REVISION OF GBGB KENNEL DEVELOPMENT GRANTS

Further to the introduction of a new licensing and kennel inspection process, from **01 May 2021** kennel development grants have been re-categorised into three distinct elements and funding has now been extended to **all** trainers that have held a training licence for 12 months or more.

Grants now available are set as below. The maximum funding available is on a pro-rata basis as per the maximum kennel capacity established when a training licence is issued.

The following grants and maximum funding levels are available:

Kennel Development and Improvement

Three grants are available:

- 1) Development Grant - for trainers whose kennels meet GBGB / NSF standards and who would like to upgrade their facilities for the benefit of the greyhounds in their care.
- 2) NSF Non-Compliance Notice – this grant is available to make corrective improvements to kennel facilities highlighted by an NSF inspection and detailed within the non-compliance notice issued.
- 3) Improvement Notice – this grant is available to make corrective improvements to kennel facilities following a GBGB kennel inspection and detailed within an improvement notice issued by a stipendiary steward.

Maximum Funding Levels:

The maximum grant available to a trainer is based on the maximum kennel capacity established when a training licence is issued:

Kennel Capacity

- BAND A - kennel capacity from 1 to 10 £2,000
- BAND B - kennel capacity from 11 to 24 £4,000
- BAND C - kennel capacity from 25 to 49 £6,000
- BAND D - kennel capacity from 50 to 79 £8,000
- BAND E - kennel capacity of 80 + £10,000

Further details, application forms and terms and conditions are available on the GBGB Trainers' Portal, by emailing Grants@gbgb.org.uk or by contacting your area Stipendiary Steward.

NEW DEDICATED WEBSITE LAUNCHED TO GIVE TRAINERS DIRECT ACCESS TO THE UPDATED RULES

GBGB has published amendments to its Rules of Racing as part of its drive to continue raising welfare and integrity standards under the Greyhound Commitment.

The Rules of Racing amendments, which are detailed in full in this edition of the Calendar, follow the 2020 GBGB licensing review and introduction of new external residential kennel inspections by NSF International.

Key amendments include:

- **Rule 212 & 213:** It is now a requirement of the licence that trainers must read, understand and be compliant with the PAS 251 – Specification for Trainers' Residential Kennels. Developed in partnership with animal welfare organisations, veterinarians, government and industry specialists, the PAS covers all aspects of caring for a racing greyhound from diet, exercise and environmental enrichment to kennel specification and construction.
- **Rule 53 & 195:** There are new criteria for disqualifying a greyhound for deliberate interference. The requirement to obtain a signed declaration from the trainer has been removed whilst the trainer (or their representative) must now be given the opportunity to present any mitigation they feel is relevant during a review of the interference. The deadline for submitting the details of a disqualification to the National Form Database has been extended to the end of the meeting.

GBGB will no longer be printing or distributing the Rules of Racing in a physical format. The Rules of Racing will now be moving online onto a dedicated website. This includes a search function as well as an archive of all previous versions. The new website is also mobile optimised, allowing licence holders to view Rules of Racing wherever they are.

The Rules of Racing website can be found on the GBGB website under the 'Rules and Regulation' heading or at <https://rules.gbgb.org.uk/>.

Paul Illingworth, GBGB Senior Stipendiary Steward, said:

"We are pleased to launch our new Rules of Racing website today. By transferring over to this digital platform we can ensure that everybody is viewing the same issue and can search and print relevant sections. The fact that it is mobile optimised too should make it far easier for trainers and kennelhands to use whilst away from their kennels. This should likewise prove helpful for our own Stewards."

"We encourage all trainers to read the Rule amendments announced today and become familiar with the new website. Any trainers with questions regarding the amendments should contact their Area Stipendiary Steward."

While a person's Licence is suspended or withdrawn by virtue of any other provision of these Rules, save with the prior approval of the GRB or Director of Regulation he/she shall not be employed or carry out any duties or engage in any activities in any licensed capacity or otherwise in connection with GBGB Greyhound racing at any GBGB Licensed Racecourse or Licensed Kennels and no Greyhound of which he/she is the Owner or Trainer shall be entered for or run in any Trial or Race or be kept in any Licensed Kennels.

DISCIPLINARY COMMITTEE INQUIRIES

The Disciplinary Committee of the GBGB were in attendance at a Meeting held on 13 April 2021

Those present:

Mr R O'Donovan (in the chair)
Mr P O'Dowd
Mr R Woodworth CBE

1 **Yarmouth Stadium** **- CORCASS LIBERTY -** **Professional Trainer** **Miss Linda Brown**

Professional Trainer Miss Linda Brown was found in breach of rules 152(i) and (ii), 174(i)(b), 214 and 217 of the GBGB Rules of Racing in that a pre-race urine sample taken from the greyhound CORCASS LIBERTY at Yarmouth stadium on 19 August 2020 was analysed by LGC Health Sciences which identified the presence of meloxicam, a ketoprofen metabolite, codeine and oripavine and that she had in her charge a greyhound which showed the presence of a substance that could by its nature affect the performance of a greyhound or prejudice its well-being.

Professional Trainer Miss Linda Brown was in attendance. Marcus Westgate, racing manager of Yarmouth Stadium, Robbie Steward Stipendiary Steward, and Professor Tim Morris, independent scientific adviser, were also in attendance.

On 19 August 2020 at Yarmouth Stadium a pre-race urine sample was taken from CORCASS LIBERTY, a greyhound trained by Miss Brown, which, upon analysis by LGC, was shown to contain meloxicam, a

ketoprofen metabolite, codeine and oripavine.

The Disciplinary Committee heard evidence from Professor Tim Morris that meloxicam, ketoprofen metabolite, codeine and oripavine were all substances which by their nature could affect the performance of a greyhound or could affect the well-being of a greyhound.

At a local inquiry held on 26 October 2020 Miss Brown had said that the only way these substances could have come to be in the greyhound would have been in the meat that was fed. No source was identified at the local inquiry for the codeine or oripavine. The Disciplinary Committee were given evidence that Miss Brown fed her dogs with Category 2 meat.

Professor Morris gave evidence to the effect that the levels of meloxicam and the ketoprofen metabolite, taken separately, were below the Screening and Residue Limits set by the Board but were reported because of the decision by the Board to report findings of two or more non-steroidal anti-inflammatory drugs (NSAIDs) below screening levels. This was to avoid misuse of two or more NSAIDs in attempts to reduce individual levels below the screening or residue limits. In this case Professor Morris advised that the most likely source of exposure to meloxicam and ketoprofen metabolite was the feeding of Category 2 meat.

In the opinion of Professor Morris the most likely source of the codeine and oripavine was food contamination by the straw of the opium poppy or poppy seeds. This could have occurred during the manufacturing,

distribution or retail sale of the surplus cereals used by Miss Brown.

Professor Morris advised that the diversity and quantum of substances identified was consistent with food contamination.

The Disciplinary Committee concluded that on the balance of probabilities the source of the meloxicam and ketoprofen metabolite was the Category 2 meat used by Miss Brown and the source of the codeine and oripavine lay in the cereals purchased by her.

The Disciplinary Committee noted that the GBGB recommends only the use of Category 3 meat and that feeding Category 2 meat might be regarded as an aggravating factor in an Inquiry. On the other hand this was the first breach of rules found against Miss Brown and she reported she had now changed her meat supplier, feeding only Category 3 meat and moving from beef to chicken and turkey.

The Disciplinary Committee found Miss Brown to be in breach of rules 152 (i) and (ii), 174 (i)(b), 214 and 217 of the GBGB Rules of Racing and ordered a caution and a penalty of £200.

2 **Doncaster Stadium** **- POOKIES CHICAGO -** **Professional Trainer** **Mr Martin Haythorne**

Professional Trainer Mr Martin Haythorne was found in breach of rules 152(i) and (ii), 174(i)(a) and 217 of the GBGB Rules of Racing in that a post-race blood sample taken from the greyhound POOKIES CHICAGO at Doncaster Stadium on

14 September 2020 was analysed by LGC Health Sciences (LGC) as containing the presence of naproxen and that he had in his charge a greyhound which showed the presence of a substance that could by its nature affect the performance of a greyhound or prejudice its well-being.

Mr Haythorne was in attendance. Nathan Sheppard, Racing Manager of Doncaster Stadium, Peter Rosney Stipendiary Steward, and Professor Tim Morris, independent scientific adviser, were also in attendance.

The Disciplinary Committee heard evidence from Professor Morris to the effect that naproxen is a non-steroidal anti-inflammatory drug (NSAID). All NSAIDs have the potential to induce adverse reactions, some of which can be life-threatening. A number of NSAIDs are commonly used in dogs although naproxen is not generally used. There is both prolonged excretion in dogs, and they are also extremely sensitive to its side-effects. While Professor Morris was not aware of any studies that showed naproxen could in itself affect the performance of the greyhound, the alleviation of symptoms by naproxen could have an indirect effect on performance by mitigating the adverse effects of any pain or inflammation. In his opinion naproxen is a substance which by its nature could affect the performance of a greyhound or could prejudice the well-being of a greyhound.

At a local inquiry held on 23 November 2020 Mr Haythorne was at a complete loss as to how the greyhound had come into contact with the substance but did suggest that in his opinion the only place it could have happened was whilst the greyhound was kennelled at the track. Following notification of the positive sample Mr Haythorne had monitored movements in and out of the kennel block and concluded that there were significant periods of time when the racing kennels were left insecure and unattended.

Professor Morris advised that the analysis by LGC was unable to confirm the time or quantity of the exposure to naproxen by the greyhound. It could be a small dose shortly before the race or a larger dose some days or even over a week previously. Naproxen was not licensed for use in animals and should not have been ingested from feed and the Committee concluded that ingestion via feed was unlikely.

He advised that naproxen was only generally available in the UK in the form of pills although naproxen in gel form could be bought overseas. In light of this the Committee considered ingestion via a pill the most likely source of the drug in the greyhound.

While Mr Haythorne alleged that the kennels at the stadium were left unattended during races the Committee were provided with a letter from Mr Michael Smith, racing manager at Doncaster, saying that the paddock stewards were experienced and knew to keep all kennels locked and never to leave the paddock areas unattended.

In any event the Committee thought the possibility of the naproxen being ingested at the stadium either by accident or by administration by a third party unlikely. While it was acknowledged that work on flooring was in the course of progress at the stadium at the time, the Committee thought it unlikely that the dog could have eaten a naproxen pill taken from one of the workmen.

Mr Haythorne made no suggestion that the naproxen might have been ingested by accident at his own kennels but had confirmed at the local inquiry that he had himself been prescribed naproxen in 2019.

The Committee noted a quite exceptional improvement in performance by POOKIES CHICAGO between his race on 2 September 2020 and the race on 14 September 2020 and Mr Haythorne was unable to explain this improvement. There was then a worsening of form later in 2020 and while Mr Haythorne put this down to heavier going in winter the Committee were unconvinced.

Having regard to the above, the Committee concluded that on the balance of probabilities naproxen had been administered to POOKIES CHICAGO. Accordingly, the Disciplinary Committee found Mr Haythorne to be in breach of rules 152 (i) and (ii), 174 (i)(a), and 217 of the GBGB Rules of Racing and ordered a severe reprimand and a penalty of £500.

3 Pelaw Grange Stadium - ARIZONA BLUE - Greyhound Trainer Mrs Jan Little

Professional Trainer Mrs Jan Little was found in breach of rules 152(i) and (ii), 174 (i) (a), 214 and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound ARIZONA BLUE on 13

December 2020 was analysed by LGC Health Sciences as containing the presence of caffeine, theophylline and paraxanthine and that she had in her charge a greyhound which showed the presence of a substance that could by its nature affect the performance of a greyhound or prejudice its well-being.

Mrs Little was not in attendance as she was recovering from illness. David Gray, racing manager of Pelaw Grange Stadium, Dave Baldwin Stipendiary Steward and Professor Tim Morris, independent scientific adviser were also in attendance.

Mark Bird on behalf of the GBGB reported that Mrs Little had consented to this hearing taking place in her absence.

On 13 December 2020 at Pelaw Grange Stadium a post-race urine sample was taken from ARIZONA BLUE, a greyhound trained by Mrs Jan Little which upon analysis by LGC was shown to contain caffeine, theophylline and paraxanthine.

At a local inquiry held on 15 February 2021 Mrs Little explained that she had acquired the dog in August 2020 at a time when he was in poor condition. She therefore fed him treacle bread and tea each night to improve his weight and condition. She realised that this was a breach of the rules but said that anything she did was to help the welfare of the dog.

Professor Morris gave evidence to the effect that exposure to caffeine and its subsequent metabolism can also produce a finding of theophylline and paraxanthine which are metabolites of caffeine. In his opinion caffeine and theophylline were mental and cardiac stimulants, and also bronchodilators and so substances which by their nature could affect the performance of a greyhound or could prejudice the well-being of greyhound.

In his opinion the presence of caffeine and theophylline in the urine sample taken from the dog ARIZONA BLUE were consistent with exposure via tea. The levels found were likely to have an effect on performance.

The Disciplinary Committee concluded that Mrs Little had knowingly administered tea which might affect the performance of a greyhound and was therefore in breach of rules 152 (i) and (ii), 174(i) (a), 214 and 217 of the GBGB Rules of Racing. The Disciplinary Committee heard in mitigation that Mrs Little was a long-standing

Professional Trainer and looked after her dogs well. The Committee ordered a caution and a penalty of £300.
