GBGB TRACK VETS ATTEND TRAINING DAY

This week, GBGB held its annual Track Vet Training Day which was attended virtually by track vets from across all of GBGB's licensed racecourses. As the event was held online this year GBGB was able to welcome veterinary experts from across the globe to discuss the latest cutting-edge research into greyhound welfare, safety and care.

A highlight of the day was a presentation by Dr Steven Karamatic, Chief Veterinarian at Greyhound Racing Victoria in Australia who, alongside Professor Tim Morris, presented a global review into medication control in racing greyhounds.

Participants also heard from the University of Nottingham's Professor Richard Payne who reported on the latest findings from the Disease Surveillance and Monitoring Programme. This research programme, which is run in partnership with GBGB, seeks to identify and monitor contagious diseases amongst the greyhound population. This year, the programme looked into the prevalence of non-typical kennel cough. As well as supporting GBGB's response to the nationwide outbreak, the findings were shared with general pet clinicians across the country.

During the afternoon, recently appointed GBGB Independent Director, Professor Madeleine Campbell, delivered a thought-provoking presentation entitled 'Sporting Animals, Ethics, and Us' that explored the ethical arguments for greyhound racing. As part of this, she discussed her work in developing GBGB's new overarching and holistic welfare strategy, *A Good Life for Every Greyhound* which will be published next Spring.

As well as leading experts and professors, the track vets also heard from five young researchers carrying out work in the field of racing greyhounds. Lucy Waterman, Jessica Oliver, Stacey Powers, Lucy Porter and Katie Reynolds from the University of Nottingham delved into GBGB's extensive veterinary data as part of their degree study. They presented their research into various topics ranging from minerals in the eyes of greyhounds, trends in gracilis injuries and canine haemorrhagic pneumonia (CHP).

We would also like to extend our thanks to Graham Dick, President of the charity [Vetlife](#), who introduced the vital work his organisation does each week to support veterinary professionals across the country.

Dr Simon Gower, GBGB Veterinary Director, said:

"As veterinarians working within greyhound racing, our overarching goal is to continue to improve the lives of racing greyhounds before, during and after their careers on the track.

"This event was a fantastic opportunity to get together and explore the latest research and data. It was especially important this year that we came together and reflect on the impact of the pandemic on our athletes' health and wellbeing. It was an inspiring day with presentations from students to professors and we are hugely grateful to all the speakers for their rigorously researched and wide-ranging contributions.

"One benefit of holding the event virtually this year meant that we were able to welcome colleagues from across the globe as both speakers and guests. Thank you to everyone who made the event such a success and I very much hope that we can meet again in person next year."

GBGB TRANSPORTATION GRANTS - UPDATE

From 01 April 2023, all vehicles used in the transportation of racing greyhounds will be required to be air-conditioned and the cargo area must be able to maintain a temperature between 10°C and 26°C.

To assist trainers' in meeting this requirement, GBGB has introduced a separate transportation fund which provides a trainer with a one-off grant payment, up to a maximum of £2,000 per replacement vehicle (capped at a maximum of 2 vehicles – see points 1 and 2 below) or £1,000 for van insulation/air conditioning repairs (point 3 below) and/or upgrades to air conditioning as per point 4 below.

The funding is available for the following:

- 1) **Replacement vehicle (commercial vehicles only)** – the grant can be used towards the purchase of an air-conditioned vehicle which is used as the main or secondary vehicle for transporting racing greyhounds.
- 2) **Purchase hire/leased commercial vehicle** – the grant can be used towards the deposit or monthly payments of a newly acquired hire purchase or lease hire air-conditioned commercial vehicle to be used as the main or secondary vehicle for transporting racing greyhounds.
- 3) **Insulation/repairs** – trainers with vehicles that are equipped with fully functioning air conditioning can apply for a grant of up to £1,000 per vehicle (maximum 2) to fully insulate the cargo area to assist in controlling heat transfer into and out of the vehicle. Vehicles with air conditioning units in disrepair may apply for funding towards the repair or replacement of existing air conditioning units.
- 4) **Extension of air conditioning unit to the cargo area/stand-alone air condition units** – the grant can also be used towards the cost of extending the factory fitted air conditioning to the cargo area (tap-in system), or towards the costs of installing a stand-alone air condition unit to the cargo area.

More information about Transportation Funding and an application form is available via the GBGB Trainers' Portal. If you have any questions regarding the application process, please contact GBGB on **020 7822 0900** or email **grants@gbgb.org.uk**.

Welfare Hotline

If you are concerned about the welfare of any registered racing greyhounds, please call our confidential Welfare Hotline on **020 7822 0917**. The line is available 24 hours a day, seven days a week.

You will be prompted to leave a voicemail message giving as much information as you can so that our team can investigate your concerns fully and ensure appropriate action is taken.

The Disciplinary Committee wish to advise those appearing before them as "the affected person" that the Disciplinary Committee has the discretion to take account of any previous breaches of the rule(s) of racing which they consider are relevant to a case being heard before them irrespective of the date of commission of the breach.

DISCIPLINARY COMMITTEE INQUIRIES

The Disciplinary Committee of the GBGB were in attendance at a meeting held on 28 September 2021:-

Mr K Salmon (in the chair)
Mr M Harrod
Mr R O'Donovan

1 **Romford Stadium**
- ALL ABOUT TAYLOR -
Professional Trainer
Mrs C Grasso

Professional Trainer Mrs Carol Grasso was found in breach of rules 152 (i), 174 (i)(b) and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound ALL ABOUT TAYLOR at Romford Stadium on 30 April 2021 was analysed by LGC Health Sciences as containing the presence of norethisterone and metabolites of norethisterone, and that she had in her charge a greyhound that showed the presence of a substance that by its nature could affect the performance of a greyhound or prejudice its wellbeing.

Mrs Grasso was in attendance. Karen McMillan, authorised representative of Romford Stadium, Paul Illingworth, senior stipendiary steward, and Professor Tim Morris, independent scientific adviser, were also in attendance.

On 30 April 2021 a pre-race urine sample was taken from the greyhound ALL ABOUT TAYLOR at Romford stadium which, when analysed by LGC, tested positive for the presence of norethisterone and metabolites of norethisterone.

The Disciplinary Committee heard evidence from Professor Tim Morris to the effect that norethisterone is not available as a veterinary medicine but it may be used by greyhound veterinarians under the prescribing cascade to provide long term suppression of oestrus. Norethisterone has anabolic properties. In the opinion of Professor Morris it is a substance which by its nature could affect the performance or prejudice the welfare of a greyhound.

On 30 June 2021 at a local inquiry Mrs Grasso was questioned by stipendiary steward Mr R Steward. She had no definitive explanation for the positive sample but thought that the likeliest explanation was that one of her bitches could have coughed it out in the paddock where ALL ABOUT TAYLOR could have picked it up. She repeated this explanation in oral evidence before the Committee.

Professor Morris confirmed that in his professional opinion it was probable that ALL ABOUT TAYLOR had ingested norethisterone, but the circumstances of that ingestion were unknown. Further discussion of such possible circumstances included the possibility that someone could carry out a long-term administration of norethisterone because they believe there would be a benefit from the drug's anabolic qualities. Upon learning that this greyhound had had a negative test four weeks after 30 April 2021 he discounted this explanation as a possible cause.

Mrs Grasso attended the inquiry. She explained she had now changed her system for administering oestrus

suppressant and now gave each bitch a pill individually. She also used separated paddocks for her dogs and her bitches. The Committee found her to be an honest witness who was plainly doing her best to assist the inquiry. The Committee noted with approval the changes she had made.

The Disciplinary Committee noted that there was no direct evidence which could allow them on a balance of probability to find that there had been a deliberate administration of norethisterone, a view with which Mr Bird, on behalf of the GRB, concurred. Therefore, the Committee found on a balance of probability that the likeliest source of norethisterone was that ALL FOR TAYLOR had ingested a pill administered to one of Mrs Grasso's bitches as had been suggested by her. The Committee therefore found her in breach of rules 152 (i), 174(i)(b) and 217 of the GBGB rules of racing which impose strict liability.

The Committee noted that there had been no previous breaches of the GBGB rules of racing and ordered that she be cautioned with no further penalty.

2 **Harlow Stadium - SHE GO CRAZY - Professional Trainer Miss S Clark**

Professional Trainer Miss Sally Clark was found in breach of rules 152 (i), 174 (i)(b) and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound SHE GO CRAZY at Harlow Stadium on 23 April 2021 was analysed by LGC Health Sciences as containing the presence of diclofenac, and that she

had in her charge a greyhound that showed the presence of a substance that by its nature could affect the performance of a greyhound or prejudice its wellbeing.

Miss Clark was in attendance. Mark Schellenberg, racing manager of Harlow Stadium, Paul Illingworth, senior stipendiary steward and Professor Tim Morris, independent scientific adviser, were also in attendance.

On 23 April 2021 a pre-race urine sample was taken from the greyhound SHE GO CRAZY at Harlow Stadium which, when analysed by LGC, tested positive for the presence of diclofenac.

The Disciplinary Committee heard evidence from Professor Tim Morris to the effect that diclofenac is not available as a veterinary medicine but is widely used in human drugs including Voltarol as a topical preparation. It is in the class of drugs described as Non Steroidal Anti Inflammatory Drugs used to relieve pain and reduce fever and inflammation. When used in dogs it can lead to gastrointestinal ulceration and bleed and so is a substance which by its nature could affect the performance or prejudice the welfare of a greyhound.

On 1 July 2021 at a local inquiry Miss Clark was questioned by stipendiary steward Mr R Steward. She had no explanation for the positive sample, but speculated that diclofenac might have been administered prior to the greyhound coming into her care on about 19 March 2021.

Professor Morris rejected that as a possible explanation. He was quite clear in his evidence that diclofenac is a short acting drug. Administration was likely to have been at most a day or two before the sample was taken. The Committee accepted that evidence.

Miss Clark attended the inquiry. She could give no explanation as to how SHE GO CRAZY came to test positive. She was adamant that she had not administered it. When it was suggested that that she might have done so to allow the greyhound to run when injured she was clear that she knew of no injury before the greyhound was sampled nor would she run any greyhound if she believed it to be unfit.

She speculated that diclofenac might have been administered at the track, either between the van and the kennel, or in the kennel, or between the kennel and the track. The

Committee found that this was no more than speculation. There was no evidence of any kind which assisted the Committee in this regard. Just as there was no evidence that Miss Clark had herself administered it, or connived in its administration.

The Committee addressed the question whether they could say on a balance of probability that Miss Clark had deliberately administered diclofenac or connived in its administration. The Committee found Miss Clark to be an honest witness who was doing her best to assist the inquiry. She denied administering diclofenac either deliberately or accidentally.

Given that there was no evidence to the contrary the Committee concluded that it could not say on a balance of probability that there had been a deliberate administration.

Accordingly, the Committee therefore found Miss Clark in breach of rules 152 (i), 174(i)(b), and 217 of the GBGB rules of racing which impose strict liability.

The Committee noted that there had been no previous breaches of the GBGB rules of racing and ordered that she be cautioned and fined £300.
