GBGB TO LAUNCH OWN REGISTRATION SYSTEM FOR BRITISH-BRED PUPPIES

Following a series of recent meetings with the Greyhound Stud Book and the National Coursing Club, the Greyhound Board of Britain (GBGB) is today announcing that it is developing its own registration system for British-bred greyhounds.

Commenting on this decision, GBGB Chief Executive, Mark Bird, said:

“We met with the Stud Book yesterday and outlined the continued problems people were experiencing with receiving registration documentation and the general lack of communication from the Stud Book.

“Liz Mort (Keeper of the Stud Book) has assured us that she is now able to clear the backlog of work that she has in terms of registrations, transfers, and earmarking, which will be good news to those who are awaiting a response.

“However, whilst we welcome this commitment, due to the ongoing complaints and frustrations that have been made to us, and the associated welfare issues and costs to those involved with British breeding, the GBGB Board has decided that we will set up our own registration system to allow people the choice to continue to go through the Stud Book, or to come directly to the GBGB.

“By bringing registrations in-house, we aim to streamline the process and ensure that we can get puppies ready to race in a timely manner. It will also allow us greater oversight on the early months of our racing greyhounds’ lives, which will have a positive impact not only on welfare but on our ability to promote British breeding.

“We will still need some time to set up the right paperwork to enable us to record all the necessary details and I would ask owners, breeders, and trainers to bear with us. We will update people as soon as we can. In the meantime, we ask people to continue to contact the Stud Book.”

GBGB Owners Practitioner, Tony Brealey, who was also present at the meeting, said:

“I’ve received more communication on the subject of pup registration than any other subject from owners, so I’m pleased that Liz committed to being up to date quickly. Owners have been struggling for months; it’s been a difficult time, and we need to support owners in being able to process registration quickly.

“The revised system of being able to register pups with the GBGB is the way forward and will also help with the digitization drive, allowing at some point in the future to do this all online. Hopefully, this will help us to promote British breeding by taking away a barrier.”

GBGB VAN INSPECTIONS

Regular, random van inspections are carried out by GBGB Stipendiary Stewards and Regional Regulatory Vets (RRVs). Their purpose is to check compliance with Appendix II of the Rules of Racing: **Guidelines for Transportation of Greyhounds**. During these inspections, GBGB personnel will be looking that the following requirements are being met so that every greyhound is transported safely and comfortably:

Transport cages

- Each greyhound must be held in a separate cage that is secured to the vehicle.
- Cages must be designed, constructed, maintained and operated to avoid injury and ensure safety (see the Rules of Racing for minimum dimensions). All cages must be kept clean, regularly disinfected and in good condition.
- Each van must also include a cage, or two cages with a removable separator, to allow secure and comfortable transport for large greyhounds or in the event of slight injury.

Temperature control and air conditioning

- All vans must have air conditioning and always be maintained between 10°C – 26°C during transport.
- A remote monitoring device must display the temperature in the greyhound cabin and be visible from the driver's seat.

Fire extinguishers

- All vans must be equipped with a functioning and regularly serviced fire extinguisher.

Collars, leads and muzzles

- A lead, collar and muzzle must be carried for each greyhound being transported to facilitate the safe removal and restraint of greyhounds in an emergency.

Water, food and emptying

- Fresh water must be carried on every journey and there must be enough water bowls for every greyhound being transported. For any journey over four hours there must be adequate rest stops for watering, feeding (as applicable) and emptying. Water must be provided every four hours or frequently enough to prevent dehydration. Emptying must be provided every eight hours and food every 24 hours.

Animal Transporter Authorisation Certificate Number

You will be required to obtain Animal Transporter Authorisation if you transport greyhounds on journeys exceeding 65km (40 miles). For more information, please consult the GOV.UK website: www.gov.uk/guidance/transporting-animals-in-great-britain#transporter-authorisation.

Non-compliance

If your van does not comply with one or more of the above requirements, you will be issued with an Improvement Notice that will detail the necessary changes and will give a timeframe in which they will need to be rectified. During this time, if the vehicle is deemed unfit for use, you will be prohibited from using it to transport greyhounds until the issue has been resolved.

If you have any questions regarding the suitability of your vehicle, please contact your Area Stipendiary Steward or RRV for advice.
