GBGB INCREASES FUNDING AVAILABLE THROUGH ITS INJURY RECOVERY SCHEME

Following a review of its Injury Recovery Scheme (IRS), the Greyhound Board of Great Britain (GBGB) is pleased to announce that it is increasing the levels of funding available to cover the treatment costs of career-ending injuries.

Launched in 2018 as part of GBGB's Greyhound Commitment, the IRS provides funding to help cover the costs of veterinary treatment for career-ending orthopaedic injuries. Since its launch, GBGB has paid out over £300,000 through the scheme.

Based on the success of the scheme and the number of applications received, the GBGB Board has agreed to increase the amount of funding available. The new levels of funding, which are available for applications received since 1st June 2021*, will help owners and trainers cover the costs of more expensive treatments:

- A grant of 50%, up to a maximum of £400 per greyhound, for any career-ending injury that requires remedial veterinary treatment;
- A grant of 50%, up to a maximum of £1,000 per greyhound, for a career-ending hock injury that requires specialist surgery;
- A grant of 50%, up to a maximum of £2,000 per greyhound, for a career-ending long bone injury that requires specialist surgery. Grants will be payable to the applicant upon completion of an IRS application form and the production of a fully paid veterinary invoice. Racecourses that currently provide their own injury recovery scheme may apply for IRS funding on behalf of their owner or trainer.

Duncan Gibson, GBGB Welfare and Integrity Services Manager, said:

"Whilst the current level of funding was sufficient for the majority of career-ending injuries, there are some injuries that require more intricate and expensive veterinary treatments. This increased funding will ensure more greyhounds receive the treatment they need so they can go on to enjoy their retirements."

Mark Bird, GBGB Managing Director, said:

"We have been pleased with the impact of the IRS and know that further investment will go a long way to supporting trainers and owners cover the cost of more complex and costly veterinary procedures. The Board was therefore unanimous in its support to improve the level of IRS funding available."

"We know that with the right treatment and care, these greyhounds can go on to live long, happy and fulfilled lives as pets. We are hopeful that this increased funding will help further facilitate this outcome for more greyhounds."

GBGB will continue its work into further reducing track injuries. In addition to its work with STRI, GBGB is in the process of recruiting a Track Liaison Officer who will work closely with GBGB-licensed stadia on track safety and maintenance. The Board is also looking to appoint a Non-Executive Veterinary Director who will undertake a comprehensive review into track injuries and identify initiatives to bring about long term, sustainable change.

IRS application forms can be downloaded from the GBGB website, www.gbgb.org.uk (welfare) or via the Trainers / Owners Portal. Alternatively, email grants@gbgb.org.uk.

*Applications that qualify for additional funding but have been received and processed after 01 June 2021, will receive a balancing payment. No additional application is required and GBGB will confirm the additional amount with the applicant.

KENNEL COUGH ISOLATION PROTOCOL (29TH JULY 2021)

Kennels

- If a greyhound is coughing, the greyhound must be isolated for a period of 3 weeks.
- The kennelmate or close contact of any greyhound that is coughing must also isolate for 3 weeks.
- If a trainer is unable to isolate their greyhounds, then the whole kennel must isolate for 3 weeks.

Racecourse

- If a greyhound is presented at kennelling with a cough, it must be returned to the vehicle immediately with all the trainers' runners; and then returned to the residential kennels.
- All the greyhounds on the vehicle must isolate at the kennels for 3 weeks.
- If the trainer is unable to isolate all the greyhounds on the vehicle, then the whole kennel will need to isolate for 3 weeks.
- If a greyhound starts to cough after a race/trial all the greyhounds that are transported back to the kennels in the same vehicle will need to isolate for 3 weeks.

Isolation

- To properly isolate greyhounds you must isolate the air space for 3 weeks.

Code of Practice - 3.8.1.2 Isolation of Sick Dogs

Isolation is similar to quarantine but involves the separation of diseased dogs (or possibly infected dogs) from healthy dogs. The aim of isolation is to limit spread of an infectious disease within the kennel. Where dogs are housed in pairs, the kennel mate of a sick dog should also be put into isolation. For further information on isolation see Appendix 4. Facilities should be available at all kennels to ensure that dogs suspected to be suffering from an infectious disease can be adequately isolated from other dogs.

Separate equipment and utensils must be provided for use in isolation units. A colour-coding system may be used so that equipment belonging in the isolation area is easily recognised.

No greyhound showing signs of disease, or one which has had direct contact with such a dog (i.e. the kennel mate of an ill greyhound), should be taken to a race track or schooling track. Running a greyhound which is suffering from ill-health could significantly worsen its condition and also spread the disease to other dogs at the stadia.

IMPORTANT NOTICES

Complaints

The Greyhound Board of Great Britain will receive complaints in confidence from anyone concerned about a possible breach of the Rules of Racing. Send emails to complaints@gbgb.org.uk or call the GBGB office on **020 7822 0900**. Alternatively, write to:

Welfare Hotline

If you are concerned about the welfare of any registered racing greyhounds, please call our confidential Welfare Hotline on **020 7822 0917**. The line is available 24 hours a day, seven days a week.

You will be prompted to leave a voicemail message giving as much information as you can so that our team can investigate your concerns fully and ensure appropriate action is taken.

The Disciplinary Committee wish to advise those appearing before them as "the affected person" that the Disciplinary Committee has the discretion to take account of any previous breaches of the rule(s) of racing which they consider are relevant to a case being heard before them irrespective of the date of commission of the breach.

DISCIPLINARY COMMITTEE INQUIRIES

The Disciplinary Committee of the GBGB were in attendance at a meeting held on 20th July 2021:-

Mr R Woodworth CBE (Chair)
Mr H Starte
Mr P O'Dowd

Disclosures

Mr Peter O'Dowd stated that he was familiar with Professional Trainer Frank Gray from his time particularly as Racing Manager at Romford but Mr Gray confirmed that he had no objection to Mr O'Dowd participating in the Inquiries.

The Inquiries

On behalf of GRB Mr Bird stated that Mr Gray had admitted none of the breaches against him alleged below. He proposed that the Committee hear the 2 cases together but to avoid any possible prejudice of one case influencing the other Mr Bird suggested that the Committee should hear the evidence relating to each Inquiry separately and reach decisions on possible rule breaches but not announcing their decision or deciding any appropriate sanction before proceeding to hear the evidence in the second case. Any rule breaches and sanctions would then be announced sequentially. Mr Gray confirmed that he was happy with this procedure.

Re-Hearing – Romford Stadium – SAVANA BEETLE – Professional Trainer Mr F Gray

Professional Trainer Frank Gray was found in breach of rules 152 (i), 174

(i)(b) and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound SAVANA BEETLE at Romford Stadium on 22nd November 2019 was analysed by LGC Health Sciences as containing the presence of meloxicam.

Mr Gray was in attendance, as were Hayley Huntley, stipendiary steward, and Professor Tim Morris, independent scientific adviser.

Towcester Stadium – SAVANA MALIBU – Professional Trainer Mr F Gray

Professional Trainer Frank Gray was found in breach of rules 152 (i) and (ii), 174 (i)(a) and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound SAVANA MALIBU at Towcester Stadium on 24th September 2020 was analysed by LGC Health Sciences as containing the presence of meloxicam.

Mr Gray was in attendance, as were Tiffany Blackett, stipendiary steward, Andrew Lisemore, Towcester racing manager, and Professor Tim Morris, independent scientific adviser.

SAVANA BEETLE

The Committee heard evidence from Professor Morris to the effect that meloxicam (relevant to both cases) is a non-steroidal anti-inflammatory drug (NSAID). All NSAIDs have the potential to induce adverse reactions, some of which can be life threatening and as such it is a substance which could affect the performance or prejudice the welfare of a greyhound. Professor Morris also explained that meloxicam is a drug which should not normally be

administered to greyhounds because it can be retained in the greyhound's system for extended periods after administration. This advice had been published in the Greyhound Calendar during April and May 2018 as a warning to both to Trainers and Veterinary Surgeons.

The Inquiry turned on the circumstances surrounding SAVANA BEETLE being treated by Veterinary Surgeon Mr Humphrey Murphy on the 17 November 2019 for a swollen toe, 5 days before the greyhound competed in the first round of a prestigious competition at Romford. Mr Gray told the Committee he had left the greyhound at Mr Murphy's surgery and collected it some 3 hours later primarily to confirm by X-ray that the toe was not broken. When he had collected the greyhound, he had spoken only to a nurse. He could see that the toe had been poulticed and was told that the greyhound could race again after an interval of 4 days. Accordingly, he believed that he was acting in the interests of the greyhound's welfare in not running her until the fifth day after treatment. He claimed not to have spoken to Mr Murphy (although there might have been an exchange of text messages) as he was busy with his many other dogs and had no reason to believe that the greyhound had in fact also received an administration of Loxicam. Professor Morris confirmed that this administration was the almost certain source of the meloxicam in the greyhound's positive sample. A written statement from Mr Murphy confirmed the detailed treatment received by SAVANA BEETLE as well as the instruction not to run the greyhound for 4 days but contained no elucidation on whether Mr Gray

had been informed of the Loxicam injection.

In all the circumstances Mr Bird submitted that as there was some doubt about Mr Gray's knowledge of the Loxicam injection he wished the Committee to proceed to consider only the lesser, strict liability offences of possible breaches of rules 152 (i) 174 (i) (b) and 217. After hearing the explanation provided by Mr Gray for his Treatment and Kennel books not being available to the Preliminary Inquiry, Mr Bird suggested that a possible breach of rule 216 would not be pursued by the Board.

The Committee determined that Mr Gray had been in breach of rules 152 (i) 174 (i) (b) and 217 but it did not accept a submission by Mr Bird that there should be no further action. They had given Mr Gray the benefit of the doubt in this case but as a Professional Trainer he had at the very least failed to clarify with the Veterinary Surgeon what treatment his greyhound had received before deciding that it was safe to run it again. Accordingly, they administered a Caution.

SAVANA MALIBU

The Disciplinary Committee considered the report of a Local Inquiry by the Stipendiary Steward on the 29 October 2020 into the positive analysis of a urine sample taken from the greyhound SAVANA MALIBU at Towcester stadium on the 24 September 2020 which was analysed by LGC Health Sciences as containing the presence of meloxicam.

Meloxicam is described above. Professor Morris gave evidence that not only was the measure of meloxicam in the sample very substantial at in excess of 200ng/ml but that traces of a meloxicam metabolite showed that the NSAID had gone through the greyhound's system ie was not caused by contamination in some form. Nothing in the greyhound's feeding regime could account for the positive sample. He suggested that the most likely explanation was an administration of meloxicam a few hours before the trial.

In this case the greyhound SAVANA MALIBU had given a positive sample in a solo sprint trial and Mr Gray contended that he would have had no motive for administering the NSAID before a solo trial. He denied that the greyhound suffered from an intermittent lameness and was adamant both that no one else in his kennel administered medication to his greyhounds and that in this case he had not administered meloxicam

to SAVANA MALIBU. He suggested that the only explanation was that SAVANA MALIBU had eaten the faeces of her kennel companion TEN BAGS JACK who had been treated with meloxicam by Veterinary Surgeon Mr Humphrey Murphy for a serious racing injury before having to be euthanised on the 27 September 2020. However, there was no evidence before the Committee that TEN BAGS JACK had been treated with meloxicam. In any event, Professor Morris was adamant that even if TEN BAGS JACK had been treated with Meloxicam, the dog's faeces would have contained only a small quantity of the meloxicam, which would have been further reduced passing through SAVANA MALIBU. This could not explain the high level detected in the sample from SAVANA MALIBU, which was broadly consistent with an administration to that dog within a few hours before it trialed.

In all the circumstances the Committee agreed with Mr Bird that the scientific evidence pointed to an administration of meloxicam by the trainer and found Mr Gray in breach of rules 152 (i) & (ii) 174 (i) (a) and 217. The Committee made no ruling regarding a breach of rule 216 in connection with Mr Gray's Treatment and Kennel Books.

This was a serious breach of the rules by a trainer who had been severely reprimanded and substantially fined in 2017. Accordingly, the Committee disqualified Mr Gray for 3 months suspended for 12 months and fined him £1250.

Trainers and track vets are reminded that a 24-hour GBGB advice and reporting line for greyhounds showing symptoms of respiratory disease is available on **020 7822 0913**. Information for trainers and veterinary surgeons on diseases, biosecurity and disinfection is available at www.gbgb.org.uk in the Knowledge Base section.

Please note, the above helpline should only be used in the event of reporting suspected disease and/or requesting veterinary advice. **For all general enquiries, please call the GBGB office on 020 7822 0900.**

PROFESSIONAL/GREYHOUND TRAINER REQUIRED

Harlow Stadium currently race 5 meetings per week. We are seeking a professional/greyhound trainer to supply greyhounds of all grades to the stadium.

For further information please call the racing office: 01279 639248 or apply via email to harlow@bagsracing.com

Open Races

General Conditions

Unless otherwise stated the following will apply to all open races advertised in this issue of the Calendar:

- The Standard Conditions of Entry (Rules of Racing, Rule 82) and international Entries and Conditions where applicable (Rule 83).
- Classification Wide Runners – Open Races (Rules of Racing, Rule 79(b)).
- Entries close to the Racing Managers, at the addresses of the stadiums concerned, at the times and on the date shown.
- The draw for traps (and heats, where applicable) is made under Rule 80 by the Secretary of the GBGB, or their appointed representative, as soon as possible after the closing date for entries unless otherwise indicated in the conditions.
- When reference is made in the calendar regarding greyhounds who have not won an open race at the time of closing, it refers to GBGB open races.
