TRACK LIAISON OFFICER

The Greyhound Board of Great Britain Welfare and Veterinary Standing Committee are looking to recruit a Track Liaison Officer to join our Track Sub-Committee.

The main purpose of this role is to visit the 19 GBGB licensed racecourses, a minimum of 4 times per year, to promote, as liaison with GBGB Track Consultants the Sports Turf Research Institute (STRI), best practice relating to track preparation and maintenance.

Candidates must have experience of maintaining sand, or similar surfaces that are required to operate year-round, with regular frequency and in wide ranging weather conditions. An understanding of the usage and maintenance of basic ground-working machinery, their abilities and functions, and familiarity with tractor usage is essential. Further understanding of the track fitting and environment, such as hare and watering systems would be preferable.

Excellent reporting and communication skills are also required as there will be regular contact with stadium staff (as both track and senior management level). You will also work alongside and interface with STRI.

Candidates will have the ability to demonstrate a consistent approach and vision to track preparation and maintenance during track visits and more formal training days with ground staff, therefore good presentational skills are required. Good IT skills are essential.

The candidate will be home-based and the ability to work under your own initiative is essential, as is a clean driving licence and your own vehicle.

There is a requirement for the Track Safety Officer to respond to both routine and more immediate calls for assistance from tracks. Further training and support for the role will be provided upon appointment.

Salary: c.£35,000 per annum plus mileage. The successful candidate will be supplied with the necessary homeworking IT equipment.

DISCIPLINARY COMMITTEE INQUIRIES

The Disciplinary Committee of the GBGB were in attendance at a meeting held on 10 June 2021:-

Mr K Salmon (in the chair)
Mr R Woodworth CBE
Mr P O’Dowd

1 **Sunderland Stadium - BALLY SAX HOT - Professional Trainer Mrs EA Lagan**

Professional Trainer Mrs Elisabeth Ann Lagan was found in breach of rules 152 (i), 174 (i)(b), and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound BALLY SAX HOT at Sunderland Stadium on 3 March 2021 was analysed by LGC Health Sciences as containing the presence of dorzolamide.

Mrs Lagan was in attendance, as were Alex McTaggart, stipendiary steward and Professor Tim Morris, independent scientific adviser and Joanne Wilson, authorised representative at Sunderland.

BALLY SAX HOT came into Mrs Lagan’s charge on 9 November 2019. On 14 November 2019 a POR sample was taken which tested positive for dorzolamide. A further POR sample taken on 7 January 2020 tested negative. The greyhound was not then tested again until 3 March 2021.

Alex McTaggart gave evidence to the effect that he had spoken to the greyhound’s breeder (and owner) who had been prescribed dorzolamide preparations for the treatment of glaucoma. He said it was possible that he had wiped his face after the administration of his eye drops and then touched the greyhound. Mrs Lagan explained

that the greyhound’s UK owner was a friend of the breeder. He had previously bought greyhounds from this source, which had also tested positive for dorzolamide. She told the committee that she would no longer accept greyhounds from this breeder in her kennel especially as greyhounds giving a positive test for dorzolamide were required to be “laid off” for a potentially considerable period until negative tests were confirmed.

The Disciplinary Committee heard evidence from Professor Tim Morris, independent scientific adviser, to the effect that dorzolamide is a carbonic anhydrase inhibitor used in the treatment of glaucoma by lowering pressure in the eye by inhibiting the production of fluid within the eye. It has diuretic effects when given systemically and is therefore a substance which by its nature could affect the performance of a greyhound. There is limited evidence of the potential in appropriate clinical use for it to prejudice the welfare of a greyhound.

He explained that dorzolamide can remain in a greyhound’s system for a very considerable time because it is absorbed into the red blood cells which act as an “ongoing reservoir”. The red blood cells are renewed about every hundred days which explains the negative sample taken on 7 January 2020; this is a substance which can “appear and disappear”. In his opinion this presented a “huge challenge” for trainers.

Professor Morris was absolutely clear that the administration of dorzolamide occurred before the greyhound came into Mrs Lagan’s care. The Disciplinary Committee accepted that

evidence. The Disciplinary Committee was unable to form a view as to whether the account given by the breeder was true, or whether there was some more sinister explanation as dorzolamide is a diuretic which can act as a masking agent for doping agents.

The Disciplinary Committee was therefore satisfied that no blame attached to Mrs Lagan regarding the administration of dorzolamide, nor for running the greyhound following the negative sample on 7 January 2020.

However, some of the GBGB rules of racing impose strict liability and on that basis the Disciplinary Committee found Mrs Lagan in breach of rules 152 (i), 174 (i)(b), and 217.

In all the circumstances of this case the Disciplinary Committee agreed with the GRB that no further action should be taken against Mrs Lagan.

2 **Newcastle Stadium - EL BUFALO (formerly DROOPYS HOST) - Professional trainer Mr G Carmichael**

Professional Trainer Mr Gary Carmichael was found in breach of rules 152 (i), 174 (i)(b), and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound EL BUFALO at Newcastle Stadium on 8 January 2021 was analysed by LGC Health Sciences as containing the presence of ampyrone and 4-methylaminoantipyrine.

Mr Carmichael was in attendance, as were Alex McTaggart, stipendiary steward, Ian Walton, authorised representative at Newcastle, and Professor Tim Morris, independent scientific adviser.

The Disciplinary Committee heard evidence from Professor Tim Morris,

independent scientific adviser, to the effect that ampyrone has pain killing and anti-inflammatory properties and carries risks of causing blood disorders. Ampyrone and 4-methylaminoantipyrine are metabolites of dipyron which is a non-steroidal anti-inflammatory drug with pain killing and anti-inflammatory properties. As such both are substances which could affect the performance or prejudice the welfare of a greyhound. Dipyron is one constituent of a veterinary medicine Buscopan Compositum®, with butylscopolamine its other principle constituent.

Professor Morris was of the firm view that whereas ampyrone and 4-methylaminoantipyrine are not easily available Buscopan Compositum® is a widely used veterinary medicine. On a balance of probability therefore the source of these metabolites found in the urine of EL BUFALO was exposure to Buscopan Compositum®. This could have occurred in one of two ways: by direct administration or by the greyhound ingesting contaminated meat.

Mr Carmichael gave evidence. He was adamant that he had never heard of Buscopan Compositum® and had no idea what it was until he read the evidence of Professor Morris. He said he sometimes used Buscopan® tablets which contain butylscopolamine, but Professor Morris was clear that these tablets did not contain dipyron and were not therefore a possible source of ampyrone and 4-methylaminoantipyrine. He told the Disciplinary Committee that he only fed meat fit for human consumption to his racing dogs although his retired dogs and puppies were fed Category 2 meat. He wondered therefore if in his absence EL BUFALO might have been fed Category 2 meat by mistake, although he accepted that this was speculation on his part.

The Disciplinary Committee found this a very difficult case. The committee by no means ruled out deliberate administration of Buscopan Compositum® by Mr Carmichael but could not say upon the evidence available that this explanation was proved on a balance of probabilities. However, if that had not occurred then Mr Carmichael, either by accident or design must have fed EL BUFALO contaminated Category 2 meat. The Disciplinary Committee therefore found Mr Carmichael in breach of rules 152 (i), 174 (i)(b), and 217 of the GBGB Rules of Racing.

The Disciplinary Committee heard evidence from Alex McTaggart

and Ian Walton to the effect that Mr Carmichael was an excellent trainer who maintained the highest standards of welfare within his kennel. The Disciplinary Committee accepted that evidence, however this was the seventh time that Mr Carmichael had appeared before the Disciplinary Committee in connection with greyhounds in his charge testing positive for prohibited substances since 4 January 2016. Such a record undermines public confidence in greyhound racing, a fact which the Disciplinary Committee could not ignore. The Disciplinary Committee therefore ordered that Mr Carmichael be severely reprimanded. It was pointed out to Mr Carmichael that this was only one step away from disqualification and if there are any further rule breaches of this sort that is what Mr Carmichael can expect. The Disciplinary Committee also ordered that he be fined £1,000.

3 Pelaw Grange Stadium – AULTON PATSY – Greyhound Trainer Mr D Cowell

Greyhound Trainer Mr Darren Cowell was found in breach of rules 152 (i), 174 (i)(b), 214, and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound AULTON PATSY at Pelaw Grange Stadium on 28 February 2021 was analysed by LGC Health Sciences as containing the presence of caffeine and paraxanthine.

Mr Cowell was in attendance, as were David Gray racing manager at Pelaw Grange, and Professor Tim Morris, independent scientific adviser.

The Disciplinary Committee heard evidence from Professor Tim Morris, independent scientific adviser, to the effect that caffeine affects dogs as it does other animals and people, stimulating the brain and heart, and opening up the airways. As a mental and cardiac stimulant and bronchodilator it is a substance which by its nature could affect the performance or prejudice the wellbeing of a greyhound. Paraxanthine is a metabolite of caffeine.

Professor Morris gave evidence that the GBGB screening limit for caffeine was in this case exceeded by a power of ten, but even so had caffeine been deliberately administered as a stimulant he would have expected the levels to have been far higher.

Mr Cowell took full responsibility for this positive test. He explained that AULTON PATSY was by nature “hyper” and became very agitated before going racing. He therefore

brought the greyhound into his house in the hope that it would calm down. He had made himself some tea and marmite toast when the phone rang. When he returned to his sitting room the greyhound had spilt, and presumably drunk, the tea and eaten the toast. While marmite would not contain caffeine, tea most definitely would.

Mr Cowell told the Disciplinary Committee that he was aware of the GBGB guidelines regarding caffeine and intended to follow them in future. In particular he would never allow his greyhounds into his home.

The Disciplinary Committee found Mr Cowell in breach of rules 152 (i), 174 (i)(b), 214, and 217 of the GBGB Rules of Racing. They accepted his explanation and ordered that he be cautioned and fined £200.
