RACING ROUND UP

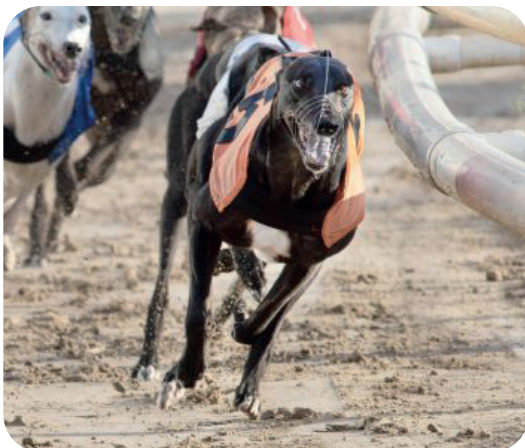

Fabulous Sonique races away to Coral Coronation Cup victory

FABULOUS SONIQUE (4-5F) landed the Category One title her talents so richly deserved when racing away for victory in the final of the Coral Coronation Cup at a packed Romford on Friday.

Wicky Ned secures Time Greyhound Nutrition 3 Steps To Victory title on six bend debut

WICKY NED raised the roof at Sheffield on Sunday with a brilliant front-running success in the Time Greyhound Nutrition 3 Steps To Victory Final – as the unique tri-distance event produced a top-class and fastest-of-the-year performance in the £10,000 decider.

Hutton treble as BetGoodwin Pall Mall gets underway at Oxford

KEVIN HUTTON kicked off his campaign to land a first Pall Mall title with three of the six heat winners as the BetGoodwin-backed Category One took centre-stage at the Cowley track on Saturday.

**Mixed feelings for general manager
Walton as Time Greyhound Nutrition
Northern Flat gets underway**

NEWCASTLE general manager Ian Walton admitted to mixed feelings after the heats of the Time Greyhound Nutrition Northern Flat last week but is looking forward to this week's semi-finals of the longstanding Category One competition.

**Janssens stars in JR Racing Juvenile
Classic heats**

PATRICK JANSSENS eyes yet another major title at Towcester on Sunday after winning both semi-finals of the JR Racing Juvenile Classic at the Northamptonshire venue.

A COLLECTIVE EFFORT: KEEPING KENNEL COUGH UNDER CONTROL

Each year, the summer months typically bring an increase in cases of kennel cough within the greyhound population. Over recent months, GBGB has seen a rise in cases of this respiratory infection in greyhound kennels across the UK.

Kennel cough is airborne and highly contagious, spreading easily within kennel environments. While it usually doesn't cause serious illness, in rare cases, it can develop into a more severe pneumonia, which can be fatal. It is vital that everyone in the sport supports a joint effort to prevent its spread.

Coughing greyhounds must not be raced, trialled, or exercised hard, and so it is crucial to quickly identify and isolate any greyhounds showing even the slightest signs of kennel cough.

Isolation and Quarantine are Key

The best way to control the spread of kennel cough is to isolate any known cases. This means keeping coughing greyhounds well away from healthy greyhounds for a **minimum of three weeks**.

It can take up to three weeks for the cough to clear, and it is advised that 10-14 days be allowed after the coughing has stopped before starting fast exercise.

If a greyhound has any of the symptoms of kennel cough — a hacking, dry cough, sneezing, or runny nose — immediately isolate them from any healthy, asymptomatic greyhounds. You must not transport them to the racecourse and risk spreading the infection further.

By isolating any coughing greyhounds in a separate kennel block with a separate air space from asymptomatic greyhounds, you should be able to halt the spread to the entire kennel. If you cannot isolate the coughing greyhounds, the entire kennel should be isolated for the three-week period. Isolation means a separate airspace.

All new entrants to a kennel should be quarantined for a minimum of seven days and not presented at a racecourse during this time.

In any event where a greyhound develops a fever or becomes listless — even if they are not actively coughing — this is an emergency and veterinary attention must be sought immediately as these greyhounds can deteriorate very quickly.

Prevention is Essential

Good biosecurity is essential — your Regional Regulatory Vet can help with appropriate advice. Each trainer should regularly review their kennel's biosecurity plan and ensure that the basics — handwashing, appropriate cleaning and disinfection — are being carried out consistently by all staff members. If you have kennel cough within an isolated block in your kennel, make sure there is no cross-contamination of equipment (e.g. food bowls, grooming equipment, cleaning equipment) and ideally, have separate equipment for each block.

Vaccination

Some of the pathogens that can cause kennel cough may be included in your greyhound's vaccinations and annual boosters (e.g. Canine Parainfluenza). A separate 'kennel cough' vaccine can also be given — via nasal drops or an injection — which can offer enhanced protection.

As there are various pathogens that can cause kennel cough, neither of the two vaccines provide full protection; however, the separate kennel cough vaccine can significantly reduce the risk of infection and its severity. Trainers should consider giving kennel cough vaccination to their greyhounds as a preventative measure typically in the spring, which can be administered at the same time as the annual booster if necessary.

In the event of an outbreak of kennel cough, the trainer should speak to their veterinary surgeon about administering the intra-nasal kennel cough vaccine, as there is evidence to suggest that the intra-nasal vaccine (given as drops into the dog's nose) can slow outbreaks and provide rapid protection.

At the Racecourse

Racecourses have been instructed to remain extra vigilant for cases of kennel cough during the summer months and implement heightened biosecurity measures.

If a coughing greyhound is presented for kennelling, it must be immediately returned to the vehicle. All the trainer's runners present in that vehicle should also be withdrawn from racing (including dogs travelling for mark-ups) and returned to the residential kennels where they should be isolated for three weeks. If the trainer is unable to suitably isolate all the greyhounds in the vehicle, then it is advised that the whole kennel should isolate for three weeks.

Support is Available

GBGB understands the challenges an outbreak of kennel cough presents. If your kennel is impacted, please contact your Stipendiary Steward for guidance, including potential eligibility for financial support from the GBGB's Hardship Fund.

Your proactive compliance with these measures is vital to protect the health of our national racing greyhound population.

Further detailed information is available in the GBGB Kennel Cough Isolation Protocol, downloadable from the GBGB Portals. For queries about kennel cough, appropriate biosecurity and isolation, contact your veterinary surgeon or GBGB Regional Regulatory Vet.

IMPORTANT NOTICES

Complaints

The Greyhound Board of Great Britain will receive complaints in confidence from anyone concerned about a possible breach of the Rules of Racing.

Send complaints to webform.clue.co.uk/GBGBExternal or call the GBGB office on **020 7822 0900**. Alternatively, write to:

The Greyhound Board of Great Britain Ltd,
3rd Floor, 1 Knightrider Court, London EC4V 5BJ

Welfare Hotline

If you are concerned about the welfare of any registered racing greyhounds, please call our confidential Welfare Hotline on **020 7822 0917**. The line is available 24 hours a day, seven days a week.

You will be prompted to leave a voicemail message giving as much information as you can so that our team can investigate your concerns fully and ensure appropriate action is taken.

The Disciplinary Committee wish to advise those appearing before them as "the affected person" that the Disciplinary Committee has the discretion to take account of any previous breaches of the rule(s) of racing which they consider are relevant to a case being heard before them irrespective of the date of commission of the breach.

DISCIPLINARY COMMITTEE INQUIRIES

The Disciplinary Committee was in attendance on 22 May 2025.

Those present: -

Ms L Campbell (in the Chair)
Mr D Levy
Dr J Hunt

1 Harlow Stadium: MAURICE RICE (JOBBRUDDA)

The Disciplinary Committee convened to consider the report of a local inquiry held by the area stipendiary steward, on 21 January 2025, into the positive analysis of a urine sample taken from the greyhound JOBBRUDDA at Harlow Stadium on 27 November 2024 which identified the presence of caffeine and metabolites.

Mr Rice attended the hearing by video link. Professor Tim Morris, independent scientific advisor and Carol Chown-Smith, Stipendiary Steward were also in attendance.

JOBBRUDDA competed in Race 7, a 238m open race, running from trap 2. The greyhound finished third with a time of 15.41 seconds. However, analysis of a pre-race urine sample from the greyhound, by LGC, revealed the presence of caffeine and metabolites, at levels exceeding the screening limit, which has the potential to affect the performance and/or well-being of the greyhound.

The Disciplinary Committee heard that at the local inquiry, Mr Rice's explanation for the positive finding of caffeine and metabolites was that this may have occurred due to him feeding dried meat only, for a few days before the sample was obtained, for convenience due to personal pressures and time

constraints. Mr Rice explained that this change in his feeding regime must be the explanation for the positive sample in JOBBRUDDA.

Professor Morris provided evidence that caffeine is a stimulant found in many every day food items such as tea, coffee and chocolate. He said that the levels detected in the urine sample taken from JOBBRUDDA were consistent with the substance being ingested 24-48 hours prior to the race and that the substance, by its nature, could affect the performance and by its side effects could affect the well-being of a greyhound. Professor Morris confirmed to the Committee that if someone intended to administer a substance to a greyhound to speed it up, then caffeine was an effective substance to choose to administer. Professor Morris stated that he could think of no reason as to why the dried meat fed by Mr Rice would contain caffeine but did highlight that Mr Rice also fed mixed surplus cereal to his greyhounds which could potentially have contained caffeine.

Mr Rice reiterated, in his account to the Committee, his view that the explanation for the positive finding in JOBBRUDDA was due to inadvertent exposure to caffeine through an unknown food source. He stated that caffeine had not been deliberately administered to JOBBRUDDA.

Based on the evidence presented, the Disciplinary Committee accepted the account of Mr Rice and concluded that the finding of caffeine in JOBBRUDDA's sample was due to inadvertent exposure to caffeine from an unknown source. The committee considered that this was entirely non deliberate and there had been no

intention to administer caffeine to JOBBRUDDA.

The Disciplinary Committee found Mr Rice in breach of rules 174(i)(b), 152(i) and 217 of the GBGB Rules of Racing.

The Committee considered Mr Rice's co-operation with the inquiry and lack of any previous breaches of the Rules for a substance in a lengthy career as a licensed trainer. The Committee also noted Mr Rice's financial circumstances. Taking all of these factors into consideration, the Committee imposed a caution and a £100 fine.

2 Valley Stadium: MARTIN THOMAS (SHESABRAVEONE)

The Disciplinary Committee convened to consider the report of a local inquiry held by the area stipendiary steward, on 28 January 2025, into the positive analysis of a urine sample taken from the greyhound SHESABRAVEONE at Valley Stadium on 27 October 2024 which identified the presence of diclofenac.

Mr Thomas attended the hearing by video link. Professor Tim Morris, independent scientific advisor, Pete Broadbridge, Stipendiary Steward and Jo Tams, Assistant Racing Manager at Valley Stadium were also in attendance.

SHESABRAVEONE competed in Race 5, a 260m open race, running from trap 3. The greyhound finished first with a time of 15.95 seconds. However, analysis of a pre-race urine sample from the greyhound, by LGC, revealed the presence of diclofenac, a human medical drug and a prohibited substance in greyhounds under GBGB Rules due to its

potential to affect the performance and/or well-being of the greyhound.

The Disciplinary Committee heard that at the local inquiry, Mr Thomas' explanation for the positive finding of diclofenac was that this must have occurred due to non-deliberate transfer of the prescribed diclofenac gel that Mr Thomas administered to himself for a health condition. Mr Thomas explained that whilst he always washed his hands after using this medication on himself, he must have failed to do this properly resulting in the medication being transferred to the greyhound's food and the positive sample.

Professor Morris provided evidence that diclofenac is not available as a veterinary medicine in dogs due to the potential side effects which included gastrointestinal ulcers but could affect the performance of a greyhound by masking the pain or symptoms of any injury. He told the Committee that it is an authorised human non-steroidal anti-inflammatory medication, which may be absorbed by a dog trans dermally by direct contact from a person using that gel treatment or secondarily by contamination such as during food preparation. Professor Morris stated that this risk of cross contamination from diclofenac gel was recognised such that a warning in the GBGB calendar had been published in 2014 about this. Professor Morris advised that 'no touch' disposal of the gloves into a pedal bin should be used by kennel staff who use diclofenac and similar gels to prevent cross contamination to greyhounds.

Mr Thomas confirmed, in his account to the Committee, that he simply relied on hand washing and did not use aseptic techniques and having only held a trainer's licence for 18 months, was unaware of calendar notices from 2014. He stated that he had used the medication for over two years and had never deliberately applied it to a greyhound. He confirmed that he prepared all of his greyhounds' food and that he regularly massaged his greyhounds using Trainer's Rub ointment.

Based on the evidence presented, the Disciplinary Committee accepted the account of Mr Thomas and concluded that the finding of diclofenac in SHESABRAVEONE's sample was due to inadvertent contamination through Mr Thomas' own use of diclofenac gel. The Committee considered that this was a human error and was entirely non deliberate and there had been no intention to administer the substance to SHESABRAVEONE.

The Committee were reassured by Mr Thomas' account that changes to his practices at his kennels had already been made so as to reduce the recurrence of a similar error in the future.

The Disciplinary Committee found Mr Thomas in breach of rules 174(i)(b), 152(i) and 217 of the GBGB Rules of Racing.

The Committee considered Mr Thomas' lack of any previous breaches as a licensed trainer and financial means. The committee also noted Mr Thomas' health as a contextual factor to the incident. Taking all of these factors into consideration, the Committee imposed a caution and a £50 fine.

3 Newcastle Stadium: STEVE ANDERSON (BRAMBLE OLIVERJ)

The Disciplinary Committee convened to consider the report of a local inquiry held by the area stipendiary steward, on 18th January 2024, into the positive analysis of a post-race urine sample taken from the greyhound BRAMBLE OLIVERJ at Newcastle Stadium on 24 October 2023 which identified the presence of benzoylecgonine, m-hydroxybenzoylecgonine and m-hydroxycocaine.

Mr Anderson attended the hearing by video link. Professor Tim Morris, independent scientific advisor, Simon Storey, GBGB Area Stipendiary Steward, Dave Baldwin, Head of Racing at Newcastle Stadium and Alex McTaggart, Group Racing Manager at Newcastle Stadium were also in attendance.

BRAMBLE OLIVERJ competed in Race 1, a 480m flat A4 graded race, running from trap 4. The greyhound finished sixth. Analysis of a pre-race urine sample, by LGC, revealed the presence of benzoylecgonine, m-hydroxybenzoylecgonine and m-hydroxycocaine, metabolites of cocaine, a prohibited substance under GBGB Rules due to its potential to affect the performance and/or well-being of the greyhound.

The Disciplinary Committee heard that at the local inquiry, Mr Anderson gave no full explanation for the positive finding of benzoylecgonine, m-hydroxybenzoylecgonine and m-hydroxycocaine, merely stating that he would provide a full explanation at a later date but believed that the positive sample was due to 'contamination'.

The Disciplinary Committee heard that the Area Stipendiary Steward had taken hair samples from

BRAMBLE OLIVERJ on 25th January 2024, some three months after the positive urine sample was obtained. This hair sample was negative with no prohibited substances found in it. The Area Stipendiary Steward also obtained surface swabs from Mr Anderson's kennels in June 2024. These swabs from various surfaces within the kennels and feed bags were tested and revealed the presence of cocaine.

Professor Morris provided evidence that benzoylecgonine, m-hydroxybenzoylecgonine and m-hydroxycocaine are metabolites of cocaine, indicating that cocaine had passed through the greyhound. He went on to state that cocaine is not a veterinary medicine and is a highly restricted Class A Schedule 2 Controlled Drug and a stimulant of the nervous system. This is a substance which, by its nature, could affect the performance or prejudice the well-being of a greyhound. Professor Morris told the Disciplinary Committee that BRAMBLE OLIVERJ's exposure to cocaine occurred between at least 12 hours and up to several days prior to the sampling procedure. Professor Morris went on to tell the Disciplinary Committee that there was significant environmental contamination of cocaine at the kennels and that the surface swabs taken from the feed bags were considerably in excess of the amount of cocaine for the control blank samples taken. Professor Morris confirmed to the Committee that if someone had intended to administer cocaine to a greyhound for doping purposes, then the most effective method would be to administer the cocaine to the greyhound as close before the race as possible. Professor Morris confirmed that the positive sample for metabolites could indicate a deliberate administration of cocaine to the greyhound earlier on the day of the race or it could indicate low grade contamination due to environmental exposure several days earlier.

Mr Anderson stated, in his account to the Committee, his view that the explanation for the positive finding in BRAMBLE OLIVERJ was due to environmental exposure to cocaine from a kennel hand which, at the time, Mr Anderson was unaware of. Mr Anderson stated that after the kennel hand left Mr Anderson's employment, the matter became one outside the jurisdiction of the GBGB with involvement from other organisations. Since then, Mr Anderson stated that he had his

kennels professionally deep cleaned and had commenced regular random drug testing of his kennel hands. Mr Anderson maintained that he had not deliberately administered cocaine to BRAMBLE OLIVERJ, nor did he believe that the kennel hand would have deliberately administered cocaine to any greyhounds. Mr Anderson reiterate to the Committee his view that the positive sample must have been due to the greyhound's exposure to environmental presence of cocaine.

Based on the evidence presented, the Disciplinary Committee accepted the account of Mr Anderson and concluded that the finding of benzoylecgonine, m-hydroxybenzoylecgonine and m-hydroxycocaine in BRAMBLE OLIVERJ's sample was due to inadvertent environmental exposure from the kennel hand's use of cocaine rather than any deliberate administration of cocaine to the greyhound. The Committee was reassured by Mr Anderson's account that changes to his cleaning practices at his kennels had been made as well as his intention to continue to drug test employees in future so as to reduce the recurrence of a similar incident in the future.

The Disciplinary Committee found Mr Anderson in breach of rules 174(i)(b), 152(i) and 217 of the GBGB Rules of Racing.

The Committee considered Mr Anderson's action to reduce the risk of recurrence of such an incident again, his remorse and the salutary lesson he stated he had learned from these events. They also heard that Mr Anderson has relinquished his trainer's licence and is now a licensed kennel hand. Taking all of these factors into consideration, the Committee felt it was appropriate to impose a severe reprimand and a fine of £1000.

CHANGES OF GREYHOUNDS' NAMES

The following Changes of Greyhounds' Names have been effected in accordance with the Rules of Racing:-

30/06/2025, **LOXLEYS REX**,

(late BLASTOFF REX), I, dkbd, D, Grangeview Ten, Blastoff Fizz, 01/08/2022, Robin Hood Racing

30/06/2025, **STRIKE IT HARVEY**, (late LEMON JIM), I, bk, D, Good Cody, Lemon Phoebe, 15/05/2023, Mr Paul Miller, Mrs Andrea Miller, Mrs Jean Slessor

01/07/2025, **CMON THE BROM**, (late BALLYARD KELSO), I, bk, D, Ballymac Cashout, Fire Height Maid, 22/01/2023, The Bromley Management

01/07/2025, **DEADLY SOPRANO**, (late BLING BLING JEFF), I, bk, D, Ballymac Cashout, Bling Bling Sal, 09/05/2023, Mr Eammon Johnston

01/07/2025, **PUTYA FOOT DOWN**, (late ITS PLAYTIME), I, bdw, D, Feora Chris, Lornas Shadow, 06/10/2023, Mr David Lawrence, Mr Gareth Williams, Mr Graham Ashe, Mr Shaun Gresham

01/07/2025, **SIMPSON CHERYL**, (late TIPSYPY FIADH), I, be, B, Ballymac Cashout, Shancol Storm, 17/09/2023, Mr Alan Ward, Mr Liam Simpson

02/07/2025, **BAILEYS BULLET**, (late DROOPYS WITCH), I, bk, B, Newinn Session, Droopys Thelma, 11/03/2024, Mr Adam Williams, Mr Christopher Kiely, Mr Paul Young, Mr William Boyle

Open Races

General Conditions

Unless otherwise stated the following will apply to all open races advertised in this issue of the Calendar:

- The Standard Conditions of Entry (Rules of Racing, Rule 82) and international Entries and Conditions where applicable (Rule 83).
- Classification Wide Runners – Open Races (Rules of Racing, Rule 79(b)).
- Entries close to the Racing Managers, at the addresses of the stadiums concerned, at the times and on the date shown.
- The draw for traps (and heats, where applicable) is made under Rule 80 by the Secretary of the GBGB, or their appointed representative, as soon as possible after the closing date for entries unless otherwise indicated in the conditions.
- When reference is made in the calendar regarding greyhounds who have not won an open race at the time of closing, it refers to GBGB open races.
