## 2022 STAR SPORTS & TRC EVENTS & LEISURE ENGLISH GREYHOUND DERBY – NEW DATES

Dates for the 2022 Star Sports & TRC Events & Leisure English Greyhound Derby have been amended to those listed below to avoid a clash with the rescheduled British Grand Prix at Silverstone:

- 1st Round: Thursday 19th, Friday 20th & Saturday 21st May 2022
- 2nd Round: Friday 27th and Saturday 28th May
- 3rd Round: Saturday 4th June
- Quarter-Finals: Saturday 11th June
- Semi-Finals: Saturday 18th June
- Final: Saturday 25th June

## TRAINERS NOTICE: FEEDING OF ANIMAL BY-PRODUCTS (ABPS)

Cases heard by the Disciplinary Committee at GBGB continue to involve greyhounds testing positive for various medicines that might originate from feeding meat. The guidance below is issued to trainers on the subject of feeding meat, and in particular ABPs, to racing greyhounds.

UK Law in force implementing Regulation (EC) no 1069/2009 (ABPR) and the implementing regulation (EC) no 142/2011, divides Animal by-products (ABPs) into three categories, depending on their potential risk to public and animal health.

These categories are:

- **Category 1** – which includes specified risk material (SRM), (the highest risk category) (this meat is stained blue in order to identify it). This category of meat must be disposed of by rendering or incineration and is not available for feeding to greyhounds
- **Category 2** – high risk – (this meat is stained black in order to identify it). It is available for feeding under certain conditions but may contain drug residues
- **Category 3** – low risk – (this meat does not require staining)

**The Greyhound Regulatory Board (GRB) advises trainers of racing greyhounds considering whether to feed any ABP to only use Category 3 meat to avoid the risk of exposure to drug residues.**

**Category 2 meat should not be fed to racing greyhounds within 14 days of a race or trial.**

Drug Residues may be found in category 2 meat. These residues include substances that may be dangerous to greyhounds, such as pentobarbital. For substances with an extended duration such as meloxicam, when this meat is fed to racing greyhounds, drug residues may be found for up to 12 days. Repeat feeding of contaminated meat will result in an accumulation of the drug which may then be detected for a longer period. Cooking will not remove the risk of many residues, including meloxicam, in meat and any liquor from the meat will also present a risk.

**Feeding Category 2 meat would be considered an aggravating factor in any enquiry relating to greyhounds testing positive for various medicines that might originate from feeding meat.**

### Notes on Feeding Animal By-Products

Animal by-products are defined in article 3 of Regulation 1069/2009 as, “*entire bodies or parts of animals, products of animal only in or other products obtained from animals, which are NOT INTENDED FOR HUMAN CONSUMPTION.*” When a lower risk category of ABP is mixed or cross contaminated with a higher risk category, the ABP’s in question become high risk. For example, a Category 3 ABP mixed or cross contaminated with Category 2 ABP becomes high risk. As such it may contain residues and is therefore not recommended to be fed to the racing greyhound.

The Food Standards Agency (FSA) is the competent authority for issuing approvals for slaughterhouses, cutting plants and game handling establishments. In all other establishments where animal by-products are handled, registration or approval is the responsibility of the Animal Health and Veterinary laboratories Agency (AHVIA). Trainers intending to use ABP’s must only source these products from a premises approved or registered to handle animal by-products by FSA and AHVIA.

On feeding ABPs to greyhounds trainers must ensure:

- (i) The kennels are ABP registered by the relevant competent authority (namely the local Animal Health and Veterinary laboratories Agency office)
- (ii) That records of ABPs are kept for 2 years from the date of receipt
- (iii) That the category of ABP received from the supplier is identified on the receipt (sometimes referred to as an animal by-products Commercial (movement) Document which must conform with the requirements under regulation 142/2011 annex VIII Chapter III)

## AMANDA DUPLOCK TO LEAVE GBGB AFTER FOURTEEN YEARS

### ~ GBGB's Quality Manager to return to medicine ~

GBGB's Quality Manager, Amanda Duplock, will be leaving the role at the end of the month to re-join the NHS as a junior doctor.

Amanda qualified as a doctor in 2006 before moving to work within greyhound racing, a sport she has been a fan of since an early age. She was a regular at Hove growing up and began her career in the industry parading dogs at the track before working part-time as a Tote runner at Belle Vue whilst at university in Manchester.

Since joining GBGB in 2007, Amanda has overseen GBGB's UKAS accreditation and has been heavily involved in the annual Greyhound of the Year Awards. She has also edited the GBGB Calendar and has sat on the Open Race Planning Committee, using her extensive racing knowledge to help timetable the top-tier races across the country.

At the start of this year, Amanda harnessed her medical training and volunteered to help with the vaccine roll-out at the Excel centre, which reinvigorated her desire to return to the NHS.

Commenting on her move, Amanda said:

*"I am excited to make this move although it will be hard to say goodbye to my brilliant and supportive colleagues at GBGB. We are a smaller team than some people may expect but both our office staff and wider field force are greyhound people who really do care about our sport and our greyhounds.*

*"I have been involved with the GBGB Awards since the moment I joined, heading up a small team working on the 2007/2008 event when Spiridon Louis and Barnfield on Air battled it out for Greyhound of the Year. It has been hugely rewarding to see the event grow – so much work goes on behind the scenes to pull it off each year, but the buzz of watching the winning connections take to the stage makes it all worthwhile.*

*"In much the same way, it is great to see competitions you've helped to schedule go on to get a great entry and be a success when everyone's worked hard in the background to make sure they work. So much in greyhound racing is down to luck, but race planning is quite the opposite and I have really enjoyed being part of the team that makes it happen.*

*"Despite moving into a very different field, greyhound racing is in my blood, and I will definitely stay involved as an owner and a fan. I will no doubt see many of the people I have got to know over the years at GBGB at a track soon."*

Thanking her for all her work at GBGB, Mark Bird, Managing Director of GBGB, said:

*"I have had the pleasure of working with Amanda since joining GBGB six years ago. She is known and respected by many people within the sport and she will certainly be missed. We are all, however, extremely proud that she is pursuing her vocation to become a doctor.*

*"As part of her role, Amanda has ensured that we have everything in place to maintain our UKAS accreditation. We are the only sport to be UKAS accredited, and she has been central in this all-important work.*

*"Likewise, through her position on the Open Race Planning Committee Amanda has shown meticulous detail and foresight to oversee the planning of these races. There is endless discussion, compromise, and movement to get the calendar together and Amanda has delivered this year-on-year.*

*"Our whole sport has a lot to thank Amanda for and we all wish her the very best as she begins her exciting new journey."*

# IMPORTANT NOTICES

## Complaints

The Greyhound Board of Great Britain will receive complaints in confidence from anyone concerned about a possible breach of the Rules of Racing. Send emails to [complaints@gbgb.org.uk](mailto:complaints@gbgb.org.uk) or call the GBGB office on **020 7822 0900**. Alternatively, write to:

The Greyhound Board of Great Britain Ltd,  
Genesis House, 17 Godliman Street, London EC4V 5BD

## Welfare Hotline

If you are concerned about the welfare of any registered racing greyhounds, please call our confidential Welfare Hotline on **020 7822 0917**. The line is available 24 hours a day, seven days a week.

You will be prompted to leave a voicemail message giving as much information as you can so that our team can investigate your concerns fully and ensure appropriate action is taken.

The Disciplinary Committee wish to advise those appearing before them as "the affected person" that the Disciplinary Committee has the discretion to take account of any previous breaches of the rule(s) of racing which they consider are relevant to a case being heard before them irrespective of the date of commission of the breach.

## DISCIPLINARY COMMITTEE INQUIRIES

The Disciplinary Committee of the GBGB were in attendance at a meeting held on 7 October 2021

Those present:

Mr H Starte (in the chair)  
Mr M Harrod  
Mr R O'Donovan

### 1 **Towcester Stadium: OPTIC SYMPHONY (now NARCOS DODE) - Professional Trainer Mr G Carmichael**

Professional Trainer Mr Gary Carmichael was found in breach of rules 152(i), 174(i)(b), 214 and 217 of the GBGB rules of racing in that a urine sample taken from the greyhound OPTIC SYMPHONY at Towcester Stadium on 26 April 2021 was analysed by LGC Health Sciences as containing the presence of meloxicam, a substance that by its nature could affect the performance or prejudice the well-being of a greyhound.

Mr Carmichael was not in attendance. The Committee heard that Mr Carmichael had relinquished his trainer's licence in June 2021. Following the Local Inquiry into this matter he had informed Stipendiary Steward Mr Alex McTaggart that he was content for it to proceed before the Committee in his absence. Mr McTaggart was in attendance. Professor Tim Morris, independent scientific adviser, was also in attendance.

The Committee heard that OPTIC SYMPHONY ran a 500m trial on the flat at Towcester Stadium on 26 April 2021. A pre-trial urine sample

was taken which on analysis by LGC Health Sciences tested positive as containing the presence of meloxicam.

Professor Morris told the Committee that meloxicam was a non-steroidal anti-inflammatory drug available as a veterinary medicine in a range of tablet, liquid and injectable forms for use to relieve pain and reduce fever and inflammation. All NSAIDs have the potential to induce adverse reactions, some of which can be life threatening and as such it is a substance which could affect the performance or prejudice the welfare of a greyhound.

Professor Morris explained that an unplanned result of an administration study of meloxicam carried out by the GBGB and Australian regulators Greyhound Racing Victoria had been the discovery of an increased risk of meloxicam being found in the urine of greyhounds fed meat contaminated with meloxicam and an extended detection time of residues after veterinary use to treat greyhounds. In April 2018 a warning notice was first published to trainers in the Calendar and to veterinary surgeons. Trainers were warned that residues of meloxicam can be found in the urine of greyhounds up to 12 days after a dog has been fed contaminated Category 2 ABP meat and that repeat feeding can result in an accumulation of the drug which may then be detected for a longer period. Cooking the meat does not remove the risk from meloxicam residues in the meat, while liquor from the cooked meat also presents a risk. Trainers were warned that Category 2 ABP meat should not be fed to racing

greyhounds within 14 days of a race or trial and that meloxicam should not be used as an anti-inflammatory treatment within 30 days of a race or trial. These warnings were additional to the warning first issued by the GBGB in 2014 that Category 2 ABP meat carries a high risk of containing drug residues that can result in a positive test result and the advice that trainers should not feed Category 2 meat.

The Committee heard that OPTIC SYMPHONY had entered Mr Carmichael's kennel on 5 April 2021. The greyhound had two trials at Newcastle before trialling at Towcester on 26 April 2021. Mr Carmichael told the Local Inquiry held on 12 July 2021 that he had used no medication on OPTIC SYMPHONY. His only explanation for the positive sample was that the meloxicam had come through the food chain. Mr Carmichael said that he fed his greyhounds Category 2 meat purchased from Grayhill Ltd.

Stipendiary Steward Alex McTaggart told the Committee that he had known Mr Carmichael and his family as greyhound trainers for many years. He knew from Mr Carmichael that he fed his racing greyhounds large amounts of meat: as much as 3-4lbs of meat a day. From his own observation Mr McTaggart knew this to be Category 2 meat, which he had many times advised Mr Carmichael he should not be feeding to racing greyhounds because of the risk of a positive test result from drug residues in the meat.

Professor Morris's evidence was that the level of meloxicam found

in the sample taken from OPTIC SYMPHONY was such that in the normal course of events, even allowing for possible accumulation of the substance from repeated feeding with contaminated meat and for the variations within dogs that had been found in the administration study carried out with Greyhound Racing Victoria, his opinion would have been that a clinical dose of meloxicam administered between 48 and 72 hours before the trial was the more likely explanation for the positive sample. However, Professor Morris's view was that in this case, given the source of the Category 2 ABP meat fed by Mr Carmichael and given the exceptionally large quantities of meat that he was reported to feed, contaminated meat was equally likely to have been the source. He said it was extremely unlikely that the detected meloxicam was from treatment of the greyhound before it came into Mr Carmichael's charge on 5 April 2021.

On the evidence, the Committee could not find that an administration of meloxicam was the more likely explanation for the positive sample. On the balance of probabilities, the meloxicam came from the feeding of Category 2 ABP meat. Accordingly, the Committee found Mr Carmichael to have been in breach of Rules 174 (i) (b), 214, 217 and 152 (i).

The Committee heard that on 12 January 2016 Mr Carmichael had been given a reprimand and fined £600 when a sample taken from CHUGGINGTON on 13 May 2015 tested positive for ampyrone and 4-methylaminoantipyrine from contaminated meat. On 14 June 2016 he received a severe reprimand and was fined a total of £1,000 when samples taken from CLAN CHIEF and TROOPER KEV on 27 January 2016 tested positive for minoxidil and meloxicam. On 4 December 2018 he received a reprimand and a £400 fine when a sample taken from SPORTING MELODY on 1 December 2016 tested positive for meloxicam. On 10 June 2021 Mr Carmichael received a severe reprimand and a fine of £1000 when a sample taken from EL BUFALO on 8 January 2021 tested positive for 4-methylaminoantipyrine from contaminated meat. On that occasion Mr Carmichael had been warned by the Committee that he should expect to receive a disqualification for any further positive sample found to have come from feeding Category 2 meat.

The Committee heard from Alex McTaggart that he had always considered Mr Carmichael to be an excellent trainer, one of the best in greyhound racing, who had always maintained the highest standards of animal welfare. His only fault had been to disregard the advice from the GBGB and that he had received personally from Mr McTaggart not to feed Category 2 ABP meat to his racing dogs.

The Committee took the view that Mr Carmichael had recklessly persisted in feeding Category 2 ABP meat against the advice of the GBGB given as long ago as 2014, against the advice and warnings given concerning Category 2 meat and meloxicam since 2018 and despite this resulting in repeated positive samples over the years. It was unfortunate that Mr Carmichael had chosen not to attend to speak for himself. In the circumstances the Committee's decision was that Mr Carmichael should be disqualified for the period of 2 years.

## **2 Towcester Stadium: LITTLE EMIR – Professional Trainer Mr G Carmichael**

Professional Trainer Mr Gary Carmichael was found in breach of rules 152 (i) & (ii), 174(i)(a) and 217 of the GBGB rules of racing in that a urine sample taken from the greyhound LITTLE EMIR on 4 June 2021 at Towcester Stadium was analysed by LGC Health Sciences as containing the presence of minoxidil, a substance that by its nature could affect the performance or prejudice the well-being of a greyhound.

## **3 Newcastle Stadium: EL BUFALO - Professional Trainer Mr G Carmichael**

Professional Trainer Mr Gary Carmichael was found in breach of rules 152 (i) & (ii), 174(i)(a) and 217 of the GBGB rules of racing in that a urine sample taken from the greyhound EL BUFALO on 19 May 2021 at Newcastle Stadium was analysed by LGC Health Sciences as containing the presence of minoxidil, a substance that by its nature could affect the performance or prejudice the well-being of a greyhound.

## **4 Newcastle Stadium: FREEDOM WHAMMY - Professional Trainer Mr G Carmichael**

Professional Trainer Mr Gary Carmichael was found in breach of rules 152 (i) & (ii), 174(i)(a) and

217 of the GBGB rules of racing in that a urine sample taken from the greyhound FREEDOM WHAMMY on 26 May 2021 at Newcastle Stadium was analysed by LGC Health Sciences as containing the presence of minoxidil, a substance that by its nature could affect the performance or prejudice the well-being of a greyhound.

Mr Carmichael was not in attendance at the hearing of these three inquiries. The Committee heard that Mr Carmichael had relinquished his trainer's licence in June 2021. Following the Local Inquiries into these matters he had informed Stipendiary Steward Mr Alex McTaggart that he was content for them to proceed before the Committee in his absence. Mr McTaggart was in attendance. Professor Tim Morris, independent scientific adviser, was also in attendance.

On 19 May 2021 EL BUFALO ran in a 640m Open Race at Newcastle Stadium, finishing in first place. A pre-race urine sample was taken which on analysis by LGC Health Sciences tested positive as containing the presence of minoxidil.

On 26 May 2021 FREEDOM WHAMMY ran in a 480m A1 race at Newcastle Stadium, finishing in first place. A pre-race urine sample was taken which on analysis by LGC Health Sciences tested positive as containing the presence of minoxidil.

On 4 June 2021 LITTLE EMIR ran in a 500 Open Race at Towcester Stadium, finishing in first place. A pre-race urine sample was taken which on analysis by LGC Health Sciences tested positive as containing the presence of minoxidil.

Professor Morris told the Committee that minoxidil is not a veterinary medicine. It is a topical treatment absorbed through the skin and used in humans to treat hair loss. Its use to treat hair loss in dogs is not recommended because of its side effects. It was recognised as a doping agent, used because it acts as a stimulant that increases the heart rate and so the blood supply. It can have toxic effects on the heart and, if used long term, cause an increase in heart size. It was, in Professor Morris's opinion, a substance that could affect the performance of the greyhound and prejudice the well being of the greyhound.

Mr Carmichael told the Local Inquiries held on 12 July 2021 into

the positive samples taken from EL BUFALO, FREEDOM WHAMMY and LITTLE EMIR that he had not used any medication on the greyhounds before their races. No treatments had been given that could be a source of the minoxidil. The only possible explanation was that it had come through the food chain.

Mr Carmichael told the Local Inquiries that he fed the greyhounds brown bread and milk for breakfast. For dinner he fed vegetables, pasta and meat. He said his practice was to feed Category 2 meat bought from Grayhill Ltd, which trades in fallen stock, until 3 days before a race or trial, when he would change to feeding meat bought from supermarkets.

Prof Morris told the Committee there was nothing in the greyhounds' feeding regime that would explain the finding of minoxidil. It should not and would not be administered to farm livestock. There was anecdotal evidence of some use of it to treat hair loss in horses but this was not recommended. It should not be used on racing horses. The food chain was by far the least likely source. Far the most likely explanation was a deliberate or accidental application of the hair loss treatment to the greyhound.

Stipendiary Steward Alex McTaggart confirmed to the Committee that at the Local Inquiries Mr Carmichael had said that he did not use any hair loss treatment and he was not aware that anyone on his staff did. In answer to the Committee, Mr McTaggart said he was unaware that any greyhound in Mr Carmichael's charge had suffered from bald thigh syndrome. Mr McTaggart said that Mr Carmichael's greyhounds were always immaculate and had immaculate coats.

The Committee considered that it was very unfortunate that Mr Carmichael had chosen not to assist these inquiries into the positive samples taken from EL BUFALO, FREEDOM WHAMMY and LITTLE EMIR by attending the hearings. On the evidence presented the Committee was bound to conclude on the balance of probability that in each case the positive finding was the result of minoxidil being administered to the greyhound. The number of these administrations to three dogs in Mr Carmichael's care over a period of a few weeks drove the Committee also to conclude on the balance of probabilities that these administrations were deliberate and

that they were either carried out by Mr Carmichael or with his knowledge. This was deliberate doping with a stimulant.

The Committee found in respect of the inquiry into the sample taken from FREEDOM WHAMMY on 19 May 2021 that Mr Carmichael was in breach of Rules 152 (i) & (ii), 174 (i) (a) and 217 of the GBGB Rules of Racing.

The Committee found in respect of the inquiry into the sample taken from EL BUFALO on 26 May 2021 that Mr Carmichael was in breach of Rules 152 (i) & (ii), 174 (i) (a) and 217 of the GBGB Rules of Racing.

The Committee found in respect of the inquiry into the sample taken from LITTLE EMIR on 4 June 2021 that Mr Carmichael was in breach of Rules 152 (i) & (ii), 174 (i) (a) and 217 of the GBGB Rules of Racing.

The Committee heard that on 12 January 2016 Mr Carmichael had been given a reprimand and fined £600 when a sample taken from CHUGGINGTON on 13 May 2015 tested positive for ampyrone and 4-methylaminoantipyrine from contaminated meat. On 14 June 2016 he received a severe reprimand and was fined a total of £1,000 when samples taken from CLAN CHIEF and TROOPER KEV on 27 January 2016 tested positive for minoxidil and meloxicam. On 4 December 2018 he received a reprimand and a £400 fine when a sample taken from SPORTING MELODY on 1 December 2016 tested positive for meloxicam. On 10 June 2021 Mr Carmichael received a severe reprimand and a fine of £1000 when a sample taken from EL BUFALO on 8 January 2021 tested positive for 4-methylaminoantipyrine from contaminated meat.

For the Board, Mr Duncan Gibson said that in light of the Committee's decisions the Board's view was that there were two penalties that the Committee could consider appropriate in each case: warning off or disqualification for an indefinite period. Mr Carmichael should be warned off unless the Committee found that there was mitigation that warranted a lesser penalty. If the Committee considered that there was significant mitigation in any of the cases, the Board's view was that Mr Carmichael should be disqualified for an indefinite period.

The Committee asked Stipendiary Steward Alex McTaggart if he wished to speak in mitigation to Mr

Carmichael's character and record. Mr McTaggart said he would. He said he had known Mr Carmichael and his family for nearly 35 years. He had always held Mr Carmichael in the highest regard as a very hands-on trainer who was always concerned for the welfare of greyhounds. In his opinion, Mr Carmichael had always been "a fantastic greyhound man".

The Committee took the view that Mr Carmichael had been found to have been knowingly involved in doping by the administration of a stimulant to each of EL BUFALO, FREEDOM WHAMMY and LITTLE EMIR. There were no mitigating circumstances that could make it acceptable for Mr Carmichael to have any future involvement in greyhound racing under the regulation of the GBGB. The sanction of the Committee imposed in respect of Mr Carmichael's breaches of the Rules of Racing in each of the three cases was that Mr Carmichael be warned off.

#### **5 Newcastle Stadium: JAGUAR BOSS – Greyhound Trainer Mr R Galloway**

Greyhound Trainer Mr Robert Galloway was found in breach of rules 152(i), 174(i)(b) and 217 of the GBGB rules of racing in that a urine sample taken from the greyhound JAGUAR BOSS at Newcastle Stadium on 19 May 2021 was analysed by LGC Health Sciences as containing the presence of o-desmethylvenlafaxine, a substance that by its nature could affect the performance or prejudice the well-being of a greyhound.

Mr Galloway was in attendance. Stipendiary Steward Mr Alex McTaggart and Professor Tim Morris, independent scientific adviser, were also in attendance.

The Committee heard that on 19 May 2021 JAGUAR BOSS ran a 480m Open Race at Newcastle Stadium. A pre-race urine sample was taken which on analysis by LGC Health Sciences tested positive as containing the presence of o-desmethylvenlafaxine (a metabolite of Venlafaxine).

Professor Tim Morris told the Committee that Venlafaxine is not available as a veterinary medicine and is used to treat dogs only in very limited circumstances, not applicable to racing greyhounds. It is used as a medicine for people with mental health conditions including depression and anxiety. It can

effect behaviour in dogs and cause neurological side effects and was a substance that could affect the performance of the greyhound and could prejudice the well-being of the greyhound.

The Committee heard that Mr Galloway had held a greyhound trainer licence since March 2020. JAGUAR BOSS had been kept at his kennel in the garden of his home since 19 March 2020. He told the Local Inquiry held on 7 July 2021 that he had no idea how or why the substance had come to be in the sample taken from the greyhound. He kept greyhounds as a hobby and would never give any medication or substance not prescribed by a vet. He had travelled to Newcastle with another trainer and that trainer's kennelhand to try JAGUAR BOSS in its first Open Race. He had no reason to think they or anyone else had administered anything to the greyhound. He was not aware of anyone in contact with the greyhound who was using any medical treatments.

Professor Morris told the Committee that nothing in JAGUAR BOSS's feed could explain the presence of Venlafaxine in the sample. Venlafaxine had been found sporadically in samples from greyhounds over the years and it had also been found in tests on racehorses. It was widely prescribed for human medication and there was evidence of potential for cross-contamination from human users to dogs and horses. In an equine case it had been found to have been ingested from grass on a campsite contaminated with human sewage.

Mr Galloway told the Committee that his parents and girlfriend and son were involved with his greyhounds, but he had no reason to think any of them were using any medication like Venlafaxine. His kennel was secure, with the gate of the kennel in his garden some 20 yards from the gate into his garden. He exercised his greyhounds in public parks and spaces near his home and, like most greyhounds, they were curious and would investigate and lick things. However, he volunteered that for about 90% of their time in public parks and spaces his greyhounds were muzzled. He did not muzzle them in transit to stadiums or while they were at stadiums.

Summing up, Mr Duncan Gibson said the Board did not contend that it had been shown on the balance of probability that Mr Galloway

administered Venlafaxine to JAGUAR BOSS. He was nevertheless in breach of Rules 174 (i) (b) and 217 and, it followed, 152 (i), because these rules imposed strict liability on a trainer where a proscribed substance was found in a greyhound.

The Committee agreed. Mr Galloway was an honest witness who had been trying his best to assist the inquiry and explain how Venlafaxine had come to be in his greyhound. The Committee found that Mr Galloway had simply been unlucky at an early point in his career as a greyhound trainer. Somehow, through no significant fault of his, there had been cross-contamination to the greyhound from human use of the medication. In these circumstances the Committee's decision was that there should be no further action.

#### **6 Central Park Stadium: WOODCOCKS AERO – Professional Trainer Mr D Mullins**

Professional Trainer Mr David Mullins was found in breach of rules 152(i), 174(i)(b), 214 and 217 of the GBGB rules of racing in that a urine sample taken from the greyhound WOODCOCKS AERO at Central Park Stadium on 25 April 2021 was analysed by LGC Health Sciences as containing the presence of pentobarbital and hydroxy pentobarbital, a substance that by its nature could affect the performance or prejudice the well-being of a greyhound.

Mr Mullins was in attendance. Mr Robert Killingbeck, Acting Racing Manager at Central Park Stadium was also present, as was Professor Tim Morris, independent scientific adviser.

The Committee heard that on 25 April 2021 WOODCOCKS AERO ran in a 480m Hurdle Open Race at Central Park Stadium. A pre-race urine sample was taken which on analysis by LGC Health Sciences tested positive as containing the presence of pentobarbital and hydroxy pentobarbital.

Professor Morris advised the Disciplinary Committee that pentobarbital is available as a veterinary medicine as a concentrated solution for injection for euthanasia of animals. It is not available as a medical drug in the UK but is available in other countries. It is a Controlled Drug in the UK. While pentobarbital could potentially be obtained illegally from a specialist

chemical supplier or medical drug supply, the most likely source was from veterinary use. Pentobarbital was the most common drug used by veterinary surgeons for euthanasia of animals.

Professor Morris advised that pentobarbital affects dogs as it does other animals and people, with increasing doses causing sedation, anaesthesia, and then death through respiratory and cardiac arrest. The exposure of dogs to pentobarbital, including exposure from being fed contaminated meat, could amount to a significant proportion of a clinical dose and, in Professor Morris's opinion, posed a real risk of having adverse effects on the dog. As a depressant of the respiratory and nervous systems, pentobarbital was a substance which by its nature could affect the performance of a greyhound or prejudice the welfare of a greyhound.

Mr Mullins told the Local Inquiry held on 8 June 2021 that he thought the pentobarbital found in WOODCOCKS AERO had come from the meat that he fed his greyhounds for their dinner with biscuit, vegetables and soup made with the meat. This was Category 2 ABP knacker meat bought from WMS Farm Services. Mr Mullins said that he fed this meat raw to his greyhounds until 48 hours before they raced and then fed them the same meat but cooked.

Professor Morris advised the Committee that there had been a number of previous findings of pentobarbital in greyhounds associated with feeding contaminated meat. He observed that since 2014 the GBGB has warned trainers that Category 2 ABP meat carries a high risk of containing drug residues that can result in a positive test result and has advised that trainers should not feed Category 2 meat. He advised that pentobarbital is not destroyed by cooking or even by rendering of contaminated meat.

In Professor Morris's opinion, while it was possible the pentobarbital detected in WOODCOCKS AERO was illegally sourced, the presence of metabolites of the substance in the greyhound's sample indicated that it came from feeding contaminated meat. The Category 2 meat fed by Mr Mullins was by far the most likely source.

Mr Mullins told the Committee he was aware of the GBGB's advice not to feed Category 2 ABP meat. Since the positive sample taken from

WOODCOCKS AERO he had started feeding Category 3 ABP meat in the 3 or 4 days before he knew one of his greyhounds would be racing. However, he would continue to feed Category 2 knacker meat otherwise because he considered it was much better quality than most Category 3 ABP meat. He believed his greyhounds were fitter and stronger from being fed the knacker meat and would be weaker if fed Category 3 meat.

The Committee asked Professor Morris to comment on whether Mr Mullins would prevent his greyhounds from testing positive by stopping feeding Category 2 ABP meat 3 days before they raced or trialed. Professor Morris observed that it probably would not in the case of pentobarbital contamination. There was evidence that the substance and its metabolites were present in the urine for at least 72 hours after greyhounds were given a low dose of the substance. Professor Morris also observed that changes in the number of horses entering the food chain after being euthanased with pentobarbital meant the risk of Category 2 ABP meat being contaminated had increased since the GBGB first advised against feeding Category 2 meat and was likely to continue increasing.

After hearing Professor Morris's observations, Mr Mullins told the Committee that the quality of his greyhounds' diet was his priority. Better quality food would result in a better performance. However, he would be taking stock of what had been said and would be considering what course to take with his feeding regime.

The Committee found that the pentobarbital detected in the sample taken from WOODCOCKS AERO had come from the Category 2 ABP meat fed by Mr Mullins. There had been no deliberate administration of the substance. Mr Mullins was nevertheless in breach of Rules 174 (j) (b), 214, 217 and 152 (i) because these rules imposed strict liability on a trainer where a proscribed substance was found in a greyhound. The Committee heard that Mr Mullins had an unblemished disciplinary record in his 25 years as a professional trainer. The Committee gave this considerable weight in deciding that the appropriate sanction for Mr Mullins to be reprimanded and pay a fine of £450. Mr Mullins had persistently and consciously disregarded the

warnings and advice given by the GBGB concerning the risks of feeding Category 2 ABP meat. The GBGB's strong advice remained that it should not be fed at all to racing greyhounds. Since 2018 and the administration study of meloxicam carried out by the GBGB and Greyhound Racing Victoria, the GBGB has additionally warned trainers that Category 2 ABP meat should not be fed to racing greyhounds within 14 days of a race or trial. The Committee will continue to treat the feeding of Category 2 ABP meat as an aggravating factor when deciding on appropriate penalties. Mr Mullins must expect any future breach of the rules by him resulting from feeding Category 2 ABP meat to receive considerably more severe punishment.

#### CHANGES OF GREYHOUNDS' NAMES

The following Changes of Greyhounds' Names have been effected in accordance with the Rules of Racing:-

06/10/2021, **CASEYS FREDNBROS**, (late SIR ROMEO), I, bk, D, Romeo Recruit, Paradise Havana, 01/12/2019, Fred & Bros Fenn & Rose Syndicate

06/10/2021, **FRANKLINS WISH**, (late SWIFT UTTY), I, bk, B, Candlelight King, Swift Joan, 13/06/2020, Mr Clive Brooks

06/10/2021, **HAKA MELODY**, (late MELODYS TURBO), I, bk, D, Kinloch Brae, Super Jenny, 25/04/2019, Mrs Joanne Robinson

06/10/2021, **LELE DANI MANU**, (late DEPUTY JONES), I, bk, B, Droopys Jet, Create A Dream, 21/12/2018, Mr James Newell

06/10/2021, **MERIDIAN JEN**, (late JOYGES JEN), I, bk, B, Over Limit, Slanyside Poppy, 01/03/2020, Mr Mark Goldsmith, Mrs Gillian Goldsmith

06/10/2021, **CHELMS TED**, (late ANGRY TORNADO), I, bk, D, Confidant Rankin, Angry Lauren, 24/08/2019, Mr Lee Harris

07/10/2021, **BEST BELLA**, (late ASCOT EBONY), I, bk, B, Laughil Blake, Ascot Grace, 05/04/2020, Mr Jack Levers, Mr James Shea, Mr Luke Coles

07/10/2021, **MAGNA BRENNAN**, (late DAPPER GIRL), I, dkbd, B, Ballymac Eske, Designer, 01/04/2020, Miss Rose Draper, Mr Billy Brennan

07/10/2021, **WELL DONE BACON**, (late BALLYMAC TIA), I, bk, B, Ballymac Best, Ballymac Bonnie, 14/04/2020, Mr Kevin Bacon, Mrs Julie Bacon

# Open Races

## General Conditions

Unless otherwise stated the following will apply to all open races advertised in this issue of the Calendar:

- The Standard Conditions of Entry (Rules of Racing, Rule 82) and international Entries and Conditions where applicable (Rule 83).
- Classification Wide Runners – Open Races (Rules of Racing, Rule 79(b)).
- Entries close to the Racing Managers, at the addresses of the stadiums concerned, at the times and on the date shown.
- The draw for traps (and heats, where applicable) is made under Rule 80 by the Secretary of the GBGB, or their appointed representative, as soon as possible after the closing date for entries unless otherwise indicated in the conditions.
- When reference is made in the calendar regarding greyhounds who have not won an open race at the time of closing, it refers to GBGB open races.

- 2) *All entries must run a satisfactory hurdle race or three dog trial over the course and distance prior to the closing date.*
- 3) *Qualification times are effective from 1st January 2022*
- 4) *Greyhounds that have contested this race in previous years are ineligible.*
- 5) *Irish Identity Cards will be required for scrutiny prior to closing.*
- 6) *Runners and reserves will be chosen on fastest calculated times at Central Park from 1st January 2022*
- 7) *Springbok qualifying trials will not be granted to any greyhound who has not run a satisfactory hurdle trial at any GBGB track by 14th February 2022 (a hurdle hand slip does not constitute a satisfactory trial).*
