UPCOMING GBGB WEBINAR

Greyhound Dental Hygiene: An Approach to Care in a Kennel Environment

Wednesday 5 August 2026, 14:00 to 15:00

Join us for our next free webinar, led by GBGB Regional Regulatory Vet, Dr Lawrence Steed, on the topic of greyhound dental care.

Open to all GBGB licence holders, including kennelhands, this session will provide guidance on maintaining good dental health within a residential kennel environment. The webinar will explore the science behind dental disease in dogs and discuss common preventative measures, together with practical advice on how these can be implemented in a racing kennel setting.

Lawrence graduated from the University of Queensland in 2016 before working in a variety of small animal and mixed veterinary practices, including teaching hospitals. He joined the GBGB as Regional Regulatory Vet for the Southeast in 2024.

To register for your place, please email GBGB Education Manager, Meriel France, at [**Meriel.france@gbgb.org.uk**](mailto:Meriel.france@gbgb.org.uk)

SPECIAL AUTHORITY TO RACE IN IRELAND (RULE 84) - REMINDER

Any licenced Trainer intending to race or trial a GBGB registered greyhound in Ireland is reminded that they must hold the appropriate Special Authority, issued by the GBGB, before their entries can be accepted at any Irish Racecourse, as per Rule 84 of the GBGB Rules of Racing.

In order to gain the Special Authority needed the Trainer must complete a **Rule 84 – Greyhounds Competing In Ireland** form and submit this to the Registry Department via email to registry@gbgb.org.uk

Trainers must ensure that they are in possession of the following documentation for travel:

- The Greyhound's Identity Card
- An EU Pet Passport issued in an EU country or Northern Ireland **OR** an Animal Health Certificate (<https://www.gov.uk/taking-your-pet-abroad/getting-an-animal-health-certificate>)
- A valid Rabies vaccination – administered at least 21 days prior to departure
- Treatment against tapeworm carried out by a vet with a record of the treatment in the Pet Passport or the Animal Health Certificate (this is required each time you intend travelling to Ireland). The treatment must contain praziquantel and must be administered by a vet no less than 24 hours (1 day) and no more than 120 hours (5 days) before the scheduled arrival time of the dog in Ireland. Your dog may be refused entry into Ireland or quarantined under official control if it has not been correctly treated against tapeworm before entry into Ireland
- GBGB Licence Card for the Trainer and any Kennelhands travelling with them

For further information on Travel Customs and requirements please refer to <https://www.grireland.ie/globalassets/resource-centre/documents/requirements-for-transporting-greyhounds-to-gb-jan-2021-v2.pdf>

If the Trainer is planning on the greyhound staying in Ireland and not travelling over and back, please note that kennel accommodation can only be provided by a licenced Irish Trainer. Either the GBGB Trainer or their Representative must also be on the premises.

If you have any further questions or need assistance with the process please contact the Registry Department on **0207 822 0900 (option 4)** or at registry@gbgb.org.uk

TRANSPORTATION REQUIREMENTS AND TRAINERS' ASSISTANCE FUND (TAF) FUNDING

GBGB would like to remind all trainers and racecourses that vehicles used to transport racing greyhounds must be air-conditioned and capable of maintaining the rear cargo area at a temperature between 10°C and 26°C.

This area must be at the correct ambient temperature before and during loading, both to and from the racecourse.

Air conditioning is usually achieved using vapour-compression refrigeration. The use of motorised fans does not constitute air conditioning.

VEHICLE REQUIREMENTS

As a minimum, the following vehicle requirements must be complied with:

- All vehicles used to transport racing greyhounds shall have the bulkhead section removed unless air conditioning is fed directly to the cargo area.
- A remote monitoring device must display the temperature in the cargo area and be visible from the driver's seat. If the temperature rises above 26°C, greyhounds must be regularly examined for signs of distress and removed from the vehicle to cool down if necessary.
- Greyhounds should have free access to water until loaded for a journey. No food should be given for 2 hours before travelling and an opportunity to empty should be provided immediately before loading.
- It is recommended that one lead and collar be carried for each greyhound being transported in a vehicle. This will facilitate the safe removal and restraint of greyhounds in an emergency.
- A sufficient amount of water and bowls shall always be carried in case of emergency or if a water stop is required.
- Travel cages should be designed, constructed, maintained and operated to ensure the safety of greyhounds. All such cages should be securely bolted to the transport vehicle. All cages should be built of impervious materials, with mesh material panels to provide maximum ventilation and include a carpeted or cushioned non-slip floor surface. Cages must be kept clean, regularly disinfected and in good condition.

See **Appendix II** of the GBGB Rules of Racing for further information.

VEHICLE INSULATION

It is strongly recommended that vehicles are also insulated. Heat transfer caused by solar radiation, conduction and convection can increase the temperature within a vehicle, making it more difficult to maintain a suitable ambient temperature.

To mitigate against the effects of heat transfer, vehicles will benefit from the installation of reflective panels on windows (where applicable) and from insulating the vehicle walls, floor, and ceiling with a suitable insulating material such as natural wool or polyisocyanurate foam board covered by a plywood lining or equivalent.

When an insulated van is combined with air conditioning, it provides the best means of reducing heat transfer and maintaining the cargo area at a suitable temperature. In addition, an insulated vehicle will also stay warmer during the colder months by reducing heat loss.

ENSURING COMPLIANCE

GBGB's Stipendiary Stewards and Regional Regulatory Vets (RRVs) regularly inspect vehicles at racecourses and residential kennels. These inspections will continue throughout the year to ensure that all vehicles remain fully compliant.

If a vehicle used for greyhound transportation does not meet the required standards, the greyhounds will be immediately withdrawn from racing and disciplinary action may be considered.

If a vehicle is found to be non-compliant at a racecourse, it must not be used to transport greyhounds back to the residential kennel. Alternative transport arrangements must be made. The vehicle must not be used for the transportation of greyhounds until it has been inspected and approved for use.

If you have any concerns regarding the suitability of your vehicle, please get in touch with your GBGB Stipendiary Steward or RRV.

TAF FUNDING FOR VEHICLES

To assist trainers with the costs of meeting these vehicle requirements, GBGB will provide a one-off grant of up to £300 through the Trainer's Assistance Fund (TAF), towards the cost of servicing, repairing, or modifying the vehicle's air-conditioning, or towards the cost of installing suitable vehicle insulation.

APPLICATION PROCESS

To apply for vehicle funding via the TAF, please submit your paid invoice, vehicle registration and vehicle details on a completed TAF Grant Application Form. To receive an application form, contact your Stipendiary Steward or email **grants@gbgb.org.uk**

Completed applications should be emailed to **grants@gbgb.org.uk**

Once received, your application will be checked for completeness, and the TAF Committee may request a report on the completed work from your Stipendiary Steward.

UPCOMING RULE CHANGE: LEPTOSPIROSIS VACCINATIONS

GBGB wishes to remind stakeholders that, from 1 January 2027, proof of a correctly completed Leptospirosis 4 (L4) vaccination course will be required at the point of registration. GBGB's minimum vaccination requirements (Rule 60) will be amended to reflect this change.

Ahead of the implementation date, all greyhounds currently vaccinated with L2 as part of their primary vaccination course and annual booster programme should begin transitioning to L4 vaccination.

To avoid delays when registering greyhounds, trainers purchasing greyhounds from the Republic of Ireland should ensure that their rabies, core (DHP/DHPPI) and L4 vaccination courses have both been fully completed and are up to date before travel. Trainers should obtain evidence, signed by the attending vet, of the greyhound's full vaccination history.

Greyhounds purchased from Northern Ireland do not require a Pet Passport but do require proof of up-to-date core vaccinations and up-to-date leptospirosis vaccination (including proof of a completed initial leptospirosis vaccination course if an annual leptospirosis booster has been evidenced).

Transitioning racing greyhounds to L4 vaccination

To achieve effective L4 immunity, a primary vaccination course requires two L4 doses administered within the interval specified by the specific vaccine manufacturer (typically three to four weeks apart), followed by an annual L4 booster vaccination.

As active GBGB registered racing greyhounds will already have L2 protection as a minimum, their first L4 dose can be administered when their annual leptospirosis booster is due. The second L4 dose should then be given within the interval recommended by the attending veterinary surgeon and in accordance with the vaccine manufacturer's guidelines.

For further information regarding registration requirements, contact the GBGB Registry Department on 020 7822 0900 (option 4) or email registry@gbgb.org.uk
