## RACING ROUND UP

All the big race action from the last 14 days.

### Droopys Typical secure a first Category One title in Gymcrack final

ANDREW MASCARENHAS, director of racing at Sheffield's Owlerton Stadium, said the focus was very much on the Time 3 Steps to Victory in June after another superb running of the Gymcrack which concluded with an "unexpected result".

### Rapido Benny secures Hove Puppy Cup success for Holloway

RAPIDO BENNY heads into the heats of the English Derby this weekend as winner of the Hove Puppy Cup for trainer Ricky Holloway.

### Surprise Brighton Belle victory for 16-1 shot Blackstone Opera

BLACKSTONE OPERA landed Seamus Cahill a second Brighton Belle title when landing a 16-1 surprise in the Coral-backed £10,000 Category One at Hove – on a night the track's racing manager Rob Abrey said had everything.

**Record Breaker Ballymac Duffle  
standout performer as the  
2026 Star Sports & Orchestrate Ltd.  
English Greyhound Derby gets underway**

TOWCESTER is preparing to stage the second round of the 2026 Star Sports & Orchestrate Ltd. English Greyhound Derby across two nights on Friday and Saturday after a first round which saw the track record go for the 500m trip.

**LANDMARK GENOMICS STUDY OF INBREEDING TO STRENGTHEN  
WELFARE-LED GREYHOUND BREEDING**

A major new genomics research study has provided crucial new knowledge that will help to safeguard the long-term health and welfare of racing greyhounds and support sustainable breeding.

The research published today in the peer-reviewed journal *Proceedings of the Royal Society B: Biological Sciences* presents the most comprehensive population genomic analysis to date of racing greyhounds in Great Britain. The work provides crucial evidence to help safeguard long-term health and welfare while supporting sustainable performance.

The research, led by scientists at the Irish genomics research company, Zinto, was commissioned by the regulator of licensed racing, the Greyhound Board of Great Britain (GBGB) as part of its long-term welfare strategy. The study entitled “Genomic Diversity and Selection in the Racing Greyhound of Great Britain” examined genetic diversity, inbreeding, and selection signals in racing greyhounds using high-density genomic data.

The research shows that greyhounds exhibit substantially higher levels of inbreeding than most other dog breeds, driven by intense selection for racing performance. The study also identified genes associated with key breed-defining traits, including visual acuity, locomotion, musculoskeletal function, cardiovascular biology, and neurological adaptability.

Without active management, inbreeding can increase the risk of inherited health problems, reduce resilience, and undermine long-term population sustainability.

The authors note that, importantly, the knowledge this study provides about genes associated with key breed-defining traits can be used proactively to maintain a healthy genetic balance, strengthen long-term population resilience, and reduce the risk of inherited health issues. Modern genomic tools offer a powerful means of safeguarding genetic diversity while preserving the exceptional traits that define the racing greyhound.

Emmeline Hill, Professor in Equine Genomics at University College Dublin, CSO of Zinto, and lead scientist of the research paper said:

*“These genomic insights give us the clearest picture yet of the racing greyhound population in Great Britain. High inbreeding is a concern because it can increase the risk of negative health impacts. The key welfare opportunity is to now use modern genomic tools to manage diversity judiciously, preserving what makes greyhounds remarkable while reducing the likelihood of inadvertently concentrating harmful variation.*

*“Our commitment at Zinto is to apply the latest science to develop practical tools that support healthier breeding and better lifetime outcomes for greyhounds, and other animals bred for sport”, continued Hill.*

Mark Bird, CEO of GBGB, said:

*“As the regulator of licensed racing, upholding the very highest standards of animal welfare is a priority for us, which is why it was so important for us to commission this research. All of our welfare policies and practices are based on robust scientific evidence and the findings from this research will be used to inform our guidance for breeders as well as our Rules of Racing so that we can continue to safeguard the health and wellbeing of all our greyhounds.”*

Madeleine Campbell, Professor of Veterinary Ethics at University of Nottingham, Independent Director of GBGB, and co-author of the research paper said:

*“This novel study provides a scientific evidence-base for welfare-oriented breeding decisions and is an important step in optimising the welfare of racing greyhounds across their lifetimes”.*

## Complaints

The Greyhound Board of Great Britain will receive complaints in confidence from anyone concerned about a possible breach of the Rules of Racing.

Send complaints to [webform.clue.co.uk/GBGBExternal](http://webform.clue.co.uk/GBGBExternal) or call the GBGB office on **020 7822 0900**. Alternatively, write to:

The Greyhound Board of Great Britain Ltd,  
3rd Floor, 1 Knightrider Court, London EC4V 5BJ

## Welfare Hotline

If you are concerned about the welfare of any registered racing greyhounds, please call our confidential Welfare Hotline on **020 7822 0917**. The line is available 24 hours a day, seven days a week.

You will be prompted to leave a voicemail message giving as much information as you can so that our team can investigate your concerns fully and ensure appropriate action is taken.

The Disciplinary Committee wish to advise those appearing before them as “the affected person” that the Disciplinary Committee has the discretion to take account of any previous breaches of the rule(s) of racing which they consider are relevant to a case being heard before them irrespective of the date of commission of the breach.

## DISCIPLINARY COMMITTEE INQUIRIES

The Disciplinary Committee was in attendance on 14 April 2026.

Those present: -

Dr J Hunt (in the chair)  
Mr D Levy  
Mr P O’Dowd

### 1 **Sunderland Stadium: Professional Trainer Mr Robert Thompson (COME ON GINGER)**

The Disciplinary Committee convened online to consider the report of the local inquiry held on 2nd September 2025 into the positive analysis of a pre-race urine sample taken from the greyhound COME ON GINGER at Sunderland Greyhound Stadium on 28th May 2025 which identified the presence of benzoylecgonine and m-hydroxycocaine, allegedly breaching Rules 174(i)(a) or (b), 217, and 152(i) and/or (ii), of the GBGB Rules of Racing.

COME ON GINGER competed in race four, a 450m handicap race, on 28th May 2025 and finished sixth by eight lengths. A pre-race urine sample was collected and the subsequent LGC certificate of analysis confirmed the presence of benzoylecgonine and m-hydroxycocaine, which are metabolites of cocaine.

At the local inquiry, Mr Thompson stated he had “no idea” how the substance came to be in the greyhound. He stated that at the time of the positive sample, only he and his kennelhand were working in the kennels and, to the best of his knowledge, his kennelhand is not a drug user. Mr Thompson expressed that he is “very much against the use of any drugs”.

Environmental swabs were taken from various areas within the kennels on 19th June 2025, analysis of which returned no confirmed screening findings. A hair sample was taken from COME ON GINGER on 20th August 2025 which identified no prohibited substances.

Professor Morris told the committee that he considered the laboratory analysis to be a true and proper finding, indicating that cocaine had passed through the dog. He explained that cocaine is a prohibited substance which, as a nervous system stimulant, could affect performance and prejudice a greyhound’s well-being. Professor Morris offered his opinion that the absence of findings in the hair sample, coupled with the urine analysis, likely indicated a low, non-recurring, and transient exposure. Based on the analysis, it was likely that exposure occurred several days prior to the sample being taken. Professor Morris noted that the source could not be identified from the evidence, but recognised potential routes such as environmental contamination at the track, during exercise on a public bridle path, or within the kennels. Based on photographs of the kennels, Professor Morris provided advice on improving hygiene to minimise future risks, such as ensuring surfaces are sealed and easy to clean, keeping items off the floor, avoiding clutter on worktops, and adopting practices similar to those in basic food hygiene to prevent cross-contamination.

During his evidence, Mr Thompson reiterated that he could not understand how the substance got into the greyhound’s system. He

explained the dog’s exercise routine on the premises and a public bridle path. He informed the committee that after the positive finding, he and his kennelhand had conducted a thorough clean of the kennels and van, washing carpets, leads, jackets, and muzzles. He also confirmed that new benchtops and a new sink were being installed in the kennel kitchen area. Mr Thompson raised the possibility of cross-contamination from various sources, including during the pre-race veterinary check at the track or from public access to the unfenced exercise paddock. The land on which the kennels are sited is rented, but Mr Thompson has discussed with the landlords the possibility of installing a fence between the exercise paddock and public bridlepath.

Based on the evidence presented, the Disciplinary Committee concluded that there was no evidence of deliberate administration or any attempt at doping. The source of the contamination remains unknown.

The Disciplinary Committee found Mr Thompson in breach of rules 174(i)(b), 217, and 152 (i) of the GBGB Rules of Racing. The committee did not find a breach of rule 174(i)(a) or 152(ii).

The Committee noted that Mr Thompson has held a licence for almost 20 years and has no previous adverse regulatory findings of a comparable nature. The kennels hosts a high proportion of retired dogs, and Mr Thompson’s kennelhand works elsewhere to assist in paying for neutering. The committee commended Mr Thompson’s efforts at replacing worn worktop surfaces and sinks, and encouraged him to work together

with the landlord to prevent contact between the dog exercise paddock and public bridleway.

Taking these factors into consideration, the Committee imposed a sanction of a reprimand and a fine of £400.

## 2 **Sheffield Stadium: Professional Trainer Mr Garry Hamilton**

The Disciplinary Committee convened to consider the report of the local inquiry held on 7th January 2026 into the positive analysis of a pre-race urine sample taken from the greyhound CARRICK FERGIE at Sheffield Stadium on 6th July 2025 which identified the presence of benzoyllecgonine and m-hydroxybenzoyllecgonine.

CARRICK FERGIE competed in the 660m Three Steps to Victory Category One final. The greyhound finished sixth, beaten by 22 lengths. A pre-race urine sample was taken from CARRICK FERGIE, analysis of which confirmed the presence of benzoyllecgonine and m-hydroxybenzoyllecgonine.

The Disciplinary Committee heard that at the local inquiry, Mr Hamilton stated he had no idea how the substances came to be found in CARRICK FERGIE. He denied administering any substance to the dog and confirmed that the only people involved with the greyhound were himself, and his staff.

Professor Tim Morris provided evidence that benzoyllecgonine and m-hydroxybenzoyllecgonine are metabolites of cocaine; cocaine is a substance which, due to its nature as a stimulant of the nervous system and negative effects on cardiovascular function, could affect performance or prejudice the well-being of greyhounds; the absence of cocaine in the sample suggests the exposure likely occurred several days previously, and not in the immediate pre-race period; and that, the robust chain of custody, for sample collection and analysis, made contamination throughout the process highly improbable.

Mr Hamilton stated, in his account to the Committee, that he was shocked by the positive result. He was aware that the greyhound would be tested, as it was a Category 1 final, and he had been in numerous Category 1 finals previously. Mr Hamilton initially believed the positive finding was orchestrated to remove him from the sport, as he received notification of it at the same time as a press article about his conviction for

cocaine supply. However, he stated that he had reconsidered this view. He reiterated that he would never administer such a substance to a dog. He speculated that a possible route of environmental contamination could have been members of the public touching the dog after a previous race at Sheffield. He stated that he has used cocaine in the past but not since he became a licensed trainer in 2019.

Based on the evidence presented, the Disciplinary Committee accepted the account of Mr Hamilton and concluded that the source of the positive sample remains undetermined, and there was no evidence to suggest the drug was administered in an attempt to affect performance.

The Disciplinary Committee found Mr Hamilton in breach of rules 174(i) (b), 217, and 152(i) of the GBGB Rules of Racing. Taking all factors into consideration, the Committee imposed a reprimand and a fine of £500.

The Disciplinary Committee also considered whether Mr Garry Hamilton had acted in a manner prejudicial to the integrity, proper conduct, or good reputation of greyhound racing, contrary to Rule 152(ii) of the GBGB Rules of Racing, in circumstances where he was convicted in the criminal courts, in July 2025, of offences relating to the supply of a controlled drug. Mr Hamilton's license had been temporarily suspended on 11 August 2025, by the then Director of Regulation, in connection with the criminal conviction.

The Disciplinary Committee heard that Mr Hamilton had pleaded guilty and was convicted in the Scottish criminal courts for being concerned in the supply of cocaine between 14th April 2020 and 10th September 2020. At the time of the offence, he was a GBGB licensed professional trainer. Press articles reported on the conviction and sentencing, linking his name with his role as a greyhound trainer.

Mr Hamilton stated, in his account to the Committee, that he became involved in the supply of cocaine due to being in a "financial hole" during the COVID pandemic. He expressed regret for his actions and acknowledged the negative impact on the sport's reputation. He disputed some details in the press articles but accepted that being convicted of supplying cocaine while being a licensed trainer was prejudicial to the integrity and good

reputation of greyhound racing. He expressed remorse and a desire to get his life back on track.

The Disciplinary Committee expressed the view that a criminal conviction of this type was incompatible with the integrity expected of licensed trainers, and found Mr Hamilton in breach of rule 152(ii) of the GBGB Rules of Racing. The Committee imposed a disqualification from holding any GBGB licence or operating in any licensed capacity, or being the registered owner of a greyhound for a period of twelve months from the date of the hearing.
