BRIGHTON CHOSEN AS NEXT LOCATION FOR GBGB'S ANNUAL AWARDS

~ A date and venue has been set for the GBGB Awards 2023: Sunday 3rd March 2024 at the Doubletree by Hilton Brighton Metropole ~

~ Following Sheffield's much-praised event, the 2024 Brighton venue offers another excellent weekend of racing alongside the gala occasion ~

The Greyhound Board of Great Britain (GBGB) is pleased to announce that the 2023 Greyhound of the Year Awards will be heading to Brighton. It will take place on Sunday 3rd March at the Doubletree by Hilton Brighton Metropole.

Following an excellent, well-received event hosted at The OEC overlooking Sheffield's Owlerton Stadium in February, the Awards will continue to spotlight the country's prime racing spots in Great Britain – this time in Brighton and Hove.

With a full racing schedule due on the Saturday night at Hove Greyhound Stadium, the sport's trainers, owners, enthusiasts and supporters are encouraged to mark their cards for the event.

In reflecting on the successes of 2023's impressive racing calendar, the Awards will once again spotlight the best and most memorable performances of our canine athletes and pay credit to the teams and individuals behind their success. With so many exceptional moments to highlight from the year, it promises to be close competition for the Awards, not least for Greyhound of the Year.

Mark Bird, CEO at GBGB, said:

"It is always a pleasure to welcome people from across the sport to celebrate the year's achievements and the efforts of everyone who plays a role in its enduring success. We are very pleased that Brighton will be the location for the 2023 Awards."

"We will continue to look to move the Awards around the country, taking into account cost, accessibility and of course the ability for a venue to best help present our annual showcase of the sporting year."

"As always, numbers will be limited so please do save the date and keep an eye out for announcements early in the New Year about tickets and promotions."

Ticketing information and promotional offers will follow in the New Year. Keep up to date by following @GreyhoundBoard on Twitter/X or GBGB's pages on Facebook and Instagram.

NOMINATIONS OPEN FOR GBGB KENNELHAND OF THE YEAR 2023

Nominations are now open for the Kennelhand of the Year Award, the GBGB announced today.

This prestigious accolade honours one exceptional kennelhand for their commitment to caring for their greyhounds and is presented at the annual awards ceremony each year.

Anyone involved in the industry can nominate a kennelhand who they believe has shown tremendous dedication, and regularly goes that extra mile. Nominations should be emailed to **awards@gbgb.org.uk** with the subject line **‘Kennelhand of the Year 2023’** and should include the nominee’s name and a brief description of why they are a deserving recipient, as well as the contact details of the person submitting the nomination. Nominations must be received by **Sunday 21st January 2024**.

The winner will receive £500, two tickets to the Awards Ceremony and accommodation as well as the coveted Kennelhand of the Year trophy.

Mark Bird, CEO of GBGB said:

“Kennelhands are the unsung heroes of our sport and often work long unsociable hours transporting greyhounds to the tracks, day in, day out, while providing outstanding levels of care.

“There is a mountain of work which goes on behind the scenes to ensure that our athletes are fit, healthy and at their best for racing, and this award recognises this unwavering commitment. It shines a light on individuals who go above and beyond and is our chance to applaud their work and the love that they have for their hounds.”

LIVELY FEEL TO TONIGHT'S DECIDER OF THE BET365 CHALLENGE CUP AT OXFORD AS LAUREN LOCKS HORNS WITH HAVANA LOVER

HAVANA LOVER continued her fine run of form with a fourth straight success for last year's St Leger champion in the second semi-final of the Bet365 Challenge Cup at Oxford - helping to set up a superb pre-Xmas final at the track this Friday.

With less than a length separating Liz McNair's bitch and Matt Dartnall's first semi-final winner Lively Lauren, the destination of the £10,000 is very much in the balance.

Lively Lauren kicked off the semi-finals with an impressive win, quickly into stride on her way to a 15.00sec sectional and a three-and-a-quarter length success over Mad For Sterling (Mark Wallis) and track record holder Havana Top Note (Liz McNair).

The winning time was 39.53sec (normal) for the 650m trip and, in winning, the February 2021 daughter of Ballymac Anton and Art Of Illusion landed a four-timer herself to secure her a place in a fourth Category One final.

Havana Lover went marginally quicker in the second semi-final as the Aug 2020 daughter of Laughil Blake and Love Honey continued her love affair with Oxford, having also won April's Bet365 Hunt Cup over C&D, with another impressive success.

Pacing up well, Havana Lover was soon in command outside and, winning the early battle with Minnie Bullet, went on approaching the winning line first time on her way to a runaway seven lengths-plus win from the staying Gutsy Jet (Kevin Boon) and Minnie Bullet in 39.48sec (normal), just five spots quicker than Lively Lauren.

Simon Pearson, Oxford racing manager, is looking forward to Friday's GBGB Category One final on RPGTV and is hopeful of another big crowd at the Cowley venue this week.

"We had a really good Christmas crowd in for the semis and let's hope the last Friday before the holiday period sees people come out for a cracking night at the dogs! And they've got a great final to look forward to with big-name greyhounds and trainers.

"Well done to both Liz McNair and Mark Wallis for getting two runners through apiece - Havana Top Note is the track record holder and Havana Lover is a Classic winner so you'd say they have a very strong hand.

"Having said that, Mark's Minnie Bullet is top notch and is a great competition pitch, as is Lively Lauren of Matt Dartnall's. She won her semi-final really well and is just coming to the boil at the right time after a spell off - and Matt's team will be looking to do what they did with Long Fellow in the (RPGTV) Puppy Collar.

"It's great to see Kevin Boon with a finalist. He takes his runners everywhere and you can see Gutsy Jet appreciates a real test of stamina and conditions might suit him.

"Good luck to connections of all the runners and Merry Xmas to everyone and here's to another good year ahead here at Oxford - which kicks off on New Year's Day for what will be a brilliant all-open race card. We had a great crowd here on New Year's Day this year and there's a real gala feel to the meeting.

"Entries for these races will close at noon on Thursday, December 28, and we've got races over all distances and greyhounds - from pups to seniors - and there's even a 1,047m maxi-marathon, as well as an 847m standard marathon race."

CAT ONE TREBLE LOOKS ON THE CARDS FOR THE BRILLIANT DROOPYS CLUE IN TOMORROW NIGHT'S £10K GEORGE CURTIS & BALLYREGAN BOB MEMORIAL FINAL AT HOVE

DROOPYS CLUE remains on course for another major success in tomorrow's George Curtis & Ballyregan Bob Memorial Final at Hove after running away with victory in the first semi-final of the Category One six-bend feature at the weekend.

Already winner of both the Juvenile Classic at Towcester and Premier Greyhound Racing St Leger at Perry Barr, Seamus Cahill's champion followed up a fastest-of-the-night heat success seven days previously by setting the standard again at the Sussex venue with an impressive 44.44sec return (-45).

Pacing up well inside, the 2-11 favourite never looked in trouble as the the August 2021 son of Out Of Range ASB and Droopys Natalia powered round for a five-length success over the strong-finishing Ower Smasher, with Regency runner-up Swiper (Matt Dartnall) qualifying for Saturday's £10,000 decider in third.

The second semi-final saw defending champion Clongeel Ozzie brilliantly overcome a tough-looking trap five draw with a show of all-round pace, cutting across to the inside to lead off the second turn and race clear.

Thereafter, Jason Heath's local star was always in control and crossed the line two and a quarter lengths clear of Haka Carlo (Nathan Hunt) and Savana Jazz (Diane Henry), the April 2020 son of Droopys Sydney and Rossroe Lady posting 45.07sec (-45) for the 740m trip and giving himself every chance to defend the title.

The victory delighted winning trainer Heath, who said: "We're all over the moon with Ozzie and just delighted with the way he's come back. He had a stress fracture of his hock and we gave him plenty of time, knowing the George Curtis & Ballyregan Bob Memorial was going to be the main target.

"Racing-wise he was off from April to October but with trials and now these handful of races he's right as rain. I wasn't worried about trap five in the semis because I know he breaks better away from the inside and that gave him every chance to get across and he's done it well.

"He's got six in the final so again has to break well to get a decent position into the turn. Droopys Clue is a champion, we know that, but I wouldn't swop Ozzie for anything. He's a real favourite here and I know he's looking to keep his paws on the trophy - on what should be another great night.

"I thought Saturday for the semis was a real throwback. Just like old times with a great atmosphere and packed our stadium. Well done to Hove."

GRANDSTAND FINISH TO THE YEAR IN STORE WITH STELLAR CAST GOING TO TRAPS FOR TOMORROW'S DECIDER OF THE CORAL OLYMPIC

LITTER brothers King Combs and King Memphis played their part in another huge weekend for Liz and Rab McNair with victory in their respective semi-finals of the Coral Olympic at Hove – securing places in tomorrow's £10,000-to-the-winner crackerjack decider at the Sussex venue.

Sandwiched between wins for Havana Lover in the Bet365 Challenge Cup semi-finals at Oxford and Queen Dusty's success in Sunday's Bet365 Puppy Oaks decider at Towcester, King Combs and King Memphis produced contrasting wins – with the former raising the roof with a last-to-first success in the first semi.

The December 2021 son of Droopys Sydney and Queen Beyonce, third to King Memphis in the RPGTV Puppy Derby at Towcester, was slowly away and lost ground with crowding at the first bend, before powering through his field to reel in his rivals off the last bend for an astonishing win from Wasted Monday (Belinda Green) in 30.21sec (-30)

King Memphis then matched his littermate's efforts – albeit was a deal more handy early! Premier Greyhound Racing Eclipse champion Newinn Syd (Mark Wallis) just led up but King Memphis was soon challenging and took up the running down at the bottom of the back straight before coming away to score from that rival in 30.15sec (-30).

Despite defeat in what was the fastest of the semi-finals, the runner-up's trainer Mark Wallis was delighted to see Newinn Syd in another GBGB Category One final and feels there is more to come from the two-year-old.

"There's no doubt he's come forward in recent weeks," he said. "He showed plenty in the Puppy Classic at Nottingham but then really came of age during the Eclipse and we're pretty hopeful he'll continue to progress and establish himself one of our main hopes for the Derby next year at Towcester.

"He's got the strength you need there and, maybe in time, we'll try him other further. You'd have to say at Hove he's come up against two of the very best dogs in the UK just now in King Memphis and Hollow Man – now he's got them both in the Olympic final!

"I'd like to say well done to Hove. The Olympic has become a really great end-of-year competition and this year's line-up looks one of the best and, having the George Curtis & Ballyregan Bob Memorial Final as well, makes it a top-class meeting."

Derek Knight's local star Hollow Man extended his winning sequence to 13 with another exhibition of powerful front running in the third semi-final, pacing up to quickly lead the charge on his way to success over Seamus Cahill's home-bred youngster Never Say No in 30.19sec (-30).

It means the Premier Greyhound Racing Champion Stakes winner has a chance to land his trainer a sixth Olympic title.

**“SHE TURNS TWO NEXT MONTH SO WE ARE LIKELY TO STEP HER UP TO 575M AT ROMFORD IN THE CORAL ESSEX VASE”
- ASSISTANT TRAINER RAB MCNAIR**

QUEEN DUSTY helped Liz and Rab McNair and the KSS Syndicate complete a brilliant double when landing a thrilling and ultimately last-gasp success in the Bet365 Puppy Oaks Final at Towcester.

Having won the English Puppy Derby with King Memphis, in which the Kent-based husband and wife had the first four home, it was fourth-placed Queen Dusty who now triumphed in the bitches-only version for pups with a game effort to grab gold in the GBGB Category One annual, worth £10,000 to the final.

All had looked set fair for Queen Dusty as the January 2022 daughter of King Turbo and Queen Charlotte had broken well, far better than when very slowly away in the semis. A fast finish grabbed a qualifying spot then, but this time victory was well within her sights as she loomed upsides leader Deelish Nora down the back and took up the running.

Seemingly in pole position thereafter, Queen Dusty then swung off wide at the final bend which allowed the Patrick Janssens-trained Deelish Nora to take up the running again before Queen Dusty straightened up and wore down her younger rival, getting up in the shadow of the post for a short-head success in 29.75sec (-20).

Third place went to another Janssens runner in La Gitana, but success on the day went to Queen Dusty, the McNairs, and Brendan Keogh and the KSS Syndicate - and Rab McNair, husband of the winning trainer Liz, was naturally delighted.

“I thought she’d lost it but she’s so game and deserved that. She was in the Puppy Derby final here behind our King Memphis and the Puppy Collar final at Oxford behind Matt’s (Dartnall) dog (Long Fellow). She also made the Romford Puppy Cup final behind David’s (Mullins, Romeo Crusade), so that’s some record for a young bitch.

“She turns two years of age next month so we’re likely to step her up to 575m at Romford and the (Coral) Essex Vase. It’s just great for her to win a competition like this in what was a busy weekend for us with runners at Oxford and Hove. We got runners through to the finals of both, so you can’t ask for much more.

“Brendan (Keogh) always said these pups might be the best we’ve had and the Queen Beyonce litter and the Queen Charlotte litter are doing us proud - and Liz must take the credit. She whelped them down, nursed them with their mums, and brought the pups up. Seeing them do what they’re doing is brilliant. It’s why we do it.”

ROYAL PERFORMANCE FROM QUEEN JONI FOR LIZ MCNAIR IN FINAL OF THE BGBF BRITISH BRED DERBY AT SHEFFIELD

QUEEN JONI continued a fantastic year for Liz and Rab McNair and the KSS Syndicate with a stunning victory in the BGBF British Bred Derby Final at Sheffield on Tuesday.

A five-runner affair after kennelmate King Capaldi was withdrawn off-colour, Queen Joni paced up well into the first bend and was never headed thereafter as the December 2021 daughter of Droopys Sydney and Queen JessieJ completed an unbeaten run though the £10,000-to-the-winner event with a brilliant four-length success over Acomb Felix (Kevin Ferguson) and Signet Goofy (John Mullins).

The victory in a fastest-of-event 28.49sec (+10) for the 500m, adding to her own Produce Stakes success at Swindon in September, followed Sunday's Bet365 Puppy Oaks victory with Queen Dusty and the recent Puppy Derby victory of King Memphis for the McNairs - the latter takes his chance in Saturday's Coral Olympic Final at Hove. Before then, Havana Lover and Havana Top Note take their chance in the Bet365 Challenge Cup Final at Oxford.

"It's been a mad few weeks, but a brilliant few weeks," said Rab McNair. "I'm just hoping the touch of kennel sickness we have around doesn't spoil things for the others in their finals. We had Queen Pink recently withdrawn from Oxford and then King Capaldi in Tuesday's final at Sheffield. We gave him every chance, but he's off his food and everything. Our fingers are crossed the others avoid it - we've a busy weekend ahead!

"What can we say about Joni? We love her. She's got so much pace and a right will-to-win. She's done nothing wrong all through the competition and almost had her name on the trophy right from the start if she kept doing things right, which she did. But we knew only her best would do up against Kevin's (Ferguson) fantastic litter and my old mate 'Big John' Mullins with Signet Goofy. What a great dog he is.

"I'm just delighted for the lads and Liz. Brendan (Keogh), Simon (Senyk) and Ian (Openshaw) were all there at Sheffield and had a great night which is what it's all about. It's why they do what they do - and their support to us at the kennel is invaluable. They back us to bring these pups on and the litters we have now are making us really proud - and we're ending the year with some cracking nights."

Liz Mort, chair of the British Greyhound Breeders Forum, said: "Thanks to the team at Sheffield as always for hosting the three rounds of the event - and especially the final, which was a great affair. Well done to the connections of all the finalists who were all there and enjoying Sheffield's hospitality in the grandstand restaurant - the place was packed - with everyone enjoying the night.

"There were plenty of greyhound people but also those probably new to the sport - they will definitely be coming back after such a good evening. Nights like Tuesday are exactly what our sport needs.

"Queen Joni was brilliant - fast away and on her way to a great victory. She's only just out of puppy status but shows a lot of maturity in her running and is still improving. Well done to Liz and Rab (McNair) and to Brendan Keogh and the KSS Syndicate. They are great supporters of greyhound racing and - it almost goes without saying - brilliant supporters of British breeding."

Andrew Mascarenhas, director of racing at Owlerton Stadium, added: "Congratulations to Queen Joni's connections - especially to Rab and Liz McNair. Joni absolutely deserves to succeed the brilliant Fabulous Azurra who won the British Bred Derby for the past two years. She was an absolute star of the track and so, too, is Queen Joni.

"Thank-you to the British Greyhound Breeders Forum and to connections of the greyhounds themselves who support the stadium. Merry Christmas to everyone."

DISCIPLINARY COMMITTEE INQUIRIES

The Disciplinary Committee of the GBGB was in attendance at a meeting held on 16 May 2023.

Mr R O'Donovan (in the chair)
Dr J Hunt.
Mr R Woodworth CBE

2 Oxford Stadium: ANTIGUA SUGAR - Professional Trainer Mr Mark Wallis

Professional Trainer Mr Mark Wallis was found to be in breach of Rules 174(i)(a) and (b), 152(i) and (ii), 214 and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound **ANTIGUA SUGAR** at Oxford Stadium on 23 December 2022 was analysed by LGC Health Sciences as containing

the presence of cobalt and that he had in his charge a greyhound that showed the presence of a substance that by its nature could affect the performance of the greyhound or prejudice its well-being.

3 Crayford Stadium: BLUEBERRY BULLET - Professional Trainer Mr Mark Wallis

Professional Trainer Mr Mark Wallis was found to be in breach of Rules 174(i)(a) and (b), 152(i) and (ii), 214 and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound **BLUEBERRY BULLET** at Crayford Stadium on 26 November 2022 was analysed by LGC Health Sciences as containing the presence of cobalt and that he

had in his charge a greyhound that showed the presence of a substance that by its nature could affect the performance of the greyhound or prejudice its well-being.

Detail of the above Inquiries 2 and 3.

With the agreement of Mr Wallis the Disciplinary Committee considered the above Inquiries jointly.

Mr Mark Wallis was in attendance. Mr Simon Pearson, Oxford, Racing Manager and Mr Daniel Rayment, Crayford, Racing Manager, Professor Tim Morris, Independent Scientific Adviser and Carol Chown-Smith Stipendiary Steward were also in attendance.

The urine samples in question were pre-race samples. In the case of ANTIGUA SUGAR the sample was taken before the bet-365 Challenge Cup Final being a 650 m flat race with total prize monies of £13,000. ANTIGUA SUGAR was 11/8 favourite and came second by one length.

In the case of BLUEBERRY BULLET the sample was taken before the Ladbrokes Cesarewitch Final, an 874 m flat open race with total prize money of £15,000. BLUEBERRY BULLET came third after being crowded.

At Local Inquiries held on Tuesday, 31 January 2023 in relation to BLUEBERRY BULLET and on 20 March 2023 in relation to ANTIGUA SUGAR, Mr Wallis suggested that the cobalt could have derived from feeding supplements and in particular Ironcyclen, a supplement containing cobalt and iron.

The Disciplinary Committee heard evidence from Professor Morris that a specific dietary requirement for cobalt is not established in dogs. Cobalt is a strong erythropoiesis agent raising the number of red blood cells and increasing the oxygen carrying of the blood. Exposure to cobalt over longer periods/at high levels can cause nausea, vomiting, cardiac failure and other side effects. In the opinion of Professor Morris cobalt is a substance which by its nature could affect the performance of the greyhound and with its side effects could prejudice the well-being of a greyhound.

In both cases the concentration of cobalt in the urine samples taken was considerably over the threshold agreed by the greyhound racing authorities in Britain and Australia. In his view exposure to a supplement or product containing cobalt was the likely cause of the substance in both greyhounds.

Mr Wallis confirmed that he had administered Ironcyclen and was aware that it contained cobalt. Mr Wallis' practice was to administer Ironcyclen for 1-2 days after a race to aid recovery. However, in the case of BLUEBERRY BULLET the greyhound was tired and dehydrated and in the case of ANTIGUA SUGAR the going at Oxford had been particularly slow in the semi-final. Accordingly in both cases Ironcyclen was administered for six days before the respective Finals. Mr Wallis was aware of the calendar notice of December 2015 advising trainers to be extremely cautious and avoid using products containing cobalt close to racing. Mr Wallis had believed the amount of Cobalt in Ironcyclen to be so low that the threshold would not be reached.

The Disciplinary Committee was provided with information about Ironcyclen and its use. The manufacturer recommended that it be used for two days before a race or two days after. Mr Wallis, by administering Ironcyclen for six days before the races concerned had exceeded the recommended period of administration. The manufacturer's recommendation was itself inconsistent with the calendar notice in referring to administration before a race.

The Disciplinary Committee considered that on the evidence available and the balance of probabilities the presence of cobalt in the greyhound derived from the administration of Ironcyclen by Mr Wallis.

It was clear that there had been a breach of those rules involving strict liability, that is to say, Rules 152(i), 174(i)(b), and 217. However, in this case there had been an intentional administration of the supplement concerned and therefore breach of Rule 174(i)(a). The link between cobalt and the supplement resulted in a breach of Rule 214. In addition, given the consequences of Mr Wallis' administration and noting the high-profile races involved, the administration of cobalt risked the good reputation of greyhound racing and was also a breach of rule 152(ii).

In considering the extent of any sanction the Committee were told, and took into account as a mitigating factor, that there had been no relevant infringement of the rules of racing by Mr Wallis over a number of years.. However there were aggravating factors in this case. First, the calendar notice of December 2015 clearly warned against the use of cobalt supplements and this warning was not followed. Second, Mr Wallis had been aware of a limit to the permitted level of cobalt and should have been aware of the risk of this limit being exceeded. Third, that by administering the supplement for six days before each race Mr Wallis was exceeding the manufacturer's recommendation, which in turn failed to follow GB regulatory guidance and similar information from Australia. Fourth, both races were high profile elite races with high prize monies and the effect of the breach of the Rules could be significant in terms of the reputation of greyhound racing.

The Committee considered an appropriate sanction to be a severe reprimand, covering both cases and a penalty of £2500 in each case, ie £5,000 in total.

DECISION

INTRODUCTION

1. On 16 May 2023 Mr Wallis was found to be in breach of the anti-doping Rules by the Disciplinary Committee, in respect of incidents that took place on 23 December 2022 and 26 November 2022. Mr Wallis has appealed both the finding of liability and the sanction. The Appeal Board heard the appeal at a personal hearing that took place on 10 October 2023. Mr Phillip Law represented the GBGB. Mr Wallis appeared in person, assisted by Mark Davies, Mr Wallis' business partner.
2. The GBGB Rules (Appendix III – Appeal Procedure, paragraph xviii) provide that an appeal shall be by way of a review. It is therefore not a new hearing of the charges, but a review of the findings of the Disciplinary Committee. An appellant must therefore demonstrate a material error in the decision of the Disciplinary Committee.

THE CHARGES

3. The charges arise out of positive urine tests on two of Mr Wallis' greyhounds – Blueberry Bullet (on 26 November 2022) and Antigua Sugar (on 23 December 2022). Both greyhounds tested positive for cobalt. The GBGB brought a number of charges against Mr Wallis, each relying on the same core facts. The facts were that Mr Wallis had fed both greyhounds Ironcyclen, a supplement containing cobalt, in such quantities as to have produced the positive test.
4. The charges alleged breaches of rule 152 (being responsible for a breach of the Rules); rule 174(i) (a)&(b) (having administered a substance that could affect the performance of, or prejudice the wellbeing of a greyhound; and having possession of a greyhound that showed the presence of such a substance); rule 214 (being responsible for having fed a greyhound such a substance); and rule 217 (racing

a greyhound that was not free from such a substance). With the exception of rule 152, which we consider in greater detail below) the conduct complained of is the same in each charge, namely feeding a greyhound a substance that resulted in an impermissible level of cobalt being in that greyhound's system.

DECISION APPEALED AGAINST

5. The decision of the Disciplinary Committee is detailed in the May 2023 Calendar in the following terms.

2. Oxford Stadium: ANTIGUA SUGAR - Professional Trainer Mr Mark Wallis

Professional Trainer Mr Mark Wallis was found to be in breach of Rules 174(i)(a) and (b), 152(i) and (ii), 214 and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound ANTIGUA SUGAR at Oxford Stadium on 23 December 2022 was analysed by LGC Health Sciences as containing the presence of cobalt and that he had in his charge a greyhound that showed the presence of a substance that by its nature could affect the performance of the greyhound or prejudice its well-being.

3. Crayford Stadium: BLUEBERRY BULLET - Professional Trainer Mr Mark Wallis

Professional Trainer Mr Mark Wallis was found to be in breach of Rules 174(i)(a) and (b), 152(i) and (ii), 214 and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound BLUEBERRY BULLET at Crayford Stadium on 26 November 2022 was analysed by LGC Health Sciences as containing the presence of cobalt and that he had in his charge a greyhound that showed the presence of a substance that by its nature could affect the performance of the greyhound or prejudice its well-being.

Detail of the above Inquiries 2 and 3.

With the agreement of Mr Wallis, the Disciplinary Committee considered the above Inquiries jointly.

Mr Mark Wallis was in attendance. Mr Simon Pearson, Oxford, Racing Manager and Mr Daniel Rayment, Crayford, Racing Manager, Professor Tim Morris, Independent Scientific Adviser and Carol Chown-Smith

Stipendiary Steward were also in attendance.

The urine samples in question were pre-race samples. In the case of ANTIGUA SUGAR, the sample was taken before the bet-365 Challenge Cup Final being a 650 m flat race with total prize monies of £13,000. ANTIGUA SUGAR was 11/8 favourite and came second by one length.

In the case of BLUEBERRY BULLET, the sample was taken before the Ladbrokes Cesarewitch Final, an 874 m flat open race with total prize money of £15,000. BLUEBERRY BULLET came third after being crowded.

At Local Inquiries held on Tuesday, 31 January 2023 in relation to BLUEBERRY BULLET and on 20 March 2023 in relation to ANTIGUA SUGAR, Mr Wallis suggested that the cobalt could have derived from feeding supplements and in particular Ironcyclen, a supplement containing cobalt and iron.

The Disciplinary Committee heard evidence from Professor Morris that a specific dietary requirement for cobalt is not established in dogs. Cobalt is a strong erythropoiesis agent raising the number of red blood cells and increasing the oxygen carrying of the blood. Exposure to cobalt over longer periods/at high levels can cause nausea, vomiting, cardiac failure and other side-effects. In the opinion of Professor Morris cobalt is a substance which by its nature could affect the performance of the greyhound and with its side-effects could prejudice the well-being of a greyhound.

In both cases the concentration of cobalt in the urine samples taken was considerably over the threshold agreed by the greyhound racing authorities in Britain and Australia. In his view exposure to a supplement or product containing cobalt was the likely cause of the substance in both greyhounds.

Mr Wallis confirmed that he had administered Ironcyclen and was aware that it contained cobalt. Mr Wallis' practice was to administer Ironcyclen for 1-2 days after a race to aid recovery. However, in the case of BLUEBERRY BULLET the greyhound was tired and dehydrated and in the case of ANTIGUA SUGAR the going at Oxford had been particularly slow in the semi-final. Accordingly in both cases Ironcyclen was administered for six days before the respective

Finals. Mr Wallis was aware of the calendar notice of December 2015 advising trainers to be extremely cautious and avoid using products containing cobalt close to racing. Mr Wallis had believed the amount of Cobalt in Ironcyclen to be so low that the threshold would not be reached.

The Disciplinary Committee was provided with information about Ironcyclen and its use. The manufacturer recommended that it be used for two days before a race or two days after. Mr Wallis, by administering Ironcyclen for six days before the races concerned had exceeded the recommended period of administration. The manufacturer's recommendation was itself inconsistent with the calendar notice in referring to administration before a race.

The Disciplinary Committee considered that on the evidence available and the balance of probabilities the presence of cobalt in the greyhound derived from the administration of Ironcyclen by Mr Wallis.

It was clear that there had been a breach of those rules involving strict liability, that is to say, Rules 152(i), 174(i)(b), and 217. However, in this case there had been an intentional administration of the supplement concerned and therefore breach of Rule 174(i)(a). The link between cobalt and the supplement resulted in a breach of Rule 214. In addition, given the consequences of Mr Wallis' administration and noting the high-profile races involved, the administration of cobalt risked the good reputation of greyhound racing and was also a breach of rule 152(ii).

In considering the extent of any sanction the Committee were told, and took into account as a mitigating factor, that there had been no relevant infringement of the rules of racing by Mr Wallis over a number of years., However there were aggravating factors in this case. First, the calendar notice of December 2015 clearly warned against the use of cobalt supplements and this warning was not followed. Second, Mr Wallis had been aware of a limit to the permitted level of cobalt and should have been aware of the risk of this limit being exceeded. Third, that by administering the supplement for six days before each race Mr Wallis was exceeding the manufacturer's recommendation, which in turn failed to follow GB regulatory guidance and similar information

from Australia. Fourth, both races were high profile elite races with high prize monies and the effect of the breach of the Rules could be significant in terms of the reputation of greyhound racing.

The Committee considered an appropriate sanction to be a severe reprimand, covering both cases and a penalty of £2500 in each case, ie £5,000 in total.

BASIS OF APPEAL

6. Mr Wallis served a detailed Notice of Appeal dated 6 June 2023. In relation to the appeal against the finding of culpability Mr Wallis advanced the following. Internationally Harmonised Threshold for Cobalt

The evidence provided by GBGB and through its independent scientific adviser referred to breaching the international threshold for cobalt. However, other than the publication of a Calendar notice in December 2015 which highlights to trainers to be cautious with products that contain cobalt and B12, there has been no further communication from GBGB on cobalt and the publication of any threshold or when that threshold came into existence.

Since my hearing, I have established that all Australian greyhound regulators have published the threshold level and have given notice to trainers regarding its introduction and how to avoid certain commonly used products to avoid a positive finding. I have consistently used the same feeding and supplementation regime for many years without complication. I admit to increasing the amount of supplementation in these instances through the greyhounds routine nutritional source but not knowing that there was a threshold in place which I believe should have been communicated to trainers so they could be aware of it.

I do not believe the Disciplinary Committee took this into consideration when considering any breach and the level of penalty and, therefore, showed prejudice when taking the scientific evidence into account and worked on the assumption that trainers were aware of the threshold in place and that, I, therefore, chose to ignore it.

7. In relation to the appeal against sanction Mr Wallis advanced the following.

Severity of Penalty — Appendix VI GBGB Guidelines, Process and Penalties

1. Section 4.2 states the purpose of the Disciplinary Authority is not simply to discipline the affected person for any wrongdoing for which he or she may be responsible but to bring about a behavioural change in a clear and positive manner.
2. Section 5.2 Consistency and Proportionality of Penalty, states any penalty imposed should be; broadly consistent with previous penalties; be proportional to the seriousness of the breach of Rules; and should also be the minimum penalty necessary to achieve this purpose.
3. Section (5.3) states The Disciplinary Authority will need to consider in particular any relevant mitigating factors.

I do not believe Appendix VI has been considered appropriately by the Disciplinary Authority and the penalty of £5,000 has not taken into consideration any mitigation or proportionality of penalty to achieve the purpose of a penalty as set out in Appendix VI. In fact, the Disciplinary Authority was asked to consider the penalty recommendations for other sports or other jurisdictions as a guide. If this guide was used consistently by GBGB then most of its fines would be far greater than those given. I do not see how the penalty issued to me is in any way consistent with previous penalties for breaches of a similar nature and the committee has fined me because of my status within the sport and not applied proportionality as per Appendix VI.

8. Mr Wallis set out the decisions that asked the Appeal Board to reach.

The decisions I seek from the Appeal Board are:

- That it is established as to whether I am in breach of rule 174(i)(a) and/or rule 174 (i)(b). Currently, I am in breach of both which is not consistent with the GBGB Rules of Racing.
- Whether a breach of the rules has actually occurred and, if so, whether the penalty of Severe Reprimand applies.
- Whether the level of financial penalty of £5,000 is consistent with previous penalties of the same nature and, if a financial penalty is to be applied, whether this should be reduced to a level

which is broadly consistent with previous penalties.

- Whether the hearing of both positive cases together and determining the penalty as one rather than as individually has prejudiced the decision of the Disciplinary Authority in determining the level of sanction.
 - Whether threshold levels for cobalt should be published to all trainers and recommendations provided on dosage levels and withdrawal times for dietary supplements containing cobalt.
9. Mr Wallis also sought permission to rely on new evidence. He put that application in the following terms.

I will be presenting the following new evidence and will provide this at least 14 days prior to the hearing:

- GBGB Calendar extract from Vol 7 No 25 (16 December 2015) — The Use of Cobalt in Greyhounds
- Greyhound Racing Australasia — Cobalt Threshold introduction into the Greyhound Australasia Rules
- New South Wales Greyhound Welfare and Integrity Commission — Cobalt Use in Greyhounds Fact Sheet
- Greyhound Racing Ireland — Statutory Instrument No. 212 of 2023 Greyhound racing (Prohibited Substances) Regulations 2023
- Extracts from various Disciplinary Hearings from 2015 to present detailing the sanctions imposed

I became aware of this new evidence following disclosures and evidence given at the Disciplinary Hearing. This new evidence has been thoroughly researched using credible and trusted online sources including GBGB publications and various other internationally recognised regulatory body sources. The new evidence will materially affect the decision made by the Disciplinary Committee by demonstrating the international standards of communication and engagement when introducing thresholds for Cobalt.

In addition, the new evidence provides background to penalties previously issued in GBGB disciplinary cases where a severe reprimand has been the sanction. This demonstrates that the penalty is not in proportion if a breach of the rules has actually taken place.

10. Mr Wallis relies on his witness statement dated 20 July 2023 in support of his appeal. He admits administering Ironcyclen (paragraph 5), accepts that Ironcyclen was the source of the elevated levels of cobalt detected by the urine samples. Mr Wallis argues that the administered Ironcyclen in accordance with the manufacturer's data sheet (paragraphs 8, 9 and 10). He maintains that it was proper for him to have administered Ironcyclen for six days before a race, and that the evidence given to the Disciplinary Committee to the contrary was incorrect (paragraph 11). Mr Wallis accepts that his normal practice was to give Ironcyclen for two days after a race (paragraph 13) but because of the condition of Blueberry Bullet and Antigua Sugar he had given them Ironcyclen for six days before the races – which he argues is consistent with the manufacturers' guidelines. Mr Wallis argues that the levels of cobalt found in the greyhounds was *not significantly excessive* and had had no detrimental effect (paragraph 18).

11. Mr Wallis refers to the GBGB notice in the Calendar for 16 December 2015, which warns that above certain levels cobalt is a prohibited substance. Mr Wallis complains that (unlike other jurisdictions, examples of which he gives) the GBGB gave no notification or advice as to the levels of cobalt that were acceptable. In the absence of such a warning, Mr Wallis asserts that he properly and reasonably relied on the manufacturers' guidelines without knowing that the result would be positive urine tests.

NEW EVIDENCE

12. Due to the fact that the appeal is by way of a review and is not a hearing the GBGB Rules restrict the admission of new evidence – see Appendix III – Appeal Procedure, paragraph xi. The Appeal Board decided to admit the new evidence that Mr Wallis wished to admit *de bene esse* and to determine its admissibility in light of developments at the appeal.

GBGB's RESPONSE

13. GBGB has provided a comprehensive response, the detail of which the Appeal Board has considered. We do not repeat that detail here but set out only the core submissions.

14. So far as liability is concerned, the GBGB's central point is that

Mr Wallis had repeatedly admitted intentionally administering Ironcyclen. In relation to both Blueberry Bullet and Antigua Sugar admissions were made to the stipendiary steward at the local enquiry (Blueberry Bullet on 31 January 2023, and Antigua Sugar on 20 March 2023). Those admissions were repeated by Mr Wallis during the Disciplinary Committee hearing. The Calendar entry records the following evidence –

Mr Wallis confirmed that he had administered Ironcyclen and was aware that it contained cobalt. Mr Wallis' practice was to administer Ironcyclen for 1-2 days after a race to aid recovery. However, in the case of BLUEBERRY BULLET the greyhound was tired and dehydrated and in the case of ANTIGUA SUGAR the going at Oxford had been particularly slow in the semi-final. Accordingly in both cases Ironcyclen was administered for six days before the respective Finals.

The GBGB's Response (paragraph 14) refers to the recording of the Disciplinary Committee's proceedings, which it says confirm that the admissions were made.

15. The GBGB submits that as Mr Wallis had admitted administering for a period of six days it was inevitable that the Disciplinary Committee should have found the charges proved. The appeal is therefore without merit.

16. The GBGB makes detailed submissions in relation to sanction, reminding the Appeal Board of the facts of the case, referring to sanction guidelines. Its conclusion is that Mr Wallis was fortunate not to have received a more severe sanction – there is therefore, the GBGB submits, no basis on which the Appeal Board can properly interfere with the sanction imposed by the Disciplinary Committee.

ORAL EVIDENCE/ SUBMISSIONS

17. Mr Wallis addressed the Appeal Board and answered question (including cross-examination from Mr Law) in what was a combination of evidence and submissions. Mr Wallis reiterated that he accepted that he had supplied Ironcyclen to the greyhounds and accepted that the Ironcyclen was the source of the contamination that led to the positive urine samples. The evidence/submissions focussed on Mr Wallis' state of mind. Mr Wallis asserted that he considered

the doses of Ironcyclen to have been within permitted limits. For a period in excess of 10 years Mr Wallis had regularly supplied 4ml doses to his greyhounds for two days after races: he had never had a positive test for cobalt. That quantity was the dosage recommended by the manufacturers – *4ml daily in feed or as directed by a veterinary surgeon*. The charges before the Appeal Board arose from Mr Wallis' supply to each greyhound of a 4ml dose for an extended period of six days. That extended period of supply arose only because he was concerned for the greyhounds' welfare – both had exhibited worrying signs. Mr Wallis emphasised that the supply was for welfare purposes, not to enhance form. Mr Wallis asserted that his conduct was not knowingly wrong or reckless. He denied negligence, arguing that it was perfectly reasonable for him to have relied on the manufacturers' guidelines.

18. Mr Law questioned Mr Wallis about warnings that had been published in the GBGB Calendar, highlighting the fact that excessive quantities of cobalt in a greyhound's system was a prohibited substance. Mr Law emphasised that the GBGB had advised trainers to be *extremely cautious*. Mr Law argued that Mr Wallis had simply ignored that warning. It would, Mr Law suggested, have been simple for Mr Wallis to have sought advice from the GBGB or from his veterinary surgeon.

19. Mr Wallis reiterated that it was reasonable for him to have relied upon the manufacturers' guidance. He made the point that the GBGB Calendar had given no specific advice/warning but had instead simply generally advised caution. Mr Wallis reiterated that he had been supplying the recommended 4ml dose to greyhounds for more than 10 years, without ever having a positive urine test. He maintained that relying on a combination of the manufacturers' guidelines and his personal experience of more than 10 years made his failure to have made further enquiries not unreasonable.

THE DISCIPLINARY COMMITTEE

20. The Disciplinary Committee found that Mr Wallis had administered the Ironcyclen, and that the Ironcyclen was responsible for the excessive levels of cobalt in the greyhounds' system. As Mr

Law rightly submitted, that was an inevitable finding in light of Mr Wallis' frank admissions. The Disciplinary Committee proceeded to determine sanction on the basis of an *intentional administration of the supplement*.... It did not, however, make any finding of fact about Mr Wallis' state of mind – whether he acted knowingly, recklessly, or negligently.

21. The Appeal Board considers that Mr Wallis' state of mind is an essential element in determining blameworthiness – plainly, different levels of culpability apply to different findings of knowledge, which is therefore relevant to sanction. The Appeal Board therefore considers the Disciplinary Committee's failure to consider Mr Wallis' state of mind to be a material error that permits it to make its own findings on state of mind, and sanction.

22. Having made that finding, the Appeal Board considered it to be appropriate to permit Mr Wallis to introduce fresh evidence. In the event, the evidence relevant to determination of the issues before us was to a very great extent, if not entirely, evidence that was before the Disciplinary Committee. However, as we are proceeding to determine Mr Wallis' state of mind *de novo* it is plainly appropriate that we should have available to us the fullest relevant evidence possible.

DISCUSSION

Liability

23. The Appeal Board agrees the Disciplinary Committee's findings that Mr Wallis administered the Ironcyclen, and that that was the source of the excess cobalt in the greyhounds' system. Rule 152 makes it an offence for a person to have been responsible for taking any action prohibited by the Rules. Rule 174 enables an Order to be made if satisfied that a person (174(i)(a)) has administered a substance that could affect the performance of a greyhound or affect its performance, or (174(i)(b)) has charge of such a greyhound Rule 217 provides that a greyhound at a race must be free from such a substance. Rule 214 provides that ignorance shall not be a defence to a charge – it does not create a free-standing charge.

24. The Appeal Board is satisfied that in relation to both Blueberry Bullett and Antigua Sugar Mr Wallis has committed breaches of rules 174(i)(a)&(b) and 217. However, the facts relied on to

prove breaches of rules 174(i)(a), 174(i)&(b) and 217 are identical: those facts simply give rise to breaches of more than one rule. We consider the fair and proportionate approach to find Mr Wallis to be in breach of the more serious of the charges, which we determine to be the breach of rules 152/174(i)(a) – administering the prohibited substance.

Sanction

25. As we have said, Mr Wallis' state of mind is central to determination of the proper sanction. The Appeal Board found Mr Wallis to be a truthful witness. In his closing submissions Mr Law spoke highly of Mr Wallis' character. The Appeal Board shared that view. We have no doubt that Mr Wallis did not administer the Ironcyclen knowing that it would lead to excessive levels of cobalt. We are equally satisfied that he did not do so recklessly, closing his mind to the possibility. The issue is whether he did so negligently, by failing to make enquiries that he should have made.

26. Mr Law advanced a powerful case. We agree that given the GBGB's warning of the need to exercise extreme caution it was not sufficient for Mr Wallis simply to have relied on manufacturers' guidelines. To have done that and no more would have been a failure to exercise the required level of caution. It would, as Mr Law pointed out, have been simple for Mr Wallis to have approached the GBGB or his veterinary surgeon for guidance – a simple enquiry would have yielded the necessary advice. That point has added force when in the case of someone such as Mr Wallis, who is a distinguished member of the greyhound world: with prestige and distinction come enhanced responsibilities. As such, there was a responsibility on Mr Wallis' to make the enquiries that would have been expected of someone enjoying that distinguished position.

27. The Appeal Board recognises that this is a difficult question. We are, however, satisfied that Mr Wallis was not negligent. There is no doubt that Mr Wallis had been warned to be on enquiry, so simple reliance on the manufacturers' guidelines was not sufficient. But we do consider that it was reasonable for Mr Wallis to have relied upon his personal experience of more than 10 years supply of Ironcyclen without any adverse test results. In such

circumstances, Mr Wallis did not act unreasonably.

28. Mr Wallis therefore falls to be sentenced for a non-negligent error of judgment. He does not have a record of relevant previous disciplinary offences. The Appeal Board notes the substantial number of dogs in his charge that had been tested over the preceding years without untoward results. Furthermore, there is no direct evidence that the levels of cobalt in Blueberry Bullett and Antigua Sugar affected the wellbeing of either of the greyhounds. The Appeal Board considers that in all the circumstances, and in particular given our findings on Mr Wallis' state of mind a fine would not be appropriate. However, Mr Wallis is guilty of an error of judgment that, although not amounting to negligence, carries a degree of blame. The Appeal Board has determined that the appropriate sanction is a Reprimand.

CONCLUSION

29. The Appeal Board recognises that the guidance that the GBGB offers to trainers is very much a matter for the GBGB – it is not an area in which the Appeal Board has either the jurisdiction or the knowledge of policy issues to venture. We simply observe that in this case the advice given by the GBGB was of a very general character. If more specific advice had been given trainers would have known where they stood, and the Disciplinary Committee (and we) would have had a simpler task in determining levels of culpability.

30. The Appeal Board makes the following Order –

- 1) The appeal is allowed.
- 2) Mr Wallis is found to have breached Rules 152/174(i)(a) by administering a substance to Blueberry Bullett that could have affected the performance of the greyhound or could have prejudiced its wellbeing.
- 3) Mr Wallis is found to have breached Rules 152/174(i)(a) by administering a substance to Antigua Sugar that could have affected the performance of the greyhound or could have prejudiced its wellbeing.
- 4) In respect of each breach Mr Wallis is given a Reprimand.

GBGB RULE CHANGES

(EFFECTIVE FROM 1ST JANUARY 2024)

Rule 48 – Trials and Qualification for Graded Races

Reason for amendment

- i) To remove the requirement for one of the required mixed trials to be within 22 Days before a greyhound's first graded at a particular racecourse.

Current Rule

A Greyhound to run in its first Graded Race at a particular Racecourse shall run at least two satisfactory Trials at the GBGB Licensed Racecourse where it is to grade, on separate Days over the distance it is to initially run, each with at least two other greyhounds.

If the Greyhound has previously raced at that GBGB Licensed Racecourse, any Race it has run at that Racecourse, while in the charge of a licensed Trainer, within 12 weeks of the Race in question, may count in place of one of the Trials required. All Trials may be so replaced, provided that the condition below is complied with. In any case, a Trainer having charge of a Greyhound for such first Graded Race shall have had continuous charge of it since at least 7 Days prior to its final Trial or replacement Trial or Race as above, which shall have been run within 22 Days prior to the Race.

If a Greyhound is qualified for a Graded Race at a particular Racecourse, but since qualifying has run in a Graded Race elsewhere, it shall first re-qualify by completing either a Trial or an Open Race there.

Amended Rule

A Greyhound to run in its first Graded Race at a particular Racecourse shall run at least two satisfactory Trials at the GBGB Licensed Racecourse where it is to grade, on separate Days over the distance it is to initially run, each including a minimum of two satisfactory trials with at least two other greyhounds.

If the Greyhound has previously raced at that GBGB Licensed Racecourse, any Race it has run at that Racecourse, while in the charge of a licensed Trainer, within 12 weeks of the Race in question, may count in place of one of the Trials required. All Trials may be so replaced, provided that the condition below is complied with. In any case a Trainer having charge of a Greyhound for such first Graded Race shall have had continuous charge of it since at least 7 Days prior to its final Trial or replacement Trial or Race as above, which shall have been run within 22 Days prior to the Race.

Rule 63 – Race – definition, & particulars, terms, conditions of

Reason for amendment

To reduce the minimum race distance from 210 metres to 200 metres.

Current Rule

The term Race shall normally mean a simultaneous contest between a maximum of eight Greyhounds on a GBGB Licensed Racecourse, over a distance of not less than 210 metres and not more than 1105 metres.

The term Race may also be used to describe an event consisting of a series of Races as defined above, but it shall be so interpreted in these Rules only where stated or implied.

The particulars and/or terms and/or conditions of a Race shall have the force of Rules and a breach thereof shall be deemed a breach of these Rules, and words and phrases therein shall have the same meaning as in these Rules.

Rule 195 – Greyhound Detail Reports – procedure, content

Reason for amendment

To increase the time allowed for the reporting of a death or retirement of a greyhound through a Greyhound Detailed Report from the current 24 hours to 48 hours.

The detail may originate at the Racecourse, or be reported to it by an Owner, a Trainer, or a Veterinary Surgeon, whereupon it shall become the responsibility of the Racing Manager to include it

in a Report, and to issue a copy of such report as receipt to each person reporting detail in it.

The report shall give in each case the ID and name of the Greyhound, the type of detail, the actual detail and relevant date, the person reporting each entry, the person producing the report, and the date of its transmission. It may contain any combination of any of the following details, :-

- i) Earmark Discrepancy, being a discrepancy between what is expected to be found according to the available data for the Greyhound, and what is found upon examining the Greyhound. (If the data already records e.g. an illegible character, finding it so shall not be considered a discrepancy). Any Earmark Discrepancy discovered at a Racecourse shall be reported within 24 hours subject to [Rule 1\(vi\)](#). An Earmark Discrepancy shall be reported only by the Racing Manager or his/her deputy.
- ii) Death or retirement shall be reported within 24 hours of being reported to the Racing Manager. Retirement shall be reported only by the Owner or by a Trainer on behalf of the Owner.

- iv) A bitch coming into season, being spayed, whelping a litter, being treated to suppress season, or having a false heat. This shall be reported within 24 hours of being reported to the Racing Manager.
- v) Vaccinations under [Rule 60](#). This shall be reported within 24 hours of the official vaccination certificate being lodged with the Racing Manager or his/her Deputy.
- vi) Microchip insertion following microchip failure or replacement as authorised by the Registry.

Amended Rule

The Racing Manager shall arrange that a Greyhound Detail Report is prepared whenever necessary to communicate changes to individual Greyhound data held by the Registry System and/or the Form Database. The report shall give in each case the ID and name of the Greyhound, the type of detail, the actual detail and relevant date, the person reporting each entry, the person producing the report, and the date of its transmission. It may contain any combination of any of the following details, :-

- i) Earmark Discrepancy, being a discrepancy between what is expected to be found according to the available data for the Greyhound, and what is found upon examining the Greyhound.
