**UPCOMING GBGB TRAINER WEBINAR:
‘GREYHOUND TRACKS AND THE SCIENCE BEHIND SAND CASTLES’.**

GBGB is pleased to announce that Dr. Richard Payne will be delivering an online talk for GBGB licensees titled: “**Greyhound tracks and the science behind sand castles**”.

During the session, Dr. Payne will use his trademark engaging and accessible style to explain the physics of how greyhounds run and the unique anatomy and locomotion of the breed. He will also look at the science behind the racing surface and how it impacts greyhound biomechanics.

The webinar will be held on **Thursday, October 23, 2025**, at **14:00** via Microsoft Teams.

The talk will be followed by a Q&A session.

To register for the event, please contact Meriel France at **meriel.france@gbgb.org.uk**

Dr. Payne is an Associate Professor of Veterinary Anatomy at the University of Nottingham and a scientific and veterinary advisor to the GBGB. He also oversees GBGB’s ongoing Disease Surveillance and Monitoring Programme (DSMP), a national survey that monitors and collects information about sudden deaths and diseases in the racing greyhound population.

License holders who attend the session live will be awarded Continuing Professional Development (CPD) points. For those who cannot attend live, the session will be recorded and made available via the GBGB Trainers’ Portal.

INSIDE THE INDUSTRY

- HOW THE NEW AUTOMATED GBGB TRAP DRAW SYSTEM WORKS

Following the successful rollout of its new Racing Office System (ROS), the Greyhound Board of Great Britain announced that all stadia can now conduct automated trap draws.

Part of the wider Digital Transformation Programme aimed at improving the efficiency and integrity of racing processes, the automated trap draw system allows the random and rule-compliant assignment of greyhounds to traps with no human input or interference.

Replacing the previously used 'token draw method' which involved the allocation of a numbered token to each participating greyhound, the automated system uses a cryptographically secure random generator to guarantee no predictable ordering and avoid bias

How It Works

1. Seeding Rules

Each greyhound is classified into a seeding category:

- **R** – Railers, prefer lower-numbered traps.
- **M** – centre preference.
- **W** – Wide runners, prefer higher-numbered traps.

2. Vacant Traps

- Traps without runners are marked as vacant.
- Vacant traps are **never assigned** to runners.

3. Random Shuffle

- Before assignment, all runners are shuffled using a **secure random generator (Cryptographic RNG)**.
- This guarantees no predictable ordering and avoids bias.

4. Trap Allocation

- Within each group, the system looks at which traps are available and valid:
 - Railers are given the lowest-numbered traps available.
 - Middles take traps in the middle.
 - Wides take the highest-numbered traps.
- If more than one runner could fit into the same category, the system randomly assigns them to traps within that category.

Once draw happens, it's directly imported to race and all ability to change trap or delete them are locked. Only, withdrawal is allowed. Racing Office will only be able to draw each race once, with GBGB continuing to complete redraws when required. Transparency is also key when changes are being implemented and therefore all draws completed in this way will be flagged with a notice in the race card.

Concerned because your dog draws an unfavourable trap more than once? This is because traps are assigned according to seeding rules, **not all trap positions are equally likely for every dog**: A railer will never be assigned to trap six and a wide will never be assigned to trap 1 hence reducing the number of possible outcomes compared to a completely unconstrained random draw. For example: if there are 4 Railers and 2 other dogs, the Railers can only occupy the first 4 traps. The chance of a particular Railer ending up in Trap 1 is 1 in 4, not 1 in 6.

However, even though probabilities are constrained, **you can still see streaks** (like the same dog drawing Trap 4 multiple times). This is perfectly consistent with randomness — constrained probabilities make some sequences more likely, but all outcomes that follow the rules are possible.

DISCIPLINARY COMMITTEE INQUIRIES

The Disciplinary Committee was in attendance on 18 September 2025.

Those present: -

Ms B Hone (in the chair)

Mr R O'Donovan

Mr P O'Dowd

1 **Oxford Stadium: Professional Trainer David Jeans (MAGICAL RICHIE)**

Rules 174(i)(b), 217, 152(i)

Professional Trainer David Jeans was found to be in breach of the GBGB Rules of Racing after his Greyhound MAGICAL RICHIE, had a urine sample taken on 11 August 2023 at Oxford stadium and there was a positive test for benzoylecgonine and m- hydroxybenzoylecgonine ('the substance') which are metabolites of cocaine. The Disciplinary Committee found that the substance got into the greyhound outside of the course of normal feeding and that the most likely explanation was that the greyhound had ingested the substance at some point prior to the race, but that the substance was not administered to the Greyhound.

Mr Jeans was in attendance at the hearing and cooperated throughout. Also, at the hearing was Professor Tim Morris, and stipendiary steward Mr Peter Broadbridge.

A local inquiry had occurred at the track on 3 October 2023. In attendance was Simon Pearson the Racing Manager, Meriel France the Area Stipendiary Steward and Mr Jeans.

The test occurred before a race on 11 August 2023. The race was an open 650 metre flat race due off at 19:44. The test of the sample occurred on 14 August 2023. There were delays in hearing this matter

which are not relevant to these proceedings. At the local inquiry Mr Jeans accepted, as he did at this hearing, that the substance was present in the Greyhound.

At the hearing Mr Weston presented the case for GBGB. He called Professor Tim Morris an independent expert who had reviewed the analysis of the sample and who had given a report. Professor Morris's evidence was that cocaine must have been ingested more than 3 to 5 hours before the Greyhound got to the track as the cocaine had fully converted to metabolites. For cocaine to have any effect on the way the Greyhound raced the Cocaine would have to be given at a shorter period of time. Therefore, it was his evidence that the Cocaine was not given to affect the performance of the Greyhound. The test occurred at 18:30 and the race was due to happen at 19:44.

The Committee then heard from Mr Jeans. Mr Jeans stated that he did not know how the Greyhound had got the substance. He stated he had carried out an investigation. He had three runners that day and they were taken to the stadium by his kennel hand Jodie. He trusted Jodie completely and she is a vet nurse as well as a kennel hand. He was asked how he conveyed the Greyhounds to the stadium and stated he used a van that he, Jodie, and another man who has now left had access to. He stated that the only possible contact the Greyhound had with the public was on a public bridgeway that they crossed for exercise but though it was unlikely that MAGICAL RICHIE had found anything there. He stated that he is very careful with drinking tea and coffee near the Greyhounds and that he takes clear measures to stop the Greyhounds getting any substances.

The Disciplinary Committee considered the evidence and found that the cocaine must have entered the Greyhound outside the normal course of feeding but that it had not been deliberately administered to the Greyhound. The Committee found that Mr Jeans had been a credible witness and accepted the evidence of Professor Morris. The Committee therefore found Rule 174(i)(b), Rule 217 and Rule 152(i) proven. The Committee found the other charges disproven.

The Disciplinary Committee then delivered their findings. They then heard submissions on sanction. They heard that Mr Jeans had a good reputation as a trainer and kept his Greyhounds well. The Committee heard that he had two prior matters which were connected to feeding, in 2019 and 2022. The Committee retired to consider the sanction. In the circumstances the Committee found that a reprimand and a fine of £400 was proportionate given the actions of Mr Jeans.

2 **Crayford Racecourse: Professional Trainer Ricky Holloway (DISTANT GEORGE)**

Rules 174(i)(b), 217, 152(i)

Professional Trainer Ricky Holloway was found to be in breach of the GBGB Rules of Racing after his greyhound, DISTANT GEORGE, had a urine sample taken on 16 December 2023 at Crayford Racecourse, and it tested positive for carprofen. The Disciplinary Committee has found that the carprofen ('the substance') got into the greyhound outside of the course of its normal feeding, and that the most likely explanation was that the greyhound ate a female greyhound's (YANKEE MOLLY's) food, which contained a pill containing painkiller.

A local inquiry was held at Crayford Racecourse on 12 March 2024. Mr Holloway was present as was the racing manager Mr Rayment and the Senior Stipendiary Steward Mr Gibson. Mr Holloway accepted the positive test. The positive test occurred before a 380meter H1 Hurdle Graded Race. The positive analysis occurred on 8 January 2024.

Mr Holloway was in attendance at the hearing and cooperated throughout. Also at the hearing was Professor Tim Morris, and stipendiary steward Mr Peter Broadbridge. At the hearing in front of the Disciplinary Committee Mr Weston presented the case. He called Professor Tim Morris who had reviewed the analysis of the sample and prepared a witness statement. Professor Morris gave evidence and stated that the most likely reason that the substance was in the Greyhound was that it had eaten another Greyhound's food which contained the substance. Professor Morris stated that the test fitted that explanation.

Mr Holloway gave evidence. He accepted the positive result. He explained that DISTANT GEORGE was always kennelled with YANKEE MOLLY, a female greyhound. YANKEE MOLLY was on the painkiller after an injury. Though the greyhounds are fed with different coloured bowls he thought that an inexperienced kennel hand who had now left him, had overseen the feeding and not paid enough attention. This explanation was supported by the feed records of YANKEE MOLLY which showed she was receiving the medication at the time. When asked why the greyhounds were together, Mr Holloway stated that DISTANT GEORGE would whine and bark if they were kept apart, so he put them both in the recovery kennel to stop this.

The Committee retired to consider the charges and found that the substance must have entered the Greyhound outside the normal course of feeding but that it had not been deliberately admitted to the Greyhound. The Committee found that Mr Holloway had been a credible witness and accepted the evidence of Professor Morris. The Committee therefore found Rule 174(i)(b), Rule 217 and Rule 152(i) proven. The Committee found the other charges disproven.

The Committee came back and delivered their findings. They then considered sanction. The Committee found that given Mr Holloway has a high standard of welfare at his kennels and has taken action to make sure this does not happen again and a reprimand and a £200 fine was appropriate.

3 Romford Stadium: Professional Trainer David Mullins

(LINDAS YES BABY & IZZYS TENPIN)

Rules 174(i)(b), 217, 152(i)

Overview

Mr David Mullins, a professional Greyhound trainer was in front of the committee as substances had been found in two of his Greyhounds, LINDAS YES BABY and IZZYS TENPIN. The Committee decided to hear the case in relation to each Greyhound separately. They then returned to consider whether the charges against either Greyhound was made out. They would then deliver their findings and then consider sanction. They found that both Greyhounds had tested positive for banned substances, but that LINDAS YES BABY had received the source of the test through the normal course of feeding, whereas IZZYS TENPIN had received the source outside the normal course of feeding. Charges were only found proven in relation to IZZYS TENPIN.

LINDAS YES BABY

LINDAS YES BABY tested positive for pentobarbital after being tested before a 400 metre race at Romford stadium on 22 February 2025. The local inquiry took place on 5 May 2025. Mr Mullins was present along with Mr Arkell the Racing Manager and Carly Philpott the area stipendiary steward.

Mr Mullins was in attendance at the hearing and cooperated throughout. Also at the hearing was Professor Tim Morris, Mark Arkell Racing Manager at Romford and Stipendiary Steward Peter Broadbridge.

At the hearing Mr Weston presented the case for GBGB. He called Professor Tim Morris who had given a witness statement in this case. Professor Morris went through his evidence. He was asked about the evidence Mr Mullins had put in about the feed which had been given to the Greyhound. Professors Morris's evidence was that it seemed the substance had got into the Greyhound through feed as pentobarbital was a substance used to put animals to sleep and that it should not have been in the feed that Mr Mullins fed to his greyhound

Mr Mullins gave evidence. He stated that the feed he gave his greyhound should not have contained any medical substance. He went through his feed receipts and how he had changed his feeding practices to make sure that there was no trace of medical substances in his feed.

IZZYS TENPIN

IZZYS TENPIN had tested positive for norethisterone, after a sample was taken on 3 March 2025 at Nottingham Stadium. The test was taken before a 500metre open race which the Greyhound competed in. A local inquiry took place on 5 May 2025. Mr Mullins was present along with the Area Stipendiary Steward Carly Philpott. Mr Mullins accepted the positive sample.

At the hearing Mr Weston presented the case for GBGB. He called Professor Tim Morris who had given a witness statement in this case. Professor Morris went through his evidence. Professor Morris stated that norethisterone, was a substance given to female greyhounds to suppress oestrus. Mr Mullins was asked about the explanation that the Greyhound had eaten another dog's food or licked up their vomit. Professor Morris said both were likely.

Mr Mullins gave evidence. He went through how his Greyhounds were fed. He stated that male and female greyhounds had different bowls. He stated that his only explanation was that IZZYS TENPIN must have licked up the vomit of a Greyhound who was on the pill or eaten their food, but he did not think they would have the opportunity to do the latter. He stated that he has taken steps to tighten up the practices at his kennel.

Findings of the Committee

In relation LINDAS YES BABY, the Committee accepted the evidence of Mr Mullins, and found that most likely source of the substance was that the Greyhound had been fed meat which was labelled in a way that it purported not to come from a source which had been killed using medication, but in fact had been, and that is how the substance got into the Greyhound. On that basis where the Trainer thought they were feeding appropriate feed to the Greyhound the Committee found that no charges were proven as the Trainer had taken all reasonable steps to feed the Greyhound appropriate feed.

In relation to IZZYS TENPIN the Committee found that the most likely source of the substance was vomit from another greyhound who was on the medication, and that the substance was not imbibed in the normal course of feeding. The Committee therefore found Rule 174(i)(b), Rule 217 and Rule 152(i) proven. The Committee found the other charges disproven.

Sanction

After delivering the finding of the Committee, the Committee heard that Mr Mullins had a number of findings against him when his dogs had eaten prohibited substances. The

Committee retired to consider the appropriate sanction on the charges which had been found proven. The Committee found that a caution and £200 fine was appropriate.
