during transit. Moreover, a remote monitoring device, as stipulated

in the rule, was not in place to display the temperature in the greyhound cabin, and temperatures were not adequately monitored or records kept;

- (d) Appendix II (23): in that the maintenance of temperature and ventilation was not possible when the vehicle was stationary.

It is the submission of the GBGB that the DISCIPLINARY COMMITTEE must look at each alleged rule breach for each Affected Party. GBGB submit that the breaches have been proven and that the case is a serious welfare issue and one that could have been prevented. GBGB rejects the defence that the death of HARRYS QUEEN was simply 'one of those things'.

Reasons for our decision:

1. First of all, we are disappointed that the Licensed Track Veterinary Surgeon, Ms Olivia Cook, was not present at the Inquiry as she is licensed by GBGB and was given due notice to attend. There were a number of issues we would have wished to raise with Ms Cook. In particular:
 - a. Her decision not to take the temperature of HARRYS QUEEN on arrival when the bitch was in her written evidence 'mildly stressed and panting', or subsequently. We noted the comment by Expert Witness Mr Chandler that this failure was a 'tragic mistake' and that Ms Cook should have insisted on taking the dog's temperature;
 - b. Her failure to take blood and/or urine samples from the dead animal for analysis. Neither Mr Chandler, nor the second Expert Witness Mr Payne, saw this as a major technical problem. Moreover, under rule 173(iv) the track veterinary surgeon is required to take samples when a dog dies unexpectedly at a GBGB racecourse.
 - c. Her submission that HARRYS QUEEN may have died from malignant hyperthermia. In Ms Cook's absence and in the light of the evidence of the two Expert Witnesses we are unconvinced that malignant hyperthermia caused the death of HARRYS QUEEN.
2. With regard to Henlow, we noted the evidence that the duct work was exposed some 2 weeks before the fatal meeting on 5 September, and was replaced on 10 September, 5 days after the meeting. Mr Mellor gave conflicting evidence as to whether or not thermometers were present in the kennels on 5 September but we conclude on the balance of probabilities, supported by Ms Sams's evidence, that none was in place. We

found the views of Mr Mellor worryingly complacent concerning the ambient temperatures on 5 September, a day when we know from the Meteorological Office that temperatures in Henlow Town were 27°C at 2 p.m. High temperatures are compounded by humidity and would therefore be expected to be high in a small kennel inhabited by a panting and possibly wet dog. We were distressed to learn that no instrument was used to measure airflow in the kennel and by Mr Mellor's evidence that he assessed airflow simply using his hand.

3. Mr Payne gave evidence of the uneven airflow to the kennels and that the hot metal duct would have increased the temperature of the air feed. He opined that the temperature in HARRYS QUEEN's kennel would have been at least 30°C and we noted that, in his opinion, supported by scientific data, depending on the humidity the limit of tolerance for a dog is 27°C.
4. Mr Boothby told us that other pipework had not been covered and there had been no deaths. However, we point out that HARRYS QUEEN did die and, on the balance of probabilities, supported by the two Expert Witnesses, we accept that the lack of duct covering contributed to the heat overload that killed the dog, probably between 1940h and 2015h. Indeed, Mr Chandler commented that the removal of the duct cover was the most serious factor in the death of the dog and its removal must be seen as a 'serious welfare concern'.
5. We accept Mr Payne's evidence that the death of HARRYS QUEEN was consistent with heat stroke following a prolonged period of thermal stress compounded by the facilities at Henlow, the transportation of the dog and the hyperactive temperament of the dog itself.
6. With regard to Mrs Kemp. We noted Mr Payne's favourable report on his visit to the training kennels and we heard the submission from Mr Holloway concerning Mrs Kemp's welfare record and her experience in training, racing and transporting greyhounds. Nevertheless, the conditions were extreme on 5 September, dogs were seen to be stressed when coming off trials, and HARRYS QUEEN was mildly stressed and panting on arrival. There was some inconsistency about whether Mr or Mrs Kemp checked on HARRYS QUEEN at 1940h and clearly there was limited visual scope to assess the dog in the kennel but she was thought to be lying down and panting. She was dead by 2015h.

7. We feel that Mrs Kemp should have been more alert to the condition of the dog, which was known to have a hyperactive nature, known to be mildly stressed on arrival and known to have been panting on arrival. Mrs Kemp should also have given more thought to using the air conditioned car (rather than the van) for transporting for 90 minutes a dog that was known to be excitable. It is questionable whether the dog should have been taken to the track at all given the ambient temperature she said she recorded at the garden centre of 33°C. We also feel she should have encouraged the veterinary surgeon to assess the temperature of the dog on arrival.
8. We note that some lessons have been learned. Mr Boothby assured us that, for example, thermometers have been fitted in the kennels, new procedures are in place, fans have been upgraded and there has been some additional training of paddock staff. However, more is needed, particularly with regard to monitoring and recording air flows, better visibility of dogs in kennels, the provision of cool air into the kennels in hot weather and the responsibilities of the track veterinary surgeon.
9. We would advise GBGB to monitor developments at Henlow rigorously in the future. We would also suggest GBGB consider:
 - a. Rule 109(f) (h) and (i) and the need to be able to see dogs in kennels, the monitoring of kennel temperatures and air flow, the provision of cool air into the kennels in hot weather, and the standard of veterinary services.
 - b. Revising rule 109(i) so that the temperatures of the kennels are monitored at all times, not only when a greyhound has just raced.
 - c. Reviewing the procedures under rule 107 for the abandoning of race meetings so providing guidance to local stewards at times of extreme weather conditions;
 - d. Considering Appendix II (19) on the temperatures in vehicles transporting greyhounds and how this clause can be better worded and enforced;
 - e. Establishing more reliable processes to ensure that following the sudden death of a greyhound blood and urine samples are taken and analysed by the forensic laboratory and the results forwarded to GBGB.
 - f. Finally, Rule 6 as written places the responsibility on GBGB. For there to be an offence, the breach needs to be specified, possibly in rule 109, or as necessary.

There was no mitigation offered by Henlow Stadium but the Director of Regulation stated that Mr Boothby had applied for and recently received a grant from the BGRF for new kennel ventilation.

Mitigation was presented by Mr Holloway on behalf of Mrs Kemp. Mr Holloway submitted that it was unfair on Mrs Kemp (1) that the Henlow Stadium veterinary surgeon had not been present at the Inquiry, (2) that trainers are unable to over-rule the decision of a track veterinary surgeon and (3) that no temperatures had been monitored at the stadium.

The GBGB made a submission on penalties. The Disciplinary Committee retired to consider the penalty.

Penalties:

1 **Mr Kevin Boothby, Authorised Representative of Henlow Stadium**

The Disciplinary Committee find Mr Boothby in breach of rules 2, 152(i) and (ii) and 174(xi) of the GBGB rules of racing and the sanction is a £5000 fine plus a severe reprimand.

The Chairman said that Mr Boothby should be under no illusion that the committee considered withdrawing Henlow's licence, but there was some evidence that lessons had been learned and the BGRF grant had assisted in this. The committee stressed that they would not expect Henlow Stadium or Mr Boothby to appear before them again with regard to welfare or veterinary issues.

2 **Mrs Hazel Kemp, Professional Trainer**

The Disciplinary Committee find Mrs Kemp in breach of rules 2, 152(i) and Appendix II (19) and (23) of the GBGB rules of racing and the sanction is a £500 fine plus a reprimand.

The Chairman said that the committee had listened carefully to Mr Holloway's mitigation and gave due weight to the expert evidence on the condition of her kennels. However, the committee does feel that Mrs Kemp should have given more thought on the night in question to the transport of HARRYS QUEEN, racing the bitch, and in monitoring the greyhound once it had been kennelled. We find she was clearly mistaken in not allowing the track veterinary surgeon to take the dog's temperature on arrival. The committee is confident that GBGB will review and advise Mrs Kemp on the airflow and temperature controls in her van. The committee also expects GBGB will carefully examine licensed veterinary surgeons' procedures in the light of the comments expressed in this Inquiry.

The Chairman thanked all for attending and concluded the meeting stating that the results would be published in the Calendar in the usual way.

DISCIPLINARY COMMITTEE INQUIRIES

The Disciplinary Committee of the GBGB were in attendance at a meeting held on 14 October 2014:-

Mr K Salmon (in the chair)
Mr J Akerman
Mr R Woodworth CBE
Mr H Starte (observing)

1 **Wimbledon Stadium – KEREIGHT KING – International Trainer Mr P Curtin**

International Trainer Patrick Curtin was found in breach of rules 152(i) and (ii), 174(i)(a) and 217 of the GBGB Rules of Racing in that urine samples taken from the greyhound KEREIGHT KING at Wimbledon Stadium on 12 April 2014 and 2 May 2014 were analysed by LGC Health Sciences as containing the presence of 6 α -hydroxystanozolol, a metabolite of stanozolol; and that he had administered or allowed to be administered a substance that could affect the performance and/or well being of the greyhound.

Mr Curtin was in attendance. Gary Matthews, racing manager of Wimbledon Stadium, Colin Betteridge, area stipendiary steward, and Professor Tim Morris, independent scientific adviser were also present.

The Committee received evidence from Professor Tim Morris that stanozolol is an anabolic steroid and is not available as a veterinary medicine in the Republic of Ireland. In the UK stanozolol is a Class C Controlled Drug with no veterinary licensed formulation. Professor Morris stated that stanozolol affects dogs as it does other animals and people, including building muscle. It may also have many serious side effects.

Professor Morris stated that, in his opinion, the 6 α -hydroxystanozolol found in the urine of KEREIGHT KING indicated an administration of stanozolol to the greyhound in the months previous to the collection of the urine samples on 12 April 2014 and 2 May 2014.

Mr Curtin is the trainer and part-owner of the greyhound KEREIGHT KING. The Committee received evidence that Mr Curtin was advised by telephone by Duncan Gibson, GBGB Manager of Welfare and Integrity, on 2 May 2014, that KEREIGHT KING had tested positive for metabolites of stanozolol on 12 April 2014. The greyhound was due to race in a first round heat of the Greyhound Derby on 2 May 2014. Mr Gibson advised Mr Curtin that stanozolol may have a protracted excretion rate and metabolites could be detected for an extended period of time following administration. Mr Gibson also advised Mr Curtin that, should he decide to race KEREIGHT KING that evening, the greyhound would be sampled again and may be subject to an additional inquiry should that

sample test positive. Mr Curtin decided to run the greyhound which once again tested positive.

Initially Mr Curtin could provide no explanation for the positive test other than contaminated horsemeat. Having heard the evidence of Professor Tim Morris on the balance of probability we reject that as a possible explanation.

As part of the GBGB investigation Mr Curtin answered written questions put by the stipendiary steward Colin Betteridge. In his answer to question 8 'Did the greyhound leave your charge or control at any time leading up to the race or trial' Mr Curtin replied 'No'.

At the beginning of September 2014 Mr Curtin provided a letter, dated 1 September 2014 from a Mr Noel Sexton, of Mullagh, County Clare, Ireland, which stated that from 30 November 2013 until 4 January 2014 the greyhound was in his charge having been sent there by Mr Curtin to recover from a toe injury. The letter goes on to state: "During this period I administered three injections of stanozolol. I had been advised that this would help with recovery to the damaged foot".

Mr Curtin also produced a letter from Michael Murphy, an ICC Control Steward dated 1 September 2014, stating that he had visited Mr Sexton's kennel on 12 December 2013, and that KEREIGHT KING was boarding at this kennel. When he was asked to provide more detail, in a letter dated 28 September 2014 he gave a conflicting account, stating that he had met Mr Sexton on the roadside and stopped and asked directions and that Mr Sexton had told him that the dog he was walking was KEREIGHT KING.

Mr Curtin puts the above version of events forward as the true explanation of how the greyhound tested positive.

Mr Donnelly on behalf of GBGB asks us to reject that explanation as fabrication. He further asks us to conclude that the reason for that fabrication was to exonerate Mr Curtin from responsibility of administering stanozolol to the greyhound.

On the balance of probability we cannot accept Mr Curtin's account as true.

Firstly, we find the idea that Mr Curtin would entrust a dog of very high value to Mr Sexton inherently improbable.

Secondly, we find the idea that Mr Sexton would administer any injection to such a dog without reference to the trainer inherently improbable, particularly since Mr Curtin tells us he gave detailed instructions to Mr Sexton regarding the greyhound's diet.

Thirdly, we are concerned that Mr Curtin gave a much more detailed account in evidence today than that set out in Mr Sexton's letter. He stated that Mr Sexton obtained the

stanozolol from a vet who was imprisoned for drugs offences and subsequently died. He also states that Mr Sexton did not know at the time he administered the injection that it contained stanozolol. We find it of concern, that, if true, these details were not included in Mr Sexton's written evidence.

Fourthly, we cannot accept that the discrepancies in Mr Murphy's evidence can be explained as a mistake. The two versions are wholly inconsistent one with the other. That being so, we cannot accept Mr Murphy's evidence as a correct account.

In all the circumstances, therefore, we reject this account. We are therefore driven to the conclusion on the balance of probabilities that Mr Curtin administered stanozolol himself or that it was administered with his knowledge.

It follows that we find that Mr Sexton did not administer stanozolol to KEREIGHT KING. The Committee acknowledged that the Director of Regulation initially asked the Committee to consider warning off Mr Sexton, but having heard the evidence rejected Mr Sexton's admission that he administered stanozolol and did not take any further action in relation to that admission.

We would add that although we have heard oral evidence from Mr Curtin neither Mr Sexton nor Mr Murphy attended this inquiry, which we found unhelpful.

There were very serious breaches of the rules of racing. The Committee noted the evidence of Professor Tim Morris as to the effects of stanozolol which by its nature could affect the performance of a greyhound and prejudice the well being of a greyhound. As such the breaches affect the welfare of the greyhound and threaten the integrity of greyhound racing in such a way that public confidence may be undermined.

In all the circumstances the Committee ordered that Mr Curtin be severely reprimanded and fined £3,000. The disciplinary committee ordered that this penalty be accompanied by an advisory notice stating that any further serious breaches of the GBGB Rules of Racing may render Mr Curtin subject to an increased penalty which may include disqualification.

In imposing the penalty the Committee took into account a previous breach of the Rules of Racing by Mr Curtin following a positive test for stanozolol in a heat of the Wimbledon Greyhound Derby in May 2009.

2 **Crayford Stadium – BARAN VICTORIA – Professional Trainer Mr S Gammon**

Professional Trainer Steve Gammon was found in breach of rules 174 (i)(b) and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound BARAN

VICTORIA at Crayford Stadium on 17 April 2014 was analysed by LGC Health Sciences as containing the presence of atenolol.

Mr Gammon was in attendance. Daniel Rayment, racing manager of Crayford Stadium, Richard Brankley, authorised representative, Lorraine Sams, area stipendiary steward and Professor Tim Morris, independent scientific adviser were also present.

The Committee received evidence from Professor Tim Morris in which he stated that atenolol is not available as a veterinary medicine in the UK. It is a beta blocker for humans primarily used to treat high blood pressure by slowing the heart rate. Professor Morris stated that beta blockers are not an uncommon source of poisoning incidents in pet dogs. It is therefore a substance which, by its nature, could affect the performance and/or well being of a greyhound.

In his written evidence Daniel Rayment, racing manager of Crayford Stadium, stated that he considered the performance of **BARAN VICTORIA** in the race in question to be acceptable. The greyhound missed its break and was crowded twice. In Mr Rayment's opinion the greyhound recorded a good time taking these factors into account.

Professor Morris advised the Committee that the concentration of atenolol estimated by LGC (30-40ng/ml), and the presence of the metabolite hydroxyl atenolol with an analytical signal approximately 20 times less than atenolol, is consistent with studies where atenolol is administered to dogs. He considered that **BARAN VICTORIA** would have been exposed to a significant dose likely to have an effect and likely to have been administered 1-3 days previous to the collection of the sample.

In written evidence Mr Gammon stated that one of his employees was prescribed atenolol for a medical condition. Mr Gammon considered this employee to be trustworthy and that he would not administer atenolol deliberately. His tablets were kept in separate accommodation and he had not been seen taking his medication in the vicinity of the greyhounds or kennels. Professor Morris stated that, as the tablets produced in evidence are film coated, cross contamination from handling whole tablets is an unlikely explanation for the finding of atenolol in the urine of **BARAN VICTORIA**.

Mr Gammon could offer no explanation for how the banned substance came to be present in the greyhound's system. He stated that following the positive test result he had changed his kennel routine in case this was a possible source of contamination. However, the evidence of Professor Morris was clear in pointing to the administration of a dose of atenolol as opposed to accidental contamination.

Some of the GBGB Rules of Racing impose strict liability on the trainer. The Committee took into account the fact that there were no previous breaches recorded against Mr Gammon. He had attended this inquiry and advised the committee that he had made changes to his kennel routine since being notified of the positive sample. Having said that, atenolol is a drug which by its nature can affect the performance of a greyhound and prejudice its welfare. In all the circumstances the Committee ordered that Mr Gammon be reprimanded and fined £500.

3 **Henlow Stadium – WESTMEAD ROBERTO – Professional Trainer Mr N Savva**

Professional Trainer Nick Savva was found in breach of rules 152 (i) and (ii), 174 (i) (a), 216

and 217 (all admitted) of the GBGB Rules of Racing in that a urine sample taken from the greyhound **WESTMEAD ROBERTO** at Henlow Stadium on 16 February 2014 was analysed by LGC Health Sciences as containing the presence of carprofen.

Mr Savva was in attendance. Professor Tim Morris, independent scientific adviser and Lorraine Sams, area stipendiary steward, were also present. Paul Mellor, racing manager of Henlow Stadium, apologised for his non- attendance

The Committee received information from Simon Gower, GBGB Veterinary Director, that carprofen is a non-steroidal anti-inflammatory drug (NSAID) used in veterinary medicine. It is licensed as a Veterinary Prescription Only Medicine (POM-V) and is indicated for the reduction of inflammation and pain caused by musculo-skeletal disorders and degenerative joint disease. Carprofen may only be prescribed by a veterinary surgeon.

In his written evidence Professor Tim Morris stated that all NSAIDs have the potential to induce adverse reactions some of which can be life threatening. In his oral evidence Professor Morris stated that carprofen is relatively safe but significant side effects are still possible.

Professor Morris added in written evidence that carprofen could have an indirect effect on a greyhound's performance by mitigating adverse effects of any pain or inflammation. Professor Morris concluded that, in his opinion, carprofen as an NSAID is a substance which, by its nature, could affect the performance and/or well being of a greyhound.

Based on clinical studies and the level of carprofen estimated in the urine sample of **WESTMEAD ROBERTO** (18ng/ml) on 16 February 2014, Professor Morris concluded that, in his opinion, carprofen had been administered 24-48 hours previously, and that the greyhound had raced under the effect of a clinically effective dose.

The Committee noted that the 'Point of Registration' sample taken from **WESTMEAD ROBERTO** on 26 August 2013 had also tested positive for carprofen. In response to a question from the Committee Mr Savva stated that **WESTMEAD ROBERTO** had been administered carprofen on three separate occasions, but he was unable to recall the dates when carprofen was administered to the greyhound. There were no records in the Greyhound Treatment Book of the condition requiring treatment, or the dosage regime, as required by the GBGB Rules of Racing.

Mr Savva had provided written answers to questions put to him at the local inquiry in which he admitted that **WESTMEAD ROBERTO** had been administered carprofen, and that he uses the drug for a "therapeutic purpose". He stated that he purchases all medications from his veterinary surgeon.

In response to a written request from the Director of Regulation for access to clinical notes from Mr Savva's veterinary surgeon to assist the inquiry, Mr Savva stated that **WESTMEAD ROBERTO** has never been examined or scanned by a veterinary surgeon for any sickness or injuries.

Mr Savva admitted breaching the rules, that he had made a mistake, and stated that he no longer uses the drug.

The Committee acknowledged that Mr Savva had attended the inquiry and had admitted breaching the rules. However these were serious breaches of the rules of racing involving the administration of a drug which by its nature could affect the performance of a greyhound and prejudice its welfare. The failure to keep any record in his Greyhound

Treatment Book is serious and significant and has hampered this inquiry. In all the circumstances the Committee ordered that Mr Savva be severely reprimanded and fined £1,000.

The Disciplinary Committee of the GBGB were in attendance at a meeting held on 15 October 2014:-

Mr K Salmon (in the chair)
Mr J Akerman
Mr R Woodworth CBE

1. **ROMFORD STADIUM – TYRUR ANDY – Professional Trainer Mr J Mullins**

Professional Trainer Mr John Mullins admitted breaches of rules 152(i) and (ii), 174(1)(b), 216, and 217 of the GBGB rules of racing in that a urine sample taken from the greyhound **TYRUR ANDY** at Romford Stadium on 28 February 2014 was analysed by LGC Ltd. as containing the presence of amphetamine. A hair sample from **TYRUR ANDY** taken on 28 March 2014 was analysed by LGC Ltd. as containing the presence of amphetamine.

Mr Mullins was in attendance, accompanied by his wife Deborah Mullins and represented by Howard Berlin. Character witnesses Keith Parkin and Chris Waters were in attendance together with chartered biologist Paul Powles. Clive Carr, investigating officer, and Professor Tim Morris, independent scientific adviser were also present.

The Disciplinary Committee took evidence from Professor Morris who stated that Amphetamine is a class B Schedule 2 Controlled Drug, possession of which is a serious criminal offence that can attract a custodial sentence. It is not available as a veterinary medicine and has no therapeutic application in dogs. Amphetamine as a stimulant of the nervous and cardiovascular systems is a substance which by its nature could affect the performance of the greyhound or prejudice its welfare.

At the local inquiry on 1 April 2014 Mr Mullins stated that he had not administered amphetamine. He had requested that hair sample tests be carried out. On 28 March 2014 such tests had been carried out by LGC and subsequently showed the presence of amphetamine. At a directions hearing on 31 July 2014 a further test for amphetamine and metabolites of amphetamine was ordered. This was carried out by the Australian Racing Forensic Laboratory. The results of that test were received on 8 October 2014 and were positive. In a skeleton argument dated 8 October 2014 filed on behalf of Mr Mullins he admits breaches of rule 174 (1)(b).

During the course of the investigation carried out by Clive Carr, Mr Mullins' Greyhound Treatment and Kennel Books were inspected. Tyrur Andy underwent surgery on 28 May 2013 and 10 September 2013. There is no contemporaneous record of those treatments, however on 1 April 2014, after the local inquiry, a retrospective entry was made for 10 September. Further, Mr Mullins shows **TYRUR ANDY** arriving at his kennel on 21 November 2012. That entry is not contemporaneous on its face. Mr Mullins has always admitted that he failed properly to maintain his kennel and treatment books.

By an email of 14 October Mr Mullins agreed the basis on which he admitted the various breaches;

1. Mr Mullins admits a breach of Rule 174(i)(b) because a dog in his charge, Tyrur Andy, showed the presence of amphetamine both in respect of the urine and hair samples. The GBGB does not suggest more than one ingestion of Amphetamine;

- Mr Mullins admits that he is in breach of Rule 152(i) because Tyrur Andy was in his charge as the Greyhound's trainer at the time of the ingestion and the positive test for Amphetamine;
- Mr Mullins admits a breach of Rule 152(ii) because Mr Mullins has acted in a manner that is prejudicial to the integrity, proper conduct and good reputation of Greyhound racing by having a dog in his charge that showed the presence of amphetamine. GBGB accepts that Mr Mullins has not published or caused to be published statements prejudicial to the integrity, proper conduct and good reputation of Greyhound racing;
- Mr Mullins admits a breach of Rule 217 because Tyrur Andy took part in a race when it was not free of a substance that could affect its performance;
- Mr Mullins admits a breach of Rule 216 because Mr Mullins failed to maintain his GBGB Greyhound Treatment Books and GBGB Kennel Books;
- The GBGB withdraws the charge that Mr Mullins breached Rule 174(i)(a);
- It is agreed that neither GBGB nor Mr Mullins can identify how the ingestion of amphetamine took place. Mr Mullins accepts that the ingestion of amphetamine took place at some point prior to Tyrur Andy's urine sample being taken at Romford on 28 February 2014. Mr Mullins does not suggest that Dr Ibello or Jon Forder were in any way responsible for ingestion of amphetamine;

The Disciplinary Committee heard evidence from Mr Powles and Professor Morris regarding the level of amphetamine in the urine sample taken from TYRUR ANDY. The Australian Racing Forensic Laboratory confirms this to be 4ng/ml. The Disciplinary Committee find that there are no inferences to be drawn from this which assist them in determining the correct penalty to be imposed.

The Disciplinary Committee heard evidence from Mr Mullins who confirmed his admissions and apologised for the breaches. The Disciplinary Committee accepts that Mr Mullins fully cooperated with the investigation.

The Disciplinary Committee heard evidence from Mrs Mullins about the failure to complete the treatment book. She said that this was her responsibility, but that during 2013 she suffered significant health difficulties and was hospitalised as a consequence of which entries were missed. She asked Clive Carr if it would be acceptable to make entries retrospectively and he told her that it would. Clive Carr confirmed this.

The Disciplinary Committee heard evidence from two character witnesses, Keith Parkin and Chris Waters, who were unstinting in their praise of Mr Mullins. The Committee also took account of a further eleven character references from owners, trainers and others involved in greyhound racing. The Committee is in no doubt that Mr Mullins is very highly regarded within the greyhound industry and manages an exemplary kennel. He is also deeply involved in rehoming retired greyhounds.

Set against that however is the fact that on 4 May 2005 Mr Mullins appeared before the NGRC stewards following a positive test for cocaine involving a greyhound SHAUN ME BOY at Walthamstow Stadium on 26 March 2005. Mr Mullins was found to be in breach

of rule 152(ii). He was reprimanded and fined £600.

On 17 May 2012 Mr Mullins was found in breach of rules 174 (b) and 217 of the GBGB rules of racing in that urine samples taken from the greyhound BUZZ DOC at Poole Stadium on 30 April 2011 and at Oxford Stadium on 26 June 2011 were analysed by LGC Ltd. as containing the presence of amphetamine. He was severely reprimanded and fined £750 in respect of each incident, a total of £1,500.

The Disciplinary Committee agrees with submissions made on behalf of GBGB by Louis Weston of counsel that drugs proscribed under the Misuse of Drugs Act should not play any part in greyhound racing. The penalty imposed must reflect that fact. This is the third occasion upon which Mr Mullins has appeared before the Disciplinary Committee or its predecessor. He has been reprimanded and severely reprimanded, apparently to no effect.

Having considered all circumstances of the case, the Disciplinary Committee ordered that Mr Mullins be disqualified for 6 months suspended for 2 years and fined £2,500 in respect of the breaches relating to amphetamine. The Committee imposed no additional penalty in respect of the Kennel and Treatment books and accepted Mr Mullins's evidence in that regard. The Committee is of the view that this is a significantly greater penalty than that imposed in 2012 which reflects the seriousness with which repeated breaches of this nature are dealt with. The Committee also ordered that Mr Mullins be served with a warning notice stating that any further breaches of the rules of racing will result in a more severe penalty which may include immediate disqualification.

GBGB made an application that Mr Mullins pay the costs of the inquiry of £21,080.30p on the basis that he should have admitted the breaches at the local inquiry or, at the very latest, by the end of June before solicitors and counsel were instructed and before these substantial costs had been incurred. By insisting on further tests including the Australian test Mr Mullins alone had increased the costs and he alone should be responsible.

Mr Mullins stated that the inquiries carried out on his behalf were necessary arising from a conflict of scientific evidence. He also stated that LGC had failed to supply him with complete case file which he was entitled to see and this had affected the approach Mr Powles had taken to the case.

The Disciplinary Committee starts from the proposition that an arraigned party should not be actively dissuaded from making proper inquiries regarding the case they face by the threat of a substantial award of costs being made against them. Equally, however, it cannot be right for an arraigned party to run up substantial costs to no purpose.

The Committee feels that there is some justification in the way that Mr Mullins and his team have conducted themselves in making investigations into the case against him. The Committee also takes into account the substantial costs that Mr Mullins himself has incurred. Having said that the Committee is of the view that some of the areas of inquiry pursued on Mr Mullins's behalf were not necessary and had the effect of increasing costs to no purpose.

Accordingly the Committee ordered that Mr Mullins pay £5,000 towards the costs of GBGB.

ACQUIRING GREYHOUNDS AND DOPING CONTROL

The majority of greyhounds racing under GBGB rules continue to be bred in Ireland and are imported into Great Britain. A Trainer will usually try to satisfy him/herself that the greyhound has not had any serious lameness in the past. It is, however, equally important that the Trainer makes all due and proper enquiries regarding the greyhound's feeding and medication regime from the person supplying the greyhound.

For example, recent research has established that anabolic steroids, such as stanozolol, have a prolonged excretion rate and can remain in the greyhound's system for up to 12 months. A greyhound that tests positive for an anabolic steroid will be prohibited from racing until the trainer can satisfy the GBGB that it is free from steroids and any other prohibited substance.

Any Trainer that presents a greyhound for racing that tests positive for a prohibited substance will be subject to disciplinary action. With regard to the disciplinary process there is still however, a tendency for a trainer to rely upon a letter at their Disciplinary Hearing, apparently written by the vendor or previous owner/ Trainer who accepts responsibility for the administration of the substance. Where such evidence cannot be validated it is of little, if any, use to the arraigned Trainer in mitigation.

The GBGB offer an elective test for steroid screening only to assist Trainers in complying with the Rules of Racing. The cost of each test is **£75 plus VAT**, to include a sample kit that will be provided by GBGB to the trainer and the cost of postage of the sample to the laboratory. Payment must be made in full to GBGB by cheque or credit/debit card prior to the sample kit being dispatched to the trainer.

The trainer will be provided with a Certificate of Analysis directly from LGC by first class post, normally within 14 days of receipt of the sample at LGC.

Anyone wishing to take advantage of the Elective Test option should contact the Registry Department at the GBGB on 020 7822 0926.

THE SUPPLY, STORAGE AND USE OF PRESCRIPTION MEDICINES

The Veterinary Medicines Directorate (VMD) is responsible for the authorisation and control of the manufacture and marketing of animal medicines in the United Kingdom.

There are four groups of medicines defined for the purposes of controlling the supply of medicines for animal treatment. This will be printed on the labelling of all licensed products.

The groups are:

- POM-V (prescription only medicine - veterinarians): these drugs may only be prescribed by a veterinary surgeon and supplied by a veterinary surgeon or a pharmacist against a veterinary surgeon's prescription;
- POM-VPS (prescription only medicine - veterinary surgeons, pharmacists and Suitably Qualified Persons (SQP)): prescribed only by a veterinary surgeon, a pharmacist or a SQP and supplied by these professionals;
- NFA-VPS (non-food animal - veterinary surgeons, pharmacists and SQPs): no prescription required - supplied by a veterinary surgeon, a pharmacist or a SQP;
- AVM-GSL (authorised veterinary medicine - general sales list): no prescription required - can be supplied by any retailer.

All POM (prescription only medicine) products require a prescription from a veterinary surgeon and must be individually labelled. Only veterinarians have the authority to prescribe other medicines not specifically licensed for use in dogs, but on a case-by-case basis only.

Trainers must be aware that regardless of the category, **all medicines must be supplied from within the UK**. The purchase and holding of medicines bought from outside the UK is illegal as is the purchase of these medicines for onward sale, including those purchased via the Internet. This includes those products intended for use as anti-parasitic treatments which may be licensed for use in other countries but which are not licensed for treatment of dogs in the UK. The VMD have the power to seize unauthorised medicines without compensation. Repeat offences may result in prosecution.

All medicines must be stored and used responsibly, which means in a locked cabinet and **their use always recorded in the GBGB Treatment Book**. If your veterinary surgeon administers a medicine, then this needs to be recorded as well. Medicines must not be passed to other people for use on their own animals, and trainers should only keep in stock what is needed for immediate use.

For more information, contact your veterinary surgeon, local track veterinary surgeon or the VMD (www.vmd.gov.uk).

IMPORTANT NOTICES

DISCIPLINARY COMMITTEE INQUIRIES

The Disciplinary Committee of the GBGB were in attendance at a meeting held on 28 October 2014:-

Dr AJ Higgins (in the chair)
Mr A Hunt
Mr K Salmon

1 **Sittingbourne Stadium – MAKEIT SPARKLE – Professional Trainer Mr F Gray**

A urine sample taken from the greyhound MAKEIT SPARKLE at Sittingbourne Stadium on 5 June 2014 was analysed by LGC Health Sciences as containing the presence of tetramisole.

Professional Trainer Frank Gray was found in breach of rules 152 (i) & (ii) of the GBGB Rules of Racing in that he failed to follow the rules (including the Trainer's Guide to Medication Control in Greyhounds) by administering to the greyhound MAKEIT SPARKLE a banned medicine which is not licensed in the UK for use in dogs, that Mr Gray sourced this from the internet without a veterinary prescription and therefore acted in a manner prejudicial to the proper conduct of greyhound racing as regulated by GBGB.

Mr Gray was in attendance and accompanied by his kennelhand Ms Linda Peddie. Ms Lorraine Sams, area stipendiary steward and Professor Tim Morris, independent scientific adviser, were also in attendance. Jess Packer, racing manager of Sittingbourne Stadium, apologised for his non-attendance.

The Disciplinary Committee gave credit to Mr Gray for openly admitting the breaches at the first possible opportunity. The expert evidence indicated that the substance was unlikely to affect the performance of the greyhound or prejudice its well-being, and the Committee accepted that view. They also noted Mr Gray's clean record.

The Committee advised GBGB to caution all trainers to follow carefully the Trainer's Guide to Medication Control in Greyhounds and not to source medication from the internet without prescription.

In all the circumstances of the case, the Disciplinary Committee ordered that Mr Gray be cautioned and fined £100.

2 **Brighton Stadium – ASHINGTON ADAM – Professional Trainer Mr A (Claude) Gardiner**

Professional Trainer Claude Gardiner was found in breach of rules 152 (i) & (ii), 174 (i)(b), 214 and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound ASHINGTON ADAM at Brighton Stadium on 24 April 2014 was analysed by LGC Health Sciences as containing the presence of 19-

norethisterone and 5β-estran-17α-ethynyl-3α, 17β-diol which has been detected in canine urine following the administration of 19-norethisterone.

Mr Gardiner was in attendance. Peter Miller, racing manager of Brighton Stadium, Ms Lorraine Sams, area stipendiary steward and Professor Tim Morris, independent scientific adviser, were also in attendance.

The Committee found a breach of rule 152 (i) & (ii) in that Mr Gardiner had failed to follow the Rules (including the GBGB Guide to the Use of Norethisterone as a Season Suppressant) by administering to ASHINGTON ADAM a banned medicine which is not licensed in the UK for use in male dogs and so acted in a manner prejudicial to the proper conduct of greyhound racing as regulated by GBGB.

He was also in breach of rule 174 (i)(b) in that he had in his charge a greyhound which showed in its urine evidence of norethisterone and metabolite, and that norethisterone by its nature could affect the performance of the greyhound or prejudice its well-being.

He was in breach of rule 214 in that the food given to ASHINGTON ADAM was not free of a substance that could affect the dog's performance or prejudice its welfare, and of rule 217 in that ASHINGTON ADAM was not free at the time of racing of a substance that had not been authorised for use in a male dog.

The Committee commended Mr Gardiner for admitting the breaches. He did however admit to carelessness and the Committee noted that he had now changed his feeding regime. Nevertheless, norethisterone is a Prescription Only Medicine with rigorous controls on its use in greyhound bitches. The Committee heard from the expert witness that norethisterone can affect performance and that giving female hormones to male dogs is not appropriate and gives rise to the potential for side effects. The Committee advised GBGB to caution all trainers to be very careful to avoid cross contamination with norethisterone and to ensure that norethisterone cannot inadvertently be administered to another greyhound for which it has not been prescribed.

The Committee recommended GBGB issue a revised Calendar Notice reminding trainers of this requirement.

Some of the GBGB Rules of Racing impose strict liability on the trainer or registered sales agent. In all the circumstances of the case, the Disciplinary Committee ordered that Mr Gardiner be reprimanded and fined £300.

3 **Swindon Stadium – FAITHFUL LINETT – Professional Trainer Mr RP Smith**

A urine sample taken from the greyhound FAITHFUL LINETT at Swindon Stadium on 23 April 2014 was analysed by LGC Health Sciences as containing the presence of tetramisole.

Professional trainer Mr Robert Paul Smith was in attendance. David Stow, racing manager of Swindon Stadium, apologised for his non-attendance. Colin Betteridge, area stipendiary steward, Simon Gower, Veterinary Surgeon and Professor Tim Morris, independent scientific adviser, were also in attendance.

Under point 8.7.5 of the GBGB Penalty Guidelines the Director of Regulation was required to bring this case before the Disciplinary Committee as a drug not licensed for use in dogs in the UK had been found in a urine sample taken from the greyhound FAITHFUL LINETT. On investigation, evidence was presented that the drug had been legitimately prescribed by a licensed veterinary surgeon under the procedure known as the cascade. The expert witness confirmed that the cascade had been appropriately used in this case, and the veterinary surgeon explained the justification for the use of the drug. The Committee found that there had been no breach of the Rules and the case was therefore dismissed.

The Committee recommended that GBGB should suggest to the Rules Review Committee that it may not always be necessary to bring such cases before the Disciplinary Committee as it may be possible to deal with them administratively by the Director of Regulation in consultation with the Independent Scientific Adviser.

4 **Monmore Green Stadium – KILLAHARRY ALICE – Professional Trainer Mr P Sallis**

Professional Trainer Paul Sallis was found in breach of rules 152 (i) & (ii), 174 (i)(b), 214 and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound KILLAHARRY ALICE at Monmore Green Stadium on 26 April 2014 was analysed by LGC Health Sciences as containing the presence of quinalbarbitone,

Mr Sallis was in attendance. Tony Williamson, racing manager of Monmore Green Stadium, Richard Brankley, authorised representative, Jack Robinson, area stipendiary steward and Professor Tim Morris, independent scientific adviser, were also in attendance.

Mr Sallis was found in breach of rule 152 (i) & (ii) in that he had failed to take action that under the Rules he was required to take, and so acted in a manner prejudicial to the proper

conduct of greyhound racing as regulated by GBGB.

He was also in breach of rule 174 (i)(b) in that he had in his charge a greyhound which showed the presence in urine of a metabolite of quinalbarbitone which by its nature could affect the performance of the greyhound or prejudice its well-being.

He was in breach of rule 214 in that he did not ensure that the food given to KILLAHARRY ALICE was free from any substance that might falsely affect performance or prejudice welfare and of rule 217 in that KILLAHARRY ALICE was not free of any substance that could affect its performance or well-being when taking part in a race.

The Committee accepted Mr Sallis's assertion that there was no wilful attempt to administer a prohibited substance to KILLAHARRY ALICE and, in the light of the expert advice, the Committee accepted that the most likely source of the substance was through the feeding of contaminated Category 2 meat. The Committee were disturbed by Mr Sallis's admission of ignorance of the GBGB Advice for Trainers on the Feeding of Red Meat which had led him to feed high risk material to racing greyhounds. The Committee noted with concern his previous breaches that may also have been meat related. They acknowledged Mr Sallis's statement that he was no longer feeding red meat and stated that they would not expect to see him before them again on a similar breach.

The Committee advised GBGB to reinforce the advice about the high risks involved in the feeding Category 2 meat, possibly by asking the stipendiary stewards to emphasise the dangers, as well as in a Calendar Notice.

Some of the GBGB Rules of Racing impose strict liability on the trainer or registered sales agent. In all the circumstances of the case, the Disciplinary Committee ordered that Mr Sallis be severely reprimanded and fined £1,200.

2014 GBGB AWARDS DETAILS

The sport's annual awards ceremony is returning to London and will be at the Lancaster Hotel on January 25th after being held at the Manchester Deansgate Hilton last year. The national ceremony celebrates the achievements of the greyhounds and their trainers, owners and kennel staff throughout 2014.

Tickets are priced at £80 per person for the glittering black tie event and include a drinks reception, three course dinner, wine and dancing until late. Rooms are available at the hotel at a discounted rate (further details and booking code to be confirmed).

Barry Faulkner, GBGB chief executive said:

"Last year's awards ceremony was one of the highlights of the greyhound year with our racing categories kindly sponsored by the BAGS, Betfred, Coral, Ladbrokes, Pinpoint Recruitment, Press Association Sport, Racing Post, SiS and William Hill. Again we hoping to get sponsorship of the various awards for this year's event which offers a great opportunity for companies to showcase their brand before the sport and join us on an evening of high excitement and anticipation."

17 awards will be presented at greyhound racing's gala awards evening.

Connections of the 2013 Greyhound of the Year Farloe Tango receive the trophy from GBGB Chairman Maurice Watkins and CEO Barry Faulkner.

For further general information and the sponsorship opportunities available, please contact the GBGB on **0207 822 0907** or email **awards@gbgb.org.uk**. 17 Awards will be presented on the night, including the third annual BAGS Track Championship trophy. ADVICE FOR TRAINERS: FEEDING RED MEAT

Feeding of Animal By-Products (ABPs)

A number of cases heard in the past and more recently by the Disciplinary Committee at GBGB involving greyhounds testing positive for various medicines that might originate from feeding meat. The guidance below is issued to trainers on the subject of feeding meat to racing greyhounds.

Regulation (EC) No 1069/2009 (ABPR) and the implementing regulation (EC) No 142/2011, divides Animal by-products (ABPs) into three categories, depending on their potential risk to public and animal health. These categories are:

- **Category 1** – which includes specified risk material (SRM), (the highest risk category) (this meat is stained blue in order to identify it). This category of meat must be disposed of by rendering or incineration and is not available for feeding to greyhounds
- **Category 2** – high risk – (this meat is stained black in order to identify it). It is available for feeding under certain conditions but may contain drug residues
- **Category 3** – low risk – (this meat does not require staining)
- The Greyhound Regulatory Board (GRB) advises trainers of racing greyhounds considering whether to feed any ABP to only use Category 3 meat. Feeding Category 2 meat would be considered an aggravating factor in any enquiry relating to greyhounds testing positive for various medicines that might originate from feeding meat.

Animal by-products are defined in article 3 of Regulation 1069/2009 as, “*entire bodies or parts of animals, products of animal only in or other products obtained from animals, which are NOT INTENDED FOR HUMAN CONSUMPTION.*” When a lower risk category of ABP is mixed or cross-contaminated with a higher risk category, the ABP’s in question become high risk. For example a Category 3 ABP mixed or cross contaminated with Category 2 ABP becomes high risk. As such it may contain residues and is therefore not recommended to be fed to the racing greyhound.

The Food Standards Agency (FSA) is the competent authority for issuing approvals for slaughterhouses, cutting plants and game handling establishments. In all other establishments where animal by-products are handled, registration or approval is the responsibility of the Animal Health and Veterinary Laboratories Agency (AHVLA). Trainers intending to use ABP’s must only source these products from a premises approved or registered to handle animal by-products by FSA and AHVLA.

On feeding ABPs to greyhounds trainers must ensure:

- (i) The kennels are ABP registered by the relevant competent authority (namely the local Animal Health and Veterinary Laboratories Agency office)
- (ii) That records of ABPs are kept for 2 years from the date of receipt
- (iii) That the category of ABP received from the supplier is identified on the receipt (sometimes referred to as an animal by-products Commercial (movement) Document which must conform with the requirements under regulation 142/2011 annex VIII Chapter III)

DISCIPLINARY COMMITTEE INQUIRIES

The Disciplinary Committee of the GBGB were in attendance at a meeting held on 11 November 2014:-

Mr J Akerman (in the chair)
Mr R Coughlan
Mr H Starte
Mr M Elks (observing)

1 **REGISTERED OWNERS MR A CHATTERS AND MRS JE DAVIES-CHATTERS – ANIMAL WELFARE**

Registered Owner Andrew Chatters was found in breach of rules 2, 152(i) and (ii) and 174 (xi) of the GBGB Rules of Racing by virtue of offences under the Animal Welfare Act 2006. Under prosecutions brought by the RSPCA, Mr Chatters had been convicted on 15 November 2013 at Brighton Magistrates Court of six offences under the Act, five of which convictions had been upheld on appeal to the Crown Court. The Disciplinary Committee also decided to exercise its power under Rule 176. Registered owner Jodie Davis-Chatters was found in breach of rules 12(i) and (v) in that she registered two greyhounds in her maiden name in 2006 when the rules required her to register them in her true or married name.

Mr Chatters and Mrs Davis-Chatters did not attend the inquiry and made no representations. Clive Carr and Jim Snowden, investigating officers, were in attendance.

The Committee heard evidence from Jim Snowden that the charges and convictions had been for breaches of the Animal Welfare Act 2006 involving nine greyhounds that were proved to be the responsibility of Mr Chatters. Two of the greyhounds, Rutland Lilly and Jodies Boy, were registered in the name Jodie Elizabeth Davis, the maiden name of Mr Chatters's wife, also known as Mrs Jodie Davis-Chatters.

The Disciplinary Committee heard that Mr Chatters had been convicted on charges of neglect causing unnecessary suffering to nine greyhounds between March and September 2012. Three greyhounds had been caused extreme suffering from dental disease; four had been caused extreme suffering from neglected skin conditions. The gravity of the offences was reflected in the penalties upheld or imposed by the Crown Court, including Mr Chatters being disqualified for three years from dealing in or owning or keeping or participating in the keeping or transportation of any animals. He received concurrent sentences of up to 22 weeks imprisonment, each suspended for two years. He was ordered to carry out 180 hours of unpaid work and ordered to pay costs and a victim surcharge totalling £12,332. He was also

ordered to pay a further £6,801 towards prosecution costs at the Appeal Hearing.

The Committee found Mr Chatters in breach of Rule 2 by virtue of these convictions and his proven failure to have full regard to greyhound welfare and to accept the provisions of the Animal Welfare Act 2006.

The Committee further found that by his conduct and convictions Mr Chatters was in breach of rules 152(i) and (ii), having acted in a manner prejudicial to the integrity, proper conduct or good reputation of greyhound racing. In the light of his conviction on several counts of causing greyhounds in his care unnecessary suffering, the Committee also found Mr Chatters in breach of rule 174(xi).

The Disciplinary Committee considers any breach of the Animal Welfare Act to be a serious matter and noted that the offences in this case were considered sufficiently serious by the Court to warrant suspended custodial sentences. In the circumstances of the case, and to reflect the gravity of the offences, the Committee ordered that Mr Chatters be warned off indefinitely and fined £5,000.

Mrs Davis Chatters was found in breach of rules 12(i) and (v) in respect of the inaccurate registration of greyhounds in 2006. The Committee received no evidence that this action was intended to deceive, and ordered that Mrs Chatters be cautioned.

With regard to the GRB's application that the Committee exercise its power under rule 176, the Committee agreed that in the circumstances of this case it was justified in exercising that power, so that any greyhound registered in the name of Mrs Jodi Davis-Chatters or in the name of any other person who the Committee believes to be a relative or associate of Mr Chatters shall be disqualified and the GBGB will refuse registration of any greyhound in the name of Mrs Jodi Chatters-Davis or in the name of any other person who the Committee believes to be a relative or associate of Mr Chatters.

2 **Crayford Stadium – FOYLE DEE – Professional Trainer Miss GL Davidson**

Professional Trainer Gemma Davidson was found in breach of rules 152(i), 174(i)(b) and 214 of the GBGB Rules of Racing in that a urine sample taken from the greyhound FOYLE DEE at Crayford Stadium on 3 June 2014 was analysed by LGC Health Sciences as containing the presence of hydroxyphenylbutazone, a metabolite of phenylbutazone.

Miss Davidson was in attendance accompanied by registered owner Brian Kelly. Professor Tim Morris, independent scientific adviser, Richard Brankley, authorised representative and Daniel Rayment, racing manager of Crayford Stadium, were also

present. Lorraine Sams, area stipendiary steward, was available by telephone.

In his written evidence Professor Morris stated that phenylbutazone is available as a prescription only veterinary medicine in dogs in the class of drugs described as Non-Steroidal Anti-inflammatory Drugs (NSAIDs). NSAIDs relieve pain, reduce fever and reduce inflammation.

Professor Morris stated that phenylbutazone is banned from use in food producing animals due to the secondary risk of contaminated meat and, when eaten, the risk of blood disorders in humans. He also stated his opinion that phenylbutazone and hydroxyphenylbutazone, as NSAIDs, are substances which by their nature could affect the performance of a greyhound or could prejudice the well-being of a greyhound.

In her written evidence Miss Davidson stated that she had been feeding Category 2 meat to her greyhounds for about 10-15 years. Since being informed of the positive sample, she had changed to Category 3 meat. The Committee noted the advice given to all Greyhound Trainers via the Calendar in November 2012, strongly recommending that racing greyhounds should only be fed Category 3 meat due to the high risk of drug residue contamination in Category 1 and 2 meat. Miss Davidson told the Committee she had been aware of this advice but had not followed it because she had never had a problem with a greyhound testing positive from contaminated feed.

Professor Morris stated in written evidence that Category 2 meat may contain drug residues such as phenylbutazone and its metabolite hydroxyphenylbutazone, after prescription by a Veterinary Surgeon for treatment of horses. In the light of the expert advice, the Committee accepted that the most likely source of the substance was through the feeding of contaminated Category 2 meat, and that phenylbutazone had not been deliberately administered to FOYLE DEE.

Miss Davidson was found in breach of rule 152(i) as she had failed to take action to ensure that the greyhound FOYLE DEE was free from a banned substance, namely a metabolite of phenylbutazone. In finding this breach the Committee was concerned that Miss Davidson had ignored the GBGB 'Advice for Trainers on the Feeding of Red Meat' by continuing to feed high risk meat to racing greyhounds.

Miss Davidson was in breach of rule 174(i)(b) in that she had in her care a greyhound which tested positive for a substance, which, by its nature, could affect the performance of the greyhound or prejudice its well-being. She was also in breach of rule 214 in that the food given to FOYLE DEE was not free from a

substance that might affect the greyhound's performance or prejudice its welfare.

The Disciplinary Committee acknowledged the Manager of Welfare and Integrity's recommendations concerning the breaches and noted a previous breach of the rules of racing by Miss Davidson in 2008, also involving an NSAID. The Committee acknowledged that Miss Davidson had appeared at this inquiry and had advised the Committee that she no longer feeds Category 2 meat or bones. The Committee also noted the comments in support of Miss Davidson made by Messrs Brankley, Rayment and Kelly. In all the circumstances of the case the Committee ordered that Miss Davidson be reprimanded and fined £300.

3 Belle Vue Stadium – RHODEN FLICKER – Professional Trainer Mr A Heyes

Professional Trainer Andrew Heyes was found in breach of rules 152(i) and (ii), 174(i)(a) and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound RHODEN FLICKER at Belle Vue Stadium on 27 July 2014 was analysed by LGC Health Sciences as containing tetramisole.

Mr Heyes was not in attendance. Professor Tim Morris, independent scientific adviser and Alex McTaggart, area stipendiary steward, were present. David Brayshaw, racing manager of Belle Vue Stadium, apologised for his non-attendance.

In his written evidence Professor Morris stated that tetramisole (known as levamisole) is available in veterinary medicine and is licensed in the UK for the control of parasitic intestinal worms in cattle and sheep. It is not licensed in the UK for use in dogs. Professor Morris added that it is only legally possible for veterinary surgeons to prescribe the use of medicines not licensed for use in a particular species under certain conditions; this is known as the 'cascade'.

The Committee heard that the GBGB's publication 'A Trainer's Guide to Medication Control in Greyhounds' provides that wormers and insecticides licensed for use in dogs are classed as 'permitted treatments', and also advises Trainers that the purchase and holding of medicines from outside the UK is illegal, including those purchased from the internet. Professor Morris stated that levamisole would only be a 'permitted treatment', being used as a wormer, if it was prescribed by a veterinary surgeon under the cascade. Otherwise it would be regarded as a 'banned medicine'.

In his written evidence Mr Heyes stated that he had purchased worming tablets from the internet over a year before the positive test, and that following a misunderstanding with his kennelhand over the identity of a greyhound needing to be wormed, the medication was mistakenly administered to RHODEN FLICKER by his kennelhand the day before it was due to race.

Alex Mc Taggart was shown by Mr Heyes the worming tablets in a container marked 'Fido's Closasole' which Mr Heyes stated was the product purchased from the internet. Mr Heyes was unable to provide supporting evidence as to where he had bought the product. Professor Morris stated that Fido's Closasole is a worming product licensed for dogs in Australia but not the UK.

In response to a question from the Committee, Professor Morris stated that tetramisole sourced from outside the UK could carry side effects which affect the welfare of the greyhound. Additionally, substances sourced from the internet represent a heightened risk to greyhound

welfare because of the risk that they are counterfeit or out of date.

The Disciplinary Committee found that Mr Heyes had breached rules 152(i) and (ii) by administering to the greyhound RHODEN FLICKER a banned medicine which is not licensed in the UK for use in dogs and which he had sourced from the internet without a veterinary prescription. He had thereby acted in a manner prejudicial to the integrity and proper conduct of greyhound racing as regulated by GBGB.

Mr Heyes was also found in breach of rule 174(i)(a) in that he had admitted to administering a substance which by its nature could prejudice the well-being of a greyhound. He was also in breach of rule 217 in that RHODEN FLICKER was not free at the time of racing of a substance that could affect its well-being.

The Disciplinary Committee acknowledged the Manager of Welfare and Integrity's recommendations concerning the breaches and accepted the expert advice that the administration of this medication sourced via the internet could carry a heightened risk to the welfare of the greyhound. The Committee was disappointed that Mr Heyes had not attended the inquiry to answer the Committee's questions but noted his good record.

Having considered the explanation provided and the circumstances of the case, the Disciplinary Committee ordered that Mr Heyes be reprimanded and fined £400.

4 Harlow Stadium – RAHEENDAW KING – Professional Trainer Mr G Davies

Professional Trainer Glynn Davies was found in breach of rules 152(i), 174(i)(a) and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound RAHEENDAW KING at Harlow Stadium on 27 June 2014 was analysed by LGC Health Sciences as containing tetramisole.

Mr Davies was in attendance. Professor Tim Morris, independent scientific adviser was also present. Lorraine Sams, area stipendiary steward, was available by telephone. Mark Schellenberg, racing manager of Harlow Stadium, apologised for his non-attendance.

In his written evidence Professor Morris stated that tetramisole (known as levamisole) is available in veterinary medicine and is licensed in the UK for the control of parasitic intestinal worms in cattle and sheep. It is not licensed in the UK for use in dogs. Professor Morris added that it is only legally possible for veterinary surgeons to prescribe the use of medicines not licensed for use in a particular species under certain conditions; this is known as the 'cascade'.

The Committee heard that the GBGB's publication 'A Trainer's Guide to Medication Control in Greyhounds' provides that wormers and insecticides licensed for use in dogs are classed as 'permitted treatments'. Professor Morris stated that levamisole would only be a 'permitted treatment', being used as a wormer, if it was prescribed by a veterinary surgeon under the cascade. Otherwise it would be regarded as a 'banned medicine'.

In response to a question from the Committee, Professor Morris stated that tetramisole could carry a risk to greyhound welfare if administered inappropriately and without veterinary supervision.

In his written evidence Mr Davies stated that, prior to the positive sample, RAHEENDAW KING had received no medication, and that he believed that the substance was in the

Greyhound's system when it arrived at his kennel on 1 June 2014.

In her written evidence Mrs Pamela Cross, the previous trainer of RAHEENDAW KING, stated that the Greyhound did not receive any medication during the two months that it was in her care and that her greyhounds were wormed with 'Drontal Plus'.

Professor Morris stated his opinion in his written evidence that levamisole is rapidly excreted unchanged in the urine of dogs, and that he considered it very unlikely that the tetramisole found in the urine sample taken from RAHEENDAW KING on 27 June 2014 originated from an administration of tetramisole/levamisole on or before 1 June 2014.

The Committee noted Mr Davies' assertion that neither he nor his staff administered tetramisole and did not find that Mr Davies had deliberately administered or authorised the administration of the substance. The Committee made no finding as to how the substance came to be in the greyhound's system. However in the absence of any other credible explanation the Committee was driven to conclude, on the balance of probability, that Mr Davies had allowed or caused tetramisole to be administered to the greyhound RAHEENDAW KING after it entered his care. He had failed to take action to ensure that the greyhound was free from a banned substance which by its nature could affect its well-being and was accordingly found in breach of rules 152(i) and 174(i)(a).

Mr Davies was also found in breach of rule 217 in that RAHEENDAW KING was not free at the time of racing of a substance that could affect its well-being.

The Disciplinary Committee acknowledged the Manager of Welfare and Integrity's recommendation that the penalty should reflect the expert advice that the administration of this medication could carry a risk to the welfare of the greyhound. The Committee took into account that Mr Davies had attended the inquiry, his good record and that he evidently cared for the welfare of his greyhounds. In the circumstances of the case the Committee ordered that Mr Davies be reprimanded and fined £300.

KENNELHAND OF THE YEAR 2014

At the Greyhound of the Year Awards human categories celebrated on the night include recognition of 2014's Kennelhand of the Year. The winner(s) receive a trophy, £500 and accommodation at the Lancaster Hotel, London. GBGB relies on owners, trainers and friends to nominate the person(s) they deem worthy of national recognition.

GBGB chief executive Barry Faulkner said: *"The bulk of nominations usually come from owners and trainers. Of course anyone in the industry can forward their suggestion to us and we need a few lines explanation as to why, in their opinion the person is worthy of winning. Kennelhands are some of the hardest workers in the industry, with the long hours and late nights and we want to hear about individuals whose exceptional dedication make them the backbone of our sport."*

Nominations must be received by
Wednesday 7th January 2015."

A panel comprising a number of industry experts will meet to discuss the relative merits of each nomination. Email **awards@gbgb.org.uk** with the subject line; 'Kennelhand of the Year 2014' or post nominations to GBGB, 6 New Bridge Street, London EC4V 6AB. Please include your own contact details.

BAGS race programme controller Scott Harvey presents the BAGS sponsored 2013 Kennelhand of the Year trophy to Sheila Tudor, head Kennelhand to Kim Billingham.

DISCIPLINARY COMMITTEE INQUIRIES

The Disciplinary Committee of the GBGB were in attendance at a meeting held on 25 November 2014:-

Mr J Akerman (in the chair)

Mr R Coughlan

Mr H Starte

Mr M Elks (observing)

1 **Doncaster Stadium – TRICKY JACKPADDY – Greyhound Trainer Mr R Holt**

Greyhound Trainer Robert Holt was found in breach of rules 152(i), 174(i)(b) and 214 of the GBGB Rules of Racing in that a urine sample taken from the greyhound TRICKY JACKPADDY at Doncaster Stadium on 16 May 2014 was analysed by LGC Health Sciences as containing ampyrone.

Mr Holt was in attendance and represented by Mr R Holloway. Professor Tim Morris, independent scientific adviser was also present along with Clive Carr, investigating officer and Simon Hudson, technical director at LGC Health Sciences. Michael Smith, racing manager of Doncaster Stadium, and Eric Vose, area stipendiary steward, apologised for their non- attendance.

In his written evidence Professor Morris stated that ampyrone is not available as a veterinary or human medicine in the UK. It has pain killing and anti-inflammatory properties and carries the risk of blood disorders. Professor Morris stated his opinion that ampyrone is a substance which, by its nature, could affect the performance of a greyhound or could prejudice the well-being of a greyhound.

In his written evidence Mr Holt offered possible explanations for the positive sample, including his use of hydrogen peroxide to treat a wart and sore quicks suffered by TRICKY JACKPADDY. Professor Morris stated that ampyrone would not be found as a contaminant of hydrogen peroxide and a sample of peroxide from Mr Holt's kennel tested negative for ampyrone.

Professor Morris stated that the positive sample from TRICKY JACKPADDY analysed by LGC contained 4-methylaminoantipyrine which, along with ampyrone is a metabolite of dipyrone, a constituent of the veterinary medicine Buscopan Compositum. This substance has pain relieving effects and is a Non-Steroidal Anti-inflammatory Drug

(NSAID) with pain killing and anti-inflammatory properties. Buscopan Compositum is licensed for use in cattle, horses and dogs.

The Committee noted Mr Carr's evidence in which he stated that Mr Holt's kennels are adjacent to a business run by Mr Holt's father, which supplies meat products predominantly to the greyhound industry. Professor Morris indicated that food products supplied by Robert Holt & Son could include beef from cattle treated with Buscopan Compositum. He offered the opinion that veterinary treatment administered to the greyhound with this substance, or ingestion of food containing the substance was the most probable source of ampyrone found in the sample of the greyhound TRICKY JACKPADDY.

The Committee did not receive any evidence that TRICKY JACKPADDY had received veterinary treatment containing Buscopan Compositum and noted Mr Holt's assurance that Category 3 meat, supplied by his father's business, is fed to his racing greyhounds. Professor Morris stated that in his opinion it was unlikely that Category 3 meat would contain drug residues from Buscopan Compositum and stated that rigorous controls are in place to ensure the maintenance of food safety standards. The Committee acknowledged there was a low risk in feeding Category 3 meat, but having considered a number of other possibilities concluded, on the balance of probabilities, that the most likely source of ampyrone was through the feeding of contaminated meat.

The Committee accepted that Mr Holt did not deliberately administer or authorise the administration of a substance containing ampyrone to TRICKY JACKPADDY. However Mr Holt was found in breach of rule 152(i) as he was responsible for the failure to ensure that the greyhound was free of a banned substance when it was sample tested on 16 May 2014.

Mr Holt was in breach of rule 174(i)(b) in that he had in his care a greyhound which tested positive for a substance, which, by its nature, could affect the performance of the greyhound or prejudice its well-being, and which should not have derived from normal and ordinary feeding. He was also in breach of rule 214 in that food given to TRICKY JACKPADDY was not free of a substance that might affect the greyhound's performance or prejudice its welfare.

The Disciplinary Committee acknowledged the Manager of Welfare and Integrity's recommendations concerning the breaches and noted a previous breach of the rules of racing by Mr Holt in July 2013 that was also feed related and for which a similar explanation was provided. The Committee acknowledged that Mr Holt had attended the inquiry and accepted that he had put forward, in his written submissions, possible explanations which he genuinely felt to be plausible with no intention to mislead the inquiry. The Committee also took into account the mitigation put forward by Mr Holloway on Mr Holt's behalf.

Having considered the explanation provided and the circumstances of the case, the Disciplinary Committee ordered that Mr Holt be reprimanded and fined £500.

The Disciplinary Committee of the GBGB were in attendance at a meeting held on 27 November 2014:-

Mr R Woodworth CBE (in the chair)

Mr J Akerman

Mr R Coughlan

1 **Hall Green Stadium – ASHCARNE FLASH & THATSNICE JACK – Professional Trainer Mr SJ Rayner**

Professional Trainer Stephen Rayner was found in breach of rules 152 (i), 174(i)(b) and 214 of the GBGB Rules of Racing in that the positive analysis of urine samples taken from the greyhounds ASHCARNE FLASH on 2 July 2014 and THATSNICEJACK on 21 July 2014 at Hall Green Stadium were analysed by LGC Health Sciences as containing the presence of a hydroxylated metabolite of pentobarbital.

Trainer Rayner was in attendance, supported by Mark Blazey. Professor Tim Morris, independent scientific adviser and area stipendiary steward, Jack Robinson, were also present. Robert Coulthard, racing manager at Hall Green Stadium, apologised for his non-attendance.

Before commencement of proceedings the GBGB withdrew the alleged breaches of rules 152 (ii), 174(i)(a) and 217 and Trainer Rayner admitted breaches of rules 152 (i) 174 (i)(b) and 214 of the GBGB Rules of Racing. The proceedings were therefore dedicated to consideration of the nature of the drug, how it might have entered the dog's system and on mitigation.

In his written evidence Professor Morris stated that pentobarbital as an old-fashioned anaesthetic is available as a veterinary medicine in a concentrated solution for injection for euthanasia of animals. It is not available as a medical drug in the UK but is available in other countries. In the UK it is a Class B, Schedule 3 Controlled Drug.

By its nature pentobarbital is a substance which could affect the performance of a greyhound or prejudice the wellbeing of a greyhound.

Professor Morris stated that, in his opinion, as there are stringent legal restrictions on the supply of pentobarbital it was very unlikely that a specialist chemical supplier or a medical drug source could have been the potential source of supply. In contrast pentobarbital is the most common drug used by veterinary surgeons for euthanasia, albeit with controls. Trainer Rayner stated that he had never used pentobarbital in his kennels and suggested that it must have been present in the dog's food chain. He explained that he feeds dry meat from his own shop together with raw meat supplied from a number of sources including Mr D Gibbs and others, all of which should be Category 3 meat. The GBGB has advised Trainers that Category 3 meat which should be free from drug residues should be fed to racing greyhounds. Trainer Rayner stated that he thought he did not need a DEFRA animal by-products licence as he only fed "pet food" but he admitted that he would be better advised to obtain such a DEFRA licence as a "user" in order to aid traceability.

The Committee's consideration of where the contaminant drug had come from was made more difficult by Trainer Rayner's admission that he buys his meat from a number of different sources and also supplies it to many other trainers. However he was now considering changing the feed for his racing greyhounds as he believed that drug residues could be present in both dry and raw meat. A test of his dry greyhound feed had proved negative. Professor Morris stated that in his opinion, despite the controls both on the use of pentobarbital and the guidance on the use of animal by-products in making pet food, the most likely source of the pentobarbital metabolites found in the urine samples of ASHCARNE FLASH and THATSNICEJACK was from a source (probably category 2 meat) contaminated with pentobarbital used for euthanasia.

In the light of the expert advice, the Committee accepted that the most likely source of the substance was through the feeding of contaminated meat, and that pentobarbital had not been deliberately administered to either ASHCARNE FLASH or THATSNICEJACK.

The Committee acknowledged the Manager of Welfare and Integrity's recommendations concerning the admitted breaches and noted a significant breach of the rules by Mr Rayner in 2011 which concerned the use of a counterfeit oestrus suppressant. The Committee acknowledged that Mr Rayner had helpfully appeared at this inquiry and noted his exemplary record in rehoming greyhounds. They advised him to obtain a DEFRA licence and to consider carefully

whether it was necessary to review the feeding regime for his racing greyhounds if he wished to mitigate the chance of further positive samples. Some of the GBGB Rules of Racing impose strict liability on the trainer or registered sales agent. In all the circumstances of the case, the Committee reprimanded Mr Rayner and fined him £150 on each of the two counts, a total of £300.

2 Doncaster Stadium – KEADY JET – Greyhound Trainer Mr P Prior

Greyhound Trainer Paul Prior was found in breach of rules 152(i) and (ii), 174(i)(a) and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound KEADY JET at Doncaster Stadium on 11 July 2014 was analysed by LGC Health Sciences as containing the presence of primiracetam and that he allowed a substance to be administered that could affect the performance and/or well-being of the greyhound.

Trainer Prior declined to attend because of work commitments. Professor Tim Morris, independent scientific adviser was present but Michael Smith, racing manager at Doncaster Stadium, and Eric Vose, area stipendiary steward, apologised for their absence.

In his written evidence Professor Morris stated that pramiracetam is not available as a veterinary medicine but is used in a very few countries for treating "age-related impairment and dementia" in humans. However it is known that pramiracetam has effects in animals, as well as people, enhancing learning and memory while increasing general activity and leading to "generally improved performance". While there were no specific studies of the effect of the drug in dogs it is known that when given to dogs by mouth it is absorbed and the drug can be found in the blood. It is as yet uncertain whether the drug would affect the wellbeing of the dog but Professor Morris gave it as his opinion that pramiracetam, with its effects on the brain and unknown safety profile in a dog, is a substance which by its nature could affect the performance of a greyhound or could prejudice its well-being.

Trainer Prior offered the suggestion that pramiracetam could be contained in the product Feramo ("Ferramo") which he gives his greyhounds. Professor Morris confirmed that that is not the case. Mr Prior also suggested that the drug might have been administered by persons unknown at Doncaster Stadium when this greyhound had been left unattended for 1/2 hour before kennelling in an area where there were no security cameras. The Committee did not accept this explanation.

The Manager of Welfare and Integrity submitted that this was a serious breach of the rules which was compounded by the excuses proffered by Trainer Prior. The Committee expressed disappointment at Trainer Prior's non-attendance at the Hearing, his lack of mitigation and his implausible suggestions. They considered that, on the balance of probabilities, Trainer Prior had administered pramiracetam to KEADY JET or

allowed or caused the administration by a member of his kennel staff.

The Committee found Trainer Prior in breach of rules 152(i) and (ii), 174(i)(a) and 217 by administering or allowing or causing the administration to the greyhound KEADY JET of a banned substance which is not licenced for use in dogs. He had thereby acted in a manner prejudicial to the integrity and proper conduct of greyhound racing as regulated by GBGB. Taking into account Trainer Prior's previous breach of the rules in 2006 for use of cyclizine. The Committee ordered that Trainer Prior be severely reprimanded and fined £1,500. Further they advised him that if there were any serious breaches of the rules in the future a more severe penalty may result including the withdrawal of his licence.

3 Belle Vue Stadium – GRANDAD ACK – Professional Trainer Miss J Llewellyn

Professional Trainer Jill Llewellyn was found in breach of rules 152(i) and (ii), 174(i)(a) and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound GRANDAD ACK at Belle Vue Stadium on 26 July 2014 was analysed by LGC Health Sciences as containing the presence of cimetidine and that she allowed a substance to be administered that could affect the performance and/or well-being of the greyhound.

The Committee accepted Trainer Llewellyn's apology for her non-attendance and that of David Brayshaw racing manager of Belle Vue Stadium. Professor Tim Morris, independent scientific adviser was present with Alex McTaggart, area stipendiary steward.

Alex McTaggart, attended Belle Vue Stadium on 26 July 2014 and took random samples. A urine sample taken from the greyhound GRANDAD ACK was analysed by LGC Health Sciences as containing cimetidine.

In his written evidence Professor Morris stated that cimetidine is available in the UK for use in dogs as a treatment for gastritis in either oral or injectable form. Professor Morris added that, while he was unaware of any studies that show cimetidine could directly affect the performance of a greyhound, nonetheless the alleviation of symptoms by cimetidine could have an indirect effect on performance. In this case the estimated level of cimetidine in the urine of GRANDAD ACK was around 60ng/ml and the indications of the presence of metabolites of cimetidine in the urine suggested ingestion or administration of cimetidine either of a low sub-clinical dose close to the time of the dog's race, or a larger clinical dose sometime in the preceding 3-4 days.

Trainer Llewellyn could offer no explanation for the presence of the drug in her dog and stated that as no one in her kennel, or the dog's parader at Belle Vue, took medication for gastritis. However she suggested that her son who had accompanied her to the track some weeks earlier had complained of a stomach ache and had bought some medicine but she had no other details or receipts for medicine. The Committee felt that this was an unlikely explanation. Professor Morris also confirmed that in his opinion this

could not be a case of accidental contamination.

The Committee heard from Alex McTaggart that Trainer Llewellyn was held in high regard and was scrupulous in purchasing her greyhound medicines from the track veterinary surgeon. They also noted the comments in support of Trainer Llewellyn by the Belle Vue racing manager.

The Manager of Integrity and Welfare submitted that the scientific evidence was strong in this case that the greyhound was in the trainer's care throughout and that the substance cimetidine could potentially have an effect on the performance of the greyhound. In the absence of any other credible explanation the Committee was driven to conclude, on the balance of probability and on the scientific evidence, that Trainer Llewellyn had allowed or caused cimetidine to be administered to the greyhound GRANDAD ACK while in her care. She had failed to take action to ensure that the greyhound was free from a banned substance which by its nature could affect its well-being and was accordingly found in breach of rules 152(i) and (ii) and 174(i)(a).

Trainer Llewellyn was also found in breach of rule 217 in that GRANDAD ACK was not free of a banned substance at the time of racing.

The Committee took into account Trainer Llewellyn's good record (apart from a breach in 2008) and the supportive comments of the racing manager. In the circumstances of the case the Committee found Trainer Llewellyn in breach of rules 152(i) and (ii), 174(i)(a) and 217 of the GBGB Rules of Racing and ordered that she be reprimanded and fined £500.

MERRY CHRISTMAS AND A HAPPY NEW YEAR

Barry Faulkner

As is traditional at this time of year, each owner of our sport's stars will be tucking into their Christmas fare knowing that shortly they will learn whether their pride and joy has been nominated by the Greyhound Writers' Association for honours at the Greyhound of the Year Awards.

On Sunday 25th January 2015, we return to the Lancaster Hotel in London to celebrate all that is best in our great sport. If you would like to join us visit www.gbgb.org.uk or email emma.dowding@gbgb.org.uk for ticket and accommodation information; it's going to be another superb occasion.

Another event that sets the pulses racing at this time of year is finals day of the BAGS Track Championship. The competition has quickly established itself as a not to be missed day of top class racing and this year it breaks new ground. It is being broadcast on Sky – a first afternoon programme on the channel. If you have never been, I would highly recommend you make the trip to Nottingham on Tuesday 23rd December to see the action unfold.

Finally, I'd like to wish you all a very Merry Christmas from me and my hard working team at GBGB.

Let's see if we can **all** work together to secure a prosperous New Year.

Barry Faulkner
Chief Executive

KENNELHAND OF THE YEAR 2014

At the Greyhound of the Year Awards human categories celebrated on the night include recognition of 2014's Kennelhand of the Year. The winner(s) receive a trophy, £500 and accommodation at the Lancaster Hotel, London. GBGB relies on owners, trainers and friends to nominate the person(s) they deem worthy of national recognition.

GBGB chief executive Barry Faulkner said: *"The bulk of nominations usually come from owners and trainers. Of course anyone in the industry can forward their suggestion to us and we need a few lines of explanation as to why, in their opinion the person is worthy of winning. Kennelhands are some of the hardest workers in the industry, with the long hours and late nights and we want to hear about individuals whose exceptional dedication make them the backbone of our sport."*

Nominations must be received by **Wednesday 7th January 2015**.

A panel comprising a number of industry experts will meet to discuss the relative merits of each nomination. Email awards@gbgb.org.uk with the subject line; 'Kennelhand of the Year 2014' or post nominations to GBGB, 6 New Bridge Street, London EC4V 6AB. Please include your own contact details.

GBGB CHAIR TO STAND DOWN

Maurice Watkins

Maurice Watkins CBE has announced that he is to step down as chair of the Greyhound Board of Great Britain (GBGB) at the end of the year after six years of service.

Maurice was the founding chairman of the GBGB and played the key role in the combining of the functions of the National Greyhound Racing Club and the British Greyhound Racing Board, the fundamental recommendation of the Independent Review of the Greyhound Industry in Great Britain chaired by Lord Donohue.

In the six years Maurice has been chair, the GBGB has established itself as a modern governing body with significant advances in welfare and integrity through enhancements of its regulatory processes and procedures while, at the same time, dealing with the impact on the sport of the worst recession for a generation.

Maurice was awarded the CBE in 2011 for his charitable work, which includes chairing the New Children's Hospital Appeal and the Central Manchester University Hospitals NHS Foundation Trust Charity.

Independent director and former Morrisons chief executive Bob Stott paid tribute to Watkins; "I have been privileged to serve as a director of the GBGB under Maurice's chairmanship since 2009. A stakeholder board always requires an able and wise chairman and in Maurice we have had such a person. He leaves us after 6 years dedicated to steering the sport to a better place. He has succeeded despite the limitations of a continual shortfall of funding."

GBGB CEO Barry Faulkner added; "Maurice has been a great help to me and with his vast experience in the world of sport has been rigorous in our discussions on a wide range of issues affecting greyhound racing. By nature he is a conciliator and that is an invaluable asset in a sport with many diverse views on how GBGB should operate."

Maurice decided to step down in September and informed the GBGB Nominations Committee in early October but will not leave his post until the end of the year.

ERIC VOSE

The GBGB is saddened to announce the death of North East Stipendiary Steward Eric Vose. Eric passed away peacefully after a short illness, aged 67. He had been in greyhound racing all his adult life and was a trainer before joining the NGRC as a steward in 1991.

Funeral arrangements will be announced shortly and a full tribute will appear in the next edition of the Calendar.

GBGB RULES OF RACING

RULE AMENDMENTS

All changes effective from 1st January 2015.

Rule change to Rule 5(i) & (ii) and to introduce Appendix vii

Reason for amendments

To strengthen and improve upon the wording of rule 5 (i) with regard to current and new Racecourse applicants. To distinguish who holds the licence granted under that proposed rule and their responsibilities. To clearly stipulate the requirements that must be satisfied to obtain a GBGB Racecourse licence. To make provision for the lodging of a bond by such an applicant.

This will be dealt with by an amendment to rule 5 (i) and 5(ii) which will also include a definition of the Racecourse. Appendix vii will be introduced.

Amendment

Replace part (i) with amended Rule 5 (i) below.

Amended Rule 5 (i)

The GBGB may grant a licence to a person nominated by the Executive of a Racecourse, who will be known as the Authorised Representative of that Racecourse (subject to paragraph 5(ii)). The sole purpose of granting such a licence is for the conduct of greyhound racing staged through a series of race meetings. Such licence may be granted, upon such terms and conditions as it shall consider to be reasonable having regard to the GBGB's powers and duties and particularly with a view to maintaining and promoting the welfare of Greyhound(s), the promotion of the sport of Greyhound Racing, the maintenance of confidence in the sport of Greyhound Racing, its integrity and proper regulation. Consideration may be given to the suspension of a

licence held by the Authorised Representative in circumstances where there is a serious or immediate risk to integrity of the sport of greyhound racing or welfare of the greyhound. Revocation of the licence of an Authorised Representative may only be undertaken by the Disciplinary Committee of the GBGB.

The criteria to which the GBGB shall have regard when granting a New Racecourse Licence are set out in Appendix VII.

A Racecourse in respect of which a Licence has been granted by the GBGB shall be a "GBGB Licensed Racecourse".

Amendment

In the first sentence of part (ii) add "and a deputy" after "Authorised Representative". In the second sentence add "or deputy" after "Authorised Representative" in both instances.

Amended Rule 5 (ii)

Before the issue by the Greyhound Regulatory Board of a Licence to a Racecourse Executive such Racecourse Executive shall nominate to the GBGB the name of an individual being an occupier, senior Director or senior representative (hereinafter referred to as the 'Authorised Representative', and a deputy,) who, until his/her nomination is terminated, whether by him/her or by the Racecourse Executive or upon his/her ceasing to be an occupier, senior Director or senior representative of the Racecourse Executive, shall be responsible to the GBGB for the Racecourse Executive's due compliance with its obligations and responsibilities under the Rules of Racing. A Racecourse Executive may from time to time revoke the nomination of its Authorised Representative, or deputy, and nominate another

Authorised Representative, or deputy, in his/her place.

The Licence of a Racecourse Executive which ceases for any reason to have a properly nominated Authorised Representative shall ipso facto be suspended until a replacement is nominated pursuant to this sub-Rule. All nominations and revocations pursuant to this sub-Rule shall be in writing signed in the case of a Racecourse Executive which is a corporation by a duly authorised officer thereof and in the case of a Racecourse Executive which is not a corporation by an occupier duly authorised in that behalf, and in the case of all nominations by the person nominated.

The Directors of any Racecourse Executive which is an incorporated body and the occupiers of any Racecourse Executive which is other than an incorporated body shall be ultimately responsible to and be within the jurisdiction of the Disciplinary Authority if the Authorised Representative of that Racecourse Executive is found to be in breach of any of the Rules of Racing and is able to prove to the satisfaction of the Disciplinary Authority that had it not been for the direct instructions of the occupiers or Directors (as the case may be) of the Racecourse Executive he/she would not have been so.

Rule 47 - Trials

Reason for amendment

To allow greyhounds to qualify quicker.

Amendment

For part (i), In the first sentence replace "3" with "two satisfactory". Delete the remaining paragraph after the word "required".

For part (iii) delete and replace with "A greyhound shall have two trials which shall be with at least two other greyhounds which are registered".

Amended Rule

- i. Excluding any Open Race in which it is to run, or has run, as an International Entry, a Greyhound to run in its first Race at a GBGB Licensed Racecourse shall have run at least two satisfactory Trials on separate Days, save that any Open Race in which it has run as an International Entry within a period of 8 weeks before the Race in question may count in place of one of the Trials required.
- ii. The Trainer having charge of a Greyhound for its first Race as above shall have had continuous charge of it for at least 7 Days prior to its final Trial, which shall have been run within 22 Days prior to the Race.
- iii. A Greyhound shall have two Trials which shall be with at least two other Greyhounds which are registered.

Rule 48 – Trials and qualification for Graded Races

Reason for amendment

To allow greyhounds to qualify quicker.

Amendment

Delete the first paragraph and replace with "A Greyhound to run in its first Graded Race at a particular Racecourse shall run at least two satisfactory Trials at the GBGB Licensed Racecourse where it is to grade on separate Days over the distance it is to initially run with at least two other greyhounds."

Delete paragraphs two and three.

Amended Rule

A Greyhound to run in its first Graded Race at a particular

Racecourse shall run at least two satisfactory Trials at the GBGB Licensed Racecourse where it is to grade on separate Days over the distance it is to initially run with at least two other greyhounds.

If the Greyhound has previously raced at that GBGB Licensed Racecourse, any Race it has run at that Racecourse, while in the charge of a licensed Trainer, within 12 weeks of the Race in question, may count in place of one of the Trials required. All Trials may be so replaced, provided that the condition below is complied with. In any case a Trainer having charge of a Greyhound for such first Graded Race shall have had continuous charge of it since at least 7 Days prior to its final Trial or replacement Trial or Race as above, which shall have been run within 22 Days prior to the Race.

If a Greyhound is qualified for a Graded Race at a particular Racecourse, but since qualifying has run in a Graded Race elsewhere, it shall first re-qualify by completing either a Trial or an Open Race there.

DISCIPLINARY COMMITTEE INQUIRIES

The Disciplinary Committee of the GBGB were in attendance at a meeting held on 2 December 2014:-

Mr R Woodworth CBE (in the chair)
Mr R Coughlan
Mr K Salmon

1 Wimbledon Stadium - FARLOE TRENT - Greyhound Trainer Mrs E McNair

Greyhound Trainer Elizabeth McNair was found in breach of rules 152(i), 174(i)(b) and 214 of the GBGB Rules of Racing in that a urine sample taken from the greyhound FARLOE TRENT at Wimbledon Stadium on 30 August 2014 was analysed by LGC Health Sciences as containing the presence of a hydroxylated metabolite of pentobarbital. Trainer McNair and her husband Mr Robert McNair were present with Professor Tim

Morris, independent scientific adviser. Area stipendiary steward Colin Betteridge and Gary Matthews, racing manager at Wimbledon Stadium, apologised for their absence.

Before commencement of proceedings, the GBGB withdrew the alleged breaches of rules 152 (ii), 174(i)(a) and 217 and Trainer McNair admitted breaches of rules 152 (i) 174 (i)(b) and 214 of the GBGB Rules of Racing. The proceedings were therefore dedicated to consideration of the nature of the drug, how it might have entered the dog's system and on mitigation.

In his written evidence, Professor Morris stated that pentobarbital was an old-fashioned anaesthetic available as a veterinary medicine in a concentrated solution for injection for euthanasia of animals. It is not available as a medical drug in the UK but is available in other countries. In the UK it is a Class B, Schedule 3 Controlled Drug.

By its nature pentobarbital is a substance which could affect the performance of a greyhound or prejudice the wellbeing of a greyhound.

Professor Morris stated that, in his opinion, as there are stringent legal restrictions on the supply of pentobarbital, it was very unlikely that a specialist chemical supplier or a medical drug source could have been the potential source of supply. In contrast, pentobarbital is the most common drug used by veterinary surgeons for euthanasia, albeit with controls. Trainer McNair stated that she had never used pentobarbital in her kennels and suggested that it must have been present in the dog's food chain. On behalf of Trainer McNair, her husband explained that in the build-up to races raw meat was fed to her greyhounds obtained at times from Tesco (for human consumption) but principally from R Holt & Sons from whom she had been buying meat for more than 10 years without problems, in terms of positive samples. The

meat from "Holts" was always described as Category 3 meat which the GBGB has advised Trainers to feed to their racing greyhounds as it should be free from drug residues. Trainer McNair produced a copy of her DEFRA (AHVLA) animal by-products end-user licence. Professor Morris stated that, in his opinion, despite the controls both on the use of pentobarbital and the guidance on the use of animal by-products, the most likely source of the pentobarbital metabolites found in the urine sample of FARLOE TRENT was from a source (probably category 2 meat) contaminated with pentobarbital used for euthanasia.

In the light of the expert advice, the Committee accepted that the most likely source of the substance was through the feeding of contaminated meat, and that pentobarbital had not been deliberately administered to FARLOE TRENT.

The Committee acknowledged the Manager of Welfare and Integrity's recommendations concerning the admitted breaches but noted a breach of the rules by Trainer McNair in 2008 which concerned the use of stanozolol. The Committee acknowledged that Trainer McNair and her husband had helpfully appeared at this inquiry, admitted the breaches and held the necessary AHVLA licence believing that they were only feeding category 3 meat to their greyhounds. Some of the GBGB Rules of Racing impose strict liability on the trainer or registered sales agent. While making clear to Trainer McNair that it would not have imposed a financial penalty but for Trainer McNair's previous breach, in all the circumstances of the case the Committee reprimanded Trainer McNair and fined her £150.

2 Hall Green Stadium – FABULOUS SEARCH – Professional Trainer Mr D Firmager

Professional Trainer David Firmager was found in breach of rules 152(i) and (ii), 174(i)(b) and 214 of the GBGB Rules of Racing in that a urine sample taken from the greyhound FABULOUS SEARCH at Hall Green Stadium on 4 July 2014 was analysed by LGC Health Sciences as containing the presence of ketoprofen.

Mr Firmager apologised for his non-attendance, Professor Tim Morris, independent scientific adviser was present with Mr Clive Carr, Investigating Officer, but Robert Coulthard, racing manager at Hall Green Stadium, and Jack Robinson, area stipendiary steward, apologised for their absence.

In his written evidence Professor Morris stated that ketoprofen is available as a UK licensed veterinary medicine in tablet or injectable form and is in the class of drugs described as Non Steroidal Anti-inflammatory Drugs. They are used to relieve pain and reduce fever and inflammation. All NSAIDs have the potential to induce adverse reactions, some of which can be life threatening and although Professor Morris was not aware of any studies that show ketoprofen directly affecting the performance of a greyhound, it could have an indirect effect on performance by the alleviation of pain or inflammation. In his opinion ketoprofen, as an NSAID, is a substance that by its nature could affect the performance of the greyhound or could prejudice its wellbeing.

Trainer Firmager who has a large number of racing greyhounds and pups suggested in his statement that the drug residue in FABULOUS SEARCH could have only entered his greyhound via the food chain but Mr Clive Carr told the Committee that he had visited the principal suppliers of meat to Mr Firmager and both had been adamant that they only supplied to Trainer Firmager meat that was fit for human consumption. Professor Morris was asked to explain whether it was

significant that possible traces of flunixin were also found in the ketoprofen sample but he stated that he could not tell whether that was an indication that contaminated meat was the source of the positive sample or whether in fact there had been either or both of a deliberate administration of ketoprofen and the presence of contaminated meat.

The Committee particularly noted the comment in the statement of veterinary surgeon Mr Richard Torr, submitted by Trainer Firmager, that while he had not prescribed ketoprofen to Trainer Firmager's greyhounds he "by his own admission uses meat from "knacker" sources and that it is more than possible that the drug may have come from this source. While the Committee could not place absolute reliance on this statement it was entitled to assume that Mr Torr would know what was meant by "knacker" meat and that this statement of Mr Torr resulted from a conversation with Trainer Firmager.

The scientific evidence, Mr Torr's statement and Mr Carr's evidence that the 2 declared sources of meat appeared to demonstrate that only meat fit for human consumption was supplied to Trainer Firmager, left the Committee unable to decide whether there had been a deliberate or accidental administration of ketoprofen or whether it had entered the greyhound's system through the use in part of "knacker meat".

The Manager of Welfare and Integrity submitted that this was a serious breach of the rules. He added that Trainer Firmager admitted that he was not "hands on". There had been no recent "spike" in terms of contaminated meat containing ketoprofen residues and he contended that the declared sources of meat were unlikely to be the source of the drug. The Committee expressed disappointment at the non-attendance of Trainer Firmager or a member of his staff who might have been able to help the Committee to determine the likely source of the drug.

Some of the GBGB Rules of Racing impose strict liability on the trainer or registered sales agent. In all the circumstances of the case, the Committee ordered that Trainer Firmager be reprimanded and fined the sum of £750.

1 Romford Stadium – LA CUCHILLA and BALLYMAC BOBBYJO – Greyhound Trainer Mr S Race

Greyhound Trainer Steven Race was found in breach of rules 152(i) & (ii), 174(i)(b), 214 and 217 of the GBGB Rules of Racing in that urine samples taken from the greyhound LA CUCHILLA on 26 August 2014 and 19 September 2014 and BALLYMAC BOBBYJO on 10 September 2014 at Romford Stadium were analysed by LGC Health Sciences as containing the presence of benzoyllecgonine (a metabolite of cocaine).

Mr Race was in attendance accompanied by Roy Ball, kennelhand and owner. Professor Tim Morris, independent scientific adviser, and Clive Carr, investigating officer, and stipendiary steward, Adrian Smith, were also in attendance. Peter O'Dowd, racing manager of Romford Stadium, apologised for his non-attendance.

The Committee heard evidence from Professor Tim Morris that Cocaine is a class A drug possession of which is an offence under the Misuse of Drugs Act 1971. It has no veterinary application and is a substance which by its nature could affect the performance of and prejudice the welfare of a greyhound. Professor Morris stated that the amounts of cocaine metabolites detected in the urine were not trivial. In the case of LA

CUCHILLA, there had been at least 3 administrations of cocaine no less than one month prior to the hair sample being taken. In respect of BALLYMAC BOBBYJO, on a balance of probability the administration of cocaine occurred no less than one month prior to the hair test.

The Disciplinary Committee considered these to be extremely serious breaches of the Rules of Racing. The greyhound LA CUCHILLA tested positive for a metabolite of cocaine in respect of samples taken on 26 August 2014 and 19 September 2014. A hair sample taken on 19 September 2014 also tested positive for the cocaine. In addition, the point of registration sample taken on 21 July 2014 also tested positive for a metabolite of cocaine. The greyhound BALLYMAC BOBBYJO tested positive for cocaine and a metabolite of cocaine in respect of a sample taken on 10 September 2014. A hair sample taken on 11 October 2014 tested positive for cocaine.

Mr Race admitted breaches of Rules 152(i) & (ii), 174(i)(b), 214 and 217 of the GBGB Rules of Racing in that he had in his charge greyhounds which showed the presence of a substance which could affect their performance or prejudice their wellbeing. Rule 174(i)(b) imposes strict liability upon the trainer. Mr Race did not admit a breach of rule 174(i)(a) and the committee did not deal with him on the basis that he administered cocaine himself or had any knowledge that cocaine had been administered.

Mr Race suggested that the source of cocaine was a kennelhand he had employed between June and October 2014. The committee considered this to be a possibility but the committee could not say on the balance of probability that this was how these greyhounds came to test positive.

The committee found that it was not possible on the balance of probability to identify the source of the cocaine, but that the ultimate responsibility lay with Mr Race. By his own admission, due to other business commitments, he played a small part in the day to day running of the kennel at that time, hence the need to employ an additional kennelhand to transport his greyhounds to the races. He did not make any checks regarding that kennelhand nor did he insist on references. In short the committee considered that he had allowed a situation to arise in which there were four positive tests for a metabolite of cocaine involving two greyhounds in his charge.

In the opinion of the Disciplinary Committee the seriousness of these breaches cannot be overstated both in terms of their impact on the integrity of greyhound racing and the welfare of the greyhounds affected.

In all the circumstances of the case and given the number of breaches and the nature of the drug involved, the least penalty the committee could impose was that Mr Race be disqualified for a period of 28 days. In addition, Mr Race was fined £1,000 in respect of each of the three breaches, a total of £3,000.

1 Poole Stadium – WHIZZING TIGER – Greyhound Trainer Mrs J Harvey

Greyhound Trainer Mrs June Harvey was found in breach of Rules 152(i) & (ii), 174(i)(a) and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound WHIZZING TIGER at Poole Stadium on 22 July 2014 was found on analysis by LGC Health Sciences to contain the non-steroidal anti-inflammatory (NSAID) meloxicam.

Mrs Harvey was in attendance, accompanied by greyhound owner Mr Craig Binge. Also in attendance were area stipendiary steward, Colin Betteridge, and independent scientific adviser, Professor Tim Morris. Ian Silience, racing manager of Poole Stadium, apologised for his non-attendance.

The Committee received evidence from Professor Morris that meloxicam is a UK licensed veterinary medicine available from a number of companies and widely used to reduce pain, fever and inflammation but which can induce adverse reactions, some potentially life-threatening, including gastrointestinal ulceration. It can have an indirect effect on a greyhound's performance by alleviating symptoms and mitigating adverse effects of pain and inflammation. Accordingly, meloxicam is a substance which by its nature could affect the performance of a greyhound or prejudice the wellbeing of a greyhound.

Mrs Harvey told the Committee that she fed only Category 3 meat to her dogs, that is, meat fit for human consumption. Professor Morris's evidence was that it was unlikely that the source of the meloxicam was Category 3 meat from farm animals or horses treated with meloxicam, as these animals would only be slaughtered as fit for human consumption after the meloxicam had passed through and left the animal. LGC Health Sciences had found the "not trivial" amount of 15 ng/ml of the NSAID in the greyhound's urine and had confirmed that their analysis of the urine could detect meloxicam for a period of about 5 to 7 days after the greyhound had been exposed to it. Professor Morris was of the opinion that it was unlikely that Category 3 meat would have been contaminated with meloxicam and highly unlikely that contaminated Category 3 meat would have resulted in the levels of meloxicam found in the greyhound's urine.

Mrs Harvey withdrew her suggestion that the meloxicam had come from contaminated meat. However she insisted that she had not administered the NSAID to the greyhound. She did not know how it had been administered or believe that it had been administered by anyone at her kennel.

The Committee did not find that Mrs Harvey had herself administered meloxicam to the greyhound, but that she had caused or allowed it to be administered. Accordingly she was found in breach of Rules 174(i)(a), 217 and 152(i) and, in that she had acted in a manner prejudicial to the proper conduct and good reputation of greyhound racing, 152 (ii).

The Disciplinary Committee took into account that Mrs Harvey had attended the hearing, her previously unblemished record and her commendation by Stipendiary Steward Mr Betteridge. In all the circumstances of the case the Disciplinary Committee ordered that Mrs Harvey be reprimanded and fined £500.

2 TORNAROY TIPTOP, DARAS CONFIRMED, TORNAROY TASK, DRUMNA TWILIGHT, SOPHIES CHARM – Professional Trainer Mr P Miller & Irish Breeder and Vendor Mr S McGarry

Professional Trainer Paul Miller was found in breach of rules 152(i), 174(i)(b) and 217 of the GBGB Rules of Racing for each case (5 in total) in which random urine samples taken between 13 June 2014 and 23 October 2014 from the greyhounds TORNAROY TIPTOP, DARAS CONFIRMED, TORNAROY TASK, DRUMNA TWILIGHT and SOPHIES CHARM were each analysed by LGC Health Sciences as containing 6a-hydroxystanozolol, a metabolite of the anabolic steroid stanozolol.

Mr Miller was also found in breach of Rule 152(ii) in respect of the positive analysis of the urine samples taken from the greyhounds TORNAROY TASK, DRUMNA TWILIGHT and SOPHIES CHARM. All 5 greyhounds had been bought by Mr Miller from Irish breeder

and vendor, Seamus McGarry. Mr McGarry was made a warned off person under rule 160(vi)(d) after he had admitted in a written note to Mr Miller the administration of an injection to greyhounds provided to Miller which were later subject to positive analyses of urine samples for 6a-hydroxystanozolol, a metabolite of stanozolol.

Mr Miller was in attendance. Mr McGarry did not attend. Professor Tim Morris, independent scientific adviser and Andrew Mascarenhas, racing manager of Kinsley Stadium, were also in attendance. Eric Vose, stipendiary Steward, Michael Patterson, racing manager of Sunderland Stadium and David Gray, racing manager of Pelaw Grange Stadium apologised for their non-attendance.

The Committee heard that Mr Miller bought TORNAROY TIPTOP from Mr McGarry on about 12 February 2014. The positive sample was taken from TORNAROY TIPTOP on 13 June 2014 at Sunderland Stadium. Mr Miller bought DARAS CONFIRMED on about 30 June 2014. The sample from DARAS CONFIRMED was taken at Kinsley Stadium on 11 July 2014. Mr Miller bought TORNAROY TASK on about 1 August 2014. The sample from TORNAROY TASK was taken at Sunderland Stadium on 13 September 2014. Mr Miller bought DRUMNA TWILIGHT on about 9 April 2014. The sample from DRUMNA TWILIGHT was taken at Pelaw Grange on 28 September 2014. Mr Miller bought SOPHIES CHARM on about 4 July 2014. The sample from SOPHIES CHARM was taken at Sunderland Stadium on 23 October 2014.

Professor Tim Morris gave evidence that stanozolol is an anabolic steroid which cannot legally be imported into the EU for veterinary use and is a Class C Controlled Drug in the UK. It would necessarily have been illegally imported into the UK. As a result it could also be of poor quality or contaminated with other substances. As an anabolic steroid, stanozolol affects dogs as it does other animals and humans, including building muscle. It also has many serious side effects. It is therefore by its nature a substance which could affect the performance of a greyhound or could prejudice the wellbeing of a greyhound.

The Point of Registration samples for all 5 greyhounds were analysed. The evidence was that the samples of DARAS CONFIRMED, TORNAROY TASK, DRUMNA TWILIGHT and SOPHIES CHARM had contained one metabolite of stanozolol. The POR sample from TORNAROY TIPTOP had contained two metabolites of stanozolol. Professor Morris advised the Committee that finding two metabolites indicated the greyhound had been exposed to stanozolol more recently than where one metabolite had been found: the anabolic steroid was more likely to have been administered within days or weeks. Work performed by the LGC Health Sciences laboratories showed that metabolites of stanozolol could be detected in dogs six months or longer after the stanozolol had been administered.

Mr Miller told the Committee he had bought greyhounds from Mr McGarry for 12 or 13 years and had bought as many as 200 dogs. He said he had asked Mr McGarry whether the dogs had received any treatments and had been told they had not. When random samples had been taken from dogs bought from Mr McGarry, none had ever tested positive. Mr Miller said that when he had learned of the positive test on TORNAROY TIPTOP on 28 July 2014 he had spoken to Mr McGarry by telephone. Mr McGarry had told him that he did inject puppies that he reared with stanozolol. Mr Miller said that after he learned of the test result on DARAS CONFIRMED on 14 August 2014 he contacted Mr McGarry again and that Mr McGarry told him he administered stanozolol to bitches to suppress their coming into season. The Committee was also shown an

undated letter apparently signed by Mr McGarry that stated that TORNAROY TIPTOP and DARAS CONFIRMED had been given an injection to stop them coming into season and that this had been done at the local schooling track when he sent them to be schooled.

The committee noted that the letter apparently signed by Mr McGarry did not state that Mr McGarry had given the injection or that the injection was of stanozolol. Nevertheless, the Committee found that the source of the stanozolol in all 5 dogs was administration by or at the behest of Mr McGarry without Mr Miller's knowledge before the greyhounds came into his charge. After the Committee had heard the evidence, the GRB accepted that this was the case and withdrew the case that Mr Miller had breached Rule 174 (i)(a).

The Committee found that from the point at which Mr Miller knew of the test result on TORNAROY TIPTOP and had been told by Mr McGarry that he administered stanozolol to greyhound puppies apparently as a matter of routine, Mr Miller was on notice that he had been misled over the years by Mr McGarry and that any greyhound from him could have had stanozolol or similar administered to it. Despite this, Mr Miller had persisted in buying three more greyhounds from Mr McGarry, including TORNAROY TASK. Certainly after the positive test on DARAS CONFIRMED that Mr Miller learned of on 14 August 2014 and Mr McGarry's admission of administering stanozolol to suppress bitches from coming into season, Mr Miller knew he had been taking a chance in trialling or racing any greyhound obtained from Mr McGarry. He had raced the bitches TORNAROY TASK and SOPHIES CHARM and the dog DRUMNA TWILIGHT.

In these circumstances the Committee found Mr Miller in breach of Rules 174 (i)(b), 217 and Rule 152(i) in respect of all five greyhounds. The Committee found Mr Miller in breach of Rule 152(ii) in the cases of TORNAROY TASK, DRUMNA TWILIGHT and SOPHIES CHARM, in that by his conduct in racing these greyhounds after the positive test results on TORNAROY TIPTOP and DARAS CONFIRMED and Mr McGarry's statements about administering stanozolol, he acted in a manner prejudicial to the integrity, proper conduct and good reputation of greyhound racing.

The Committee acknowledged Mr Miller's attendance at the hearing and his previous unblemished record as a trainer. The Committee strongly advised Mr Miller to have elective urine tests done on any greyhound purchased from Mr McGarry after 1 July 2014. It ordered that Mr Miller be severely reprimanded and fined £1,000.

The Committee was shown evidence that Stipendiary Steward Eric Vose wrote to Mr McGarry by recorded delivery on 14 October 2014 to an address confirmed by the Irish Coursing Club informing Mr McGarry that Mr Miller had stated that he had given TORNAROY TIPTOP and DARAS CONFIRMED stanozolol prior to their despatch to his kennel in England and asking him to confirm or deny this allegation. Mr McGarry had apparently signed for delivery of the letter. On 24 October Mr Vose wrote again to Mr McGarry informing him that TORNAROY TASK had tested positive for stanozolol, that Mr Miller had stated that Mr McGarry had said he had administered it to the greyhound and asking him to confirm or deny this allegation. On 13 November 2014 the Director of Regulation wrote to Mr McGarry confirming receipt of the signed but undated letter and informing him that the Disciplinary Committee would be considering warning him off under the provisions of Rule 160 (vi) (d) with the effect set out in Rules 177 and 178, attaching copies of these rules. Mr McGarry was invited to make representations. The Committee heard that no response had

been received from Mr McGarry to any of these communications.

In the circumstances the Committee was satisfied that Mr McGarry had administered or caused stanazolol, a banned substance and, in the UK, a Class C Controlled Drug, to be administered to greyhounds sold to Mr Miller. The Committee warns Mr McGarry off pursuant to Rule 160 (vi)(d), excluding him from any premises licensed by the GBGB and with the effects set out in Rule 178.
